American Railroad Journal.

New York, Saturday, January 5, 1867.

Past, Present and Future.

The year now opening succeeds a year of general prosperity and progress. Just emerged from the most desolating war recorded in history, we have risen like giants to the task of obliterating the ruins made by the contending forces and rebuilding our fortunes; and well it has been so far accomplished. No difficulty has been experienced in replacing the hundreds of thousands of disbanded warriors, and in re-organizing labor whether North or South. The freedmen of the latter section have found their condition improved, and in returning to the fields and workshops feel that their better destiny is at hand. With exceptions, this is general, and augurs well for the future. In this section, however, there is still much to replace and repair; but nevertheless on every side we find new enterprizes organized, and a determination not to stand still the prevailing feeling. In railroad matters the utmost activity has been shown, and already nearly all the great roads are reconstructed and in operation, carrying to market the rich products of the soil and the staples of Southern industry.

The Great Interior and the furthest West, are growing in population, wealth and power, more rapidly than ever before. Their resources of every kind are being developed with the utmost rapidity, and civilization has been carried to localities still possessed by the Indian. With the railroad thrown across the western prairies, first to the Mississippi and next to the Missouri, and then for hundreds of miles into the wilderness, and with other railroads from the Pacific to the heights of and beyond the Sierra Nevada, the process of settlement must continue, and the filling up of the continent be accomplished in a comparatively brief space of time. What a future this grand march of man's intellect and power opens up. Our glorious republic, with these great highways finished, will become the stepping stone of nations, and before long the swarthy Asiatic and the fair European will meet on our soil, each pursuing his way, carrying to and fro the commodities of the opposite nations. Well then may we be satisfied with the progress we have made, and, knowing that in less than a thousand days the trans-continental line of travel will be completed, take heart for the future.

Not only in railroads, however, has there been progress, but the telegraph has in the meanwhile been extended with wonderful skill and perseverance. San Francisco has for some time been in instant communication with the Atlantic cities. But it was next the towns of Oregon and then of British Columbia that were brought within speaking distance, and before the current year expires the great city of the Czar, (St. Petersburg,) thousand of miles away, will hold correspondence with the city of the President.

Thus have time and space been annihilated in the service of commerce and man's convenience. The steamship is also an agent not to be overlooked. It has already become the general carrier on the seas, the lakes, the rivers, and even on the canals which cleave the interior. During the past year lines have been organized to China and Japan, starting from San Francisco. We have also our own South American lines running from New York to Brazil, and the West Indies. Other like lines are being planned, and will no doubt be carried to successful operation, to compete with the formost nations of the earth in bringing wealth to our hands. Recognizing the fact that all this progress has been made in a very few years, and also the power of steam and electricity to accomplish all that man can desire or want for his grandest purposes, we can but believe that he will not fail in his destiny, but accomplish in another very short time more than the most sanguine dare as yet imagine.

Our annual report of the railroads now in operation and being constructed, (which will be found in this number of the JOURNAL,) measures our present position in the railroad world. It shows also the progress we have made from year to year, beginning with 1828, when we had only three miles of railroad within our bounds, and ending with the present when we can sum up a total of not far from 40,000 miles. Most of this has been accomplished within the period ascertained to be the average of a generation. We have at least a mile of railroad for every 1,000 inhabitants of the Union. England has not more than half this estimate, but of course the mileage to surface is much larger there than here—a defect which time will remedy.

With these few remarks we enter upon another year of labor, to be directed hereafter, as hitherto, to the fostering of all legitimate and useful enterprises.

To Contractors.

Proposals are invited for the graduation and masonry of over seventy miles, in mile sections, of the Louisville and Cincinnati Branch of the Louisville and Lexington and Lexington and Frankfort Railroads. Payments for the work done will be made monthly in cash, with the usual reservation. The time for receiving bids is limited to the 31st inst. Profiles will be ready for examination on and after the 10th. Address I. M. ST. JOHN, Chief Engineer, Louisville, Ky. We have on our table a copy of the Report of the surveys and estimates of this road, together with a copy of the Act authorizing its construction, which can be examined by contractors should they desire to do so.

Railroad and Steamboat Accidents.

The total number of casualties by Railroad Accidents in 1866, was 722; of which 115 resulted in death, and 607 only in wounds. In 1865 the number of casualties was 1,762, viz: killed, 335; wounded, 1,427—a decrease in 1866, of: casualties, 1,040; deaths, 220; wounded, 820. These figures do not include accidents where no

lives were lost, accidents to individuals which were caused by their own carelessness or design, or deaths or injuries resulting from the recklessness of persons in crossing or standing upon railroad tracks where trains were in motion.

The total number of casualties by Steamboat Accidents in 1866, was 789; of which 633 resulted in death, and 156 in wounds. In 1865 the number of casualties was 2,053; of which 1,788 resulted in death, and 265 in wounds—a decrease in 1866 of: casualties, 1,264; killed, 1,155; wounded, 109.

The following table exhibits the number of Railroad Accidents, with the number of persons killed and injured during the past fourteen years:

	Accidents.	Killed.	Wounded.
1853	138	234	496
1854	193	186	589
1855	142	110	539
1856	143	105	629
1857	126	130	536
1858	82	119	417
1859	79	129	411
1860	74	57	515
1861	63	101	459
1862	99	264	877
1863	89	264	671
1864	140	404	1,486
1865	183	335	1,427
1866	85	115	607
Totals	1,636	2,553	9,459

The following table shows the number of Steamboat Accidents, and the killed and wounded during the past fourteen years:

	Accidents.	Killed.	Wounded.
1853	31	319	158
1854	48	587	225
1855	27	176	107

1865	32	1,788	265
1866	23	633	156
Totals	378	6,324	1,893

Railroads of the United States.

In accordance with a custom observed by us for many years, we publish in our first issue of the JOURNAL for the current year, a detailed statement of the length and cost of the railroads of each state of the Union. The summaries which we give below recapitulate the details given in the tables referred to, with deductions from them showing the average cost per mile in each state. The highest priced railroads it would appear are the through lines of New Jersey, the Hudson River Railroad, the Baltimore and Ohio, and the Reading. The railroads of California, especially that which ascends the Sierra, have been very costly. Following these deductions we give a table showing the progress of construction since 1828, year by year and also a few facts relating to our city passenger railroads. From these tables we find that the increase of road brought into use during the year has been 1,535 miles not including about 200 miles of city railroads added to the length reported a year ago.

The following shows the general results by States and geographical regions:

LENGTH AND COST OF RAILROADS.

States.	Mileage. Total.	Mileage. Completed.	Cost of Works. Total.	Cost of Works. Per mile.
1. Maine	640.59	509.37	$18,498,822	$36,315
3. New Hampshire	659.33	659.33	22,051,983	33,446
3. Vermont	594.59	594.59	24,801,887	41,864
4. Massachusetts	1,393.65	1,330.97	64 420,094	48,401
5. Rhode Island	151.74	119.24	4,858,799	40,747
6. Connecticut	717.54	687.54	24,370,018	38,225
7. New York	3,305.30	3,025.30	152,570,769	50,431
8. New Jersey	949 91	904.41	55,994 403	61,918
9. Pennsylvania	4,649.14	4,037.19	210,080,309	52,037
10. Delaware	172.40	150.40	5,606,864	37,279
11. Maryland and District of Columbia	727.70	522.60	30,578,275	58,501
12. West Virginia	374.75	364.75	24,978,843	68,498
13. Kentucky	952.10	625.90	22,392,122	35,776
14. Ohio	3,974.26	3,402.98	135,231,975	39,739
15. Michigan	1,864.32	966.12	41,675,724	43,138
16. Indiana	2,490.47	2,211.80	79,186,767	35.802
17. Illinois	3,705.15	3,250.05	139,084,414	42,795
18. Wisconsin	1,324.41	1,045.41	40,081,360	38,343
19. Minnesota	1,499.00	392.00	12,450,000	31,760
20. Iowa	2,344.10	1,154 10	45,480,000	39,407
21. Missouri	1,702.89	987.75	51,357,077	54,995
22. Kansas	520.50	240.50	9,750,000	40,540
23. Nebraska	646.50	275.00	12,500,000	45,454
24. California	1,048.00	321.50	24,200,000	75,272
25. Oregon	259.50	19.50	500,000	25,641
26. Virginia	2,054.48	1,416.70	49,974,457	35,275
27. North Carolina	1,352.42	977.30	20,020,310	20,485
28. South Carolina	1,072.93	988.93	25.207,977	25,491
29. Georgia	1,651.23	1,487.22	29,177,663	20,301
30. Florida	592.50	407.50	8,868,000	21,762
31. Alabama	1,434.70	891.16	21,520,982	24,154
32. Mississippi	1,072.12	867.12	25,416,394	29,315
33. Tennessee	1,392.49	1,317.78	34,185,215	25,937
34. Arkansas	701.33	191.00	4,400,000	43,562
35. Louisiana	838.00	335.75	18,627,664	40,577
36. Texas	2,787.00	479.50	17,280,000	36,044
Total United States	51,606.54	36,896.26	$1,502,464,085	$40,723
Distributed into geographical regions as follows:				
Six New England States	4,157.44	3,851.04	$159,091,483	$41,311
Five Middle Atlantic States	9.804.45	8,639.80	454,825,620	52,644
Twelve Northern Interior States	21,387.95	14,844.36	614,168,282	41,325
Two Pacific States	1,307.50	341.00	24,700,000	72,434
Five South Atlantic States	6,723.56	5.227.65	133,248,407	25,489
Six Southern Interior States	8,225.64	3,992.31	116,430,255	29,163
Total United States	51,606.54	36,896.26	$1,502,464,085	$40,728

In making the reductions to cost per mile in the above table, the aggregate cost in each State has been divided by the completed mileage. This makes a greater or less error in result, according to the activity of railroad construction in the States severally. Thus in the New England States generally the result obtained by this process is nearly accurate, since the difference between completed and progressing roads is small. In the new States, however, in which large amounts have been expended on roads as yet incomplete, the difference is necessarily wider apart. Making reductions for the actual conditions of affairs in the several States, a near approximation to the truth is arrived at The following table is based on this proposition:

APPROXIMATE COST PER MILE OF ROAD.

States.	Cost as above.	Deduct per cent.	Resulting Cost.	States.	Cost as above.	Deduct per cent.	Resulting Cost.
Maine	$36,315	1	$35,952	Minnesota	$31 760	10	$28,594
New Hampshire	33,446	..	33,446	Iowa	39,407	10	35,467
Vermont	41,864	..	41,864	Missouri	54,995	5	52,246
Massachusetts	48,401	..	48,401	Kansas	40,540	10	36,486
Rhode Island	40,747	1	40,340	Nebraska	45,454	10	40,909
Connecticut	38,225	..	38,225	California	75,272	10	67,645

Wisconsin	38,343	5	36,426	Texas	36,044	33⅓	24,029

The following table shows the

PROGRESS OF RAILROAD CONSTRUCTION,

from the year 1828, when the only railroad in America was that belonging to the Quincy Company, extending from their quarry to tide-water in Boston Harbor, to the commencement of the present

year, 1867, when the United States, in the aggregate is traversed by a longer length of track than is found in all other parts of the world together! and if the equivalent single track be measured, the whole would girdle the earth at the equator with a double track line!

Year.	Miles.	Year.	Miles.	Year.	Miles.	Year.	Miles.
1828	3	1838	1,843	1848	5,682	1858	25,090
1829	26	1839	1,920	1849	6,350	1859	26,755
1830	41	1340	2,197	1850	7,475	1860	28,771
1831	54	1841	3,319	1851	8,589	1861	30,593
1832	131	1842	3,877	1852	11,027	1862	31,769
1833	576	1843	4,174	1853	13,497	1863	32,471
1834	762	1844	4,311	1854	15,672	1864	33,860
1835	918	1845	4,522	1855	17,398	1865	34,442
1836	1,102	1846	4,870	1856	19,251	1866	35,361
1837	1,421	1847	5,336	1857	22,625	1867	36,896

PASSENGER RAILROADS.

It is almost impossible to follow the progress of city railroad construction. All our large and many of our second or third rate cities have these accommodations, and in several instances they extend far into their neighborhoods. They were first adopted in New Orleans, and shortly after by New York, on the Harlem Railroad before its extension beyond the city limits. Since the war, Memphis, Nashville and Charleston have inaugurated the system, and other Southern cities are preparing to follow. We have lists which, at some future time, and when more complete we shall publish. These, incomplete as they are, sum up to more than 1,300 miles, and with their second tracks cannot measure less than 2,000 miles. If we add these to the commercial and mineral roads given in the tables as above, we find that the total length of road in the Union is nearly 40,000 miles, or, with second track, no less than 52,000 miles, costing, in round numbers, $1,650,000,000.

New York State Canals.

The following is taken from a report recently prepared by S. H. Sweet, on the proposed canal from Washington to Annapolis:

There are 12 canals within the State of New York, of an aggregate length of 886½ miles. These canals connect natural channels to the extent of 386 miles, making the total length of navigable channels within the State, 1,272½ miles. Of the above length of canals, 411 miles are of capacity to pass boats of 230 tons burthen, and the balance from 76 to 90 tons. The construction of these canals commenced in 1817, and the Erie was completed, 363 miles in length, in 1825, and the others up to 1837, except the Black River canal which was completed in 1849. The enlargement of the Erie, Cayuga and Seneca, and Oswego canals were commenced in 1835, and the construction account closed in 1862, although practically completed in 1859.

The following statement shows the total amount expended for construction of these canals; also, the amount of tolls collected, and the cost of repairs and management, from completion to 1865 inclusive:

Name.	Cost, with improvement and land damages.	Total amt. of receipts from tolls.	Total cost of repairs and management.
Erie Canal	$42,952,997	$83,629,243	$12,818,517
Oswego	3,850,634	2,420,265	1,605,460
Cayuga and Seneca	1,713,232	771,366	659,000
Champlain and feeder	2,300,396	4,401,599	25,005
Black River	3,458,483	102,773	2,851,327
Genesee Valley	6,419,058	614,146	210,646
Chemango	2,944,522	586,475	794,280
Chemung feeder	1,382,517	437,601	560,172
Oneida River impt.	125,167	201,600	897,988
Oneida Lake Canal	50,000	65,180	91,671
Sen. T. path and Bal.	16,585	1,261	12,388
Crooked Lake	431,298	41,888	161,165
Totals	$65,644,848	$93,272,287	$20,087,648

The above statement presents a complete financial view of the entire canal system of the State of New York. It shows that the receipts from tolls alone have more than paid for the construction of the canals, including interest on loans, and over $27,000,000 in excess of the cost, exclusive of interest. The cost of repairs and management average, for the whole period, 21 per cent. of gross receipts. It is also shown by the above statement, that of the 12 canals only 4 have yielded net revenues, and as State investments, come in the following order: Erie, Champlain, Oswego and the Cayuga and Seneca canals.

The average rate of toll in 1864, upon gross tonnage, was 4.57 mills per ton per mile, and the freight charges, including tolls, averaged, for the season, 11¼ mills, being 7.43 for down freight, and 15.20 for up freight. The cost of repairs and management was 23¾ per cent. of gross receipts.

The total number of boats registered up to 1854, was 2,126 upon the New York State canals, and the total number registered from 1844 to 1864, inclusive, was 8,943; making total number 11,069 boats. The total number registered from 1854 to 1864, inclusive, was 5,427, and the number registered in 1864, was 399, the greatest number of which was 210 tons burthen. Allowing two horses to each boat, the total cost of equipment of the New York State canals in 1864, was about $18,000,000.

Comparison of the freight business and receipts of the New York Central and Erie Railroads with the *New York State Canals*:

The total number of tons of freight carried *one mile* over the New York Central and Erie Railroads from 1854 to 1864, both inclusive, was	4,719,348,526
Total receipts from same	$112,871,417
The total number of tons carried one mile over the New York State Canals from 1854 to 1864, both inclusive, was	8,175,803,065
Total cost of freight, including tolls.	$74,399,807

Thus we find that while the New York State Canals have done in the past 11 years 48 per cent. more freighting business than the New York Central and Erie Railroads combined, the actual cost to the carriers, has been 34½ per cent. less.

From the foregoing, the receipts on both roads average 2.4 cents per ton per mile, while upon the New York State canals it was 0.91 cent., or the roads average 2⅔ times the average cost of transportation upon the canals.

The total cost of these two Railroads including equipment was, in 1864	$73,833,714
The total cost of New York State Canals and equipment	$83,644,848

Thus we find that the State by an investment of only ten millions of dollars more, has obtained channels for commerce over which double the amount of freight is carried at one-third less cost in transportation.

The following condensed sketch of the Erie Canal, showing the gradual reduction in the cost of transportation may be of interest to many not conversant with its general character as connected with this subject:

The construction of the Erie canal was commenced July 4th, 1817, and completed October 26th, 1825, at a cost of $7,143,789 96—$19.255 50 per mile. The dimensions were as follows: Width at surface, 40 feet; at bottom, 28 feet, and four feet depth. The locks were 90 feet in length between quoins, 15 feet wide. The average burthen of boats used was 50 tons. The length of canal, before its enlargement, was 362 miles, from Albany to Buffalo.

The cost of transportation, in 1830 (the earliest record preserved), was, for tolls 2.9 cents, and for tolls and freight 5½ cents per ton per mile, from Albany to Buffalo; and from Buffalo to Albany, the tolls were about 1½ cent, and tolls and freight 2½ cents per ton per mile; making an average upon the tonnage to and from tide-water (which was five to one)—three cents per ton per mile, including tolls. The enlargement of the Erie canal was authorized May 11th, 1835; and accompanying the Engineer's estimate of its probable cost was one, showing that by the proposed enlargement the cost of transportation would be cheapened 50 per cent.

The cost of transportation, in 1835, was *from* tide-water, for tolls, 1.81 cent, and for tolls and freight 4.4 cents per ton per mile; and *to* tide-water, for tolls nine mills, and for tolls and freight 1¾ cent.; making the average cost upon the tonnage to and from tide-water (which was about 5¾ to one) 2.12 cents per ton per mile, including tolls.

The enlargement was practically completed in 1859, but the construction account was not closed until April 10th, 1862. The total cost of construction, including the original canal, was $42,952,997, and including land damages and interest on loans, $55,187,890. The present size of this canal is 70 feet surface, 56 feet at bottom and seven feet depth, and 350½ miles long. The locks are 110 feet in length between quoins, and 18 feet wide in the clear. The average burthen of boats now used is 210 tons.

The cost of transportation in 1862, averaged *from* tide-water, for tolls four mills, and for tolls and freight 7 1-8 mills per ton per mile; and *to* tide-water, for tolls six mills, and for tolls and freight 1.2 cent. per ton per mile; making an average upon the tonnage to and from tide-water (which was as eight to one) 1.02 cent. per ton per mile—a reduction of 50½ per cent. from 1835. Thus we find the Engineer's calculation a trifle more than realised.

☞ The contract for completing the Richmond and York River (Va.) Railroad has been relet to new contractors, to be finished through by the first of April, 1867.

American Railroad Journal.

Saturday, January 5, 1867.

Stock Exchange and Money Market.

As usual at the closing of one year and the opening of another, there has been a very meagre movement in all financial and commercial interests. The available supply of Money has been largely increased by interest and dividend disbursements, and confidence in an early reduction of rates has been correspondingly augmented. Lenders have been more eager to place their balances, and, in some instances, have been offering more favorable terms to the best class of borrowers, namely six per cent. to the dealers in the public funds, and six to seven generally seven per cent. to the leading Stock Exchange firms. At these rates, the demand for call loans has been fair, but not urgent. Discount applications at bank and through private channels have been comparatively limited in number and magnitude. Strictly prime short date commercial paper has been in request at 6@7 per cent., and for very good do., at 7@8 per cent. per annum. There has been no regular market for lower grades. The active Cotton movements at the South continue to call for remittances of currency from this centre, chiefly in the legal tender form, and this drain shows again in the last city bank return, which indicated a decrease of $1,816,275 in the legal tender reserve, $1,218,587 in the deposits, and $28,749 in the specie line, with an increase of $1,099,547 in loans, and $231,097 in circulation. These changes had been more than anticipated, and consequently occasioned no special comment, on being officially made known. The specie reserve of the banks is now $13,185,222, against $15,331,769 the same time last year. The city bank deposits are now $200,811,290, against $228,484,370 week ending Oct. 6, 1866, and $189,224,861 week ending Dec. 23, 1865. Their legal tender reserve amounts to $63,000,687, against $71,134,696 same time last year. Their circulation now stands at $32,664,526, against $17,990,689 same time last year. The loans are now $259,354,761, against $279,135,790 eight weeks ago, and $229,445,730 at this date last year. The Bank Exchanges at the Clearing House, through the past week, averaged $279,135,790 a day, against a daily average of $103,183,599 the preceding week; and $92,855,139 the week ending with Dec. 16. The current week's exchanges average about $102,000,000 a day.

A table of the weekly averages of the city banks for 1866, has been published, which shows that the loans increased from 233 millions on the 1st January 1866 to 279 millions on the 20th October, the contraction taking place several weeks later than usual. The deposits declined 15 millions during January, February and March, and afterwards rising 48 millions to the culminating point on the 6th October. The circulation steadily increased from 18 to 32 millions. The reserve legal tenders gradually increased from 71 millions to 92 millions, subsequently falling as low as 61 millions at the beginning of December.

National Bank notes to the amount of $305,950, were issued last week, making the total issue to 1,663 banks thus far $300,736,951, against $282,555,440 at the close of the last fiscal year, June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $2,123,432, leaving, with the existing 1,650 banks, an actual circulation at this date, of $298,613,519. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $340,363,150; and for the public deposits, $38,933,950—making a total of $379,297,100. The Treasury Department, last week, redeemed and destroyed $228,974 of worn and mutilated fractional currency, and issued $348,100 worth of new.

The U. S. Sub-Treasury receipts, week ending with Dec. 29, were $12,814,763, including $1,332,920 from customs duties; payments, $29,541,684; balance at the close of the week, $97,352,206, against $114,079,126 at the close of the preceding week. The business of the Office during the opening day of the current week, was as follows: Receipts, $6,154,526, and payments, $5,421,226. The balance at the close of business on Monday stood at $98,085,507, against $111,015,481 a week ago. Tuesday was, as usual, observed as a close holiday.

Government revenues increased a little last week, and are on a rising scale, this week. Excises last week, yielded, about $4,000,000, against $2,936,214, the preceding week; customs at the port of New York, (in five business days) $1,332,920, and at the outports, about $320,000 (in coin)

more, making the grand total income for the week equal about $6,181,854 in currency, against disbursements of $1,790,158 on account of the three leading executive departments. The total receipts of the National Treasury, from excises, since July 1, 1866, have been about $168,000,000.

Gold has been gradually advancing in price, since our last. The demand has been more active, chiefly from speculative sources, though, in part, from export buyers, and for custom house purposes. The most marked improvement occurred before the close of the year, when there was a sharp rally from 131⅛, to 134⅜, followed by a rather variable and less buoyant market. The fluctuations on Monday were not important, and on Wednesday, the premium was again depressed to 132½@132⅝, by the more favorable telegraphic advices from England, relative to American financial and commercial interests. The closing quotation was 132⅜, on a steady, though not brisk market. Government is now disbursing about ten millions of coin interest, due on Jan. 1. The total imports of specie from Europe, and other ports since January 1, have been $9,614,432. The customs demand for Gold last week, averaged $266,584 a day; thus far, this week, it has been equal to $224,750 a day, or equal to a weekly aggregate of $1,348,500. The arrivals of specie from Europe, Havana and other foreign ports, during the week, reached $45,042, and from California, $630,117. The total customs revenue of the Government, in coin, at this port, in 1866 was $130,227,601, against $102,794,945 same time last year. The total receipts of California gold at this port since Jan. 1, have been $42,741,513, against $20,680,164 same time last year, showing an increase, in 1866, of $22,061,349. The exports of specie from this port, last week, were $1,072,190, making the total outflow of specie from the port, since Jan. 1, 1866 $62,520,700, against $29,953,746 in 1865, $50,804,921 in 1864, and $69,648,528 in 1859. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, $221,800, making the total coin interest disbursements through the Government office, since Jan. 1, 1866, $48,429,171, against $40,405,279 same time last year. The specie exports from San Francisco from Jan. 1, to Dec. 4, reached $41,834,169, against $42,240,601 same time in 1865.

Business in foreign exchange has been rather more active than usual at this season, and prior to the closing of the mails on Monday for the outward bound steamers of Wednesday, there was somewhat more firmness in the market. On Wednesday, there were no transactions of moment reported, and the closing quotations were more or less nominal. Bankers' 60 day bills on London closed at 109⅛@109⅜, and on Paris to 5.17½@5.15; sight bills on London to 110@110¼; and on Paris to 5.15@5.15½. The offerings of produce bills have been moderate since our last. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $2,875,002, making the exports since January 1, 1866, $188,690,622, against $179,759,594 in 1865.

Government securities have been in decidedly better request, chiefly for investment purposes, and a much more confident feeling has been developed among holders. The inquiry has been mainly for the six per cent. gold bearing bonds, and the Seven-thirty notes. The six per cents of 1881, and the consolidated Five-Twenties of 1865 have been quoted ex the January coupon, since the 1st inst. The sales of Government securities have recently been far more extensive through the great dealers of Wall and Nassau streets, than at the Stock Boards. At the latter, National bonds and notes to the amount of $6,856,000 were sold in December. The transactions at the regular Stock Exchange in United States bonds and notes in each month of the year 1866, have been as follows:

1866.	Bonds.	Notes.
January	$4,827,200	$3,340,100
February	3,846,500	2,591,900
March	3,931,300	3,006,700
April	5,798,300	3,739,650
May	8,902,700	2,258,250
June	7,463,800	2,485,250
July	10,476,250	2,198,750
August	10,987,850	2,577,000
September	6,451,300	2,425,350
October	10,282,300	2,703,250
November	8,337,550	2,973,550
December	5,338,500	1,228,950

U. S. sixes of 1867 closed here on Wednesday nominally at 127; U. S. sixes of 1868, at 128; U. S. sixes of 1881, 106¾@107; U. S. Five-twenties of 1862 at 106@106¼; U. S. Five-twenties of 1865 at 105½@105⅝; U. S. Five-twenties of 1865, consolidated, 103¾@104; U. S. Ten-forties at 99⅝@99⅞, and U. S. Seven-thirties at 104¾@105⅛. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ¼@½ of 1 per cent. on these figures:

June, 1864	116¼	May, 1865	111¼
July, 1864	115¾	August, 1865	110¼
August, 1864	115¼	September, 1865	109¾
October, 1864	114¼	October, 1865	109¼
December, 1864	113¼		

Railway and miscellaneous share property has been in good demand, partly for investment, and more largely for speculative purposes, since our last, at on the whole, rather better prices, though there have been daily fluctuations against the market, resulting mainly from realizations on account of speculative holders. The new year opened on a pretty brisk market, but prices were irregular, closing late on Wednesday rather heavily. The sales of strict railroad bonds and mortgages at all the Stock Boards in December reached an aggregate value of $4,148,000; and of railway and miscellaneous shares, the aggregate number of 2,208,020. The monthly transactions at the regular Stock Board in State stock and bonds, and in railroad bonds for the year, are shown in the following statement:

1866.	State Stocks. and Bonds.	Railroad Bonds.
January	$952,900	$3,085,500
February	1,691,500	1,692,100
March	2,903,600	781,240
April	1,679,500	838,700
May	1,236,600	781,900
June	1,614,000	515,700
July	1,633,000	455,500
August	1,986,990	993,000
September	2,984,000	879,200
October	2,792,800	1,234,700
November	2,576,400	1,865,600
December	2,672,000	709,900

The total sales of Government, State, railroad and miscellaneous bonds, during the month of December, at all the Stock Boards, amounted in value to $13,825,000, against $25,308,000 in November.

General business has been without animation, since our last, but holders of domestic produce, especially of cotton, breadstuffs and provisions, have been very firm in their views, and since the opening of the new year, there has been more buoyancy in the market, on an improving demand, partly for export. Cotton closed quite briskly and firmly. Middling grades closed buoyantly at 35@36½ per lb. The stock of cotton now here is estimated at about 165,000 bales. The receipts at the port this week, have averaged 4,500 bales a day. The receipts since the commencement of the current cotton year, Sept. 1, have been 278,000 bales, against exports of 107,454 bales. The receipts at all the shipping ports from September 1, to latest mail dates have been 681,000 bales against 755,000 bales same time last year; exports, 262,000 bales, against 401,000 bales same time last year, estimated stock at latest dates, 525,000 bales, against 465,000 bales same time last year. In foreign meachandise, no important changes have been noted. Transactions have been quite light, and prices about stationary for the leading articles. The total imports of foreign dry goods, last week, were $901,162, and the total amount marketed $783,249. The value of foreign merchandise imported last week, was $1,525,052—making the grand total specie value of last week's imports of dry goods and merchandise, $2,426,214, and since January 1, $292,247,972. against $212,090,149 same time last year. The ocean freight market is more active and steady with 573 vessels of all classes in port. For Liverpool we quote flour at 1s. 9d.@2s. per bbl.; grain at 3½@4d. per bushel; cotton at ¼@9.32d. per lb.; and heavy goods at 10s.@12s. 6d. per ton, all by sailing vessel.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Dec. 19.	Dec. 22.	Dec. 31.
Consols	—89⅝	89¾	—
U. S. 5-20's of 1862	—71½	72¼	72¾
U. S. 5-20's of 1865	—70¼	71	71¾
Erie	—46¾	46	46
Ill. Central	—77½	79	80¼

The New York exports, exclusive of specie, for the week ending Dec. 31, and since the beginning of the year, compare as follows:

	1865.	1866.
For the week	$3,076,078	$2,875,002
Prev. reported	176,683,521	185,815,620
Since January 1	$179,759,594	$188,690,622

The New York imports for the week compare as follows:

	1865.	1866.
Dry goods	$2,507,784	$901,142
Gen. merchandise	3,220,444	1,525,052
Total for the week	$5,728,178	$2,426,194
Prev. reported	212,080,149	289,791,758
Since January 1	$217,808,327	$292,217,952

Included in the preceding statements are the following dry goods imports for the same week:

	1865.	1866.
Entered at the port	$2,507,784	$901,142
Thrown on market	1,775,730	793,229
Since Jan. 1.		
Entered at the port	$91,965,188	$121,532,550
Thrown on market	91,862,968	117,605,714

The balance in the Sub-Treasury on Wednesday was $98,429,627 88.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

South Shore (Mass.) Railroad.

The receipts of this company for the fiscal year ending November 30, 1866, were $84,859, of which charged to expense account $58,303, and invested in sinking fund, rolling stock, &c., $26,556; capital stock paid in $259,685; mortgage debt, $150,000; paid from earnings, $101,908. Total cost of road $501,593; assets of company in addition to cost of road $84,995. Length of road 11½ miles; rolling stock consists of 3 locomotives, 29 passenger and other cars, all in excellent condition. 223,126 passengers have been carried in the cars during the year, without injury to any.

New Bedford and Taunton Railroad.

The gross earnings of this road during the year ending November 30, 1866, (including $65,230 84 from the Fairhaven Railroad) were $242,795 20; and the expenses, (including $62,497 15 on the Fairhaven road, and $11,265 for interest on bonds) were $185,461 20—leaving net income $57,334. The number of miles run by trains during the year was 102,402, of which 30,910 were run on the Fairhaven road. Number of passengers carried, 243,132. Tons of merchandise, 82,024. (70,979 passengers, and 13,742 tons, included in the above, were carried on the Fairhaven road.) A dividend of five per cent. was declared, payable on the 31st ult., making nine per cent. for the year. In the expenditures of the Fairhaven road is included the sum of $14,926, charged for depreciation of iron, buildings, locomotives, ferry boat, &c. The Fairhaven road was purchased in 1861, the N. B. and T. Corporation issuing its bonds for $300,000 in payment. Of these bonds there are now outstanding $184,000. The company has a surplus of $99,505 38.

Taunton Branch Railroad.

The income of this company for the year ending November 30, 1866, (after deducting $114,190 03 paid to the Boston and Providence Railroad company in tolls for passengers and freight carried over its roads,) was $99,485 86; and the expenses $69,310 91—leaving as net earnings the sum of $30,174 95. During the year 208,466 passengers have been carried in the cars, and 81,347 tons of merchandize. Two dividends of four per cent. each have been declared and paid since the last report. The amount of share capital is $250,000, which represents the cost of road and equipment. The company has no bonded debt.

Boston and Maine Railroad.

From the report of this company made to the Secretary of the Commonwealth, we learn that the earnings of the road for the year ending November 30, 1866, were $1,575,826 16; and the net earnings, after deducting expenses, $498,498 67. The capital stock is stated at $4,155,700. The number of passengers carried in the cars was 2,935,327; and the number of tons of merchandise carried was 321,798. The total cost for the maintenance of the road has been $229,102 63. The rolling stock of the road consists of 38 engines, 63 passenger cars, 17 baggage cars, and 744 merchandise cars.

Grain Trade of Buffalo.

The total receipts of grain, including flour, estimated at its equivalent in wheat, were 57,809,768 bushels in 1866, against 51,415,188 bushels for the previous year. The receipts of corn were 27,994,612 bushels, against 19,840,901 bushels last year. The receipts of wheat were 10,386,342 bushels, against 12,437,888 bushels last year. The grain exports of the year by canal, including flour, were 44,517,608 bushels, against 37,568,028 bushels last year.

The shipments of lumber by canal for the year amount to 120,031,761 feet, against 70,836,766 feet in 1865.

☞ The first train of cars passed over the Junction Railroad, running from Hamilton, Ohio, to Rushville, Indiana, on the 25th ult. This road opens up to travel and commerce one of the richest agricultural districts in the West.

Railroad Earnings.—Weekly.

The earnings of the Grand Trunk Railway of Canada for the week ending Dec. 22d, 1866, were $124,948 00
Corresponding week of previous year.. 123,915 00

Increase..... $1,033 00

The earnings of the Chicago and Rock Island Railroad for the 3d week in Dec., 1866, were..... $62,124 00
Corresponding week of previous year.. 60,877 00

Increase..... $1,247 00

The earnings of the Michigan Central Railroad for the 3d week in Dec., 1866, were... $73,303 25
Corresponding week of previous year.. 70,838 74

Increase..... $2,464 51

The earnings of the Marietta and Cincinnati Railroad the 3d week in Dec., 1866 ...$28,758 00
Corresponding week previous year.... 22,921 85

Increase..... $5,836 15

Journal of Railroad Law.

ACTION FOR DEATH OF CHILD KILLED BY RAILWAY COMPANY.—LOUISIANA STATUTES.

The case of Thomas J. Earhart against The New Orleans and Carrolton Railroad Company, a case just decided in Louisiana was an action for damages brought by the father of a child, killed at the Carrolton Railroad depot, on the 31st of January, 1860, from being knocked down by a locomotive engine and run over. Both legs of the boy were crushed; and amputation ineffectually resorted to to save his life.

The defendants filed an exception, that the petition set forth no cause of action; and in this case was overruled.

The plaintiff on the appeal urged the correctness of the judgment of the lower Court on the exceptions. (Act of 15th March, 1865, pp. 270 and 271.) The case was tried before a jury, who gave a verdict for one thousand dollars; and defendants appealed.

The plaintiff's counsel offered to prove by a witness, Thomas Gleary, who had charge of the engine when the event occurred, that he, the said Gleary, while in the defendants' employ, had run over other persons and inflicted other injuries. This testimony the Court rejected; and in so ruling the Court erred, for the testimony was admissible to show the character of the witness, that he was a reckless and unskilful man, and that knowing him to be such, the defendants kept him in their employ.

The plaintiff put upon the stand the brother of the deceased boy, and his own son, who being objected to by the defendants, was rejected as a witness by the Court. In this the Court erred. The suit is not really that of the father, but of the deceased child. The statutes says, (Act of 1855, p. 270.) "The right of this action shall survive." What action? That which the injured party had. The right of action not being in the parent, those who are deemed incompetent by reason of their relation to the latter, in his own case, cannot be deemed incompetent in this. The tendency is to admit, not to exclude witnesses; and this is sustained by reason. Suppose the action commenced during the life time of the child, the brother would then be a competent witness. Suppose the child to die while the trial was going on before or after the brother was sworn, how could the death render him incompetent? The witness was not offered "with respect to his father," as prohibited by L. C. Article 2260, but with respect to his deceased brother.

The defendant urged upon appeal that no action could be maintained by the father for the death of his minor child, unless he sets forth and claims specific actual damages. The present is simply an action sounding in damages for an alleged tort. He avers that by reason of this heavy calamity, he himself, his wife, the mother of the said Osborne, and the whole of petitioner's family, were and remain plunged in the deepest grief and affliction, and your petitioner has suffered damages from the illegal and wrongful conduct of the company, as above set forth, to the extent of twenty-five thousand dollars.

It seems clear that the plaintiff's action thus brought for damages sustained by himself can derive no support from the act of the 15th March, 1855, (See Revised Statutes, p. 271,) for that law merely provides that, "in case of the party in whose favor the right to claim damages for a tort has arisen should die before exercising it, the action for enforcing it shall survive in favor of the minor children and widow of the deceased, or either of them, for the space of one year from the death."

There is no obscurity nor ambiguity in this language. It has a clear obvious meaning, and that is, that the surviving relatives here spoken of, may bring an action for the recovery of the damages suffered by the deceased by reason of the tort committed by the defendants.

If there existed any right of action resulting from facts alleged, it clearly belonged to the sufferer, and not to his father, except by transmission at his death, under the statute above referred to. Amendatory of the 2294th article of the code. It is therefore respectfully submitted that the exception to the petition should have been sustained, and the suit dismissed.

But even if the action in its present form can be maintained, it is confidently submitted that under the evidence in the record, the verdict should be set aside and the judgment reversed.

There cannot be any doubt that the unfortunate young boy met with this sad misfortune through his own imprudence. Every care and precaution was taken by the servants of the defendants to avoid this accident. Under such a state of facts, he could not recover any damages if he were living, nor can his father recover after his death. 17 L. R. p. 361; 18 L. R. p. 339; 6 A. R. p. 496; 9 A. R. p. 441; 11 A. R. p. 292; 1 A. R. p. 374; 3 A. R. p. 48; 3 A. R. p. 441.

The following opinion was delivered by

LABAUVE, J.—The plaintiff alleges, in substance, that the New Orleans and Carrollton Railroad Co. is legally indebted unto him in the sum of $25,000; that, on the 31st January, 1860, petitioner's son, Osborne C. Earhart, was thrown down and run over by a locomotive steam engine, driven on the track of said company by persons in its employ; that petitioner's son was between ten and eleven years old, and standing then and there quietly, looking at the cars and train, when suddenly and without giving any warning, one of the locomotives and trains backed and struck the said Osborne, who was standing with his back to the said locomotive and train, crushing both his legs, which were amputated in the hope of saving his life, but that the operation was ineffectual; and soon after, on the 5th day of February, after having endured the most intense suffering, the said Osborne died; that the servants of said company, then in charge of said locomotive and train, managed them in a careless and unskilful manner, and that by reason of this carelessness of said servants, his son Osborne suffered a cruel and painful death.

Your petitioner further shows that, by reason of this heavy calamity, he himself, his wife, the mother of the said Osborne, and the whole of petitioner's family, were and remain plunged in the deepest grief and affliction; and your petitioner has suffered damages from the illegal and wrongful conduct of the company, above set forth, to the extent of $25,000.

He prayed accordingly.

The defendant filed the following exception:

The defendant herein, the New Orleans and Carrollton Railroad Company, except to plaintiff's petition, and for cause of exception represents to this honorable Court that said petition sets forth no lawful or valid cause of action; prays that said exception be sustained, and plaintiff's demand rejected.

The District Judge overruled the exception; verdict and judgment having been rendered on the merits, in favor of plaintiff, the defendant took this appeal.

Before the passage of the act of 15th March, 1855, amending Art. 2294 of C. C., it was considered as settled that actions like the one at bar were purely personal, and not transmissible with the succession of the party sufferer, but died with him. The Supreme Court had said that it required a special statute to give this right, it is supposed, that the act above referred to was passed, reading as follows:

"Every act whatever of man that causes damage to another, obliges him by whose fault it happened to repair it; the right of this action shall survive in cases of death, in favor of the minor children and widow of the deceased, or in default of them in favor of the surviving father or mother, or either of them, for the space of one year from the death."

The plaintiff, to bring his case within the provisions of the statute, should have alleged the cause of action in, and the damages suffered by his deceased child, and survived under the statute, in himself, plaintiff. But on the contrary, he alleges the cause of action in himself as the sufferer of damages, to wit: "He avers that, by reason of this heavy calamity, he himself, his wife, the mother of said Osborne, and the whole of petitioner's family, were and remain plunged in the deepest grief and affliction, and your petitioner has suffered damages from the illegal and wrongful conduct of the company, as above set forth, to the extent of $25,000."

In the words of the statute, it is a legal subrogation in favor of the persons designated to the right of action of the deceased sufferer; and in case of a suit under that subrogation, the plaintiff should allege his cause of action as derived from the deceased, under the statute.

It is therefore ordered and decreed, that the judgment of the District Court be annulled and avoided; it is further ordered and decreed that

the exception be sustained and the petition dismissed, as in a case of non-suit; the plaintiff and appellee to pay costs in both Courts.

East Tennessee and Georgia Railroad.

This road is 112 miles in length, commencing at Knoxville, the western terminus of the East Tennessee and Virginia Railroad, and running thence, *via* London, Athens, and Cleveland, to Chattanooga, at which point it connects with the Nashville and Chattanooga Railroad, and through that road with the Memphis and Charleston Railroad. Its eastern connections are the East Tennessee and Virginia Railroad—from Knoxville to Bristol, 130 miles; the Virginia and Tennessee, thence to Lynchburg, 204 miles; and the Orange and Alexandria Railroad, thence to Washington, 178 miles. By which it will be seen that this road is an important link in the great through route from Memphis to Washington, Baltimore, Philadelphia, New York, etc. Its southern connection is made at Chattanooga, at which point it connects with the Western and Atlantic Railroad, running thence to Atlanta, 138 miles, and through that road with the Atlanta and West Point, Macon and Western, and Georgia Railroads, for Augusta and Savannah, West Point, Montgomery, etc.

The financial year of this company closed on the 30th of June last. The annual meeting of the stockholders was held at the office of the company in Knoxville on the 5th of September, at which the reports of the President, Superintendent, Treasurer, etc., were presented. From these reports we gather the following particulars:

At a called meeting of the stockholders on the 12th of July, 1865, a new Board of Directors was chosen—being up to that time without an organization. On the 25th of the same month the new board organized by the election of a President. As the road was then in the possession of the U. S. Government, it was not deemed necessary to elect any other officers, but the President was empowered to appoint such agents as he considered necessary to carry on the business of the road. The first requirements were the restoration of the road to the company, and the recovery of the old rolling which was then at Social Circle, Georgia, and consisted of 10 locomotives, 7 passenger, 8 second class, 1 baggage, and 48 freight cars. These were collected and returned to Knoxville on the 11th of August following, but in so dilapidated a condition as to require a large amount of repairs. In the meantime negotiations were opened with the military authorities at Nashville for the return of the road to the company. This was effected on the 28th of August, under the general order of the Secretary of war; and from this date the financial year of company commenced. The period covered by the report is, therefore, only 10 months and 3 days.

Still acting under the authority delegated to him, the President proceeded to purchase from the Government such articles as were deemed necessary for the working of the road, viz: 7 engines, 101 box, 39 flat, 4 passenger and baggage, and 1 wrecking car, the cost of which amounted to $371,000. The property destroyed and appropriated by the U. S. Government during the war is estimated at $341,862 72—an amount nearly equal to the purchases, aside from the use and occupation of the road from September 1, 1863, to the date of its transfer to its owners, for which there was awarded to the company the sum of $290,203 66, which added to the above amount due for articles used and destroyed by the Government, will amount to the sum of $632,066 38, leaving a balance in favor of the company of $261,066 38. The company were, nevertheless, required to give a bond to the Government in double the amount purchased, by which they were obligated to pay in 24 monthly instalments, with 7.30 per interest. About $40,000 had been paid at the date of the report in transportation and mail service, reducing by that amount the debt due the Government for the purchases made.

The following statement, from the Report of the Superintendent, will show the earnings of the road during the period it was in possession of the company, viz: from August 28, 1865, to June 30, 1866:

From freight		$118,918 19
" passengers		207,836 79
" express		50,910 62
" U. S. transportation		30,889 21
" mails		10,460 93
" other sources		22,013 26
		$441,029 00
Expenses, viz:		
Transportation	$43,240 91	
Motive power	77,868 46	
Maintenance of way	81,103 14	
" cars	34,682 55	
General expenses	16,825 75	
Depot buildings	6,978 01	
Real estate purchased	7,500 00	
Extraordinary expenses	18,748 91	
		286,947 73
Leaving as net earnings		$154,081 27

This is the result of ten months and three days' operations; and, all things considered, gives much encouragement for the future prosperity of the company.

In addition to the items charged to real estate, depot buildings and extraordinary expenses, in the above statement, a large amount of work was done on shops, depot grounds, bridges, rolling stock, etc., and charged to ordinary expenses, as was also the expenses incurred in the return of the old rolling stock from Georgia, and also some of those purchased from the U. S. Government.

At the date of the report, the equipment consisted of 17 locomotives, 8 first class and 3 second class passenger and express cars; 8 mail and baggage, 1 pay, 1 wrecking, 145 box, and 50 platform cars, besides 1 locomotive and 16 box cars in North and South Carolina, which had not been returned for want of railroad connections beyond Augusta, but which have since been opened.

The company sustained heavy damages during the war, in the destruction of its track, bridges and buildings. The Hiawassee and Loudon bridges which were rebuilt by the U. S. Government, have since been covered and repaired. Depots have been built at several points on the line, and more or less repairs on all the depots on the road.

The amount of cash received by the Treasurer from August 28, 1865, to June 30, 1866, was $416,923 56; and the amount disbursed, $409,061 55—leaving on hand a balance of $7,862 01.

Owing to the fact that the accounts on the old books of the company are not yet all closed, and that there is a large unsettled account with the U. S. Government, the Treasurer cannot give a satisfactory statement of the general accounts of the company, which he trusts will be adjusted in time for the next annual report.

Nearly all the old floating debt of the company, consisting of notes, old pay rolls, etc., has been compromised and paid during the year. The road bed has never, since its completion, been in better condition than at present. Its passenger equipment is also sufficient for all ordinary purposes.

When the war ended, the company owed the State of Tennessee $1,037,000, in six per cent. bonds, and company bonds endorsed by the State, $115,000, upon which a large interest had accrued, and which interest has been funded by the State of Tennessee, thus increasing the indebtedness to the State $211,140, which may be stated as follows, viz:

Old debt to the State	$1,037,000
Interest unpaid to Jan. 1, 1866	186,000
Endorsed bonds	115,000
Accrued interest to Jan. 1, 1866	24,480
Making the sum due the State	$1,362,480
To which must be added straight company bonds	643,000
Accrued interest to July 1, 1866	137,490
Total	$2,141,970

—which is being funded by issuing new bonds of the company having ten years to run. This will make the bonded debt of the company amount to $2,141,970, and will cover nearly the entire indebtedness of the company, the old floating debt having been almost paid off during the year.

The following gentlemen were elected directors at the annual meeting held September 5, 1866: Thomas H. Callaway, A. G. Jackson, Wm. Heiskell, John Baxter, Daniel Heiskell, Robert Sneath, James Parkison, John P. King and M. Burns. President, T. H. Callaway; Saperintendent, Isaac Benson, Resident Engineer, R. C. Morris; Secretary and Treasurer, R. M. Fisher.

☞ The bridge spanning the American River, California, has been condemned. It was built by the California Central Railroad Company in 1858. It is a single span of 250 feet, 96 feet above the river. The bridge never was covered, and very little care has been taken of it. It has settled in the centre at least 3½ feet. The architect was a Mr. Kingsbury, who nearly finished the bridge when he was discharged, and it was completed under the superintendence of a Mr. Leet.

☞ The number of vessels that arrived at the port of Philadelphia during the year 1866 was 36,586; of which 722 were foreign, and 35,865 coastwise. In 1865 the number of arrivals was 32,246, viz: foreign 541, coastwise, 31,705—an increase in foreign vessels of 181; and in coastwise vessels of 4,159.

☞ Engineers are now engaged in examining a route for a railroad from the Connecticut and Passumpsic Rivers railroad terminus to or near the village of Stanstead. If a satisfactory route can be found, a strong effort will be made to build the road.

☞ Efforts are being made to secure the construction of a branch railroad from Houlton, Me., to connect with the New Brunswick and Canada railroad at Woodstock.

☞ The number of vessels reported lost during the year 1866, was 554, valued at $13,976,000.

Losses by Fires.

The number of fires in the United States in 1866 is stated at 501; and the losses thereby, $66,410,000. In 1865, the number of fires was 354; and the losses $43,139,000—an increase in fires of 147; and in losses incurred thereby of $23,271,000.

The following table gives the losses by fire in the United States from 1855 to 1866 inclusive:

Year.	Losses.	Year.	Losses.
1855	$13,040,000	1861	$18,020,000
1856	21,159,000	1862	17,640,000
1857	15,792,000	1863	14,060,000
1858	11,561,000	1864	28,522,000
1859	16,058,000	1865	43,139,000
1860	15,597,000	1866	66,410,000
Total in twelve years			$280,998,000

Exports of Specie.

The exports of specie from the Port of New York for the past fifteen years have been as follows:

1852	$24,912,345	1860	$42,161,909
1853	26,753,356	1861	4,216,250
1854	37,157,288	1862	59,437,021
1855	27,571,813	1863	49,754,066
1856	37,326,297	1864	50,113,809
1857	44,360,174	1865	29,953,746
1858	25,973,006	1866	61,834,718
1859	69,648,528		
Total			$591,174,326

☞ The receipts of Breadstuffs at the port of Boston for the years 1866 and 1865, have been as follows:

	1866.	1865.
Flour, bbls.	1,496,385	1,426,373
Rye flour, bbls	2,053	1,778
Corn meal, bbls.	25,601	8,330
Wheat, bushels	15,637	21,307
Corn, bushels.	2,157,292	1,738,817
Oats, bushels	1,219,717	2,123,356
Rye, bushels	37,864	82,803
Barley, bushels	190,658	194,409
Shorts, bushels	525,688	442,828

☞ The new railroad of the Lehigh Coal and Navigation Co., between Penn Haven and White Haven, was opened on the 31st ult.; also the road from South Wilkesbarre to the new depot at Market Street. The whole road between Wilkesbarre and the head of navigation on the Lehigh, above Mauch Chunk, a distance of over fifty miles, is now completed.

☞ A dam is to be thrown across the Connecticut river at Montague, Mass., furnishing a fall of about 80 feet, and making it one of the most valuable water powers in the interior of New England. The New London and Amherst Railroad is to be extended to the new dam.

☞ A railroad between Monument and Woods' Hole is contemplated, and a survey for its location is now being made. Monument is a point on the Cape Cod Railroad, 20 miles from its intersection with the Old Colony and Newport Railroad at Middleboro. The Cape Cod Railroad Co., as well as several heavy capitalists are interested in the enterprise.

☞ The Memphis and Little Rock Railroad Company has been consolidated with the Little Rock and Fort Smith Railroad, under the name of the Central Pacific Railroad Company.

☞ The tonnage of the Schuylkill Navigation during the season just closed, has been 1,292,656, against 1,022,740 last season—showing an increase of 269,916 tons.

Pennsylvania Railroad.

The following statement of the action of the Board of Directors of this company at their meeting on the 26th ult., is from an official source:

"To provide funds to meet the annual demands upon the Treasury of the Company for new tracks, additional equipment, enlargement of depots, extensions of sidings, and to meet the legitimate demands of the traffic of the country drained by the Pennsylvania Railroad and its branches, for increased railroad accommodations, dividends will hereafter be made semi-annually of not exceeding four per cent. from the nett profits of the company, payable in cash, free of United States and State taxes, and that a stock dividend of five per cent. based upon profits already earned, be declared at the regular dividend term in May next, and thereafter, in addition to the regular cash dividend, a stock dividend of five per cent. per annum will be declared annually if the earnings of the company will warrant the same."

The annual meeting of the stockholders occurs in February next, when the subject will be referred to in the report then submitted by the Board of Directors.

"The Board did not contemplate the issue of scrip or paper promises in any form, nor do they propose to make a stock dividend upon amounts yet to be earned. Their whole policy is to pay the stockholders such extra dividends after they are earned, and the proceeds invested in equipment and permanent works needful to provide for the increasing traffic of the line. On careful investigation we think you will find the financial programme adopted by the Board to be well adapted to the best interests of every shareholder, as well as to the city of Philadelphia."

Interest and Dividends.

The New York, Providence and Boston Railroad Company have declared a dividend of 3 per cent., payable, free of U. S. Tax, Jan. 2.

The Vermont and Massachusetts Railroad Company have declared a dividend of $1.50 per share, payable, free of U. S. Tax, Jan. 2.

The Providence and Worcester Railroad Company have declared a semi-annual dividend of 4 per cent.

The New Castle and Wilmington (Del.) Railroad has declared a dividend of 3½ per cent. for the last six months.

The George's Creek Coal and Iron Company has declared a semi-annual dividend of 4 per cent., payable on and after 7th January. State and City taxes paid by the company.

☞ The Brockville and Ottawa (Ca.) Railway has been taken possession of by the preferential bondholders, the effect of which will be to cut off entirely the claims of all the other bondholders, shareholders and judgment creditors. The claims of the municipalities are, however, still intact, and a first lien on the road.

☞ The Connecticut River Railroad Company contemplate the construction of a branch road, three and a half miles long, from Greenfield to Truner's Falls, Mass., where the new dam across the Connecticut for factory purposes is expected to produce another Holyoke.

☞ The Shanghai Chamber of Commerce advocates the construction of a railroad to connect the important cities of Soochow and Hangchow. This road is regarded as the first link in a railway system to be introduced throughout the empire.

☞ The Placerville and Sacramento Railroad has been mortgaged for two hundred thousand dollars to Charles E. McLane for Wells, Fargo & Co.

Western Maryland Railroad.

The Hagerstown, Md., *Mail* says: "From a letter east of the mountain we learn that the location of this road is perfected from Union Bridge to the Monocacy, a distance of six miles, and that the contractors are at work thereon at four different points. It also alludes to efforts being made to secure funds to justify the county commissioners in making available the subscriptions of the county to the work, but further of this we are not expected to speak."

Leeds and Farmington Railroad.

This road has been leased to the Androscoggin Railroad Company for fifty years, at the following rental, viz: for the first five years $32,000 per year, for the second five $34,000, for the third $36,000, for the next ten $38,000, and for the remaining twenty-five years $40,000 per year.

☞ A despatch from the Government Commissioners to the Secretary of the Interior, dated at Grand Island Station, Nebraska, states that the Commissioners had examined the ninth section of thirty-five miles of the Union Pacific Railroad west from Omaha, and report the same in acceptable condition. The road is now in excellent running order from Omaha to a point fourteen miles west of the forks of the Platte river, or for a distance of three hundred and five miles.

☞ The amount of salt annually manufactured in the Saginaw Valley, Michigan, since 1860, in which year the product was only 4,000 barrels, has been as follows:

	Bbls.		Bbls.
1861	125,000	1864	229,073
1862	243,000	1865	428,515
1863	466,356	1866	416,144

☞ The report of the Fifth Auditor of the Treasury shows that the consular system of the United States is now self-supporting. The receipts from consular fees last year were $442,477; expenses, including salaries and loss by exchange, $346,070.

☞ We learn from St. Louis, that ten car loads of iron are being carried forward daily by the Pacific Railroad for use on the Eastern division of the Union Pacific Railroad beyond Fort Riley.

☞ C. Colket, Esq., has been elected President of the Philadelphia, Germantown and Norristown Railroad Company, *vice* E. C. Dale, deceased.

☞ Mr. N. L. Wilson has retired from the Presidency of the Marietta and Cincinnati Railway Company, in consequence of protracted illness.

☞ Hon. J. D. Colt, of Pittsfield, has been appointed Vice-President of the Western Railroad Corporation.

TO RAILROAD CONTRACTORS.

LOUISVILLE, CINCINNATI AND LEXINGTON RAILROAD OFFICE,
LOUISVILLE, KY., December 24, 1866.

SEALED PROPOSALS will be received at this office, on the 31st January, 1867, for the Graduation and Masonry of over seventy (70) miles, (in mile sections), of the Cincinnati Branch of this railroad.

The work is of an unusually desirable character for good contractors, the line accessible by steamboat and turnpike, and the country full of supplies.

Profiles will be ready for examination on and after 10th January.

Payments for work done will be made monthly in cash and with the usual reservation.

References will be required from contractors not personally known and the company reserve the right to reject any bids not deemed to their interest.

I. M. ST. JOHN,
411 Chief Engineer.

THE ATLANTIC BRIDGE WORKS,

Office, No. 157 Broadway,

NEW YORK.

POST, McCALLUM & CO.,

Bridge and Roof Builders,

Are prepared with all the necessary machinery and an experienced corps of assistants, to sink **Hollow Piles** and **Coffer Dams** by the **pneumatic process** for the foundations of Bridges, Docks, Sea Walls, Light Houses, or other marine constructions.

By the use of new patented machinery they are able to perform work of this character with much greater rapidity than has been possible heretofore, and at reduced cost.

Parties in the Western States may apply to Gen. Wm. S. Smith, care of Boomer, Boyington & Co., No. 14 Dearborn St., Chicago, Illinois.

PATENT OFFICES.

INVENTORS who wish to take out

LETTERS PATENT

are advised to counsel with Messrs. MUNN & Co., Editors of THE SCIENTIFIC AMERICAN who have prosecuted claims before the Patent Office for nearly TWENTY YEARS. Their American and European Patent Agency is the most extensive in the world. A pamphlet, containing full instructions to inventors, is sent gratis.

Address,

MUNN & CO.,

3m51 **No. 37 Park Row, New York.**

RAILROAD TIES.

The undersigned are prepared to furnish Railroad Ties of **Hackmatack, Cedar, Pine, Hemlock** and **Spruce** in any quantity. Also every description of **Northern** and **Southern Pine, Oak** and **Spruce** for **Railroad Cars, Bridges, &c., &c.**

BRADFORD & RENICK,

3m50 **71 Broadway, New York.**

SHIP FELT, CARPET FELT, BOILER FELT.

THE very superior Felt, manufactured by the Lowell Felting Mills, can now be furnished in quantities to suit purchasers, from the new and extensive mills now completed. Also, pipe, truss, upholstery and all other Felts. Apply to the branch office of the Company.

EDW. F. DAVISON, 128 Pearl St.

AN ARCHITECT AND CIVIL ENGINEER, especially experienced in all Railroad Constructions, seeks an engagement either professional or as agent for some Company. Address Engineer, Box 3,369, Boston, Mass. 1m50

The American (Waltham) Watch.

The success of this company shows what can be done when genius, energy and capital are made to work together in the application of correct principles. The American Watch Co., of Waltham, Mass., commenced business ten years ago, with the assumption that the cheap European hand-made watches could not be uniform in their parts, and therefore could not be correct time-keepers. The company further assumed that if machinery could be constructed sufficiently delicate to fashion all the curious mechanism of the watch, this machinery would necessarily reproduce every spring, pinion, and wheel of *exactly* the same proportions; and if one perfect watch was made in this way, all others of the same kind would be like it. This was the principle—the only difficulty was in the application; and at this, invention, genius, skill and capital worked patiently, and expended liberally for months and years, until the principle was not only demonstrated to be correct, but the application a great success. The original modest workshops on the Charles River, at Waltham, have been enlarged, until the buildings now cover three acres; and instead of fifty operatives, nearly one thousand have constant employment in guiding the taper steel fingers of the curious machines, and in assorting, arranging and putting together the hundreds of parts, that finally make the watch. We know of no instance in the history of American manufacture where a *correct idea* has been more thoroughly elaborated, or produced a more satisfactory result. Instead of the comparatively worthless lepines, anchors, and patent levers we once imported from Europe in such great quantities, the Waltham Company have given us a reliable time-keeper at a moderate price, which they *warrant* to keep time; and their warrantee is worth all it calls for, not only at the company's office, but with any watch dealer.

At least, one of the leading railroad companies, (the Pennsylvania,) furnishes all its engineers with these watches, as a part of their equipment; and we have no doubt that an important reason why it has suffered so few accidents from collisions, is to be found in this fact.

[NOTE.—It is estimated that the American Watch Co., of Waltham, make nearly one-half of all the watches now sold in the U. S.]

The Ericsson Caloric Pump.

Upon the first experiment of propelling an Ocean Packet by *heated atmospheric air*, instead of *steam*; its manifest and great advantages in entire safety, economy of fuel and attendance, the comfort of passengers and increase of carrying capacity, by larger available space and better ventilation, caused thousands to hope that a new era in ocean navigation was at hand. Some of our readers will vividly remember how that noble Caloric Ship the "Ericsson" coming up our bay from an eminently successful trial trip, and making at the time over 12 revolutions per minute; was struck by a sudden squall, careened, taking in water through ports carelessly left open, and *sunk* in the *hour* of *her triumph*. *Doubtless* this was a "*failure!*" for men reputed "Scientific" called it so, and the public were not supposed to *care* why her caloric machinery greatly injured by salt water, was not replaced by new of the same kind; nor for the wrecking with this ship of her heroic indomitable owner's fortune. But this principle of Capt. Ericsson's Caloric Engine was not abandoned because Mr. Kitching's ship was wrecked. It was successfully developed in small engines, the first of which was put in the market sometime in 1857.

These have had an extensive sale for a great variety of purposes, employing numerous foundry and machine shops in their construction. During the ten years many improvements have been addod to the original engine, and whatever may have been the "Scientific" result of the experiment ship, it is certain that these engines are *no failure*, but amply justify the manufacturer's claim that their economy, facility of management, safety, durability, and reliable power are demonstrated beyond cavil.

One purpose to which they have been applied with great success, is pumping. In private houses, public buildings, in city and country for irrigation, and at railway water stations. We deem their successful use for this last purpose sufficient apology, if any were needed, for calling the attention of railway managers to this pumping engine. For such use, the 18, 24 and 32 inch cylinder engines are employed. We append a number of certificates from different roads, which speak for themselves. No parties needing power pumps can afford to ignore the claims of these pumps, and railroads requiring pumpers at water stations will do well to examine them before employing any other engines.

ENGINEER AND GENERAL SUP'TS OFFICE,
New York and Harlem R. R. Co.,
New York, Oct. 18, 1866.

JAS. A. ROBINSON, ESQ.

Dear Sir:—We have one of your engines for pumping water. It has been in use seven years; and has done, and is still doing well. The cost of running and maintaining it is very small—it receives the attention of a switchman only. As a power machine it has no equal except water itself.

Yours truly,
J. C. BUCKHOUT,
Engineer and Gen'l Sup't.

SUPERINTENDENT'S DEPARTMENT,
West Jersey, Cape May & Millville, & Salem R. R. Co.'s Office, *Camden, N. J., Nov.* 17, '66.

MR. JAS. A. ROBINSON.

Dear Sir:—We have eight Caloric Engines which have been in use from three to five years pumping water to supply as many stations for the use of our locomotives. Some of the engines

were purchased in Philadelphia, and some of yon, we prefer those on a solid cast iron bed plate as now made by you. Their performance has given entire satisfaction; the consumption of fuel, either wood or coal, very little, and attended by switchmen.

The cost of repairs has been small. We consider them the best appliance for the purpose above named, in use.

Very respectfully yours,
J. VAN RENSSELAER, Sup't.

OFFICE OF THE SUPERINTENDENT OF MOTIVE POWER AND MACHINERY,
Erie Railway,
New York, Nov. 23, 1866.

JAMES A. ROBINSON, ESQ.

My Dear Sir:—In reply to your inquiries concerning the Caloric Engine, I will say that we have five of these engines in use at different points upon the line of the road, and they have given the best of satisfaction. They are exceedingly economical, and are subject to but a slight depreciation under long service. In each case a common station laborer attends to these engines, and in fact they are as easily attended as a common stove. I do not hesitate to heartily recommend them to Railroad Companies for water station purposes.

Truly yours,
H. G. BROOKS,
Sup. M. P. and M.

FITCHBURG RAILROAD,
Superintendents Office,
Boston, Oct. 10, 1866.

MR. J. A. ROBINSON.

Dear Sir:—In answer to your inquiries respecting the Caloric Engines we have had in use, for the past eight years, on this road for pumping water, I am most happy to say, that they have proved perfectly successful. They are readily worked by an ordinary laborer, and do not require much more time or attention than a common coal stove. They are perfectly safe, and burn but comparatively little fuel.

Our engine at Waltham has now been in operation since Oct. 1, 1858. The water at this station is drawn from the river through a three-inch pipe, 500 feet in length, to a height of about 21 feet, and is then forced up about 20 feet over the top of the tank. The saving in fuel at this station is over eighty per cent.

At Groton Junction we use about 30,000 gallons of water per day, and in pumping this quantity of water, use less than a hundred pounds of coal.

Respectfully yours,
C. L. HEYWOOD, Sup't.

ATLANTIC AND GREAT WESTERN RAILWAY,
Office No. 12 Pine street.
New York, Oct. 11, 1866.

JAS. A. ROBINSON, ESQ.,
164 Duane street.

Dear Sir:—I have pleasure in giving you the experience of our road with the twenty Ericsson Caloric Pumping Engines sold us, by you and Mr. Kitching, in the year 1864.

Without exception, they have done the work required of them faithfully and well. They are admirably adapted to railroad pumping, in fact superior to any other engine known, being vastly more economical of fuel, requiring no water, or skilled attendance, and their simplicity and absolute safety enabling any employee of the road to take charge of them.

The cost of repairs has been insignificant. Your account against the company for the past twenty-four months has been hardly $2.00 per engine. Our experience, if different in this respect from that of roads employing such engines at an earlier date, proves the superior merit of your—"Improved Caloric Engine."

I unhesitatingly recommend them to any parties who need pumping engines, and am

Yours truly,
T. W. KENNARD,
Constructing Engineer,
A. & G. W. Railway.

Boston and Lowell Railroad.

The receipts from operations of this road for the fiscal years ending September 30, 1865 and 1866, have been as follows:

	1865.	1866.
From passengers	$355,024 48	$393,318 39
" freight	381,971 83	567,070 91
" mails	6,263 42	5,630 59
" expresses	9,345 19	13,002 19
Totals	$752,605 63	$979,022 08
Expenses, viz:		
Repairs of road	$115,567 74	$111,986 15
" equipment	84,938 77	131,417 88
" bridges	5,332 58	24,482 49
" houses, gates, etc.	32,807 83	46,587 09
" depots	9,256 87	11,997 64
Merchandise expenses	51,345 43	66,812 75
Fuel	85,335 30	97,153 86
Wages	71,750 23	81,436 57
Taxes and insurance	35,706 37	52,339 43
Rents to all other roads	42,798 17	43,597 80
Oil and waste	12,083 20	14,350 85
All other expenses	33,451 19	53,381 02
	$580,373 68	$735,493 03
Net receipts	$172,231 95	$243,529 05

The income of this company from all sources during the years named has been as follows:

	1865.	1866.
Receipts, as above	$752,605 63	$979,022 08
Rents	1,166 29	1,141 29
Premium on bonds	768 50	.....
Trustees of sinking fund	9,734 82	16,145 31
	$764,875 24	$996,308 68
Expenses, as above	$580,373 68	$735,493 03
Interest	41,072 76	42,995 00
Dividends	105,947 36	146,400 00
Stockhold'rs local taxes	16,320 11	21,066 96
Carried to reserve fund.	20,561 33	50,353 69
	$764,275 24	$996,308 68

The Reserved Fund Account at the commencement and close of each year was as follows:

	1865.	1866.
Balance from previous year	$482,920 80	$503,482 13
Transportation account.	172,231 95	244,248 92
Rents account	1,166 29	1,141 29
Bond account	768 50	.....
Accumulation of sinking fund	9,734 82	16,145 31
	$666,822 36	$765,017 65
Less dividends and int.	$163,340 23	$211,181 83
Reserve Sept. 30	$503,482 13	$553,835 82

The sinking fund for the redemption of the bonds of the company, which will be payable in 1873, amounts to $250,127 13. This fund has been increased during the past year by cash payments to the Trustee $18,300, and by its own accumulation $16,145 31. Two dividends of four per cent. each were declared during the year, one payable in January, and the other in July, 1866, amounting free of tax, to the sum of $146,000.

By reference to the annexed statement it will be seen that the whole cost of the construction and equipment of the road, including cost of other assets held by the company, is $3,099,132 87; being $553,835 82 more than the sum of the capital stock and debts of the corporation, as therein stated.

In addition to the dividends above noted, another dividend of four per cent, and taxes, was declared, payable January 1, 1867, to stockholders of record on the 6th of December. Also, a dividend of 20 per cent, payable in stock or in money at the option of the company to stockholders of record on the 5th ultimo; in settlement of which the Treasurer has been directed to call in the outstanding certificates of shares, and to issue to the holders thereof new certificates, with the following indorsement, signed by him:

"There will be due and payable on the first day of October, 1873, to the then holders of these shares, twenty per cent. on the par value thereof, payable either in the stock of the company at par or in money at the option of the Corporation, on the surrender of this certificate by the holder thereof, at the office of the Treasurer; and, until said first day of October, interest from January 1st, 1867, at the rate of three per cent. per annum on said twenty per cent. dividend will be payable on the first day of January, annually, at the office of the Treasurer, to the Stockholders of such shares as recorded on the fifteenth day of December previous."

The condition of the company at the close of each year was as follows:

Assets:	1865.	1866.
Cost of road	$2,446,494 54	$2,456,140 73
Cost of equipment	192,638 25	192,638 25
Notes receivable	154 38	154 38
Trustees of sinking fund	215,681 82	250,127 13
East Cambridge Flats	6,796 33	6,796 33
Fuel, materials on hand, etc.	135,161 13	171,786 59
Cash	23,673 59	21,489 46
	$3,020,600 04	$3,099,132 87
Liabilities:		
Capital stock	$1,830,000 00	$1,830,000 00

	$3,020,600 04	$3,099,132 87

President.—F. B. CROWNINSHIELD.

Directors.—F. B. Crowninshield, George W. Lyman, J. G. Abbott, William Minot, Jr., and Hocum Hosford.

Treasurer.—J. THOS. STEVENSON.

Superintendent.—J. B. WINSLOW.

☞ The Legislature of Arkansas has passed an act, which was approved by the Governor on the 20th of December, incorporating a company to build the Little Rock and Fort Towson Railroad, which is to go by the way of the Hot Springs, thence in a southwestern direction to Fort Towson, passing through the State of Arkansas. It is proposed by the company, who have a capital of $5,000,000, to extend the road on through this country and Mexico until it touches the Pacific shore. It is also proposed that the road shall

connect with the Little Rock and Memphis Railroad.

Southwestern (Ga.) Railroad.

This road is 106.10 miles in length, commencing at the city of Macon, and running thence, *via* Fort Valley, Americus and Smithville, to Albany. At Fort Valley commences the branch to Butler, 22 miles in length; at Smithville, the branch to the Chattahooche, opposite Eufaula, 59.08 miles; and at Cuthbert, on the line of the latter road, the Cuthbert and Fort Gaines Extension, thence to Fort Gaines, 21.89 miles—making the total length of road and branches 209.07 miles. The following is a comparative statement of the earnings of this road during the fiscal years ending July 31, 1860 and 1866:

	1860.	1866.
From up freight	$203,818 75	$328,045 62
" down freight	214,270 07	178,343 86
" up passage	113,570 01	47,322 05
" down passenger	115 627 29	260,732 45
" U. S. mail	23,082 55	.....
" miscel. sources	6,527 20	41,501 62
	$676,895 87	$856,845 60

The expenses for operating the road in 1865-'66, were:

Repairs of road	$223,276 78	
" buildings	4,479 17	
Fuel and water	24,276 84	
Maintenance of motive power	72,583 77	
Maintenance of cars	70,809 25	
Transportation expenses	111,575 73	
Incidental expenses	6,042 59	
		513,044 13
Showing net earnings for the year of		$343,811 47
To which add new bonds issued for construction		58,000 00
Making the total sum of		$401,801 47
From which deduct—		
February div. of 4 per ct.	$127,936 00	
Interest on bonds to date	73,513 34	
Revenue tax	26,934 85	
Bonds paid to date	60,500 00	
Annuity three years to city of Macon	3,750 00	
Paid for construction	40,804 20	
" 47 freight cars	36,598 00	
Macon depot	60 00	
		370,096 39
Leaving a surplus of		$31,705 08

The number of miles of road in use during the year was only 187½—the iron from the Fort Gaines branch having been removed during the war. The total earnings per mile were therefore $4,569 84; the expenses, $2,736 24—and the net earnings, $1,833 60. There were transported during the year 87,250 bales of cotton, of which 77,972 bales were from the Southwestern Railroad proper, and 9,278 bales from the Columbus and Muscogee Railroad. The number transported in 1860 was 206,307—a decrease of 119,057. By the Southwestern Railroad to Macon there were 27,478; from Columbus and Muscogee Railroad to Macon 1,660 bales, total 29,133—a decrease to Macon the past year of 3,508 bales. Number of through passengers for the year 10,867; way do., 104,920—total, 115,787; being an average per day of 317, against 353 in 1860, and 1,162 in 1865. Total number of passengers carried over the road since it was opened, July 1, 1851, 2,018,287.

The company had 22 locomotives, of which 10 were in good order, 3 were in shop for repairs, 7 wanting repairs, and 2 were out of use; 13 first class, 7 second class and baggage, 8 mail and express, 12 conductor's, and 210 box, platform, stock and provision cars.

Number of miles run by passenger and mail trains, 122,660; by freight and other trains, 141,864—total, 264,524. The President, in his report, says:

As remarked in a former report, there fell due in 1862, 1863, 1864, and in the spring of 1865, bonds of this company, amounting to $60,500 00, which were not presented for payment as they respectively fell due, but have been presented and paid during the past fiscal year, as will be seen above.

In addition to the bonds, the interest coupons were retained in the hands of the holders, and we have paid during the same time upwards of $50,000 00 interest, which had accrued prior to 1865. We have also purchased forty-seven freight cars, at a cost of $36,598 00. This purchase was made from the United States Government, at Nashville, and became necessary as our old rolling stock was not only much reduced in quantity, but its usefulness much impaired for want of proper materials to keep it in running order.

Your attention is also directed to the item of construction, which amounts to $40,804 20. Of this sum $35,744 20 have been expended on the bridge over the Chattahoochee River and the depot grounds at Eufaula. The remainder has been spent in reconstructing the branch road from Cuthbert to Fort Gaines. You are aware that an order was issued by General Beauregard, during the war, to take up the iron on the above branch road; which was done, and distributed as follows: a portion to the Central, the balance to the Macon and Western and Atlanta and West Point Railroads. These roads are now returning part of said iron, and have agreed to purchase the balance from this company.

We have purchased during the past Spring 500 tons of T rail of the Chattanooga Rolling Mills, weighing fifty-one pounds to the yard, and paid for the same out of the receipts and earnings of the road. We will need and expect to buy between 600 and 700 tons more of iron, which we hope to be able to pay for from the sale of the iron mentioned above, taken from our branch road; likewise from sales of our old and worn rails now on hand.

There is another item of expense connected with our past year's operations, which your road has not been subjected to heretofore, and to which we would call your attention. We allude to revenue tax; amount paid since our last report, $26,934 85. The greater portion of this amount has been assessed on our gross earnings monthly, which are subject to a tax of two and one-half per cent.

The Board has been particular in directing your attention to these more than ordinary expenditures, because the net earnings of the road have been more than sufficient to have paid its stockholders a dividend of $4 00 per share, for the past six months, and would have done so, had the holders of the bonds and interest coupons presented them for payment at maturity. But as they became due during the existence of the war, and Confederate Treasury notes being the only circulating medium at the time, parties holding these securities preferred retaining them rather than receive the then existing currency. For the future, the Board sees no reason why regular dividends should not be declared and paid to the stockholders, of at least eight per centum per annum. As your road is mainly dependent upon the agricultural products of the section of country through which it penetrates, for its maintenance and support, the Board feels that, notwithstanding the reports which reach them of the shortness of the cotton crop, that the area or breadth of land seeded is greater than usual, in some of the counties contiguous to your line of road, and that, although the yield per acre may not be so large as formerly, the increased number of acres will go far in making up the deficiency.

The Board, knowing the importance of keeping not only the line of road in good running order, but the rolling stock, and everything else connected with it, so as to insure a safe transit of passage and freight, and believing at the same time that the stockholders are entitled and should receive a reasonable interest upon their investment, have been compelled, from the necessity of existing circumstances, to increase the rates of passage and freight from what it was in 1860, to an average of about fifty per cent. It is needless to say, as it is patent to every one, that this increase does not correspond with the increased price of labor and materials of every kind necessary to carry on the operations of your road. These have increased from one hundred to three hundred per cent. more than they were in 1860; and whilst the Board would be gratified, were it consistent with your interest, to still lessen the tariff of passage and freight, it cannot at the present time do so without doing you both an injury and an injustice. But should circumstances intervene so as to cause a diminution of prices of material, labor, etc., the Board will take great pleasure in arranging a corresponding tariff of freight and passage.

The receipts and disbursements of the funds of the company to August 1, 1866, have been as follows:

Capital stock	$3,203,400 00
Funds for extension of road	66 00
Bond account issued for 20 years	328,000 00
" " 10 "	58,500 00
" " 20 " endorsed	51,000 00
Fare tickets issued	21,020 00
Freight earnings	513,178 64
Passenger "	323,182 32
Due other roads	5,105 63

President.—WILLIAM S. HOLT.

Directors.—John W. Anderson, Wm. A. Black, T. M. Furlow, John McNab, John E. Jones, W. M. Wadley, and Virgil Powers.

Treasurer.—JOHN T. BOIFEUILLET.

Engineer and Sup't.—VIRGIL POWERS.

Cleveland and Pittsburg Railroad.

The following gentlemen have been elected directors of this company for the ensuing year: James H. Banker, C. W. Durant, David Dows, Thos. Slocomb and John Steward, of New York; J. H. Tracy of Chicago; J. N. McCulloch, of Wellsville, Ohio; W. W. Holloway, of Bridgeport, Ohio; B. F. Jones and J. H. Shoenberger, of Pittsburg, and J. F. Clark and T. P. Handy of Cleveland.

Dry Goods Trade.

The imports of foreign dry goods at the port of New York for each month of the years 1865 and 1866, are officially stated as follows:

	1865.	1866.
January	$2,350,635	$15,769,091
February	3,723,690	16,701,578
March	5,324,599	15.833,273
April	3,869,706	7,336,564
May	3,913,468	7,299,112
June	5,442,068	6,775,244
July	7,226,233	10,727,463
August	13,462,212	14,870,338
September	11,198,257	9,175,675
October	12,187,332	8,485,550
November	12,687,947	7,259,236
December	10,578,991	5,989,731
Total	$91,965,138	$126,222,855

The following table shows the classification of these imports in comparison with the preceding year:

	1865.	1866.
Manufactures of wool	$36,074,585	$50,405,179
" cotton	15,350,064	21,287,490
" silk	20,556,261	24,837,734
" flax	15,402,602	20,456,870
Miscellan's dry goods	4,581,626	9,235,582
Total imports	$91,965,138	$126,222,855

The value of foreign dry goods entered directly for consumption at the port of New York during the past two years is as follows:

	1865.	1866.
January	$1,320,669	$10,738,030
February	2,478,793	11,979,918
March	3,838,535	10 548,433
April	2,509,347	4,966,626
May	2,667,469	4,850,893
June	4,260,661	3,873,573
July	4,924,089	7,862,548
August	11,511,752	9,096,521
September	10,087,555	6,348,181
October	10,293,995	5,462,752
November	9,836,557	3,788,539
December	6,960,983	2,417,692
Total	$70,690,405	$81,933,706

The value of foreign dry goods entered for warehousing during the same time was:

	1865.	1866.
January	$1,029,966	$5,031,061
February	1,244,897	4.721,660
March	1,486,064	5,284,840
April	1,360,359	2,369,038
May	1,245,999	2,448,219
June	1,181,407	2,901,671
July	2,302,144	2,864,915
August	1,950,460	5,773,817
September	1,110,702	2,827,494
October	1,893,337	3,022,798
November	2,851,390	3,470,697
December	3,618,008	3,572,039
Total	$21,274,733	$44,289,149

The value of foreign dry goods withdrawn from warehouse was:

	1865.	1866.
January	$1,393,534	$3,775,612
February	1,682,311	3,238,900
March	2,424,097	3,943,181
April	1,457,029	3,569,177
May	3,698,800	2,351,454
June	1,369,108	3,104,174
July	2,106,366	2,229,508
August	2,987,070	5,512,279
September	1,489,600	3,708,415
October	833,970	1,983,305
November	853,601	1,945,666
December	877,167	1,289,565
Total	$21,172,563	$36,653,236

The total imports of foreign dry goods at this port since the year 1849, compare as follows:

Year.	Invoiced Value.	Year.	Invoiced Value.
1849	$44,435,571	1858	$60,154,504
1850	60,106,375	1859	113,152,624
1851	62,846,731	1860	103,927,100
1852	61,654,144	1861	43,636,689
1853	93,704,211	1862	56,121,227
1854	80,842,936	1863	67,274,547
1855	64,974,062	1864	71,589,752
1856	93,362,893	1865	91,965,138
1857	90,534,129	1866	126,222,855

Grain Trade of Chicago.

The receipts and shipments of flour at Chicago during 1866, and the four preceding years have been as follows:

	Receipts. bbls.		Shipments. bbls.
1862	1,663,391	1862	1,739,849
1863	1,474,284	1863	1,536,691
1864	1,141,791	1864	1,153,486
1865	1,186,561	1865	1,022,527
1866	1,857,200	1866	1,797,100

This shows an increase in receipts of flour in 1866 over 1865 of 670,639 bbls.; and in shipments of 774,573 bbls.

The receipts and shipments of corn during the same years were:

	Receipts. bush.		Shipments. bush.
1862	29,449,328	1862	29,452,610
1863	26,450,568	1863	24,444,147
1864	13,623,087	1864	12,657,925
1865	25,125,638	1865	24,648,153
1866	33,035,031	1866	33,400,354

The increase in receipts is here shown to be 7,909,393 bushels; and in shipments 8,752,201 bushels. It will be noted also that the receipts and shipments of 1865 were nearly double those of 1864. This gain is entirely owing to the large and excellent crop of 1865, which in quantity and quality has never before been excelled in the west.

The receipts and shipments of wheat at Chicago during the years named were as follows:

	Receipts. bush.		Shipments. bush.
1862	13,978,116	1862	15,808,898
1863	11,180,344	1863	9,341,881
1864	11,257,196	1864	10,545,389
1865	9,465,618	1865	6,777,818
1866	11,960,991	1866	9,670,000

The receipts of wheat in 1866 exceed those of 1865 by 2,495,393 bushels; and the shipments by 2,892,182 bushels. It will be noticed that the business of 1865 was exceedingly small. In 1862 it was much larger even than in 1866. The average receipts for the five years given were 11,568,453; and the average shipments 10,428,797.

The receipts of barley during the year 1866 were 1,505,590 bushels; in 1865 they were 1,595,754—a decrease of 90,164.

The receipts of rye were 1,935,818 bushels, against 1,116,109 in 1865, and 969,116 in 1864.

The receipts of oats were 10,048,320 bushels against 10,337,899 in 1865, and 13,653,941 in 1864.

The total receipts of all Grain—Flour into Wheat—aggregate 67,771,750 bushels, against 53,622,823 bushels received in 1865—showing an increase of 14,148,927, or a little over twenty-six per cent.

Had it not been for the partial destruction of the Wheat, Rye and Barley crops, in 1865 and 1866, the receipts for the year just closed would have shown a much greater increase. Next year a large gain in receipts is not expected, owing to the damages inflicted on the crops by the rains, in August and September. The early frosts in the middle of September and the late rains, greatly retarded the growth of the Corn crop, and in many sections it never reached its full development.

Railroad from Greenfield to Turner's Falls.

The engineer of the Hartford and New Haven Railroad, it is stated, is preparing plans and specifications at the office of the Connecticut River Railroad in Springfield, for the proposed branch line from Greenfield to Turner's Falls. The line will be about three and a half miles in length, and the largest part of the work of construction will be required in excavating several hundred feet through a rocky ledge near the river, and in building the bridge over the Connecticut. The junction with the Connecticut River Railroad will be made about a half mile above the present passenger depot at Greenfield. The Legislature will be petitioned at its next session for an act authorizing its construction. The Connecticut River Railroad will probably build the road next season, and also begin the grading for the extension of their double track from Chicopee to Holyoke.

Debts of Massachussetts Cities.

From the different messages we gather the following items in regard to the debts of the several cities of this State:

Cities.	Debts.
Boston	$13,020,375 91
Charleston	1,387,150 00
Cambridge	871,092 00
Lynn	450,500 00
Lowell	293,560 81
Lawrence	326,900 00
Fall River, about	280,000 00
Springfield	334,692 99
Newburyport	214,723 61

☞ The construction of the Cincinnati Branch of the Louisville and Frankfort Railroad is now regarded as certain. The Lexington *Observer* states that subscriptions to the bonds amounting to $1,500,000 have been closed, and that as much more could have been obtained if necessary.

Finances of Indiana.

The condition of the State Treasury on the 1st of November, 1866, according to the report of the Auditor was as follows:

Balance from previous year	$86,051 34
Total receipts	3,957,035 23
Total	$4,043,086 57
Warrants drawn	3,661,564 68
Balance in Treasury Nov. 1, 1866	$381,521 89
Being a difference in favor of the present year, as against last, of	$275,470 55

The receipts have been made up from the following sources:

Revenue	$1,764,653 59
Common school	1,114,345 02
State debt sinking fund	540,212 55
Relief of soldiers' families	82,428 33
Miscellaneous	455,895 74
Total as above	$4,043,086 57

The disbursements have been for the following:

Ordinary expenditures	$242,281 71
Office expenditures	27,100 86
Public institutions	426,359 44
Military expenditures	306,394 01
Public indebtedness	1,048,087 89
College fund	24,217 08
Common school fund	1,164,114 27
Miscellaneous	423,009 42
Total as above	$3,661,564 68

It will be seen that the disbursements for the common school fund have been fifty thousand dollars more than the receipts, which sum has been paid by the Treasury upon the amount due that fund from the State. The receipts last year were $2,742,989 19, showing an increase of $1,214,046 04. Last year the disbursements were $3,901,826 52, a decrease this year of $240,261 84. The increase of receipts have arisen principally from the large increase of valuation, and the increase from ten to sixteen cents tax on the school fund.

The levy for taxes for the year 1866 is as follows:

State tax	$1,602,657 80
School tax	1,030,063 26
Sinking fund tax	1,118,600 56
County tax	3,214,729 33
Road tax	562,702 51
Township tax	290,690 25
Special school tax	902,877 28
Township library tax	44,492 79
Dog tax	154,840 00
Bounty tax	874,167 30
Other tax	275,647 41
Total for 1866	$10,167,834 39
Delinquencies for 1865 and previous year	1,389,786 05
Total	$11,574,218 69

The valuation of real and personal property in 1865 and 1866 is as follows:

	1865.	1866.
Number of acres	22,186,088	22,380,504
Value, without improvements	$247,686,046	$257,746,560
Value of improvements.	60,309,071	60,758,441
Value of lands and improvements	311,133,724	243,304,658
Value of town lots	28,319,072	29,388,021
Value of improvements on town lots	30,209,730	33,993,888
Value of lots and improvements	62,257,337	66,488,688
Valuation personal property	197,067,339	194,814,483
Total valuation	$567,381,553	$578,484,109
Number of Polls	198,271	228,878

This shows an increase for the year of 30,607 polls, and $11,102,556 in the valuation of taxable property, and an increase over the valuation of 1864, of $61,678,110, of which $44,877,933 is the increase of the valuation of personal property, and about six millions increase in the valuation of improvements in town property.

There are due the different funds the following amounts, Nov. 1, 1866:

College fund	$597 43
Saline fund	34,323 89
Bank tax fund	24,636 38
Surplus revenue tax	786 61
Three per cent. fund	32 13
Fund from estates without heirs	8,911 28
Common school fund	40,513 56
State debt sinking fund	324,585 28
Swamp land fund	58,736 16
	$493,182 72
On hand in treasury	381,521 89
Showing a deficit of	$111,660 83

On the first of November, 1865, the amount due these funds was $563,800, a reduction during the year of $70,617 38, fifty thousand dollars of which has been paid to the common school fund.

The excess of receipts over expenditures during the past year is $275,470 55. During 1865, the receipts were $2,742,989 19, and the expenditures $3,901,866 52, an excess of expenditures amounting to $1,198,837 33.

The expenses contrasted for the two years are:

1865	$3,901,826 52
1866	3,661,564 68
Balance in favor of 1866	$240,261 84

The amount of free bank circulation outstanding on the 1st of April, 1865, was $1,293,750; on the 31st of October, 1866, there was but $73,770, showing a reduction during eighteen months of $1,219,980.

Interest and Dividends.

The Terre Haute and Indianapolis Railroad Company have declared a semi-annual dividend of five per cent., free of United States Tax, payable January 7.

The Columbus and Indianapolis Central Railroad Company have declared a quarterly dividend of two and a half per cent., free of Government tax, payable at the company's office at Columbus, Ohio, on and after the 15th inst.

The Lehigh Valley Railroad Company have declared a quarterly dividend of two and a half per cent., payable January 17, 1867.

The Ogdensburg and Lake Champlain Railroad Company have declared a dividend of $3 per share on the common stock, payable Feb. 1, free of U. S. Tax.

The Milwaukee and St. Paul Railway Company have declared a dividend of ten per cent., payable in Common Stock or, at the option of the company, of five per cent. cash to the Preferred Shareholders as shown by their books, January 1st 1867. The transfer books will be re-opened January 20, 1867, and the dividend will be due to those in whose names the stock stands on that day. Dividend payable on or before June 1st, 1867.

The Erie Railway Company have declared a dividend on the preferred stock out of the earnings of the year ending Dec. 31, 1866, of 7 per cent., less Government tax, payable on the 21st inst.

The Winnisimmet Railroad Company have declared a dividend of $1 per share, payable Jan. 15. The Berkshire, 1¾ per cent.; Concord and Portsmouth, 3½; Pittsfield and North Adams, 3; Taunton Branch, 4; Cape Cod, 5; Worcester and Nashua, $4 per share; Cheshire, $2 50; Ogdensburg and Lake Champlain, $3 per share.

Northern Pacific Railroad.

The communication from the Secretary of War, transmitting facts and estimates concerning the Northern Pacific Railroad, recently sent to the Senate in response to a resolution, covers a statement from the Quartermaster-General, who estimates that transportation will be required for fifteen hundred men and $15,330,000 worth of military supplies, basing the calculation upon the supply of fifteen military posts, each named, with one hundred and forty foot and seventy mounted men, ten of them from the eastern terminus, and five from the western.

The estimates of the cost of the road, prepared by Brevet Brigadier-General Simpson, are as follows: For construction of 2,044 miles of road, $149,488,665; for rolling stock and fixtures, at $112,000 per mile, $228,994 86; for steamers on the Missouri and Columbia rivers, $3,000,000; for engineering and contingencies, $10,000,000; for tunnelling, beyond the estimated average per mile, $11,078,398. These and other items make a total of $206,600,340, or an average per mile of $101,040.

Lewisburg, Centre and Spruce Creek R. R.

At a meeting of the stockholders of this company, held at Lewisburg, Pa., on the 26th ult., it was voted to transfer the franchises of the company to the "Philadelphia and Erie Company, or any other company that will guarantee to commence the road and complete it without delay from the eastern terminus of the Philadelphia and Erie road, at least as far westward as Lewisburg." The following is the text of the preamble and resolution which was adopted by a vote of 318 to 3:

Whereas, By a vote of the stockholders of the Lewisburg, Centre and Spruce Creek Railroad Company, held this 26th day of December, 1866, at the Riviere House in the borough of Lewisburg, Union County, Pennsylvania, it was decided in favor of transferring the charter of said company to the Philadelphia and Erie Railroad Company, or to any other railroad company that will without delay commence said road at the eastern terminus, or at the Philadelphia and Erie Railroad, and complete it at least as far as Lewisburg; therefore

Resolved, That Colonel Eli Slifer, Hon. John Walls, Hon. George F. Miller, James P. Coburn, and Robert H. Duncan, Esqs., be and are hereby appointed a committee, by said stockholders of the Lewisburg, Centre and Spruce Creek Railroad Company, to carry out the arrangements voted for this day, with full power and authority to make the transfer on obtaining a sufficient guarantee for the commencement of the road at the eastern terminus, or at the Philadelphia and Erie Railroad, and complete it without delay at least as far as Lewisburg, and to report to the next meeting of the board of directors or meeting of the stockholders.

Terre Haute and Indianapolis Railroad.

A despatch from Indianapolis, dated January 6, says: The Indianapolis and Cincinnati Railroad Company have purchased the Indianapolis and Terre Haute Railroad, as an addition to their own line. The Terre Haute road will be run in the interest of the Bellefontaine and Lake Shore Railroad. The stockholders of the Terre Haute road receive over fifty per cent. premium for their stock. The Terre Haute road has the best road bed and equipment in the State or the West, and has paid well. One reason for selling was probably in consequence of the Cincinnati road threatening to construct a competing parallel line from Martinsville westward, at which point it has a branch road.

☞ The Chicago and Michigan Grand Trunk Railroad which proposes to connect with the Port Huron road at Lansing, and reach Chicago by way of Hastings and Pawpaw, St. Joseph and Michigan City, has now about $375,000 worth of stock subscribed. Extensive surveys of the route have been made, and it is believed the right of way will in most instances be granted. Hon. A. H. Morrison is President; J. P. Thresher, Secretary; and B. C. Hoyt, Treasurer.

☞ During the past year the following loans of the City of Philadelphia have been purchased and cancelled: Plain 5 per cent. loan, $59,750 35; Plain 6 per cent., $441,113 35; Pennsylvania Railroad, $315,600; North Pennsylvania Railroad, $144,800; Hempfield Railroad, $47,900; making a total of $1,000,163 70.

American Railroad Journal.

Saturday, January 12, 1867.

Stock Exchange and Money Market.

A livelier movement has been reported in money through the past week, resulting in part from private negotiations on Treasury account, in part from the efforts of the local banks to make a creditable exhibit in their quarterly statements to the Department, and in part from an increase of remittances to the South, to aid in the marketing of the cotton crop. All these circumstances have had a direct influence on the call loan market, modifying the amount of capital immediately available to other than the most unexceptionable borrowers, and keeping up the rate on railway and miscellaneous stock collaterals to fully seven per cent. The dealers in the public funds have had ample means furnished to them at six per cent. The discount market has been devoid of animation. The active inquiry from the Stock Exchanges and the Gold Room for temporary accommodation has operated against the calls of mercantile borrowers. The best short date commercial paper has been quoted at 7@7½, and very good do. at 8@8½ per cent. per annum with a limited volume of negotiations in either class, and no noticeable movements in inferior grades of paper. The last weekly statement of the City Banks has been interpreted favorably for an easy working of the loan market in the immediate future, and the current reports from the street are of a steady increase in the available supply of capital seeking controllable and lucrative employment, which tends to the benefit of borrowers. The local bank return for the past week showed an increase of $2,025,434 in legal tender-reserve, $1,722,274 in deposits, and $98,253 in circulation, with a decrease of $1,502,301 in the loan item, and $390,430 in specie. The specie reserve of the banks is now $12,794,792, against $15,778,471 the same time last year. The city bank deposits are now $202,533,564, against $228,-484,370 week ending Oct. 6, 1866, and $195,482,-254 week ending Jan. 6, 1866. Their legal tender reserve amounts to $65,026,121, against $71,-617,487 same time last year. Their circulation now stands at $32,762,779, against $18,588,428 same time last year. The loans are now $257,-852,460 against $279,135,790 nine weeks ago, and $233,185,059 at this date last year. The Bank Exchanges at the Clearing House, through the past week, averaged $97,395,557 a day, against a daily average of $101,183,599 the preceding week; and $103,183,599 the week ending with Dec. 23. The current week's exchanges average about $105,605,000 a day.

National Bank notes to the amount of $18,-000, were issued last week, making the total issue to 1,663 banks thus far $300,755,351, against $282,-555,440 at the close of the last fiscal year, June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $2,145,932, leaving, with the existing 1,650 banks, an actual circulation at this date, of $298,609,419. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $340,363,-150; and for the public deposits, $38,933,950—making a total of $379,297,100. The Treasury Department, last week, redeemed and destroyed $262,928 of worn and mutilated fractional currency, and issued $808,719 worth of new.

The official January exhibit of the National indebtedness has been published since our last. It showed a further liquidation in December of over six millions, making over $214,000,000 paid off in sixteen months. The most important changes in December were a reduction of $25,243,450 in the currency interest bearing debt, and an increase of $29,422,150 in the coin interest bearing bonds. The legal tender circulation was diminished during the month $4,944,007 in the plain greenback form, and $2,486,300 in the compound interest notes. The aggregate net indebtedness of the Government was on the 31st of August, 1865, $2,757,-681,571; on the 31st of the following October, $2,740,854,758; on the 31st of July, 1866, $2,633,-099,276; on the 30th of November, $82,549,631.-238; and on the 31st ult., $2,543,235,174. The net aggregate of public indebtedness of the country was reduced full $173,156,362 in the year 1866, or at the rate of nearly fourteen and a half millions a month. The liquidation of the debt has been attended by a progressive contraction of the outstanding volume of legal tender notes. The aggregate legal tender circulation is now $525,-368,862, against $532,828,989 on the 1st ult., showing a decrease of about seven and a half millions in a month. The plain greenback circu-

lation on June 1, was $402,128,318; Aug. 1, $480,-361,728; Sept. 1, $399,603,592; Oct. 1, $398,165,-292; Nov. 1, $390,495,785; Dec. 1, $385,441,849, and Jan. 1, 1867, $380,497,842, showing a contraction of about twenty-three millions in seven months.

The U. S. Sub-Treasury receipts, week ending with Jan. 5, were $17,565,951, including $1,584,-037 from customs duties; payments, $12,304,499; balance at the close of the week, $102,613,658; against $97,352,206 at the close of the preceding week. The business of the Office during the first two day of the current week, was as follows: Receipts on Monday, $5,172,712, and payments, $4,430,341; on Tuesday, receipts, $9,005,640; payments, $10,143,858. The balance at the close of business on Tuesday stood at $102,217,810, against $98,085,507 a week previous.

Government revenues are increasing again, quite encouragingly. Excises, last week, yielded about $6,955,298, against $4,000,000 the preceding week; customs at the port of New York, (in five business days) 1,584,037, and at the outports, about $500,-000 (in coin) more, making the grand total income for the week equal about $9,779,000 in currency, against disbursements of only about $2,800,000 on account of the three leading executive departments. The total receipts of the National Treasury, from excises, since July 1, 1866, have been about $175,000,000, or some thirty millions in excess of the Treasury estimates. In the calendar year ending with Dec. 31, 1866, the customs revenue of the Government (in coin,) at all the ports of the country was about $180,000,000, including $130,222,000 at the port of New York, against gold interest disbursements, through the year, of $70,680,377, including $48,680,377 through the port of New York. In the course of the year, of the surplus coin revenue, $66,216,424 were sold or otherwise disposed of, for the benefit of the Treasury, and the proceeds applied chiefly to the reduction of the public debt; while $42,951,878 were added to the Treasury coin reserve, the aggregate of which, Jan. 1, 1867, was $97,841,968, including the deposits on private account, which amounted to $16,462,680. Since Jan. 1, the Treasury Department has been disbursing January coin interest liberally, increasing the available supply of gold in the open market, and making a corresponding diminution of the coin reserve in the Treasury vaults. On Tuesday, the Treasury held $91,849,000 in coin, against $97,821,967 on the first of the current month of January.

Gold has been advancing in price, gradually, since the 1st inst. The week's fluctuations have been from 132 to 135½. There has been more steadiness in the market since Monday. The extremes on Wednesday were 134¾@135⅝, and the closing figures on that day 133¾. The demand for gold has been quite active, through the week, chiefly from speculative sources. The customs inquiry has been increasing, and is now up to an average rate, with the prospect of an improvement, as trade revives and the withdrawal of foreign goods from bonded warehouses progresses. The export demand is quite insignificant. The total imports of specie from Europe, and other foreign ports in 1866 were $9,678,432. The customs demand for Gold last week, averaged $316,805 a day; thus far, this week, it has been equal to $367,173 a day, or equal to a weekly aggregate of $2,203,038. The arrivals of specie from Europe, Havana and other foreign ports, during the week reached $12,-233, and from California, none. The total customs revenue of the Government, in coin, at this port, in 1866 was $130,222,092, against $102,794,-945 same time last year. The total receipts of California gold at this port in 1866 were $42,750,-965, against $20,680,164 same time last year, showing an increase, in 1866, of $22,070,801. The exports of specie from this port, last week, were $817,512. The total outflow of specie from the port, during the year 1866 was $62,553,700, against $30,003,683 in 1865, $50,804,921 in 1864, and $69,715,866 in 1859. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, $3,934,000. The total coin interest disbursements through the Government office, in 1866, were $48,680,377, against $40,405,279 same time last year. The specie exports from San Francisco from Jan. 1, to Dec. 4, reached $41,834,169, against $42,240,601 same time in 1865. A telegraphic dispatch from San Francisco reports the receipts of treasure at that port from all sources for the year 1866 at $53,647,519 and the exports therefrom at $44,865,668.

A moderate business has been reported in Foreign Exchange on a comparatively firm market. The supply of prime bills has been rather less extensive and leading drawers have been unwilling to sell at anything off full asking rates. Bankers' 60 day bills on London closed at 109⅛@109⅜, and on Paris to 5.18¾@5.15; sight bills on London to 110@110¼; and on Paris to 5.15@5.13½. The offerings of produce bills have been fair since our last. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $3,-716,624. The exports in 1866, were to the value $191,703,602, against $178,626,298 in 1865.

Government securities have been in good demand, through the week, chiefly for home investment purposes opening at buoyant prices, and closing without any remarkable depression, despite the efforts which have been made to use the political discussions and excitement at Washington, to damage the public credit. The inquiry has been mainly for the favorite six per cent. gold bearing bonds of 1881, and the various issues of the Five-Twenties, especially the earliest and the latest. The outstanding Five-Twenties of all issues now amount to $891,125,100. The six per cents of 1881 now amount to $283,740,850, against $283,740 a month ago. These, with the $171,-069,350 of ten-forties constitute the bulk of the coin bearing portion of the debt. The Seven-Thirty notes have attracted less attention than the funded obligations and have been less buoyant in price. The three series of the seven-thirty currency loan now outstanding reach $676,856,600 against $699,933,750 a month ago, making the total reduction in the Seven-Thirty line (mainly of the first of August issue, maturing in about seven months) about $153,000,000 from the original aggregate issue of $830,000,000. There has been a better inquiry for the compound interest notes at firmer rates. U. S. sixes of 1867 closed here on Wednesday at 127@128; U. S. sixes of 1868, at 128@129; U. S. sixes of 1881, 108⅛@108⅜; U. S. Five-twenties of 1862 at 107⅝@107¾; U. S. Five-twenties of 1865 at 106@106¼; U. S. Five-twenties of 1865, consolidated, 104@104⅛; U. S. Ten-forties at 99¾@100, and U. S. Seven-thirties at 104½@104¾. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ¼@½ of 1 per cent. on these figures:

June, 1864	116½	May, 1865	111¼
July, 1864	116	August, 1865	110½
August, 1864	115½	September, 1865	110¼
October, 1864	114½	October, 1865	110
December, 1864	113½		

On the 1st inst. the coin balance in the National Treasury amounted to $97,841,967, including $81,-399,287 absolutely the property of the Treasury, as against $75,550,316 on the 1st of December; and $16,402,680 belonging to depositors holding gold certificates, as against $10,636,500 standing to the credit of the same parties on the 1st ult. The currency balance in the Treasury fell from $40,195,821 on the 1st of December, to $33,865,765 on the 1st inst.

A comparatively moderate movement has been reported in the railway and miscellaneous Stock line, through the week, at yielding prices, though there was no very decided pressure to realize until Wednesday, when there was some rather free unloading on the part of weak holders. The market closed up very heavily and without activity. Neither class of operators evinced much inclination to do anything like an extensive business, pending some definite congressional action on the vital political, financial, and industrial issues now under discussion in the national legislature. Should money work easy, however, this reluctance to move would probably give way to the temptations to speculate which cheap money almost invariably presents.

In general business, there has been no encouraging improvement since our last. Produce operations have been on a restricted scale and toward the close on the basis of drooping prices for breadstuffs, cotton, and most kinds of provisions, the exception having been barrelled pork, which left off in favor of sellers, on some speculative activity. The spiritless telegraphic advices from England have damaged the home market for Cotton, which closed heavily on Wednesday 35@36½ for middlings, per lb. The stock of cotton now here is estimated at about 170,000 bales. The receipts at the port this week, have averaged 3,000 bales a day. The receipts since the commencement of the current cotton year, Sept. 1, have been 292,-000 bales, against exports of 119,698 bales. The receipts at all the shipping ports from September 1, to latest mail dates have been 762,000 bales against 905,000 bales same time last year; exports, 290,000 bales, against 432,000 bales same time last year, estimated stock at latest dates, 560,000 bales, against 470,000 bales same time last year. In foreign merchandise, some increase of activity is reported in groceries, hides, skins, and metals, but thus far, the dry goods interest has exhibited no very decided symptoms of improvement. The current importations are quite moderate and are mainly bonded to await the revival of trade. The total imports of foreign dry goods, last week, were $1,690,285, and the total amount marketed $991,208. The value of foreign merchandise imported last week, was $2,449,789—making the grand total specie value of last week's imports of dry goods and merchandise, $4,140,074, and for the year 1866, $297,957 against

$222,619,138 in 1865. The ocean freight market is less active being quoted firmer with 581 vessels of all classes in port. For Liverpool we quote flour at 2s.@2s. 3d.per bbl.; grain at 3½@4d. per bushel; cotton at ¼@5.16d. per lb.; and heavy goods at 10s.@20s. per ton, all by sailing vessel.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Dec. 22.	Dec. 31.	Jan. 9.
Consols .....—89¾	—	91
U. S. 5-20's of 1862..—72¼	72¾	72⅞

New Orleans and Jackson Railroad.

The prosperous condition of this road is a matter of congratulation. Starting out under rather unfavorable circumstances, it has emerged from its difficulties and embarrassments, and now presents an exhibit which will compare favorably with older and more fortunate institutions. We are pleased to learn that the directors are now prepared to pay the interest on coupons due in New York and here, amounting to about eighty-one thousand dollars; and some sixty thousand dollars have already been remitted to Europe to pay the coupons due there. All of this money is the earning of the road, not one dollar having been borrowed to make the payments mentioned. This speaks well for the present Board of Directors, and evinces great efficiency and good management on the part of those gentlemen charged with the administration of the Jackson Railroad. Persons holding coupons past due would do well to call at the office of the company and have them funded. We trust that the road will continue to prosper in the future as it has done in the short time since its revival.—*N. O. Com. Bulletin Jan.* 1.

☞ The Southern Pacific Railroad Company, at a recent meeting, elected directors and selected Hon. G. T. Phelps as President.

Railroad Earnings.—Weekly.

The earnings of the Grand Trunk Railway of Canada for the week ending Dec. 29th, 1866, were $111,760 00
Corresponding week of previous year.. 107,854 00

Increase..... $3,906 00

The earnings of the Chicago and Rock Island Railroad for the 4th week in Dec., 1866, were..... $59,616 00
Corresponding week of previous year.. 55,421 00

Increase..... $4,195 00

The earnings of the Marietta and Cincinnati Railroad the 4th week in Dec., 1866... $32,466 00
Corresponding week previous year..... 29,877 93

Increase..... $2,588 07

The earnings of the Michigan Southern and Northern Indiana Road for the 4th week in Dec. 1866, were..... $101,964 89
Corresponding week of 1865 ..... 107,741 80

Decrease $5,776 91

The earnings of the Chicago and Northwestern Railway for the fourth week in Dec., 1866, were..... $204,628 00
Corresponding week of previous year,. 172,168 00

Increase..... $32,455 00

The earnings of the Detroit and Milwaukee Railroad for the week ending Dec. 27th, 1866, were $22,044 00
Corresponding week of 1865..... 22,570 00

Decrease..... $526 00

The earnings of the Western Union Railroad for the week ending Dec. 31, 1866 . .. $19,629 20
Corresponding week previous year.... 12,885 54

Increase $6,743 66

Journal of Railroad Law.

RUNNING OVER ANIMALS—OBLIGATION OF COMPANY TO FENCE TRACK.

The case of Bennett against The Chicago and North Western Railroad Company lately decided by the Supreme Court of Wisconsin, decides that the owner of an animal injured by a railway train cannot recover damages under ch. 268, Laws of 1860 of that state by merely showing that near the depot of the company, land occupied by the company for its track, other than its depot grounds, was unfenced; but he must show that the animal got upon the track at a point where the company was bound to maintain a fence, but neglected to do so.

It is also decided that where an animal, permitted by its owner to run at large upon commons adjoining the depot grounds of a railroad company, escapes from such ground upon the railroad track, the company is not liable for injuries done to such animal by one of its trains, unless the injury is inflicted wilfully, or through the gross negligence of the company's servants.

The opinion of the court containing all the facts of the case, was written by

Cole, J.—It appears to us that there was error in the refusal of the circuit court to give the first and sixth special instructions as asked by the defendant on the trial. By the first instruction the court in effect was asked to charge the Jury, that if they were satisfied from the evidence that the plaintiff's colt went upon the track of the railroad from the depot grounds of the company, then the plaintiff could not recover, unless the proof showed that the agents of the company were guilty of gross negligence. The court gave the instruction after striking out the word "Gross." In the sixth instruction the court was asked to instruct the Jury, that if they believed from the evidence that the plaintiff turned his colt at large in the vicinity of the defendant's depot grounds, and the colt went to the track of the road from said grounds, then the plaintiff could not recover, unless the evidence showed that the agents of the company wantonly caused the injury. This instruction the court gave after striking out the word "wantonly" and inserting in lieu thereof the words "negligently or wilfully."

The action was brought to recover damages for injuries done to a colt by a locomotive and train of cars, while the colt was on the railroad track a short distance south of the depot at Juneau. There is a common or uninclosed land, adjoining the depot grounds at that place. The precise limits of the depot grounds are not ascertained, and it does not satisfactorily appear where the colt entered upon the track, whether from the grounds used by the company for depot purposes or from some uninclosed lands near the railroad track where the company was obliged by law to fence its road. But that there was testimony from which a jury might have found that the colt entered upon the railroad track directly from the depot grounds, cannot be denied. This being so, what rule of law would measure the liability of the company upon such a state of facts? Would the company be liable for injuries occasioned by the gross negligence of its servants in the management of its trains, or does the law attach to it a more strict liability under these circumstances? From the qualifications placed upon the above instructions, the circuit court in effect ruled that where animals were upon the depot grounds of a railroad corporation—where of course they had no right to be—and should pass from such grounds upon the railroad track, and should happen to be injured or killed from the want of ordinary care and diligence on the part of the employees of the company, yet the company is liable in damages for injuries thus occasioned. It is evident that such is really the scope and effect of the instructions as given to the jury; and this is too in a case where the colt was a trespasser, and escaped upon the track from land which the company was under no obligation to fence, now the question is, is this not holding the company to a stricter liability than the principles of the common law will warrant? It appears to us that it is. The authorities upon this subject are fully considered in the case of Stucke *vs.* The Mil. and Miss. R. R. Co., 9 Wis., 202, and need not be examined here. We do not understand the cases to hold that at common law the company was liable for injuries resulting from a want of ordinary care where the cattle strayed upon the track and depot grounds and were trespassers when injured. The liability of the company growing out of the statute requirement to fence its road, will be hereafter considered. That liability does not affect the present question, since the law expressly provides that the company need not fence its depot grounds. We are now to ascertain whether the company is liable for injuries occasioned by ordinary negligence where cattle escape upon its track from its depot grounds. The instructions assume that the colt was injured by entering upon the railroad track from such grounds, which the company was not bound to fence and where the colt was a trespasser. And the court ruled that if it received the injury while thus straying upon the track from the depot premises of the railroad company, in consequence of the want of ordinary care and diligence on the part of the servants, then the company must respond in damages. This is not a case where the colt broke from some inclosure and strayed upon the road. For the plaintiff himself testified that he turned the colt out on the common about a week before it was injured. Now in permitting the colt to run at large on a common adjoining the railroad and depot grounds, from whence he would probably, if not certainly, stray upon the track and be exposed to collision with trains of cars passing by, thereby endangering the lives and persons on all trains, the plaintiff himself was guilty of very great negligence. In the language of the Chief Justice, used in giving the opinion in the case of Goss against this same defendant, reported in the 17th Wis., 428: "If the owner rashly or carelessly allows his oxen or horses to go upon the road, and they are killed by the gross negligence of the company or its servants, it is gross negligence against gross negligence, and there can be no apportionment of damages. In such a case it would seem that nothing short of proof of wanton or malicious injury would entitle him to compensation." P. 433. These remarks are strictly applicable to the facts of this case in the aspect we have been thus far considering it. Therefore the error of the court in refusing to give the above instructions is clear and manifest.

It is claimed, however, that the company is liable because it has failed to comply with chap. 268, Laws of 1860, which imposes upon railroad companies the duty of building and maintaining suitable fences on each side of their roads, with proper cattle guards at the crossings. The statute certainly imposes upon railroad companies this duty; but, as already said, it expressly excepts all depot grounds. Now it is insisted that the evidence shows that the road was not fenced where the depot grounds terminated at Juneau, and that consequently the company is liable irrespective of the question of negligence. The extent of the depot grounds at Juneau is not clearly defined and ascertained, and we are hardly authorized to assume on this record that the company has failed to comply with the law of 1860 in omitting to fence its road at that place. It appears that considerable land is used at that station for depot purposes, but precisely how much is left in doubt and uncertainty. Now if the plaintiff rests the liability of the company on the ground that it has omitted to build and maintain fences as required by statute, then he should show that in consequence of this neglect of duty he has sustained an injury; in other words, that in consequence of the neglect of the company to fence its road where it was bound to fence it, his colt strayed from premises which were not depot grounds, on the railroad track at a place where the law compelled the company to build and maintain a fence, and was injured, then doubtless the company would be liable for any damages sustained by reason of such neglect, without reference to the question whether there was negligence

in the management of the train at the time of the injury or not. McCall *vs.* Chamberlain, 13 Wis., 637, and authorities there cited. But if the colt entered upon the track from the depot grounds, which the company was not obliged to fence, then a different rule could apply.

We think these remarks dispose of the case. The judgment of the circuit is reversed, and a new trial ordered.

Metropolitan (Horse) Railroad.

The earnings of this road for the years ending November 30, 1865 and 1866, have been as follows:

	1865.	1866.
From passengers and tickets sold	$637,689 23	$736,355 90
From other roads, as toll or rent for use of road	2,763 74	5,709 81
From other sources	11,149 78	11,348 86
Total earnings	$651,602 75	$753,414 57
Expenses	693,744 74	639,941 69
Excess of expenses	$42,141 99	.....
Net earnings	.....	$113,472 88
From which deduct deficit of 1865		40,438 57
Leaving a surplus of		$73,034 31

The balance carried forward from 1864 was $31,703 42; the excess of expenses, in 1865, as above, was $42,141 99—deficiency, $10,438 57; to which add dividends in 1865, 3 per cent., $30,000—making a total deficit, in 1865, as above, of $40,438 57. This amount deducted from the large earnings of 1866, leaves a surplus at the close of the year of $73,034 31, from which a dividend of five per cent. was declared payable on the 1st of January inst.

The assets and liabilities of the company on the 30th of November, 1866, were as follows:

ASSETS.

Road		$895,557 31
Real estate and buildings		254,262 37
153 cars		118,893 92
4 steam passenger cars		24,579 02
837 horses		104,021 69
Sleighs and coaches		60,244 45
General equipment, consisting of engines, machinery, grist mill, tools, snow plows, harnesses, &c		43,919 22
Hay, straw and grain		4,940 27
Cash and sundry accounts		4,920 63
Land on Tremont street		32,671 85
		$1,544,010 73

LIABILITIES.

Capital stock	$1,250,000 00	
Notes payable	100,000 00	
Sundry acc'ts payable	27,454 50	
Outstanding tickets	11,642 02	
		1,389,096 52
Excess over liabilities		$154,914 21

The re-valuation of the above assets, now figured at their cost, would considerably increase the above excess.

This shows an increase of $2,595 61 in cost of road over 1865, arising from the payment of bills contracted in that year for the extension into Chelsea.

The cars and other vehicles of the company have run during the year ending November 30, 1866, 275,849 round trips, have run during the same period, 2,005,820 miles, and carried in all, 12,236,305 passengers, being an average of 5,495 miles run, and 33,524 passengers carried for each day in the year.

The following is a comparative statement of the business of the road from 1861 to 1866, inclusive:

	Number of Passengers.	Receipts.	Cost per mile run cents.
1861	5,810,119	$286,270 15	.....
1862	6,163,877	300,806 52	18.14
1863	8,153,110	388,616 51	21.55
1864	11,298,074	580,043 01	27.65
1865	11,263,118	651,602 75	34.92
1866	12,236,305	753,414 57	31.90

The general condition of the road is excellent; no effort has been spared to keep it in good repair.

New rails of approved pattern, 45 pounds weight to the yard, have been put down from Montgomery Place to Court street, on Tremont street, and from the junction of Cornhill to Essex street, on Washington street. The cost of the iron only, $5,142 02, has been charged to depreciation account, the only item to the debtor of that account during the year.

The additions to the equipment in buildings, cars, sleighs, &c, with the exception of $1,000, arise from purchases and contracts made in 1865, and amount to	$17,365 82
Met in part by sales of real estate, etc., the past year	10,591 00
Increase in equipment account	$8,774 82

The horses are in excellent condition for service. The mortality for the year has been but 2.68 per cent. notwithstanding the trying and continuous heat of the last summer and the constant work required.

The contract with the Dedham and West Roxbury Railroad Co., which expired on the 30th of June last, has not been extended. The contract with the Middlesex Railroad Co., was also terminated on the 24th of November.

Early in August last the rates of fare were reduced to twenty tickets for one dollar to any part of Roxbury, free of the U. S. Government tax.

All State, City and County, and U. S. Government taxes upon the capital stock and property of the corporation, amounting the past year to $36,797 18, have been paid from the earnings and charged to the expenses of the road; the shareholders are therefore exempted from all taxation upon their investments in this company, except from the excess of individual income over $5,000.

Illinois and Michigan Canal.

The Governor of Illinois, in his recent message to the Legislature, speaking of the enlargement of the Illinois and Michigan Canal and Illinois River to the Mississippi, says: "The river and canal belong to the State, but our people are willing that both should be made available for the commerce of the country. We very much desire additional facilities for an outlet and inlet of the growing and suffering commerce of the Northwest; our abundant surplus produce must get to market without being choked to death. Neither the United States nor Illinois can afford to cramp commerce, or permit it to be delayed with local hindrance. It is folly to talk about encouraging agriculture and manufactures, and attempt to squeeze both to market through overland and arbitrary channels of trade. He also says this is eminently a national work, and the Washington Government ought to be respectfully but urgently beseeched through our representatives in Congress, and by every other proper and available influence, to make appropriations at once for this object."

The National Debt.

The following is a comparative statement of the Public Debt of the United States:

	Dec. 1, 1866.	Jan. 1, 1867.
Debt bearing int. in coin.	$1,371,068,591 80	$1,400,490,741 80
Debt bearing interest in currency	857,622,890 00	832,379,440 00
Matured debt not presented	22,605,794 71	16,518,589 31
Debt bearing no interest.	433,698,598 93	425,673,334 32
Total	$2,684,995,875 44	$2,675,062,505 43
Coin in Treasury	$95,168,816 15	$97,841,567 75
Currency	40,195,821 07	33,895,765 04
	$135,364,637 22	$131,737,332 79
Debt less cash in the Treasury	$2,549,631,238 22	$2,543,325,172 64

The total debt shows a decrease since the 1st of December of $9,993,370 01. The balance in the Treasury shows a decrease, as compared with December 1st, of $3,627,304 43. Deducting the amount on hand from the aggregate debt, both on the 1st of December and the 1st of January, the decrease of debt would be $6,306,065 58. The total debt on the 31st of August, 1865, stood at $2,845,907,626 56. The balance in the Treasury at that date amounted to $88,218,055 13. Deducting the cash in the Treasury from the aggregate debt both on the 31st of August, 1865, and 1st of January, 1867, and the actual decrease in the Public Debt since that period has been $214,364,398 79.

Atlantic and Pacific Railroad.

Negotiations for merging the Southwest Pacific Railroad into the Atlantic and Pacific Railroad were concluded on the 7th inst., and Henry H. Ward, Leonard W. Jerome, Robert L. Cutting, President of the Board of Brokers; Paul S. Forbes and Charles Gould were elected to the Board of Directors of the latter company. Instructions have been forwarded to the contractors on the Southwest Pacific Railroad to place an additional force of fifteen hundred men on the work of construction west of the Gasconade river.

Kent County Railroad.

We learn from the Chestertown, Md., *News*, that the first survey for the location of this road has been completed. The distance from Massey's Cross Roads to Rock Hall is a little less than 23 miles, which will make the road, estimating the distance from the former place to the proposed connection with the Delaware road, about thirty-three miles in length. The country of which the survey was made was found to be for the most part level and well adapted to railroad purposes, for three miles south of Massey's Cross Roads there not being encountered a grade of three feet. More stock, however, is necessary to be taken before the road can be made.

☞ The directors of the Pensacola Railroad have entered into a contract for the reconstruction of their road from Pensacola to its intersection with the roads from Mobile to Montgomery, at Pollard. The work of cutting cross-ties has already been commenced, and, according to the terms of the contract, the road will be completed in five months.

Connecticut and Passumpsic Rivers R. R.

The receipts of this company for the six months ending November 30, 1866, were:

Passengers	$109,999 51
Freights	167,212 24
Mail, express, rents	8,053 73
	$285,265 48

Expenses, viz:

Car and locomotive repairs	$36,632 95
Road repairs	44,892 79
Bridge repairs	767 55

Finances of Ohio.

From the Report of the Commissioners of the Sinking Fund we learn that the total funded debt of the State, May 15th, 1866, was $12,511,197 01

Since that date there has been redeemed of the foreign loan of 1880	$68,776 87	
Of the foreign loan of 1865	627,652 00	
		696,428 87
Outstanding November 15, 1866		$11,814,768 14

The existing funded debt of the State consists of the following loans:

FOREIGN DEBT—PAYABLE IN NEW YORK.

Loan payable after Dec. 31, 1860, not bearing interest	$24,000 00
Loan payable after Dec. 31, 1860, bearing 6 per cent. interest	444,022 25
Loan payable after Dec. 31, 1865, not bearing interest	7,000 00
Loan (Union) payable July 1, 1868, bearing 6 per cent. interest	379,866 00
Loan payable after Dec. 31, 1870	2,183,531 93
Loan payable after Dec. 31, 1875	1,600,000 00
Loan payable after Dec. 31, 1881	4,095,309 47
Loan payable after Dec. 31, 1886	2,400,000 00
Total foreign debt	$11,133,729 65

DOMESTIC DEBT—PAYABLE AT COLUMBUS.

Stock of 1849, not bearing interest	$1,765 00	
National road bonds, not bearing interest	60 36	
Union loan of 1868, bearing 6 per cent. interest	279,213 13	
Union loan of 1870, bearing 6 per cent. interest	400,000 00	
Total domestic debt		$681,038 49
Total funded debt Nov. 15, 1866		$11,814,768 14

During the fiscal year the public debt of the State was decreased by $1,097,246 31. In addition to this actual reduction, the sum of $29,000 had ceased to draw interest, the parties holding it having been notified to present the stocks for redemption.

At the date of the report, the Commissioners were in funds to redeem the entire outstanding principal of the loan of 1860; and the holders were notified to present the same at the Ohio State Agency in this city on the 1st inst., for redemption, after which interest would cease.

The receipts into the Sinking Fund, and the disbursements therefrom, during the six months covered by the report, were as follows:

RECEIPTS.

Balance in Treasury, May 15, 1866	$260,849 56
From taxes—sinking fund	389,377 32
From taxes—war loan	43,274 93
From school lands	24,568 24
From surplus revenue	4,732 09
From sale of stock, dividends, etc.	157,009 84
From soldiers' relief fund	338,656 00
Agricultural College land scrip	189,871 60
Total receipts	$1,408,338 58

DISBURSEMENTS.

Redemption of foreign loans	$476,966 40	
Interest on foreign debt	340,226 00	
Interest on Union loan	32,285 31	
Interest on irreducible debt	113 84	
Expense of N. Y. Office	2,049 70	
Expense of home office	1,446 66	
Expense of Commissioners	550 00	
Total disbursements		853,637 91
Balance in Treasury, Nov. 15, 1866		$554,700 67

"Dummies" Looking Up.

The Boston *Traveller* says that the Woodbury steam car seems likely to take the place of locomotives hereafter for light trains on all short steam roads, to give greater accommodation, with reduced fares, and at the same time make more money. One of them ran from Boston to Salem the other day, sixteen miles, in thirty-eight minutes, including stops.

Andrews' Patent Pumps, Engines, etc.

Centrifugal Pumps, from 90 Gals. to 40,000 Gals. per minute capacity.
Oscillating Engines, (Double and Single), from 2 to 250 horse-power.
Tubular Boilers, from 2 to 50 horse-power, consume all smoke.
Steam Hoisters, to raise from ½ to 6 tons.
Portable Engines, 2 to 20 horse-power.
These machines are all first-class, and unsurpassed for compactness, simplicity, durability, and economy of working. For descriptive pamphlets and price list address the manufacturers.

W. D. ANDREWS & BRO.,
414 Water St., New York.

PUMPING ENGINES,
Ericsson's Caloric Pumps,

FOR economy, durability, and efficiency unequalled. Have been in use on the Erie, Central, Hudson River, Harlem and other roads for eight years. Recommended by all Superintendents in the highest terms.

JAMES A. ROBINSON,
164 Duane St., cor. Hudson, New York.

TO RAILROAD CONTRACTORS.

LOUISVILLE, CINCINNATI AND LEXINGTON RAILROAD OFFICE,
LOUISVILLE, KY., December 24, 1866.

SEALED PROPOSALS will be received at this office, on the 31st January, 1867, for the Graduation and Masonry of over seventy (70) miles, (in small sections), of the Cincinnati Branch of this railroad.

The work is of an unusually desirable character for good contractors, the line accessible by steamboat and turnpike, and the country full of supplies.

Profiles will be ready for examination on and after 15th January.

Payments for work done will be made monthly in cash and with the usual reservation.

References will be required from contractors not personally known and the company reserve the right to reject any bids not deemed to their interest.

I. M. ST. JOHN,
411 Chief Engineer.

ENGINEERS AND CONDUCTORS'

WATCHES.

THE AMERICAN WATCH COMPANY, of Waltham, Massachusetts, request us to publish the following letters, recently received, recommendatory of Waltham Watches for railway use. The Pennsylvania Railroad Company have for several years furnished to their employees watches specially made for them by the Waltham Company, and it is this class of watches the Superintendent, Mr. Williams, refers to. Similar watches (in strong silver or gold cases, with plate-glass crystals) we are prepared to supply, named and engraved to order; and of them, as being most suitable for the use of Engineers, Conductors, Station-Masters, of Expressmen and Messengers, the Company give the most ample guarantee. It is a remarkable fact that Railroad Companies using our watches suffer much less from collisions and similar accidents than any others.

Any of the grades of Waltham watches may be purchased of Watch Dealers generally throughout the country.

ROBBINS & APPLETON,
182 Broadway, New York.
ROBBINS, APPLETON & CO.,
158 Washington Street, Boston.

PENNSYLVANIA RAILROAD CO.

OFFICE OF THE GENERAL SUPERINTENDENT,
ALTOONA, Pa., 15th Dec., 1866.

GENTLEMEN,—The Watches manufactured by you have been in use on this Railroad for several years by our Enginemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable timekeepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs, than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation, but as a class they never kept time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years. Respectfully,

EDWARD H. WILLIAMS,
General Superintendent.
AMERICAN WATCH COMPANY, Waltham.

NEW YORK CENTRAL RAILROAD.

LOCOMOTIVE DEPARTMENT, WEST. DIVISION,
ROCHESTER, Dec. 24, 1866.

GENTLEMEN,—I have no hesitation in saying that I believe the great majority of Locomotive Engineers have found by experience that Waltham Watches are the most satisfactory of any for their uses. They run with the greatest accuracy and steadiness, notwithstanding the rough riding of an engine, and as I have never known one to wear out, they must be durable. I hope to see the time when Railway Companies will generally adopt your watches, and furnish them to all Engineers and Conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours respectfully,

CHARLES WILSON, G. Chief Engineer,
Brotherhood of Locomotive Engineers.
AMERICAN WATCH Co. Waltham Mass.

THE ATLANTIC BRIDGE WORKS,
Office, No. 157 Broadway,
NEW YORK.
POST, McCALLUM & CO.,
Bridge and Roof Builders,

Are prepared with all the necessary machinery and an experienced corps of assistants, to sink **Hollow Piles** and **Coffer Dams** by the **pneumatic process** for the foundations of Bridges, Docks, Sea Walls, Light Houses, or other marine constructions.

By the use of new patented machinery they are able to perform work of this character with much greater rapidity than has been possible heretofore, and at reduced cost.

Parties in the Western States may apply to Gen. Wm. S. Smith, care of Roomer, Boyington & Co., No. 14 Dearborn St., Chicago, Illinois.

PATENT OFFICES.

INVENTORS who wish to take out

LETTERS PATENT

are advised to consult with Messrs. MUNN & Co., Editors of THE SCIENTIFIC AMERICAN who have prosecuted claims before the Patent Office for nearly TWENTY YEARS. Their American and European Patent Agency is the most extensive in the world. A pamphlet, containing full instructions to inventors, is sent gratis.

Address,
MUNN & CO.,
3m51 **No. 37 Park Row, New York.**

RAILROAD TIES.

The undersigned are prepared to furnish Railroad Ties of **Hackmatack, Cedar, Pine, Hemlock** and **Spruce** in any quantity. Also every description of **Northern** and **Southern Pine, Oak** and **Spruce** for **Railroad Cars, Bridges, &c., &c.**

BRADFORD & RENICK,
3m50 **71 Broadway, New York.**

SHIP FELT, CARPET FELT, BOILER FELT.

THE very superior Felt, manufactured by the Lowell Felting Mills, can now be furnished in quantities to suit purchasers, from the new and extensive mills now completed. Also, pipe, truss, upholstery and all other Felts. Apply to the branch office of the Company.

EDW. F. DAVISON, 138 Pearl St.

New York, Saturday, January 19, 1867.

Little Rock and Fort Smith Railroad.

This company was incorporated in January, 1855. Early in the year 1853 the United States Government made a grant of six sections of land per mile to the State of Arkansas to aid in the construction of her railroads. The preliminary survey of the road from Little Rock to Fort Smith was made in the summer of 1854; this survey was adopted, and the lands attached by the General Assembly of the State in January, 1855. In the fall of 1857 a contract was made with an irresponsible party for the construction of a part, or the whole of the road, who, after making extensive preparations which inspired great confidence, and incurring large liabilities among the citizens, abandoned the contract and fled the country. The subsequent embarrassments of the company are attributed to this unfortunate connection. Again, in December, 1859, a contract was entered into for the construction of 32 miles of road, extending from Van Buren to Ozark. The main object in commencing operations at Van Buren was to have it under the immediate eye of the directors and stockholders, a majority of whom resided at that place. It was intended, however, as soon as confidence in the enterprize was restored among the people and capitalists at home and abroad that the work should be prosecuted from Little Rock, the only proper place of beginning. The work near Van Buren was continued with a limited force for several months, when it became gradually apparent to the company that they had made another mistake in their contractors; the work of construction was therefore partially suspended in July, 1860, and some months later the contract was annulled by mutual agreement. The work under this contract is spread over the first 15 miles east of Van Buren, and none of it is in a finished condition. Since the conclusion of this contract, the work of construction has not been resumed.

As it was found to be impossible to continue the work from the proceeds of land sales, or stock subscriptions, or both combined, an effort was made in the summer of 1860, to raise funds by mortgaging a part of the land donated by Congress to aid in building the road, but without success. An appeal was then made to the Legislature for aid, which was responded to by the passage of an act, approved January 15, 1861, appropriating the swamp land fund of the Clarksville district, to aid the company in building the road. This fund, amounting to $38,000, was paid over to the Treasurer of the company on the 28th of March, 1861. A small portion of this amount was subsequently used to pay current expenses, but the greater portion of it still remains in the hand of the Treasurer unimpaired.

During the war half of the stockholders and nearly half of the directors disappeared. The grant of land to aid in building the Cairo and Fulton Railroad, and its two branches reverted to the United States, in consequence of the company's failure to build 20 miles of the road within ten years, as required by the act of Congress of Feb. 9, 1853. An extension of the land grant was therefore an object of parimount importance. Accordingly, application was made to Congress, and on the very last day of the late session an act was passed reviving and putting in full force the grant as it originally stood, and making an additional grant of four sections per mile to aid in building the Cairo and Fulton road, and its two branches. The grant, as renewed and enlarged, secures for the use of the company more than 900,000 acres of land, which if judiciously disposed of ought to enable the company to build the road.

On the 18th of October, 1866, the company was reorganized by the election of new directors to fill the vacancies which occurred during the war. At this meeting a resolution was passed "rescinding any action that may have been done by the company, with reference to the late Confederate States." This was in accordance with the requirements of the act of Congress, above named; and necessary to enable the Secretary of the Interior to file a certificate in his office, and also in the office of the Secretary of State of Arkansas, stating that this company had reorganized its board of directors in a lawful manner—the filing of which certificate was made necessary before the company could obtain the benefit of said grant.

At this meeting the report of the special agent appointed to investigate and report upon the present condition and future prospects of the company, was received. From this report we learn that the original amount of stock subscriptions was about $200,000, one-fifth of which was taken by the State. There had been received from stockholders up to Nov. 20, 1860, $14,646 03; and from the State $38,000—making a total of $52,646 03. The total number of acres sold was 2,402, upon which $3,983 30 was received, leaving yet due $566 70, with interest. The only other receipts were $200 for engineer property sold during the war.

The expenditures consist of $2,707 76 for construction, $3,282 61 for engineering, $3,848 87 for miscellaneous expenditures, and $1,529 for money advanced by the directors, including a small amount of interest. The sum of about $14,000 was expended at the time of the organization of the company, for the preliminary survey, etc., of which no record now exists.

From the report of the Treasurer it appears that the amount of means on hand at this time is $31,304 21—of which, $27,789 21 is in gold, and $3,515 in uncurrent funds. In addition to which the company has a reliable stock subscription of at least $100,000, which can be largely increased at any time. The amount of land attached to the road will be in the neighborhood of 940,000 acres, which ought in time to become a source of con-

siderable revenue, and serve as a basis of credit to an extent sufficient to secure the construction of the road.

The amount expended upon construction, according to the Secretary's report is $10,322 05—of which a large proportion was paid in land, and in the stock of the company. The work done has been recently examined, and found in a good state of preservation. Indeed, the value of the work done is now considered greater than its prime cost.

About $17,000 was expended upon engineering, much of which may be considered lost; but the line of the road is fixed and known, and the expense of a re-survey can be avoided. The principal loss consists in the cost of preparing maps and profiles, which are indispensable, and which it will now be difficult to replace.

The amount due upon State subscription, according to the report of the Auditor, was about $13,000, and was appropriated by the State Government, during its exile from the capital, and cannot now be reclaimed.

All claims against the company as far as known, have been paid.

On the 17th of December, 1866, pursuant to notice, a meeting of the stockholders was held at their office in Van Buren, Ark., for the choice of directors, and also to take action upon the proposed consolidation of their company with the Memphis and Little Rock Railroad Company. The following gentlemen were elected directors, viz: Charles G. Scott of Pulaski County; Anderson Gordon of Conway County; David West and J. L. Shinn of Pope County; Moreua Rose and F. I. Batson of Johnson County; J. J. Walker of Franklin County; Jesse Turner, A. J. Ward, Richard Thruston, John Bostick, S. M. Hays, D C. Williams, W. F. England, J. B. Ogden, and Harvey Stewart, of Crawford County; and W. L. Cabell and John King of Sebastian County.

At a subsequent meeting of the new board, the following officers were chosen: Jesse Turner, President; A. J. Ward, Vice President; J. H. Haney, Secretary; P. Pennywit, Treasurer.

The number of votes cast for the consolidation was 4,150; against, 1,520—majority in favor of consolidation, 2,630. Should the stockholders of the Memphis and Little Rock Railroad Company ratify the proposed consolidation, the consolidated company will be known as the Central Pacific Railroad Company.

Pittsburg and Connellsville Railroad.

The City Councils and Board of Trade of Pittsburg have passed resolutions complaining of the want of transportation facilities for their growing trade, and asserting that a new outlet *via* the Pittsburg and Connellsville Railroad, opening as it will entirely new districts, and bringing them into near intimate relations with the great seaboard cities and the National Capital, will produce incalculable advantages to the whole West. They also call upon their representatives in the State Legislature to vindicate their good faith towards their constituency by devoting their utmost energies to secure the immediate repeal of an act so detrimental to the interest of Pittsburg and Western Pennsylvania as the bill depriving the Pittsburg and Connellsville Railroad of its charter privileges. In furtherance of these interests a committee of gentlemen has been appointed to visit Harrisburg when necessary and solicit favorable action on the part of the Legislature.

Wisconsin Internal Improvements.

EXTRACT FROM THE MESSAGE OF THE GOVERNOR.

The energy displayed by the people of this state during the past four years in projecting and carrying out successful enterprises of internal improvement, notwithstanding the heavy burdens and distractions of the war, is truly wonderful, and will soon envelop the whole state in a network of much needed railways.

Among the most important now projected and to be completed at an early day, I may mention the Tomah and Saint Croix; Portage and Superior, *via* Ripon, Berlin, Stevens' Point and Bayfield; Milwaukee and Fond du Lac, thence to connect with the Portage and Superior; the Manitowoc and Mississippi; the Oshkosh and Mississippi; the Sugar River Valley, from the state line, *via* Madison, to Portage; the St. Croix and Superior extension of the line from Sheboygan to Fond du Lac; the lines from Green Bay to the Mississippi; Mineral Point to Dubuque; Monroe, southwest to the Mississippi; between Omro and Oshkosh; from Madison, northwest, *via* Baraboo, and Milwaukee to West Bend.

The completion of the Northern Pacific Railroad will develop the rich country north and west of Lake Superior, and consequently is of great importance, political and material, to the nation. Aside from the benefit which will enure to this state from such general development, the eastern terminus of the road being within our borders, will offer to our railroads peculiar advantages for connection with it, thus making the route of great local interest to us. I recommend that you give to this undertaking your earnest, efficient support.

All of these lines will traverse rich portions of this state, throwing open its remotest parts, and should receive such encouragement as is due to their great importance. The citizens along the routes of many of them, alive to their utility, are freely contributing large sums of money, and urging them on by every possible means to a speedy completion, with a zeal which will surely secure their success.

The number of railroad companies making reports to the state is nine, having a total length of 1,731 miles.

Capital actually subscribed	$14,099,400 00
Received for transportation 1865	13,902,774 52
Passengers, 1865	4,311,065 67
State tax paid for 1865	203,296 10

During the past year officers detailed by the war department have made surveys of a portion of the Mississippi river, with a view to the removal of obstructions to its navigation, by the improvement of the Rock Island and Des Moines Rapids.

The Illinois, Rock, Fox and Wisconsin rivers have also been surveyed with reference to a water communication between the Mississippi and the Great Lakes. Both projects are considered entirely feasible.

It is reported practicable to construct a line of navigation, by Rock river to Lakes Huron and Winnebago, with at least the capacity of the Erie canal, thereby furnishing to the people along its route, facilities for the transportation of heavy freight, which would be of incalculable advantage to them. It is deemed by the engineers in charge, that the Wisconsin can be rendered perfectly navigable, by such methods of engineering as have been tried on similar streams elsewhere and found successful, or, should this in the end prove impracticable, that a canal of large capacity can be built along its valley at a cost so small as to warrant the undertaking.

The company having charge of the Fox improvement, proposes at an early day to render that stream navigable for larger boats than at present.

The Fox and Wisconsin route will give water transportation for a large portion of the heavy freight of our own and the states west of us. It is proper to mention in this connection that the trustees of the Fox river improvement have deposited with the state treasurer, in accordance with the provisions of chapter 535, laws of 1865, $47,104 86 for the payment of two improvement fund certificates, amounting to $3,133 66, the balance to be paid on the completion of the work on that river, as required by law.

The successful completion of either or all of these great enterprises will greatly add to the wealth of the entire Northwest, by decreasing the cost of transportation on our products to eastern and southern markets, and on such articles as we may purchase from them in return. Already the means of transportation are scarcely adequate to the cheap transfer of the immense amounts of grain and lumber which yearly pass over the face of this State seeking markets, and this inadequacy is constantly increasing. The utility of any improvement which will lessen it must be obvious to all.

Fitchburg Railroad.

The receipts of this road for the fiscal years ending November 30, 1865 and 1866, were as follows:

Receipts:	1865.	1866.
From passengers	$393,828 04	$428,290 44
" freight	556,993 66	627,642 15

Gratuities and damages	13,400 84	33,668 70
Salaries, office and law expenses	10,998 75	18,993 73
Total expenses	$679,439 08	$760,196 89
Net earnings	$314,254 82	$347,247 44

	1865.	1866.
Number of passeng'rs carried	1,427,957	1,368,856
Do., carried one mile	17,620,165	18,848,202
Number of tons of merchandise carried	486,015	512,874
Do., carried one mile	13,613,688	14,490,578
Number of miles run by locomotives	457,264	477,106

The assets of the corporation on the 30th of November, 1866, were as follows:

Notes receivable		$352,983 16
Cash and cash funds		83,730 66
Freight uncollected		11,207 46
United States, for mail service		1,666 67
		$449,587 95

The liabilities were:

Renewal fund	$14,534 19	
Balances due connecting railroads	2,379 24	
Unclaimed dividends	5,244 00	
		22,157 43
Surplus		$427,380 52

This sum, diminished by $186,315 79, the amount of the present January dividend, and the United States tax thereon, leaves in the treasury a surplus of $241,064 73.

In addition to this surplus, the company have other property, valued at $7,191 50; and also fuel, lumber, iron, and other materials necessary

for renewals and repairs, which are worth $88,067 76.

This property and material, amounting in value to $95,259 26, is paid for, but is not included in the assets before mentioned.

The company have 29 engines; 29 passenger, 9 baggage, 621 merchandise and 31 gravel cars.

Taxes and insurance	25,531 02	25,797 10
Waste for cleaning cars, etc	2,957 11	2,398 81
Oil for engines, cars, etc.	8,793 59	8,973 84
Labor carrying mails	1,183 75	1,693 81
Total operating exp	$749,965 83	$716,405 10
U. S. Government and State Tax	102,595 81	88,548 64
Interest paid on bonds.	2,209 60	1,186 25
	$854,770 74	$806,139 99
Net earnings	$366,333 34	$384,644 05
Dividends	331,000 00	336,000 00
Surplus	$35,333 34	$48,644 05
Miles run by engines	450,096	441,786
Cost of fuel per mile	22.62 cts.	20.45 cts.

In the operating expenses, as given above, is included the sum of $26,922 86 carried to renewal fund, for renewals. The report says:

We have laid, during the year, about 270 tons, or three miles of steel rails, and have made arrangements for putting down about 800 tons next year. The evidence derived from the experience of other roads, in this country and in Europe, in reference to the durability of this description of rails is very full and satisfactory, and our own experience in regard to a few laid in 1865 goes very strongly to confirm it.

The indebtedness of the corporation is $15,000 upon bonds payable in 1868.

During the year there have been carried in the cars 2,003,447 passengers, of whom no one has been injured while in the cars, and no person in in the employment of the corporation has met with any serious accident.

BALANCE SHEET, NOV. 30

	1865.	1866.

	$4,218,927 34	$4,270,168 92

The company have 30 locomotives; 41 passenger and 12 baggage cars, 205 house, 37 platform, 48 coal and 65 gravel cars.

The number of passengers carried during the year 1866, was 2,003,447.

President.—CHARLES H. WARREN.

Directors.—C. H. Warren, George W. Hallett, Samuel T. Dana, T. P. J. Goddard J. H. Clifford, J. Huntington Wolcott, and C. C. Chadwick.

Superintendent.—DANIEL NASON.

Southern Wisconsin Railroad.

It is known to our citizens, and to the State generally, that a concerted effort is now about being made to extend the Southern Wisconsin Railroad from Monroe, its present terminus in Green County, to a point on the Mississippi opposite the city of Dubuque, Iowa. The distance, we believe, is about 66 miles, and if finished, it would fill up one of the most important gaps in the railway system of the United States. It would not only insure Milwaukee a direct communication with Central Iowa, but through the Dubuque and Pacific Railroad, which will in a few years be carried west as far as Omaha, would secure to us a direct route to San Francisco. The great object of building this road will be, that while we are laying a mile in Wisconsin a mile of road is also being laid in Iowa, and thus when we complete our link, will we secure a double advantage.

The citizens of Dubuque have always felt and expressed a deep interest in a direct connection with Milwaukee. They have but one railway to the East, and that passes through Chicago. Its merchants and forwarders say that if this line is completed, they can easily send to Milwaukee one million bushels of wheat annually, and other products of the soil. The reputation of Milwaukee Club wheat is so high and so universally acknowledged, that the people of Central Iowa feel a natural desire to send their good wheat to Milwaukee, where they can obtain the highest price for the same. The extension would so improve the revenues and the value of the Milwaukee and Prairie du Chien Railway that that company could wisely afford to render assistance, and fortunately the financial condition is such that it can do a great deal towards the completion of this long delayed line of railway. But of course, the people along the route must do their share. The time has passed when Eastern capitalists will trust their money in a Western Railway, unless the inhabitants along the route, evince their faith in the necessity of its construction by subscribing to its stock.

We believe that the city of Dubuque has offered to loan its credit to the amount of $200,000, to aid in the completion of this route of transportation from Milwaukee to the Mississippi.

It now looks as if railway labor during the ensuing season could be obtained at reasonable prices. There is an immense immigration of Germans and Irishmen pouring into our country. They must have something to do. In the Eastern cities and States all branches of trade are so fully supplied with labor, that there is not a prospect of more being needed during the current year. The foreign immigration will, therefore, seek the West, and it will be constrained to labor on railways or anything that offers at prices much more moderate than during the past four years. It now appears as if we could afford to build railways, and obtain them at such an outlay as will be likely to yield some interest upon the capital invested.—*Milwaukee Wisconsin.*

☞ Ground was broken at Bangor, in the "State of Maine" on New Year's day, for the European and North American Railway, which is "to connect that city, and all the American railroad system, with Halifax." The first fifty-six miles east of Bangor are to be proceeded with as soon as the weather is fine enough.

Commerce of Cincinnati.

We give below, from the "Annual Report o the Cincinnati Chamber of Commerce and Merchants' Exchange," a comparative statement of the values of the leading imports and exports for the commercial years ending August 31, 1865 and 1866, prepared by Wm. Smith, Esq., Superintendent of the Exchange. The totals for the past twelve years have been as follows:

	Imports.	Exports.
1854–'55	$67,501,341	$38,777,394
1855–'56	75,295,901	50,809,146
1856–'57	77,950,146	55,642,171
1857–'58	83,644,747	52,906,606
1858–'59	94,213,247	66,007,707
1859–'60	103,347,216	77,037,188
1860–'61	90,198,136	67,023,126
1861–'62	103,292,893	76,449,862
1862–'63	144,189,213	102,397,171
1863–'64	389,790,537	239,079,825
1864–'65	307,552,397	193,790,311
1865–'66	362,032,766	201,850,055

In the Report the number and description of packages are given, together with the average price of each, but our space will not permit us to enter more fully into the subject.

The annexed statement shows the value of the principal imports into Cincinnati, for the years ending August 31, 1865 and 1866:

	1865–'66.	1864–'65.
Apples, green	$684,848	$60,652
Ale, beer and porter	80,280	98,397

☞ The business of the Western Union Telegraph Company for November, 1866, is reported as follows: Receipts, $571,036; expenses and payments to other lines, $322,508; net earnings, $248,527; expended for construction, $27,937.

Report of the California Mines.

The San Francisco *Bulletin* gives its annual summary of the gold and silver mining interests of California and Nevada. The Gould & Curry mines produced $1,600,000 in bullion last year; dividends $252,000. The Savage, since July last, yielded $1,100,000, and their dividends are $360,000. Hall & Norcross, the past year, $1,200,000, and their dividends are $350,000. Yellow Jacket yielded $1,800,000, and their dividends are $390,000. Crown Point, $1,273,000, and their dividends are $234,000. Ophir yielded $450,000, and no dividends. Imperial, for the past eighteen months, $1,525,000, and their dividends are $376,000. The Eureka, in Grass Valley, produced last year $600,000, and earned $420,000. The Eureka, of Amador county, yielded $485,000, with a profit of $310,000. North Star yielded $9,228,000, with a profit of $132,000. Sierra Buttes claim last year $225,000, with a net earning of $138,000. For the last five years this mine has averaged about the same results, and was recently sold for $575,000.

Debt of the City and County of New York.

The following extract from the Message of the Mayor, shows in detail the items which make up the aggregate of the funded and temporary debt of the City and County of New York, as it stood on the 31st of December, 1866:

CITY FUNDED DEBT.

Water stocks—Issued on account of introducing the croton water into the city and distributing the same	$10,782,800 00
Central Park stocks—Issued on account of Central Park and the improvement of the same	9,923,571 00
Fire indemnity stock—Issued for payment of damages for blowing up buildings, December, 1865	402,768 00
Building loan stocks—Issued on account of building work-house on Blackwell's Island	190,000 00
Real estate bonds—Issued in settlement with State lessees of West Washington Market, for payment to the State for sundry lands filled in beyond the boundary line of the Montgomery Charter, and for purchase of Fort Ganse-voort property	1,133,437 50
Stock for docks and slips—Issued for rebuilding and repairing public docks and slips	500,000 00
Floating debt fund stock—Issued for liquidation and funding floating debt in 1859	2,748,000 00
Public education stock—Issued for payment of debt of public school society	15,000 00
Stock for rebuilding Tompkins Market—Issued as its title indicates, for rebuilding Tompkins Market	51,000 00
Volunteer soldiers' family aid fund bonds—Issued to provide for the families of soldiers in the United States Army	3,766,500 00
Volunteer soldiers' family aid fund redemption bonds—Issued to extend the time of payment of volunteer soldiers' family aid fund bonds, No. 3	500,000 00
Volunteer soldiers' bounty fund redemption bonds—Issued for the redemption of a like amount of bonds for payment of bounties to volunteer soldiers	490,000 00
Total funded debt of city	$30,642,076 50

COUNTY FUNDED DEBT.

Harlem bridge bonds—Issued for erecting a bridge across Harlem River at McComb's Dam		$20,000 00
Coumty Court House stock—Issued as its title indicates, for the erection of the new Court House in Chambers street		1,800,000 00
Soldiers' substitute bounty redemption bonds		2,000,000 00
Soldiers' substitute and relief redemption bonds		946,700 00
Soldiers' bounty fund bonds		4,000.000 00
Soldiers' bounty fund bonds, No. 2.		376,600 00
Soldiers' bounty fund bonds, No. 3.		745,800 00
Riot damages redemption bonds		1,000,000 00
Riot damages indemnity bonds		620,000 00
Total funded debt of County		$11,509,100 00

RECAPITULATION.

City—Amount payable from sinking fund	$22,423,576 50	
Amount payable from taxation	8,209,500 00	
		30,633,076 50
County—Amount payable from taxation		11,509,100 00
Total		$42,142,176 50
The Commissioners of the sinking fund hold on account of the above debt the sum of		11,240,298 11
Net amount December 31, 1866		$30,901,878 39

Of the foregoing debt it will be perceived that $10,782,800 is for Croton Water Works, $9,923,571 for Central Park, and $14,445,600 for expenses growing out of and connected with the war.

TEMPORARY CITY DEBT.

Revenue bonds of 1866—Issued in anticipation of collection of taxes of 1866	$683,800 00
Street improvement fund bonds—Issued to contractors for improving the streets, in anticipation of the collection of assessments therefor	1,642,600 00
Assessment fund bond—Issued to pay for opening, widening, &c., of streets, in anticipation of the collection of assessments therefor	400,000 00
	$2,726,400 00

TEMPORARY COUNTY DEBT.

Revenue bonds of 1866—Issued in anticipation of collection of taxes of 1866	307,200 00
Total temporary debt	$3,033,600 00

For the payment of this temporary debt, the city holds assets in the shape of assessment liens, unpaid taxes, &c., &c.

The net amount of funded debt is $855,996 less than it was at the close of 1865, and the city and county temporary debt is $1,659,700 less than it was at that date.

The whole debt is well secured, for it is a lien upon the whole property of the city, both public and private. The sinking fund (provided for the payment of the principal and interest of a large portion of it) is in a sound condition. The revenues for payment of the interest on that portion of it payable from this fund are greatly in excess of what is required for that purpose, and the accumulations for payment of the principal will be ample to pay it long before its maturity.

The tax levy for 1866, was $16,950,767 88, being $1,253,181 08 less than that of 1865. The rate of taxation in 1865, was $3.99 on every hundred dollars. In 1866 it was only $2.30. This rate for 1866 was based upon an assessed valuation of real estate of $478,994,934, and of personal estate $257,994,974, making a total of $737,989,908. The following statement will show the purposes for which the amount was raised:

For the use of the State		$2,902,849 37
For the police, Board of Health, various asylums, and support of the County Government		5,271,405 50
For Board of Education, public charities and correction, &c., &c., and support of the City Governm't		8,457,257 39
Required for payment of appropriations		$16,631,512 26
In addition the Board of Supervisors are authorized to levy three per cent. on the amount of tax required (Laws of 1863, chap. 293, sec. 6,) to cover losses arising from erroneous assessments, insolvencies, &c. The amount levied for this purpose in '66 was		319,255 62
		$16,950,767 88

The following is an analysis of the tax for State purposes:

Common schools for State, ¾ of a mill	$466,946 28
General purposes, 2½ mills	1,556,487 60
Canals, 1⅛ mills	700,419 42
Extension of Chenango Canal, 3-16 of a mill	116,736 57
Champlain Canal, 1-10 of a mill	62,259 50
Total	$2,902,849 37

The following is an analysis of the tax for County purposes:

For support of the Metropolitan Police in this County	$2,166,684 70
Construction of Harlem Bridge	186,876 00
Commissioners of record	100,000 00
Metropolitan Board of Health	225,000 00
College of the City of New York	85,000 00
Interest on the County war and riot debt	591,159 88
Interest on the County debt	279,400 00
General County expenses	1,757,780 00
	$5,391,900 58
Deduct revenues of the County not otherwise specifically appropriated	120,495 08
Total	$5,271,405 50

The following is an analysis of the tax for City purposes:

Board of Commissioners of Central Park	$327,779 93
Interest on the Central Park debt	526,421 24
Metropolitan Fire Department	870,000 00
Metropolitan Police, in addition to amount on County account	104,300 00
Public charities and corrections	1,067,889 08
Public instruction	2,212,047 50
Laying out the City north of 125th st.	12,000 00
Sundry additions by the Legislature	181,465 69
Interest on the war debt	263,134 02
Interest on the City debt	463,975 00
Redemption of City debt	277,382 21
General expenses	3,908,582 68
	$10,214,995 35
Deduct revenues of the City not otherwise appropriated	1,757,719 96
Total	$8,457,275 39

A glance at the foregoing figures will show that of the whole tax levy of $16,950,767 88, about $3,000,000 was for the State, and about $8,000,000 for various commissions created by the Legislature, and for express Legislative appropriations, and interest on the Central Park debt; and that over $850,000 was for interest on debt growing out of the war. The balance of a little over $5,000,000, added to revenues not raised by taxation, was for City and County expenses, including interest on City and County debt.

Great Western Railway of Canada—Completion of the Third Rail.

The completion of the third rail on the Great Western Railway of Canada was duly celebrated at Hamilton on the 9th inst. By means of this third rail the Great Western is brought into a uniform gauge with the Michigan Central and the New York Central Railroads. The narrow gauge cars of these roads can now pass and repass over the entire length of the Great Western, between Suspension Bridge and Detroit. Cars can be loaded at New York or Boston, and sent through, without break, to Detroit, Chicago, Cairo, Quincy, Burlington and St. Louis. By a joint arrangement between the eastern and western roads, freight cars commenced running through on the first day of this year, to the points above named. About $1,250,000 have been expended by the Great Western Railway Company in completing this uniformity of gauge, and in the construction of the ferry boat by means of which the cars are transported between Windsor and Detroit. Eighteen cars are taken at a load, and a train of 108 cars was carried over the river a few days since in two hours. About 400 cars of the "Blue Line," as it is called, were loaded and started at Detroit in the first four days after its opening. About 800 of these cars are now either built, or are in process of construction, and it is proposed to have about 5,000 of them, thus furnishing shippers of through freight with every possible convenience. The principal inconvenience apprehended was the customs regulation, which required passengers and baggage to be searched in crossing the lines. This, we are happy to state has been modified by the Secretary of the Treasury, in order that the trains may pass through Canada without the delay and annoyance of customs examination on the borders. Hereafter baggage and freight cars will be locked with a custom lock on the American side of the Detroit or Niaraga rivers, and not unlocked while on Canadian soil. Through passengers will remain in cars into which no Canadian will be allowed to enter. These cars and their contents will be permitted to enter the United States without inspection. The officer of customs will accompany each through train.

Southwest Pacific Railroad.

Work on the Southwest Pacific Railroad, which has now become a link in the Atlantic and Pacific road, is vigorously pushed forward, and will in a few days be completed to the Gasconade River, one hundred and twenty-five miles from St. Louis. A bridge eight hundred feet long is in course of erection across the stream, and fifteen hundred men are grading on the west side of the river.

☞ The contract for grading, bridging, and tieing the Burlington and Missouri River Railroad, from Chariton to Afton, Iowa, a distance of sixty miles, has been awarded to J. Z. S. Wolfe & Co., the parties who are now engaged upon the extension from Ottumwa to Chariton.

☞ S. E. Maxwell has been elected President of the Pensacola and Montgomery Railroad.

American Railroad Journal.

Saturday, January 19, 1867.

Stock Exchange and Money Market.

The legitimate movements in Money were disturbed early in the week under review, by the manipulations of the leading *bears* in Gold and Stocks, especially the former, which produced an artificial stringency in the market, by the sudden withdrawal of large sums from employment, and the locking up, for a day or two, of the funds thus abruptly called in, in harmony with the plans and arrangements of the operators against the ruling values. While the available supply was thus seriously diminished, accommodation was not granted to even the best borrowers at less than the full legal rate of seven per cent. on call; while less responsible parties had to pay as much as seven per cent. and a commission in currency, and even full seven per cent. in gold, for such aid as they urgently needed. The pinch was most severely felt on Wednesday evening, and through Thursday of last week. It did not last long, however. It involved too heavy an expense to its engineers, to be maintained for any great length of time. On Friday and Saturday the market begun to relax, on an increasing supply, and by Monday noon, the flurry was practically over. The local press was almost unanimous in its condemnation of the agencies by which the pinch was brought about and the market so violently agitated. Since Monday, the movements have been on a more stable basis, and favorable to borrowers for temporary use at the Stock Exchange and Gold Rooms at 7 per cent., and in the national security line of business, at 6@7 per cent. Discounts have been dull, though within a few days, there has been more call for strictly prime short date commercial paper at from 7@8 per cent. per annum. The only important drain of currency from this centre at present is in the direction of the South, whither remittances are being made in considerable sums to move to the seaboard the Cotton crop. This is rather advantageous than otherwise, as, apart from other considerations, by the free marketing of the great staple, exchange will be more abundant, and the inflation of the gold premium thus rendered more difficult. The last city bank statement has been favorably interpreted. The gain in the specie reserve offsett the loss in the legal tender reserve. There was no important change in the volume of deposits, or circulation. The loans were heavier, but this is partly accounted for by the fact that some of the strongest and most respectable of the banks toward the close of last week made extraordinary efforts to counteract the schemes of the operators against the market, by increasing the accommodation extended to their customers. The local bank return for the past week showed a decrease of $1,779,751 in legal tender reserve, and $15,956 in deposits, with an increase of $1,083,028 in the loan item, $1,818,685 in specie and $62,324 in circulation. The specie reserve of the banks is now $14,613,477, against $16,852,568 the same time last year. The city bank deposits are now $202,517,608, against $228,484,370 week ending Oct. 6, 1866, and $197,766,999 week ending Jan. 13, 1866. The legal tender reserve amounts to $63,246,370, against $73,019,957 same time last year. The circulation now stands at $32,825,103, against $19,162,917 same time last year. The loans are now $258,935,488 against $279,135,790 nine weeks ago, and $234,938,193 at this date last year. The Bank Exchanges at the Clearing House, through the past week, averaged $108,522,010 a day, against a daily average of $97,395,557 the preceding week; and $101,183,599 the week ending with Dec. 30. The current week's exchanges average about $104,200,000 a day.

The main changes in the Philadelphia Bank footings, last week, were as follows: Increase of loans, $216,164; decrease of legal tender reserve, $203,709; decrease of deposits, $284,606; decrease of specie, $343; and decrease of circulation, $8,243.

National Bank notes to the amount of $530 were issued last week, making the total issue to 1,663 banks thus far $300,755,901, against $282,555,440 at the close of the last fiscal year, June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $2,145,932, leaving, with the existing 1,650 banks, an actual circulation at this date, of $298,609,100. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $340,365,150; and for the public deposits, $38,903,950—making a total of $379,269,100. The Treasury Department, last week, redeemed and destroyed $360,800 of worn and mutilated fractional currency, and issued $271,000 worth of new.

The U. S. Sub-Treasury receipts, week ending with Jan. 12, were $22,939,315, including $1,944,-623 from customs duties; payments, $24,887,977; balance at the close of the week, $101,164,996, against $102,613,658 at the close of the preceding week. The business of the Office during the first two day of the current week, was as follows: Receipts on Monday, $2,609,234, and payments, $3,179,553; on Tuesday, receipts, $1,983,259; payments, $1,433,611. The balance at the close of business on Tuesday stood at $101,144,324, against $102,217,820 a week previous.

Government revenues have been more liberal in the form of customs, and less so, in the way of excises, during the past week. The excises are usually least prolific at this season of the year. Excises, last week, yielded about $3,459,140, against $6,955,298 the preceding week; customs at the port of New York, (in five business days) $1,944,623, and at the outports, about $650,000 (in coin) more, making the grand total income for the week equal about $7,025,000 in currency, against disbursements of only about $3,426,442 on account of the three leading executive departments. The total receipts of the National Treasury, from excises, since July 1, 1866, have been about $177,000,000, or at an average weekly rate of about $6,300,000, equal to a yearly aggregate of about $328,000,000, against the Department estimate of $285,000,000 for the whole of the current fiscal year, This is a very handsome revenue for a dull year, in a business way.

Gold has been moving upward during most of the week, especially since the practical defeat of the *bear* schemes against an easy Money Market on Thursday and Friday last. The lowest price was made on Friday the 11th inst., namely 132½; and the highest on Wednesday, the 16th inst., to wit, 137. The speculative demand has been increasing in volume. It has been stimulated by the exciting political rumors of the week from Washington, though far less apprehension has been awakened by these alarming rumors than might have been anticipated. The *short* sellers of last week have been eager buyers, within the past two or three days, mainly with a view to protecting their outstanding contracts. Many of the operators, who were recently conspicuous among the *bears* have changed sides, and begun to manipulate the market for a fresh upward movement. They calculate on deriving much aid in prosecuting their schemes from the Washington reports and rumors, many of which are undoubtedly fabricated in their interest. Readers of the public journals should be on their guard against all such mischievous attempts to impose on them. The latest dealings in gold on Wednesday brought the rate back to 135⅝. The customs inquiry has been much more liberal, since our last. Cash gold, or gold for immediate delivery, has been comparatively abundant, thus preventing as sharp an upward turn as might otherwise have been brought about by the *bull* clique manipulations. The total imports of specie from Europe, and other foreign ports since Jan. 1, 1867, have been $68,411. The customs demand for Gold last week, averaged $324,104 a day; thus far, this week, it has been equal to $414,867 a day, or equal to a weekly aggregate of $2,489,202. The arrivals of specie from Europe, Havana and other foreign ports, during the past week reached $56,-178, and from California, $874,764. The total customs revenue of the Government, in coin, at this port since July 1, 1866, has been $65,637,505, against $70,164,523 same time in the preceding fiscal year. The total receipts of California gold at this port since July 1, 1866, have been $26,-027,308, against $12,788,790 same time last year, showing an increase this year, of $13,238,518. The exports of specie from this port, last week, were $887,828. The total outflow of specie from the port, thus far in the current fiscal year has been $18,476,610, against $13,240,341 same time in the preceding year. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $2,220,000, making the total coin interest disbursements through the Government office, since July 1, 1866, $31,741,463, against $27,927,-663 for the same time in the preceding fiscal year. The specie exports from San Francisco from Jan. 1, to Dec. 15, reached $43,200,000, against $43,850,000 same time in 1865.

Foreign exchanges have been in fair supply and demand, since our last, at a rather higher range of prices. Some considerable sums of Sterling have been made against exports of Five-twenties. Bankers' 60 day bills on London closed on Wednesday at 109⅛@109⅛, and on Paris to 5.16¼@5.13¾; sight bills on London to 110⅛@ 110⅜; and on Paris to 5.13¾@5.11¼. The offerings of produce bills have been fair since our last. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $4,256,658, making the total value of exports since July 1, 1866, $89,-579,677, against $115,973,286 same time in the preceding fiscal year.

Government securities have been in quite brisk demand, since our last, chiefly for home investment purposes, at in the main, firmer and buoyant prices. The coin bearing bonds were in most favor, especially the earlier and later issues of the Five-twenties. The sudden rise in gold on Wednesday, elicited a considerable foreign demand for the Five-twenties of 1862, which carried the price of this special issue of the funded obligations up fully ⅛ of one per cent. The advices from abroad are to the effect that the foreign markets for Five-twenties have been heavily oversold, and that nothing but the rumors of political troubles here prevents the price of the bonds from rallying very sharply. The foreign bankers here do not seem to be disturbed by these rumors, nor do they appear to have their confidence shaken in the national funds as a secure and lucrative investment. U. S. sixes of 1867 closed here on Wednesday at 128½@129; U. S sixes of 1868, at 128@128½; U. S. sixes of 1881, 108@108¼; U. S. Five-twenties of 1862 at 107⅞@108⅛; U. S. Five-twenties of 1865 at 105⅞@106⅛; U. S. Five-twenties of 1865, consolidated, 104¼@104½; U. S. Ten-forties at 99¾ @100, and U.S. Seven-thirties at 104¼@104½. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ¼@½ of 1 per cent. on these figures:

June, 1864.....	116⅝	May, 1865	111¼
July, 1864.....	116⅛	August, 1865....	110½
August, 1864....	115⅝	September, 1865..	110¼
October, 1864....	114⅝	October, 1865....	110
December, 1864..	113⅝		

The week's business in railway and miscellaneous share property has been of average magnitude, on a variable and somewhat feverish market. The worst dealings were those on Thursday and Friday of last week, and at the close of Wednesday of the current week. On Wednesday afternoon, the *bears* hammered the market vigorously, depressing prices 2@3 per cent., and creating a sort of panicky temper in the clique stocks.

General business has been reviving fitfully, since our last. The main improvement has been in the magnitude of the dealings in breadstuffs and provisions, which have been in more request, though at irregular and not very firm prices, partly for export, and partly on speculative account. Cotton has been sold and exported rather more freely, but the turn of the market has been against holders. Middling grades closed at 34@36 cents per lb., on a less active inquiry. The stock of cotton now here is estimated at about 175,000 bales. The receipts at the port this week, have averaged 4,300 bales a day. The receipts since the commencement of the current cotton year, Sept. 1, have been 178,-950 bales, against exports of 135,733 bales. The receipts at all the shipping ports from September 1, to latest mail dates have been 838,000 bales against 981,000 bales same time last year; exports, 352,000 bales, against 471,000 bales same time last year, estimated stock at latest dates, 540,000 bales, against 487,000 bales same time last year. A statement of the sugar trade of the United States has just been published, showing that the receipts into the country of foreign unrefined sugar for the year ending December 31, 1866, were 403,497 tons, and the consumption of this description was 383,178 tons, against receipts in 1865 of 362,243 tons, and consumption 345,800 tons. The total consumption of foreign and domestic cane sugar in 1866, was 391,678 tons, against total consumption in 1865, of 350,809 tons, being an increase of over 11⅝ per cent. An annual exhibit of the coffee trade of the United States, just given to the public, shows that the total receipts in the United States for the year ending Dec. 31, 1866, were 1,185,858 pkgs., weighing 163,671,798 lb., against receipts in 1865 of 862,341 pkgs., weighing 133,574,397 lb., and the total consumption in 1866, was 158,197,696 lb., against a consumption in 1865, of 128,146,356 lb., being an increase of 30,051,340 lb., or nearly 23½ per cent. Foreign merchandise has been in very moderate request, and without any improvement in price, though holders view the immediate future, rather more hopefully, especially for staple articles in the dry goods line. The total imports of foreign dry goods, last week, were $4,084,964, and the total amount marketed $1,994,381. The value of foreign merchandise imported last week, was $3,027,228—making the grand total specie value of last week's imports of dry goods and merchandise, $7,062,192, and since July 1, 1866, $137,995,224, against $148,951,386 same time in the preceding fiscal year. The ocean freight market is more active in the line of cotton, breadstuff, provision shipments, and rates are firm, with 538 vessels of all classes in port. For Liverpool we quote flour at 2s.@2s. 3d.per bbl.; grain at 4½@4½d. per bushel; cotton at ¼@5.16d. per lb.; and heavy goods at 10s.@20s. per ton, all by sailing vessel.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Dec. 31.	Jan. 9.	Jan. 16.
Consols	——	91	91⅛
U.S. 5-20's of 1862	—72¾	72⅞	72⅞
U.S. 5-20's of 1865	—71¾	71¾	71⅞
Erie	—46	45	45

The New York exports, exclusive of specie, for the week ending Jan. 15, and since the beginning of the year, compare as follows:

	1866.	1867.
For the week	$5,003,593	$4,256,658
Prev. reported	4,091,557	3,716,624
Since January 1	$9,095,150	$7,973,282

The New York imports for the week compare as follows:

	1866.	1867.
Dry goods	$4,897,258	$4,034,964
Gen. merchandise	1,969,930	3,027,228
Total for the week	$6,867,188	$7,062,192

The commerce of New York from July 1st to date compare as follows:

	1865–'66.	1866–'67.
Imports merchandise	$148,951,386	$137,995,224
Exports produce	115,973,286	89,579,677
Exports specie	13,280,454	18,433,610

The balance in the Sub-Treasury on Wednesday was $101,658,146 51.

Union Pacific Railroad.

George Ashmun of Massachusetts, Jesse L. Williams of Indiana, Charles T. Sherman of Ohio, T. J. Carter of Illinois, and S. Harbaugh of Pennsylvania, Government Directors of the Union Pacific Railroad, have prepared a report to the President, which states that there are three hundred and five miles of the road finished and in operation—trains running to a point a few miles west of the forks of the Great Platte river. This road is definitely located up the Lodge Pole creek to the foot of the Black Hills, then through "Evans' Pass" to the Laramie river, a further distance of near three hundred miles, which it is contemplated to build during the present year. This main line will pass about one hundred miles north of Denver, which place the company proposes to reach by a branch road. It is confidently expected that by the 1st of January next the locomotive will penetrate and cross the most difficult range of the Rocky Mountains, at an elevation of over 7,000 feet above tide-water, and reach the crossing of the Laramie river a distance of near six hundred miles from Omaha, the initial point on the Missouri river.

☞ Oliver Ames of Easton, Mass., has been elected President of the Union Pacific Railroad, to hold the office while General John A. Dix is absent as Minister to France.

Railroad Earnings.--Weekly.

The earnings of the Grand Trunk Railway of Canada for the week ending Jan. 5th, 1867, were $108,588 00
Corresponding week of previous year.. 100,087 00

Increase..... $8,501 00

The earnings of the Chicago and Rock Island Railroad for the 1st week in Jan., 1867, were..... $81,136 00
Corresponding week of previous year.. 76,129 00

Increase..... $5,007 00

The earnings of the Marietta and Cincinnati Railroad the 1st week in Jan., 1867 .. $24,856 00
Corresponding week previous year..... 22,130 00

Increase..... $2,726 00

The earnings of the Michigan Southern and Northern Indiana Road for the 1st week in Jan., 1867, were..... $ 67,047 00
Corresponding week of 1866 ..... 75,330 00

Decrease $8,283 00

The earnings of the Chicago and Northwestern Railway for the first week in Jan., 1867, were..... $168,684 44
Corresponding week of previous year,. 153,950 25

Increase..... $14,734 19

The earnings of the Western Union Railroad for the week ending Jan. 7, 1867 . ... $9,792 02
Corresponding week previous year..... 10,016 30

Decrease $224 28

The earnings of the Michigan Central Railroad for the 1st week in Jan., 1867, were... $75,113 33
Corresponding week of previous year.. 59,590 08

Increase..... $15,523 25

Railroad Earnings--Monthly.

The earnings of the Cleveland and Pittsburg Railroad for the month of Dec., 1866, were:

From freight $106,087 19
" passengers 50,089 59
" miscellaneous 5,250 00

$161,426 78

Dec., 1865:
Freight, passengers, etc 178,434 26

Decrease..... $17,007 48

The receipts of the European and North American Railway for the month of December, 1866, compared with the receipts of the corresponding month of the previous year are as follows:

	1866.	1865.
Passengers	$5,037 87	$4,976 21
Freight.....	6,902 69	5,785 52
Mails and sundries.....	501 71	508 00
	$12,442 27	$11,260 73

Increase over Dec. 1865, $1,172 54.

Railways of Great Britain, 1865.

The document annually issued by the Board of Trade, which gives returns of accidents, traffic, working expenditure, and capital concerning the railways of the United Kingdom, has just been published. From this we learn that in 1843 there were 2,036 miles of railway open in the United Kingdom; in 1856 the number of miles open was 8,635; in 1864 there were 12,789 miles open; at the end of 1865 there were 7,503 miles of double, 5,786 miles of single line, or in all 13,289 miles of railway open in the United Kingdom, or 500 miles more than in 1864. In 1846 the railways of the whole world only aggregated 2,769 miles.

Turning now to the traffic, we find that in the year ending December 31st, 1865, there were 3,448,509 passenger trains run, 2,108,198 goods trains, or 5,556,707 trains in all, being 586,738 trains in excess of the number in 1864. These trains ran in the aggregate 139,527,127 miles, being 10,896,184 more than was run in 1864. The miles run by trains in the United Kingdom in 1865 were about 5,613 times the mean circumference of the earth! The passenger trains conveyed 251,862,715 persons, exclusive of 91,147 season-ticket holders. The increase of passengers was 22,590,550, as compared with 1864, and the increase of season-ticket holders 20,648. In addition the passenger trains carried 59,299 carriages, 253,550 horses, and 396,097 dogs—each of these items being a decrease as compared with the previous year. The goods trains conveyed in the year 2,769,880 head of cattle, 9,336,411 sheep, and 2,424,696 pigs. Of coal, coke, and other minerals, they carried 77,805,786 tons, and of general merchandise, 36,787,638 tons. The cattle carried were fewer in number than in 1864, but the other items last named show a considerable increase. The gross receipts from passenger traffic, including mails (£567,865) for the United Kingdom, were in 1865, £16,572,051; from goods traffic £19,318,062, or together £35,800,113, being an increase of £1,874,549, as compared with 1864. The increased receipts were:—For England and Wales, £1,498,662; Scotland, £220,432; and Ireland, £155,455. In 1848 the receipts from passenger traffic amounted to £5,720,382, and from goods, cattle, minerals, &c., to £4,213,169.

The working expenditure shows an increase, both absolute and comparative, for 1865, as compared with 1864. Maintenance of way cost £3,140,718; locomotive power, including stationary engines, £4,712,262; repairs and renewals of carriages and wagons, £1,514,165; traffic charges (coaching and merchandise), £4,911,031; rates and taxes, £672,714; Government duty, £451,919; compensation for personal injury, £333,533; compensation for damage and loss of goods, £115,792; legal and Parliamentary expenses, £247,167; miscellaneous working expenditure—a convenient heading and a heavy amount—£1,049,772. Total working expenses, £17,149,073, or 48 per cent. of the gross receipts. The comparative increase in working expenses for the year is £1,148,765. The working expenditure in 1864 was 47 per cent. of the receipts. The working expenses, which include, as may be seen, Parliamentary contests—a costly item—have been greatly increased during the last twenty years. In 1845, the percentage of working expenses on traffic of four large companies, having metropolitan termini, was respectively, 34.49, 38.88, 28.11, and 32.46. The working expenditure of the same four companies were in 1865, 52, 51, 52, and 57 per cent. upon the respective receipts. The passenger traffic furnishes 46.17 per cent., and the goods traffic 53.83 per cent. of the gross receipts, as for the United Kingdom. In England and Wales the proportions are:—Passenger, 46.34, and goods, 53.66; Scotland, passenger, 37.88, goods, 62.12; Ireland, passenger, 62.22, goods, 37.78 per cent. As regards the numbers of the respective classes of passengers carried, the third class continue to take precedence both in numbers carried and money paid. The proportion as regards numbers are:—First class, 11.72 per cent.; second, 28.13 per cent.; and third class, 60.15 per cent. Their respective contributions to revenue are:—First class 25.81 per cent.; second class, 32.28 per cent.; third class, 38.81 per cent.; and season-ticket holders, 3.10 per cent. The third class passengers increase proportionately. Moreover, the first class were in 1865 more by 7.08 per cent., the second class, 8.60 per cent., and the third class 11.09 per cent. above the respective numbers in 1864. The greatest proportionate increase in the receipts has been from the season-ticket holders. First class passengers have yielded as increased revenue 5.79, second class 4.36, third class 6.93, and season-ticket holders 15.58 per cent. each class respectively. The proportions of the passengers using the different classes of carriages in the different divisions of the United Kingdom is curious and suggestive. In England and Wales the first class passengers are (sinking the decimals) 11 per cent., in Scotland 12, and in Ireland 12; second class, England 29, Scotland 10, Ireland 29; third class, England 58, Scotland 76, Ireland 56; from which it is evident that Scotsmen get in mileage the best bargain for their bawbees. The increase in numbers of the several classes of passengers was for the year:—First-class, 1,961,790; second, 5,514,072; third-class, 15,114,072.

In rolling stock the companies had at December 31st, 1865, 7,414 locomotives, 17,997 passenger-carriages, 220,304 coal, cattle, and goods-wagons and 12,956 trucks and wagons of other sorts, being a total a 258,671 engines, carriages, and wagons—an increase of 15,051 as compared with 1864. Made up in a continuous train, buffer to buffer, the rolling stock of the companies in the United Kingdom would extend to above 1,000 miles.

At December 31st, 1865, the authorized capital of the companies in the United Kingdom amounted to £576,291,663, of which the proportions were:—By shares, £432,889,225; loans, £143,402,418. The paid up capital at the same date amounted to—In ordinary capital, £219,598,195; preferential capital, £124,268,475; debenture stock or funded debt, £13,795,375; a total, £357,657,046; with debenture loans outstanding on the 31st December, 1865, of £97,821,097; or a grand total paid up of £455,478,143. The amount authorized to be subscribed to other undertakings is £11,603,481, and the amount actually subscribed to such undertakings £11,089,084. The increase in the authorized capital of the companies at the end of 1865 as compared with 1864, is £55,769,329; and the increase in the paid-up capital of the later year, as compared with the former, £29,758,530. The additional capital paid up in 1855 was £11,516,000; in 1860, £13,767,000; and in 1864, £21,268,000. Of this there was raised in loans and debentures, in 1855, £4,501,000; in 1860, £3,218,000; in 1864, £3,958,000. At the end of 1865 the increased debenture stock and funded debt, £745,834, added to the excess in the amount of debenture loans outstanding, £4,745,705, give together £5,491,539. In 1855 the companies were indebted in loans, or upon the security of debentures, in the sum of £75,161,000; in 1860, £89,464,000; in 1864, £106,080,000; at the end of 1865 the debenture stock and funded debt, with the debenture loans outstanding, amounted to £111,616,472. The amount in ordinary and pre-

ferential shares at the same periods were:—In 1855, ordinary shares, £169,605,000; preferential, £52,818,000; in 1860, ordinary, £190,791,000; preferential, £67,874,000; in 1864, ordinary, £214,755,000; preferential, £104,648,000; in 1865, ordinary, £219,598,196; and preferential, £124,263,475.

New York Canals.

We give below, from the Report of the Auditor of the Canal Department, a brief and general statement of the operations of the State Treasury, embracing the canal funds:

Receipts during the fiscal year ending September 30, 1866, including the balance of the year	$10,627,273 03
Payments for the year	5,742,638 91
Balance in the Treasury September 30, 1866	$4,884,634 12

ANNUAL REVENUES.

Receipts from canal tolls, rents of surplus waters, interest on current canal revenues and miscellaneous receipts	$4,309,746 12
Payments on account of "Superintendence, collection and ordinary repairs"	1,434,989 73
"Surplus revenues" carried to credit of sinking funds	$2,874,756 39

CANAL DEBT SINKING FUNDS.

Amount of under section 1, article 7	$1,531,611 16
Do. do. sec. 3, article 7	1,660,679 64
Do. do. sec. 12, article 7	406,662 43
	$3,598,953 23
Deduct one year's interest on debt	1,035,330 00
Balance applicable to payment principal	$2,563,623 23

CANAL STOCK DEBT.

On the 30th of September, 1866, the canal stock debt bearing interest was	$17,966,600 00
After applying the above balance	2,563,623 23
The remainder of the principal will be	$15,402,976 77

This would show a reduction in the debt of over $11,500,000 in six years, besides paying nearly $8,000,000 interest.

CANAL REPAIR TRUST FUND.

1865, Sept. 30, principal and accrued interest of the fund was	$115,973 06
Increase of the fund during the year	51,680 20
	$167,653 26
Diminution of the fund during the year	33,490 64
1866, Sept. 30, principal and interest of fund invested	$134,162 62

CANAL FUNDS IN DEPOSIT.

1866, Sept. 30, amount deposited in banks available	$4,062,075 52
Do. do. unavailable	73,852 89
Insolvent banks, repair trust fund	134,162 62
Total available and unavailable and in trust	$4,270,091 03

There was appropriated on account of repairs for the fiscal year ending on the 30th Sept. last:

For the Eastern Division	$484,757 00
For the Middle Division	413,095 00
For the Western Division	319,748 00
Appropriated to all the Divisions	$1,217,600 00
Required to pay repair contractors	513,215 70
Amount of appropriations over contracts	$704,384 30

This excess of appropriation has been expended in the repairs of breaks in the canals; to work outside of and excepted out of the repair contracts, and to ordinary repair work ordered by the Legislature.

The amounts expended in the repairs of breaks and breaches in the canals the two last fiscal years, caused mainly by the floods in March, 1865, have been as follows:

On the Eastern Division	$53,511 52
On the Middle Division	301,752 32
On the Western Division	326,463 68
	$681,727 52
The existing canal stock debt, including the interest to the date of maturity, is given at	$22,773,297 50
Estimated amount of the general fund debt of 1846, with three years' contribution of $350,000 per annum	7,050,000 00
Due to the Treasury for moneys advanced therefrom, and for taxes levied for canal purposes, with interest from the date of payment to the first of October last	16,469,958 11
	$46,293,255 61

To meet this formidable presentation, the Auditor exhibits a table which shows the aggregate of the "surplus canal revenues" the last seven years have reached $20,436,868 26, an average of nearly three millions of dollars a year. The Auditor estimates that the canal debt of 1846 will be paid off and provided for by the first of October, 1868, and that within four and a half years thereafter the general fund debt chargeable upon the tolls will be out of the way, if in the meantime we can retain the Western trade.

The report then presents several carefully compiled tables, which show beyond a doubt or question that the canal tolls arising from the internal traffic of the State would not, during the six years preceding the last, have paid the interest on the canal debt, and paid the ordinary repairs and maintenance into four millions of dollars. The report also shows our surplus during that period have been mainly drawn from the transit of western traffic from Buffalo to tide water on the Erie Canal.

The Auditor asks if we are now secure against the division and loss of this trade, and presents facts and arguments to show why, in his judgment, we cannot retain it with our canals as they now are; but hopes when the contemplated improvement is completed, we may have the ability to maintain a respectable competition with all the world, if we can use steam on the Erie Canal. The report suggests that we shall have no difficulty in our way for three or four years to come in so managing our canal finances, without imposing additional burthens upon the people, that we can then bring down our rates of toll to secure a net revenue of $2,650,000, and after the general fund debt is paid then to $2,500,000, which will be an ample sinking fund to take care of the existing canal debt and any new debt the convention of 1867 may think it expedient to authorize, if any. In this view of the question the report does not look for a payment to the Treasury now chargeable upon the canal revenues until after all the canal stock debt is paid.

These suggestions of the report are only made in anticipation of future action by the Legislature and the State Constitutional Convention in 1867.

Erie Railway.

The earnings of the Erie Railway and Buffalo Division for the month of Dec., 1866, were:

Erie Railway	$980,318 81	
Buffalo Division	63,714 26	$1,044,033 07
Dec., 1865—		
Erie Railway	$1,429,765 17	
Buffalo Division	95,151 45	1,524,916 62
Decrease on Erie Railway and Buffalo Division		$480,883 55

The earnings of the Erie Railway (including the Buffalo Division) for each month of the fiscal years 1865 and 1866, have been as follows:

	1865.	1866.	
January	$1,070,890	$1,187,188	Inc. $116,298
February	1,011,735	983,855	Dec. 27,880
March	1,331,124	1,070,434	Dec. 260,690
April	1,538,313	1,153,295	Dec. 385,018
May	1,425,120	1,101,668	Dec. 323,452
June	1,252,370	1,243,143	Dec. 9,227
July	1,274,558	1,203,462	Dec. 71,096
August	1,418,742	1,290,330	Dec. 128,412
September	1,435,285	1,411,347	Dec. 23,938
October	1,580,317	1,480,251	Dec. 100,066
November	1,637,592	1,417,327	Dec. 220,265
December	1,524,917	1,044,033	Dec. 480,884
	$16,501,063	$14,586,333	Dec. $1,914,730

Debt of Illinois.

The public debt of the State of Illinois, on the 30th of November, 1866, was $8,638,252 21—a reduction in the past two years of $1,264,020 63, not including interest, which amounted to $1,995,609 12. The receipts during the two years, with the balance on hand at the date of the last report, have been as follows:

Revenue fund	$1,355,052 69
State debt fund	1,995,609 12
Interest fund	1,848,003 89
School fund	338,809 46
Illinois Central Railroad fund	1,136,318 70
Delinquent land tax fund	331 06
Unknown and miner heirs' fund	1,445 11
Hancock County interest fund	9,465 76
	$6,685,035 79

The expenditures were:

Revenue fund	$1,238,629 18	
State debt fund	1,264,020 63	
Interest fund	1,810,455 42	
School fund	297,076 64	
Illinois Central Railroad fund	1,102,436 54	
Unknown and minor heirs' fund	295 26	
Hancock County interest fund	8,950 76	
		5,271,864 43
Balance in the Treasury		$1,413,171 36

The funds now on hand which may be applied to the payment of the State debt would further reduce it to about $7,500,000.

The following table shows the movements of the State debt for the last six years, giving the amount due on the 1st of December biennially:

1860	$10,277,161 36	1864	$9,902,272 84
1862	12,327,161 36	1866	8,638,252 21

To accomplish the reduction of the State debt which has taken place within the last four years, no increase of taxation has been necessary. At the present rate of valuation, the Treasurer estimates that the two-mill tax would be sufficient to pay the State debt within 10 years. With the seven per cent. upon the earnings of the Illinois Central Railroad added, the last dollar of indebtedness can be met by the 1st of January, 1874.

If the appropriations of the present Legislature should equal those of the last, it is estimated that there will be a deficit in the revenue fund for the next two years of $550,000, which will have to be supplied by increased taxation or otherwise.

In view of the inequality of the burden of taxation resting on the people in different parts of the State, resulting from variation in the estimates of the value of real and personal property by assessors, the Treasurer revives the recommendation, already made, for the creation of a Board of Equalization of Assessments, whose duty it shall be, not only to equalize the assessments between the different counties, but also to so increase or decrease the valuation that the present rate of taxation will meet all the current expenses of the State Government.

Interest and Dividends.

The Cleveland, Columbus and Cincinnati Railroad Company have declared a dividend of four per cent., free of Government Tax, payable February 1.

The Illinois Central Railroad Company have declared a dividend of 5 per cent. in cash, free of Government tax, payable February 1.

The Milwaukee and Prairie du Chien Railway Company have declared an annual dividend of eight per cent. on the First Preferred Stock, and seven per cent. on the Second Preferred Stock, less government tax in both cases, payable on and after February 1st, 1867.

The North Pennsylvania Railroad Company have declared a dividend of five per cent. out of the net earnings, in scrip bearing no interest, and convertible into the seven per cent. mortgage bonds of the company, in sums of Five Hundred Dollars, on and after May 1st, 1867, on presentation at the office of the company. The scrip so issued will be delivered to the stockholders or their legal representatives on and after February 1st next.

The Central Railroad Company of New Jersey have declared a quarterly dividend of 2½ per cent., free of Government tax, payable Jan. 21.

The Delaware and Hudson Canal Company have declared a dividend of 8 per cent., free of government tax, payable February 1.

The Connecticut and Passumpsic Rivers Railroad Co. have declared a semi-annual dividend of 3 per cent. on their preferred stock, payable Jan. 21.

Atlantic and Great Western Railway.

At the annual meeting of the stockholders of this company, held at Meadville, Pa., on the 8th inst., the following Board of Directors was elected to serve during the ensuing year: S. S. L'Hommedieu, Cincinnati, O.; J. J. Shyrock, Hon. G. Church, Hon. John M. Dick, Wm. Thorp, Meadville, Pa.; Samuel L'Hommedieu, R. H. Burdell, B. Vanderpool, John Gardner, New York; C. E. E. Blakeslee, Kent, O.; R. M. N. Taylor, W. Cleveland, O.; J. Riblet, Galion, O; E. P. Brainerd, Ravena, O.; John Howard, Dayton, O.; Hon. John Sherman, Mansfield, O.; Chas. Day, Henry Martin, and Geo. R. Babcock, Buffalo, N. Y.; A. J. Allen, Jamestown, N. Y.

At a subsequent meeting of the directors the the following officers were chosen: President, S. S. L'Hommedieu; Vice-President, J. J. Shyrock; Secretary and Auditor, J. C. Calhoun; Treasurer, J. M. Dick; General Superintendent, D. McLaren; General Freight Agent, J. M. Osborn; General Ticket Agent, E. F. Fuller.

Anthracite Product of Pennsylvania.

The quantity of anthracite forwarded to market, by rail and canal, from the several mining districts in 1866 and 1865, was as follows, to wit:

	1866. Tons. cwt.	1865. Tons. cwt.
Phila. & Reading R.R.	3,714,684 07	3,090,813 14

—*U. S. R. R. & Mining Register.*

Railroad in Southern California.

Another scheme for building a railroad through Southern California has been originated in Sacramento. The *Union* of that city says it is meant to accommodate the tier of counties lying back of the line of the Southern Pacific, and will run from Sacramento to Fort Miller, in Fresno county, in nearly a straight line, one hundred and forty miles, through the counties of Sacramento, San Joaquin and Calaveras, thence to Fort Yuma or some other eligible point on the Colorado which may be designated by the company connecting from the East. The total length of a railroad on this route would be six hundred miles. It would run through some of the best agricultural districts in the state, and in the vicinity of districts rich in mineral wealth.

☞ The first train passed over the St. Stephen Branch railway on the 2d inst. There were several through passengers for Woodstock, who took the up train of the New Brunswick and Canada Railway for Richmond Station. On the same day several gentlemen made the through trip from St. Andrews to St. Stephen by rail, among whom was the manager of the New Brunswick and Canada Railway.

No. 27 South 8th Street, cor. of Jayne, Philadelphia, Penn.

BARSTOW, EDEY & CO.,

BANKERS and BROKERS

HAVE REMOVED FROM

No. 30 to No. 36 Broad Street.

OFFICE NO. 16.

TO RAILROAD CONTRACTORS.

LOUISVILLE, CINCINNATI AND LEXINGTON RAILROAD OFFICE,
LOUISVILLE, KY., December 24, 1866.

SEALED PROPOSALS will be received at this office, on the 31st January, 1867, for the Graduation and Masonry of over seventy (70) miles, (in mile sections), of the Cincinnati Branch of this railroad.

The work is of an unusually desirable character for good contractors, the line accessible by steamboat and turnpike, and the country full of supplies.

Profiles will be ready for examination on and after 15th January.

Payments for work done will be made monthly in cash and with the usual reservation.

References will be required from contractors not personally known and the company reserve the right to reject any bids not deemed to their interest.

I. M. ST. JOHN,
Chief Engineer.

ENGINEERS AND CONDUCTORS' WATCHES.

THE AMERICAN WATCH COMPANY, of Waltham, Massachusetts, request us to publish the following letters, recently received, recommendatory of Waltham Watches for railway use. The Pennsylvania Railroad Company have for several years furnished to their employees watches specially made for them by the Waltham Company, and it is this class of watches the Superintendent, Mr. Williams, refers to. Similar watches (in strong silver or gold cases, with plate-glass crystals) we are prepared to supply, named and engraved to order; and of them, as being most suitable for the use of Engineers, Conductors, Station-Masters, of Expressmen and Messengers, the Company give the most ample guarantee. It is a remarkable fact that Railroad Companies using our watches suffer much less from collisions and similar accidents than any others.

Any of the grades of Waltham watches may be purchased of Watch Dealers generally throughout the country.

ROBBINS & APPLETON,
182 Broadway, New York.
ROBBINS, APPLETON & CO.,
158 Washington Street, Boston.

PENNSYLVANIA RAILROAD CO.

OFFICE OF THE GENERAL SUPERINTENDENT,
ALTOONA, Pa., 15th Dec., 1866.

GENTLEMEN,—The Watches manufactured by you have been in use on this Railroad for several years by our Engineemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable timekeepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs, than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation, but as a class they never kept time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years. Respectfully,

EDWARD H. WILLIAMS,
General Superintendent.
AMERICAN WATCH COMPANY, Waltham.

NEW YORK CENTRAL RAILROAD.

LOCOMOTIVE DEPARTMENT, WEST. DIVISION,
ROCHESTER, Dec. 24, 1866.

GENTLEMEN,—I have no hesitation in saying that I believe the great majority of Locomotive Engineers have found by experience that Waltham Watches are the most satisfactory of any for their uses. They run with the greatest accuracy and steadiness, notwithstanding the rough riding of an engine, and as I have never known one to wear out, they must be durable. I hope to see the time when Railway Companies will generally adopt your watches, and furnish them to all Engineers and Conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours respectfully,

CHARLES WILSON, G. Chief Engineer,
Brotherhood of Locomotive Engineers.
AMERICAN WATCH Co., Waltham, Mass.

THE ATLANTIC BRIDGE WORKS,

Office, No. 157 Broadway, New York.

POST, McCALLUM & CO.,

BRIDGE AND ROOF BUILDERS,

Are prepared to build in any part of America, their superior plan of **Railroad** and **Highway Bridges,** either wholly of **iron,** or of **iron** and **wood** combined, and of any desired span.

These Bridges possess **greater strength** and **stiffness** in proportion to the quantity of material, than can be obtained by any other plan in use, and therefore are the most economical.

Roofs of any length and width erected on this plan, combining great strength with lightness and economy of construction.

American Railroad Journal.

New York, Saturday, January 26, 1867.

Obligation of Person Crossing Railroad Track to Look-out for Cars.

A decision of the Court of Appeals of this State of great practical importance both to the public and to Railroad Companies has just been published, and as it is in direct conflict with a previous decision of the same court in the same case, it will be interesting to review the subject involved. The case is Ernst against the Hudson River Railroad Company, and the question involved is whether a traveler in approaching a railroad, who can neither see nor hear any indication of an approaching train, is bound to stop and look both ways before crossing the track.

In the former hearing of the case before the Court of Appeals, it was laid down as a matter of law that "in the judgment and opinion of a majority of men, *common prudence forbids* the attempt by any person to cross the track of a railroad in constant use, without first taking the precaution to look both ways upon the track, and see and ascertain that a train is not approaching in either direction; and the *omission* to do so is *per se*, gross negligence in view of the danger to be avoided, and the fatal consequences involved in any accident resulting from such omission." The opinion in this case was delivered in 1862 by Judge E. D. Smith (reported 24 Howard Pr. R. 97) but was founded upon an altogether different state of facts from that developed upon a second trial of the action. And in the present case, after a second trial where the facts were more fully developed and material additional evidence was adduced, a contrary conclusion upon the whole case is arrived at. The opinion on the last appeal (reported in 32 Howard Pr. R. 73,) was written by Judge J. K. Porter, one of the most eminent lawyers of the state, and he alleges the legal proposition of Judge Smith, as above stated, to be untrue, as matter of law; and it is decided by him (all the judges concurring) that "whether such an omission (to look both ways) is culpable, depends upon the facts and circumstances of each particular case."

The facts in this case are these, Ernst was driving down Rensselaer street in the village of Bath to the ferry landing for the purpose of crossing to Albany. The railroad intersects that street at right angles, and approaches the crossing from the north on a curved line. There was no point in Rensselaer street within 150 feet of the crossing where a man standing erect and looking directly north, could see an approaching train before it reached a point thirty-six rods distant from the crossing. The elevated land, the station and an ice house, and an intermediate park of trees, intercept the sound of an approaching train, and limit the range of vision. There was no flagmen at the crossing, as was usual, the train was a special train, and as Ernst was within two or three rods of the track upon a brisk trot, the train emerged from behind the station house from the north; the frightened horses plunged southward on the track, and Ernst received the blow of which he died. The bell was not rung nor the whistle sounded as the train approached the crossing. Ernst's widow sued the company for damages. The court nonsuited the plaintiff on the ground that the deceased was guilty of negligence in not stopping before crossing the track and looking both ways for a train. The court now held that such nonsuit was improper, and that the deceased was not under the circumstances guilty of negligence.

Judge Porter says: The testator was lawfully upon the public highway. The right he had to use it was as perfect as that of the defendant to cross it. In the exercise of his legal privilege, he did not expose others to injury, and was charged with no duty of extraordinary vigilance. The defendants exercised theirs with agencies imminently perilous to human life, and they were under a correlative obligation to use them with the highest degree of care. As the highway was never dangerous, except, when they made it so by driving their engines across it, and as they never crossed it without some degree of jeopardy to the wayfarer, the law provided for the security and protection of the citizen, by requiring the defendants to give special and public warning whenever their engines approached the crossing.

The only condition of the right to redress for a wrong of this description is, that the party aggrieved be free from culpable negligence; and he is not chargeable with such negligence, unless he fails to exercise ordinary care and vigilance to avoid the injury of which he complains. There has been some diversity of opinion as to what ordinary care and vigilance demand of a party upon a given state of facts; but that this is the uniform standard by which to test the right of the plaintiff has been too often adjudged to be open to further discussion.

The rule is simple, practical and easy of application. "The question is," as this court said, when this case was before it on a former occasion, "what would a majority of men of common intelligence have done under like circumstances?" 24 How., 108.) "Ordinary care, skill and diligence, is such a degree of care as men of ordinary prudence, under similar circumstances usually employ." (BROWN, *vs.* Lynn, 31 Penn. 512).

The degree of care which men of common prudence would be likely to observe in a given case, must be determined with reference to all the attendant circumstances. An injury by an engine in motion, would necessarily be of a grave and serious character; but at a distance of eighty rods from the crossing, it would be as harmless to the wayfarer as the rail over which he drives. It is not unusual in argument to confound the seriousness of such an injury, when it occurs, with the probability of its occurrence, and to assume that the same degree of vigilance is demanded when the engine is not within the range of sound or vision, as when it is seen in close proxi-

mity, or public warning is given of its approach.

The measure of precaution which ordinary prudence suggests is proportioned to the probability of danger. When a train is seen or known to be close at hand, a discreet man would stop until the danger is past; but to stand waiting in front of a public crossing, with no reason to believe that there is an engine within a quarter of a mile, would indicate over cautious timidity, and would seem to most men *puerile*.

On such subjects, as on all others, men exercise their reason, and do not yield to childish apprehensions of distant engines or unloaded guns. When they draw near a railway crossing, and the flagmen gives no warning, when no sound or sign indicates the presence or approach of a train, they assume that they may safely cross and proceed quietly on their way. If, in such a case an engine with muffled bell, rushes upon them too suddenly for escapes, the wrong is due to those who falsely assured their safety by withholding the usual warning.

The citizen who on a public highway, as he approaches a railway track, and can neither see nor hear any indication of a moving train, is not chargeable in law with negligence for assuming that there is no car sufficiently near to make the crossing dangerous. (29 N. Y. Rep. 390; 20 id., 74; 15 id., 383; 1 E. D. Smith 78; 40 Barb., 550, 25 Penn., 60, 72.)

These cases cited by Judge Porter, will be found on examination, to fully sustain the doctrine advanced by him. It is not true therefore that a traveler on a public thoroughfare is guilty of culpable negligence, as a matter of law, if he does not stop to listen or look up and down the track before he goes over a crossing. Whether such an omission is culpable depends upon the facts of each particular case. For instance a party who sees or hears an approaching engine, and chooses to take the risk of crossing before it, rather than await its passage, forfeits all claim to redress; but in another case where the party crossing omits to look out for a train which he cannot see, if he looked for it, cannot hear, if he stopped to listen, and of whose approach he had no warning, negligence cannot be imputed to him for an omission which may fairly be attributable to the very wrong resulting in the injury.

Thus in the case of Brown *vs.* New York Central (32 N.Y. Rep. (597) the court of appeals held that no culpable negligence was established, though it was proved that the driver of the coach demolished did not look in the direction from which the cars were approaching until his horses were upon the track, the usual signal not being given, and this, though it appeared in the evidence that if he had looked before, he would have seen them in season to avoid the collision.

In the earlier case of Magrath *vs.* Hudson River Railroad Company (32 Barb. 147) the same rule was clearly announced. "It is not always negligence" said the court, "to cross a railroad track at times when a train is not due, or cannot reasonably be expected to pass, nor to cross a railroad without looking for a train, when no signal of its approach is given by the ringing of a bell or otherwise. So also in the case of Warren *vs.* The Fitchburgh Railroad Company 8 Allen R. 227, it was held by the Supreme Court of Massachusetts, 'that crossing a railroad track without looking to see if a train is coming, is not conclusive proof of a want of care." In the case of Fero *vs.* Buffalo and State line R. R. Co. (22 N. Y. Rep. 213) the court held that if the plaintiff "was guilty of no culpable negligence, the mere fact that he might have been more vigilant, will not excuse the wrongful act of the defendants nor deprive the plaintiff of redress for the injury he has suffered."

The propositions advanced and the points decided in this important case may be summed up as follows:

If a traveler in crossing a railroad, is warned of the approach of an engine by the customary signals, or if by other means, he is made aware of its proximity, it is his duty to avoid exposing himself to injury. But if he advances on the open highway, with no cars in view, and no notice of their approach, either by signal or otherwise, he is at liberty to pursue his way without incurring the imputation of breach of duty to a wrong-doer.

The only condition of the right to redress for wrong of this description is, that the party aggrieved be free from culpable negligence; and he is not chargeable with such negligence, unless he fails to exercise ordinary care and vigilance, to avoid the injury of which he complains.

Ordinary care, skill and diligence, is such a degree of care as men of ordinary prudence, under similar circumstances usually employ. And the degree of care which men of common prudence would be likely to observe in a given case, must be determined with reference to all attendant circumstances.

The citizen who, on a public highway, approaches a railway track, and can neither see nor hear any indication of a moving train, is not chargeable in law with negligence for assuming that there is no car sufficiently near to make the crossing dangerous.

And in this case held: that the defendants not only misled the plaintiff's testators by not exhibiting the flag at the crossing of the railroad, in accordance with the uniform custom when an engine was near, but also by approaching the highway illegally, neither sounding the whistle nor ringing the bell as they advanced. This was an act in open defiance of the public statute enacted for the protection of the traveler.

It is not the policy of the law to favor those who deliberately violate its mandates, nor is it the duty of the courts to invent excuses for wrong-doers, or to palliate the guilt of reckless homicide. Our statutes for the protection of life are to be obeyed; and when they are broken and defied, responsibility is not to be evaded by imputing blame without proof, to him who suffers death, for the sake of shielding those who inflict it.

It is not true that a traveler on a public thoroughfare is guilty of culpable negligence, as matter of law, if he does not stop to listen, or look up and down the track before he goes over a crossing of a railroad. Whether such an omission is culpable, depends upon the facts and circumstances of each particular case.

☞ William H. Gatzmer, Esq., so many years favorably known as the financial and business agent of the Camden and Amboy Railroad Company, was at a special meeting, on Thursday of last week, elected to the Presidency of the company, in place of Edwin A. Stevens, Esq., who resigns the office preparatory to a visit to Europe.

Louisville and Nashville Railroad.

At a recent meeting of the Directors of this company in Louisville, a semi-annual dividend of 4 per cent. was declared payable on the 1st of February next.

The board also authorized the President to execute the contract of the Louisville and Nashville Railroad Co., with the Louisville and Frankfort Railroad Co., for the purchase of $500,000 worth of bonds, for the purpose of building the branch road connecting Louisville with Cincinnati. This contract stipulates that the Louisville and Frankfort Railroad Co. shall not discriminate against the city of Louisville in its freight and passenger tariff.

A further subscription of $300,000 was authorized in the stock of the Ohio Bridge Company, having for its object the construction of a bridge connecting Louisville with the northern side of the Ohio, at what particular point is not yet determined. This subscription is to be paid in monthly instalments of 5 per cent. on the amount subscribed.

Philadelphia and Reading Railroad.

The receipts from operations of this road for the fiscal year ending November 30, 1866, were:

From	384,302 passengers	$1,026,217
"	1,037,121 tons merchandise	1,421,539
"	3,714,684 tons coal	8,245,697
"	mail	27,719
"	miscellaneous	181,647
	Gross receipts	$10,962,819
	Gross expenses	6,738,747
	Net profits	$4,164,072

The following tabular statement in detail, for each branch of traffic, shows the comparative results of the year:

	1865—Passengers.		1866—Passengers.		Decrease.	P. c.
Travel	393,359	$1,056,847	384,302	$1,026,217	$30,630	3.7
	Tons.		Tons.			
Merchandise	846,105	1,165,277	1,037,121	1,421,539	256,262*	21.9
Coal	3,090,814	8,627,292	3,714,684	8,245,697	381,595	4.4
Mail		28,871		27,719	1,152	3.9
Miscellaneous		255,282		181,647	73,585	28.8
Gross receipts		$11,142,519		$10,902,819	$239,700	2.2
Gross expenses		6,330,248		6,738,747	408,499*	6.4
Net profits		$4,812,271		$4,164,072	$648,199	13.5

Gross expenses, including renewal fund in the year 1865 were 56.81 per cent. of gross receipts.
" " " in the year 1866 were 61.80 per cent. of gross receipts.

The per centage of expenses is increased chiefly by a reduction of 21 per cent in the charge for transporting coal.

The receipts and expenses for each, per passenger and per ton, have been as follows:

1865.	Cost.	Received.	1866.	Cost.	Received.
Per passenger	$1 42.5	$2 70.9		$1 53.6	$2 66
Merchandise, per ton	79.4	1 37.7		66.4	1 37
Coal "	1 06.9	2 79.1		97.1	2 21.9

* Increase.

The result of the year's business, as condensed from transportation and income account, may be stated thus:

Receipts over cost of working the road		$4,164,071 81
From which deduct—		
Interest on bonded debt	$359,709 00	
Interest on b'ds & mort.	36,940 75	
Sinking funds	68,600 00	
Cost of new engines and cars	1,031,803 00	
Cost of sidings, &c., on laterals	67,071 40	
Cost of Eighth street bridge, Reading	8,167 86	
Cost of Norristown Railroad crossing	22,217 74	
Cost of new culverts at Port Richmond	12,600 62	
Cost of City avenue bridge	8,296 16	
Cost of new depot at Hummelstown	4,556 24	
Cost of new Burnettising apparatus, Pottstown	8,871 86	
Cost of propeller "Monitor"	7,400 00	
Cost of new dredging machine, Richmond.	8,250 00	
		1,634,484 64
Dividend fund, 1866		$2,528,587 17
Amount to credit of reserved fund, 1865	$3,305,739 01	
Deduct dividend December, 1865, $2,062,067 35, and U. S. and State taxes, $318,101 19	2,380,168 54	
	$927,570 47	
To which is added:		
Proportion of rents, &c., of laterals paid by Schuylkill Navigation Company in 1865	121,606 14	
Proportion of rents, &c., of laterals paid by Schuylkill Navigation Company in 1866	166,700 82	
Profit on boats, balance of interest, &c	112,334 92	
Sinking fund of the loan of 1856-'86, loans converted into stock and bonds all cancelled	370,000 00	
	$1,696,212 35	
From which is deducted drawbacks on traffic of 1865, &c.	52,355 08	
		1,643,857 27
Total reserved fund, 1866		$4,173,444 44
Out of which has been paid in June, 1866:		
5 per cent. dividend on $22,733,367 27	$1,136,668 36	
U. S. and State taxes.	116,658 07	
		1,253,326 43
		$2,920,118 01
Which has been appropriated Dec., 1866:		
5 per cent. dividend on $22,742,867 27	$1,137,143 36	
U. S. and State taxes.	179,719 09	
		1,316,862 45
Balance of reserve fund		$1,603,255 56

The coal traffic for the past year opened with moderate activity, and so continued until September 1, when it was evident that a continuation of the same ratio of increase to the end of the year would overstock the market. At that date the coal tonnage of the company was 951,903 tons in excess of that to the same period of the previous year. This result demonstrates the capacity of the rolling stock to be equal to a business of 4,000,000 tons of coal per annum, and 1,000,000 tons of other freight.

The three large and commodious wharves, which last year were in the course of construction, have been completed. Additions have been made to the rolling stock, real estate, new branches to mines, sidings, &c., the details of which are elsewhere given.

In pursuance of the policy announced in previous reports, the railroad of the Union Canal Company has been purchased, extending three miles northwardly from Pine Grove to the junction of the Lorberry and the Good Spring Railroads, already owned by this company, together with the right of way over the line of the old canal and reservoir, a distance of twelve miles southwardly from Pine Grove toward Lebanon.

The large quantities of railroad iron required for repairs and extensions, together with the great importance of having the best quality of rails, have led to the decision to erect a rolling mill of sufficient capacity to supply our own wants, and arranged conveniently for the manufacture of steel rails from time to time as required.

The liability to interruption of the traffic, and to accident, arising from the constant taking up of the track to replace defective rails, and the consequent expense, is very great, which it is believed can be materially diminished by the means now proposed.

On the completion of the new engine houses at Reading, in the spring, it is intended to remove the old ones at the Lebanon Valley junction and to erect a union passenger station to accommodate the numerous trains which meet there.

The usual statements of the Treasurer, and minute details of the transportation and engineering departments, are appended.

Bonds amounting to $247,000 have been converted into stock, which leaves but $228,500 now entitled to this privilege. The bonded debt has been further diminished by the purchase and cancellation of $34,000. The bonds already issued by the Lebanon Valley Railroad Company, before consolidation with this company, amounting to $1,500,000, have all been purchased or converted into stock, and the mortgage has been satisfied. This mortgage established a sinking fund of $50,000 per annum, which sum has been regularly deducted from income account. The fund was not all invested, as the bonds could not be purchased except at a premium which was not required by the terms of the mortgage. A balance to the credit of this account of $370,000 was thus created to be available for the purchase of the bonds as opportunities offered. They having now been all cancelled, the amount is restored to income account.

For the greater security of the bondholders the following mode of registration of bonds maturing after 1871 has been adopted, to take effect on the 15th instant, viz:

"Agreement made this fifteenth day of January, Anno Domini 1867, between the Philadelphia and Reading Railroad Company, of the first part, and the undersigned, holder of the following ——— per cent. coupon bonds of the party of the first part, dated the ——— day of ———, 18——, and payable on the ——— day of ———, 18——, of the second part.

"Whereas the party of the first part have offered to the holders and owners of their said bonds the privilege of having the same registered on the books of the company, and made transferable only as hereinafter mentioned, and the parties of the second part have availed themselves of the said privilege, and have had their bonds so registered, and the same have been stamped in attestation thereof, and the names of the owners duly registered: Now, in consideration thereof, the party of the first part hereby covenant and agree, with the party of the second party, that the said registered bonds shall be transferable only on the books of the said party of the first part, in Philadelphia, by the registered owner in person, or by attorney, and are to be payable only to him or to his assigns; that the said registration shall not in any wise prejudice or affect any of the privileges or securities attached to the said bonds, and that the interest due thereon shall be payable to bearer, as heretofore, upon the presentation of the interest warrants annexed thereto; and the parties of the second part covenant and agree with the party of the first part, that the said registered bonds shall be transferable and payable only as hereinbefore mentioned; that the interest thereon shall be payable by the said company only upon the presentation of the interest warrants or coupons attached to the said bonds, as thereby designated, and that, upon payment of the said interest warrants, when presented as aforesaid, all liability of the said company for the coupons so paid shall cease.

"Witness the hands and seals of the said parties respectively, the day and year first above written."

The agreement with the Atlantic and Great Western Railway Company, which was appended to the last report, has since been the subject of litigation, and has been sustained in every particular by the highest legal tribunal in the commonwealth.

After making the deductions from income account, previously stated, for rolling stock, &c., and the declaration of two semi-annual dividends of five per cent. each, there remains a reserved fund of $1,603,255 56. It was deemed judicious to give the option to take the dividend declared in December last, in money, or stock at par. A portion of the surplus will be required to meet the £ bonds, amounting to $408,000, which are payable in London on the 1st of July next. The remainder is available for the purchase of the bonds maturing in 1870, and for such other expenditures as an increase of business may require. A portion of these surplus funds has been invested in United States Seven-thirty Treasury notes, and the remainder loaned on satisfactory security, payable on demand.

By order of the Board of Managers,

CHARLES E. SMITH, President.

Philadelphia, January 14, 1867.

At the annual meeting of the Philadelphia and Reading Railroad Company, held this day, the following resolutions were adopted:

RESOLUTIONS.

1. *Resolved*, That the report of the board of managers, this day presented and read, be and the same is hereby approved, accepted and adopted.

2. *Resolved*, That the board of managers be and they are hereby authorized, at their discretion, to carry into effect any of the measures proposed in their report, and if in their opinion needful, to enter into any contracts or agreements for that purpose.

3. *Resolved*, That the powers and authorities conferred upon and granted to the board of managers by the resolutions passed at prior annual meetings be and the same are hereby continued.

4. *Resolved*, That a vote of thanks be and the same is hereby presented to the president of the board of managers, for the able manner in which the business of the road has been conducted during the past year.

The following gentlemen were elected to serve for the ensuing year:

President, Charles E. Smith; Managers, H. P. McKean, A. E. Borie, R. B. Cabeen, J. B. Lippincott, John Ashurst, Stephen Colwell; Treasurer, S. Bradford; Secretary, William H. Webb.

☞ Among the proposed improvements designed to develop the resources of the Valley of Virginia, is to make a railroad from Harper's Ferry to Waynesboro', in Augusta County, connecting with the Baltimore and Ohio road at the former and the Virginia Central at the latter place, running throughout its entire length near the base of the Blue Ridge and on the banks of the Shenandoah River.

New Southern Railroads.

Since the close of the rebellion the repairing of old and the building of new railroads in the Southern States has been going on with commendable energy. The road from Cincinnati to Knoxville is one of the most important, and every effort is being made to procure the necessary funds to secure its completion at an early day. A road has been surveyed from Cincinnati to Louisville, on the south side of the Ohio River, a distance of 105 miles, which is an important link, being 50 miles shorter than the present lines. There is still another road from Cincinnati, tapping the Louisville and Nashville road between Bowling Green and Nashville, giving a continuous line from Nashville.

A line is building from Nashville to the Tennessee River at Hamburg Landing. D. C. Howard, of Elyria, is President of a road from Hamburg to Corinth, Miss., a distance of 19 miles—a short road but very important. The terminus is the head of navigation of the Tennessee River, which is one of the finest streams we have.

This road cuts off seventy-six miles of railroad transportation from Memphis, and one hundred and twenty-nine miles from Columbus, Tennessee. So that this little road will do the through business of two hundred and five miles of road. The N. O., J. & G. N. R. R. Co. are building their line from Canton to Corinth, and a line is being surveyed from Opelika, Ala., to Corinth, through the rich mineral districts of Alabama. These lines will make Corinth a great railroad centre, and we predict that Corinth will be in a few years one of the largest inland cities of the South. The State of Tennessee by an act of her Legislature assists her railroad companies by loaning State bonds 30 years at the rate of $10,000 per mile. Soon the State will be cut up with railroads, and her rich mineral lands will be developed and be a source of untold wealth. Emigration will fill up her rich lands, and she will become the garden of the world.

Annual Produce Statement.

The following statement showing the movement of certain leading articles of produce at this port is from the *Journal of Commerce*. The receipts show a decrease as compared with 1865 in flour, wheat, oats, cotton, and most articles of provisions; and an increase in corn, barley, naval store, cheese and petroleum. The following is a comparative summary for three years:

Receipts of certain articles of domestic produce at the port of New York for the years:

	1864.	1865.	1866.
Ashes, bbls	15,778	16,490	5,766
Breadstuffs—			
Wheat flour, bbls	3,967,717	3,628,526	2,720,835
Corn meal, bbls	267,759	248,710	263,833
Wheat, bush	13,453,135	8,768,929	5,729,912
Rye, bush	491,915	899,679	1,314,943
Oats, bush	12,952,238	9,851,955	8,811,064
Barley, bush	2,544,891	3,239,054	5,695,485
Peas, bush	231,562	181,736	552,730
Corn, bush	7,164,895	15,935,277	22,189,532
Cotton, bales	190,911	755,262	671,794
Naval Stores—			
Crude turp., bbls	6,760	28,087	34,497
Spirits turp., bbls	4,139	19,163	58,002
Rosin, bbls	19,128	143,415	390,461
Tar, bbls	6,964	19,169	46,622
Pitch, bbls	3,000	800	3,258
Provisions—			
Pork, pkgs	332,454	211,812	129,880
Beef, bbls	209,664	81,999	70,855
Cutmeats, pkgs	268,417	108,981	100,629
Butter, pkgs	551,153	607,136	493,061
Cheese, pkgs	756,872	645,136	742,441
Lard, tcs & bbls	186,000	96,319	96,750
Do. kegs	16,104	5,302	8,817
Whiskey, bbls	289,481	62,328	101,914
Petroleum, pkgs	675,347	618,323	1,033,808

The exports show a decrease, as compared with 1865, in ashes, flour, wheat, tobacco, and provisions; and a gain in corn, cotton, naval stores, lard and petroleum.

from New York to Foreign Ports of certain leading articles of domestic produce for the years:

	1864.	1865.	1866.
Ashes—Pots, bbls	8,847	8,185	3,518
Do. Pearls, bbls	1,593	680	73
Beeswax, lbs	465,667	235,960	302,423
Breadstuffs—			
Wheat flour, bbls	1,918,593	1,402,144	900,084
Rye flour, bbls	2,840	2,673	7,552
Corn meal, bbls	105,142	127,600	149,773
Wheat, bush	12,193,433	2,527,626	522,669
Rye, bush	588	198,348	246,646
Oats, bush	42,135	94,567	1,190,518

The changes, as compared with other previous years are still more unfavorable.

Debt of Indiana.

We gave in our issue of the 12th inst., an abstract of the Treasurer's Report, showing the receipts and expenditures during the fiscal year ending November 30, 1866, together with the valuation of real and personal property in the State for 1865 and 1866, etc. The following statement, from the Report of the Auditor, will show the Public Debt of the State outstanding in the hands of creditors to be provided for, at the close of the year:

Five per cent. stock	$3,829,936 33
Two and a half per cent. stock	1,191,091 65
Total amount of stocks	$5,021,027 98
War loan bonds	309,000 00
Vincennes University bonds	66,585 00
Total public debt	$5,396,512 98

The Auditor estimates that the State debt sinking fund tax for 1866, will, on the 1st day of July next, furnish $900,000, and that enough can be drawn from the general fund in the Treasury at that time and added to this amount to redeem all the outstanding two and a half per cent. stocks, which will leave outstanding in the hands of creditors to be provided for otherwise, $4,205,521 33.

The assets of the sinking fund, independent of State stock and bonds, which by the law of last winter are to be applied to the payment of the State debt, may be safely estimated at $1,000,000, of which amount $500,000 can be made available by the 1st of July, 1870, and which, if properly applied, would leave the balance of the debt to be provided for and paid by taxation, $3,705,521 33, which it is estimated by the Auditor will be fully accomplished at the present rate of taxation for that purpose by the 1st of July, 1870.

This shows the financial condition of the State to be better than at any former period in her history, and presents the gratifying prospect that by 1870 she will have taken up all her stocks and be out of debt, without adding to the taxes which have been already imposed.

In addition to the above, the State is indebted in the sum of $353,000, being the balance of the amount of the old State debt upon which a compromise was made in 1846, the holders of them failing or refusing to enter into or take part in the compromise. Upon these bonds no interest has been paid for more than 25 years. The Governor, in his Message, in alluding to these bonds, says:

"The attitude of the State in regard to them is not creditable and ought to be changed. Year by year the State by her accounting officers publishes and confesses to the world that they are a part of her indebtedness, but pays no interest on them, which has now accumulated to more than half a million of dollars, and makes no offer to pay the principal, although it has long been due. The character of Indiana is too high, and her position too proud to allow her to occupy an attitude so equivocal. It is not my purpose to enter into any discussion at this time as to the legal and moral obligation of the State to pay the interest and principal of these bonds in whole or in part; but I desire simply to say that if the State believes that she is not bound to pay them, and does not intend to do so, she should through the Legislature promptly declare that fact to the world, and have them stricken from the books of the Auditor. If, on the other hand, she holds herself bound to pay the whole or any part, she cannot honorably longer delay to take action for that purpose, as her ability to pay cannot be denied."

The school fund of Indiana may be estimated in round numbers at $7,611,337 44, and is we believe, larger than the school fund of any other State.

According to the census of 1860, the population of Indiana was 1,350,428. In 1866 she had 340,240 white males over 21 years of age, which number multiplied by the ratio usually adopted would give a population of over 1,700,000. According to this ratio of increase the State will have within her borders in 1870 more than 2,000,000 of people, which would be an increase of 48 per cent. in 10 years. It is doubtful if any State in the Union is growing more rapidly in population, wealth, manufactures, public improvements, and the general development of agricultural resources.

Education in Iowa.

From the records in the office of the Superintendent of Public Instruction it appears that the total number of persons in Iowa between the ages of five and twenty one, is 348,498; males, 180,197; females, 168,301; number of schools 5,900; number of teachers, males 2,673; females, 6,670; average weekly compensation for males; $8 40; for females, $5 94; average cost of tuition for each pupil per week, 38 cents; aggregate amount paid teachers, $1,006,623; value of school houses, $2,837,757; school houses, 5,009 of which 382 are brick, 163 stone, 3,766 frame, and 698 log houses; school houses built during the year, 374; increase over 1865, in attendance at school, 24,234; increase in number of teachers, 228; increase in amount paid teachers, $149,897,

Ohio—Railroad Valuations for 1866.

The following is a statement of the Valuations of Railroad Property in Ohio, as returned by the Local Boards, and the total values, as fixed by the State Board of Equalization for 1866:

	Value returned.	Value fixed by Board.
Columbus and Xenia	$946,146	$1,211,067
Bellefontaine	1,415,508	1,132,101
Cleveland, Zanesville and Cincinnati	329,548	329,548
Michigan Southern and Northern Indiana	837,893	837,893
Toledo, Wabash & Western	524,551	524,551

Russian Railways.

The Dunaburg and Vitebsk Railway has opened for traffic. This line, which is 160 miles in length, has been constructed in two years, by an English company, with a guarantee of 5 per cent. from the Russian Government, and it forms a continuation of the Rega and Dunaburg line, while it crosses, at the latter town, the St. Petersburg, Warsaw, and Berlin line. The company which has carried out the Rega and Dunaburg line is now endeavoring to raise the capital required for a further extension from Vitebsk to Orel a distance of about 280 miles.

Maryland.—Property and Taxation.

The annual report of the Comptroller shows the following as the assessed value of real and personal property, with amount of levy thereon, in each county and Baltimore city for 1866:

	Assessed Value of Property in 1866.	Amount of Levy in 1866.
Alleghany county	$5,541,769 00	$16,625 31
Anne Arundel county	6,561,338 00	19,684 02
Baltimore city	134,279,412 00	402,838 24
Baltimore county	21,244,508 00	63,733 52
Calvert county	1,978,875 00	5,936 62
Carroll county	10,731,134 34	32,193 40
Caroline county	2,159,262 00	6,477 79
Cecil county	7,918,170 00	23,754 51
Charles county	3,298,027 00	9,894 08
Dorchester county	4,574,740 00	13,724 22
Frederick county	21,391,654 00	64,174 96
Hartford county	6,959,344 00	20,878 03
Howard county	3,972,180 00	11,196 54
Kent county	5,403,404 00	16,210 21
Montgomery county	4,992,520 00	14,977 56
Prince George's Co.	7,785,373 00	23,356 12
Queen Anne's county	5,478,343 00	16,435 03
St. Mary's county	2,617,981 00	7,853 94
Somerset county	5,158,107 00	15,474 32
Talbot county	5,170,015 00	15,510 05
Washington county	14,502,965 00	43,508 89
Worcester county	4,811,717 00	14,435 15
	$286,530,838 34	$859,592 51
Amount of levy for direct tax, at 5c. on $100		143,298 75
Amount of levy for bounty tax, at 10c. on $100		286,497 51
Amount of levy for school tax, at 15c. on $100		429,796 25
		$859,592 51

Philadelphia Passenger Railroads.

There are sixteen distinct Passenger railroad companies in active operation in Philadelphia. Below we give the receipts of each company during the years 1865 and 1866:

	1865.	1866.
Second and Third streets	$437,562	$398,400
Frankford and Philadelphia	.....	8,481
Frankford and Southwark (Fifth and Sixth streets)	286,861	281,074
Germantown, (Fourth and Eighth sts)	255,588	259,742
Citizens' (Tenth and Eleventh street)	204,832	203,638
Thirteenth and Fifteenth st.	143,038	126,855
Seventeenth & Nineteenth st.	49,744	56,850
Lombard and South streets	72,460	55,580
Philadelphia & Gray's Ferry (Spruce and Pine streets)	60,332	86,809
Philadelphia and Darby	36,781	38,523
Philadelphia City, (Chestnut and Walnut)	149,978	192,487
West Philadelphia, (Market street)	308,238	283,044
Hestonville, (Arch, Race and Vine, and Callowhill)	209,126	243,711
Girard College (Arch street and Ridge Avenue)	123,511	113,398
Ridge Avenue & Manayunk	42,569	42,788
Green and Contes streets	173,822	169,017
Union	206,593	338,282
Total	$2,791,035	$2,898,749

☞ The amount of coal transported over the Chesapeake and Ohio Canal in 1866, was 336,991 tons, against 343,954 in 1865—a decrease of 6,963 tons. The Governor, in his Message, says that the State has been offered $5,000,000 for the work, with a collateral proposition, if she preferred not to sell outright, of a lease for twenty years at $300,000 a year.

Gold Mining in Canada.

OFFICE OF THE DE LERY GOLD MINING CO.,
NOS. 72 AND 74 CEDAR STREET,
NEW YORK, Jan. 22, 1867

Editor American Railroad Journal:

In view of the evident public curiosity concerning the existence of gold deposits in Canada, it seems singular that the public knowledge should be so very meagre. Telegrams and letters are plentifully written and eagerly copied in regard to alleged discoveries in Canada West; while the fact seems scarcely to be known, that not only *specimens* but large *products*, have been developed for several years in Canada East, and that practical work is now being done there by parties having the fullest confidence in the ability of their mines to produce rich and increasing incomes.

I do not propose writing you a history of these mines, however curious it may be, confident that they are likely soon to tell their own story. But I would like to say, that by far the largest deposites of gulch gold and masses of auriferous quartz rock, yet discovered on this side of the continent, are within fifty miles of Quebec, in the Chaudiere Valley; and that they seem far more valuable than those of Nova Scotia, where quartz mining, though still in its infancy, is already a productive industry. That the working of these De Lery Gold Mines is destined soon to revolutionize public opinion in regard to the mineral formation of the Atlantic coast, I have no doubt. This Company—to give an instance of the confidence of some of the best men in New York, Montreal and Quebec, who have *investigated* the subject—owns the gold in a single tract of 108 square miles, and has just completed the construction of the *first quartz mill ever erected in Canada*, which will commence active operations next spring. In a tract where hundreds of thousands of dollars worth of alluvial gold have already been found—where nuggets are continually being taken out, weighing several pounds each—where the rock is universal and very rich in free gold—it cannot but be that millions are available under a thorough, scientific and economical system of development.

J. M. WINCHELL,
General Manager De Lery Gold Mining Co.

Leavenworth, Lawrence & Galveston R.R.

The recent difficulties in reference to the management of this important project having been harmoniously adjusted, we understand that work will be at once commenced, and energetically prosecuted. Advertisements for ties are issued, and specifications are almost ready for the large bridge across the Wakamasa River, south of Lawrence. Grading will begin immediately, and it is believed that the heavy cut through the Santa Fe ridge will be excavated by the opening of spring.

☞ The following gentlemen has been elected managers of the Franklin and Warren Railroad for the ensuing year: E. F. Gay, W. G. Morehead, M. Courtright, C. B. Wright, E. Miller, C. P. B. Jeffries, and R. D. Barclay. This road is fifty-two miles long, was built in nine months, and the first five months that it was in operation carried over 65,000 passengers.

American Railroad Journal.

Saturday, January 26, 1867.

Stock Exchange and Money Market.

There has been a more even movement in money, during the past week. The demand for accommodation has fallen off considerably, because of the extreme dullness in business, which has been seriously impeded by a heavy snow storm, and the resulting snow and ice obstructions in the streets and harbor. The supply of capital has been on the increase, and lenders have been more eager to place their balances in a controllable and remunerative form. The dealers in the public funds have had more money offered them than was needed by them at the minimum rate of six per cent.; and the wants of the leading Stock Exchange firms have been adequately provided for at six to seven, generally at seven per cent. There has been some increase of demand from first class discount brokers, and prime short date commercial paper has been more freely dealt in at seven to eight per cent. per annum. The inquiry from the South for currency to move the cotton crop has been fair, but has not had any unfavorable influence on the local market. The Sub-Treasury has been disbursing currency interest on the Seven-thirty notes of the July issue, quite freely, through the week. The last city bank statement was regarded as a conservative and encouraging return. It indicated an increase of $751,730 in the specie reserve, with a reduction of $3,903,268 in the loans, $1,317,493 in the deposits, and $10,984 in the legal tender reserve, as compared with the preceding statement. The specie reserve of the banks is now $15,365,207, against $15,265,372, same time last year. The city bank deposits are now $201,200,115, against $228,484,370 week ending Oct. 6, 1866, and $198,816,248 week ending Jan. 20, 1866. The legal tender reserve amounts to $63,235,386, against $72,799,892 same time last year. The circulation now stands at $32,854,928, against $20,475,707 same time last year. The loans are now $255,032,223, against $279,135,790 nine weeks ago, and $239,377,726 at this date last year. The Bank Exchanges at the Clearing House, through the past week, averaged only $86,673,338 a day, against a daily average of $108,522,010 the preceding week; and $97,395,557 the week ending with Jan. 5. The current week's exchanges average about $96,249,965 a day.

The main changes in the Philadelphia Bank footings, last week, were as follows: Increase of loans, $956,816; decrease of legal tender reserve, $558,156; decrease of deposits, $974,776; decrease of specie, $25,772; and increase of circulation, $1,018.

National Bank notes to the amount of $47,720 were issued last week, making the total issue to 1,663 banks thus far $300,802,621, against $282,555,440 at the close of the last fiscal year, June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $2,150,931, leaving, with the existing 1,650 banks, an actual circulation at this date, of $298,652,680. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $340,365,150; and for the public deposits, $38,773,950—making a total of $379,139,100. The Treasury Department, last week, redeemed and destroyed $317,700 of worn and mutilated fractional currency, and issued $527,500 worth of new.

The U. S. Sub-Treasury receipts, week ending with Jan. 19, were $13,109,054, including $2,360,715 from customs duties; payments, $9,450,690; balance at the close of the week, $104,823,360, against $101,164,996 at the close of the preceding week. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $2,635,160, and payments, $2,497,219; on Tuesday, receipts, $1,165,290; payments, $1,807,386. The balance at the close of business on Tuesday stood at $104,319,204, against $101,144,324 a week previous.

Government revenues suffered from the interruptions of the storm, during the week, as well as general business. For some days, there was a partial suspension of mail communication with various parts of the country. The withdrawal of goods from bonded warehouses was impeded by the obstructions to transportation. Yet, the excises, last week, yielded about $2,260,790, against $3,459,140 the preceding week; customs at the port of New York, $2,860,715, and at the outports, about $750,000 (in coin) more, making the grand total income for the week equal about $6,539,400 in currency, against disbursements of only about $2,145,197 on account of the three leading execu-

tive departments. The total receipts of the National Treasury, from excises, since July 1, 1866, have been about $180,000,000.

The gold market has been very seriously depressed, through the week, especially since Saturday. The passage of the Gold Sale Bill by the House of Representatives at Washington, though making no fresh modification of the power of the Secretary of the Treasury, beyond requiring of him public notice of contemplated sales, has been interpreted adversely to buoyancy in the market. Reports have likewise been industriously circulated by the *bear* operators to the effect that Government was selling freely of its coin reserve, thus increasing the supply in the open market, and preparing the way for a sharp, even though temporary pinch in money. These reports had for a foundation the fact that the current coin income from customs was being marketed by the Government, to provide lawful money to meet current interest and other calls upon the department, and to keep up the cash balances in the Treasury vaults. This coin income has averaged about $600,000 a day. The speculative demand has been moderate. The customs inquiry has been fair. There has been no export movement of importance. Wednesday's exports were only $76,120. The condition of the exchange market does not justify heavy specie shipments. The extreme rates of the week have been 137⅞ on Friday, and 134¼ on Wednesday, the market closing heavily and irregularly on the basis of 134½. The total imports of specie from Europe, and other foreign ports since Jan. 1, 1867, have been $91,773. The customs demand for Gold last week, averaged $393,452 a day; thus far, this week, it has been equal to $337,652 a day, or equal to a weekly aggregate of $2,025,912. The arrivals of specie from Europe, Havana and other foreign ports, during the past week reached $23,362, and from California, $531,950. The total customs revenue of the Government, in coin, at this port since July 1, 1866, has been $68,011,505, against $72,915,570 same time in the preceding fiscal year. The total receipts of California gold at this port since July 1, 1866, have been $26,559,258, against $13,591,146 same time last year, showing an increase this year, of $12,968,112. The exports of specie from this port, last week, were $166,702. The total outflow of specie from the port, thus far in the current fiscal year has been $18,643,312, against $13,936,235 same time in the preceding year. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $695,000, making the total coin interest disbursements through the Government office, since July 1, 1866, $32,436,463, against $28,501,824 for the same time in the preceding fiscal year. The specie exports from San Francisco from Jan. 1, to Dec. 19, reached $43,669,752, against $14,293,327 same time in 1865.

Foreign Exchanges have been depressed, by rather more liberal offerings of bills. The demand has been quite moderate, in view of the unsettled state of the Gold market. Bankers' 60 day bills on London closed on Wednesday at 109@109¼, and on Paris to 5.20@5.16¼; sight bills on London to 109⅞@109⅛; and on Paris to 5.13¾@5.12½. The offerings of produce bills have been less extensive since our last. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $2,724,291, making the total value of exports since July 1, 1866, $92,303,968, against $120,833,672 same time in the preceding fiscal year.

The public funds have been quite freely purchased, since our last. All the coin bearing bonds, especially the various Five-Twenty issues, were in good investment demand and buoyant in price, while the price of Gold ranged above 136. Since Gold fell below that rate, that is, since Tuesday noon, there has been less firmness and less buoyancy in the market for the gold interest bearing obligations, which have been less sought after. Yet the offerings of the bonds have been light on the gradually yielding market, showing that holders were not less confident as to the immediate future of fund values. The Five-Twenties of 1862, 1864, and first issue of 1865, have been exceedingly scarce; so likewise have been the Six per cents of 1881. The most abundant of the national securities have been the consolidated Five-Twenties of 1865, the Seven-Thirties, and the Ten-Forties. U. S. sixes of 1867 closed here on Wednesday at 128½; U. S sixes of 1868, at 128; U. S. sixes of 1881, 107⅝@107⅞; U. S. Five-twenties of 1862 at 107@@107¾; U. S. Five-twenties of 1865 at 105⅞@106; U. S. Five-twenties of 1865, consolidated, 104@104¼; U. S. Ten-forties at 99½@99¾, and U. S. Seven-thirties at 104@104⅜. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ¼@½ of 1 per cent. on these figures:

June, 1864.....116⅝	May, 1865 .....111½
July, 1864.....116⅛	August, 1865....110½
August, 1864....115⅝	September, 1865..110¼
October, 1864....114⅝	October, 1865....110
December, 1864..113⅝	

From an official statement just published, in response to inquiries from Congress, it appears that the total issue of five-twenty bonds, under the the act of March 3, 1865, was on the 1st of January, 1867, $266,665,350: of which amount there had been issued in conversion, viz.: Of compound interest notes, $53,778,750; of five per cent. notes, $620,700; of seven-thirty notes, $108,255,400; certificates of indebtedness, $257,000; total, $161,911,850, leaving to be accounted for as sales, $103,753,500. The avails of the bonds have been used in the purchase of seven-thirty notes to the amount of $41,212,250, and the balance in retiring compound interest notes, certificates of indebtedness and temporary loan. The premium on the $41,212,250 of seven-thirty notes purchased under the acts of June, 1864, and March, 1865, was $1,724,399; interest on the same, $768,286; total, $43,704,935. The sales of five-twenty bonds amounted to $103,753,500; premium, $5,946,315; total, $109,699,815. The commissions paid on the sale of the Five-twenty bonds are as follows: To Jay Cooke & Co., on $67,930,700, at the rate of one-eighth per cent., $84,913; to P. M. Myers & Co., on $3,167,500, at the same rate, $3,959; total compensation, $88,872. The commissions paid on account of Seven-thirty notes are as follows: To Jay Cooke & Co., $9,467,500, at the rate of one-eighth per cent., $11,834; Winslow Lanier & Co., $486,000, same rate, $607; P. M. Myers, & Co., $454,950, same rate, $568; total compensation, $130,009.

A severe contest between the *bull* and *bear* interests at the Stock Boards has been kept up, through the week, to the serious injury of all current values. The dealings on Tuesday and Wednesday were the worst of the week, and indicative of the temporary success of the speculators against the market. The most determined raid was made on the New York Central Share property and with the worst results. This excessively bearish temper of the market, in view of the growing ease in money, is not likely to have much further sway, and an early rally and upward movement may be expected to be inaugurated at any moment. The fall in values has already led to the suspension of a number of operators.

The week has been, by all odds, the dullest of the season in general business. There has been only a retail trade transacted in most kinds of domestic produce, in consequence of the snow and ice obstructions to transportation. Prices closed generally in favor of buyers, though without any special pressure on the part of holders to realize. The Cotton advances from Liverpool have been against the holders of the staple, and Middling grades have receded to 33½@35 cents lb. The stock of cotton now here is estimated at about 170,000 bales. The receipts at the port this week, have averaged 3,000 bales a day. The receipts since the commencement of the current cotton year, Sept. 1, have been 198,000 bales, against exports of 144,500 bales. The receipts at all the shipping ports from September 1, to latest mail dates have been 897,000 bales against 1,029,000 bales same time last year; exports, 389,000 bales, against 514,000 bales same time last year, estimated stock at latest dates, 545,000 bales, against 492,000 bales same time last year. Foreign merchandise has been generally inactive and somewhat nominal in prices. The total imports of foreign dry goods, last week, were $2,221,003, and the total amount marketed $2,047,361. The value of foreign merchandise imported last week, was $2,008,352—making the grand total specie value of last week's imports of dry goods and merchandise, $4,229,355, and since July 1, 1866, $142,224,579, against $155,402,069 same time in the preceding fiscal year. The ocean freight market is quite dull; rates are firm, with 520 vessels of all classes in port. For Liverpool we quote flour at 1s. 9d. @2s. 3d.per bbl.; grain at 5½@6½d. per bushel; cotton at ¼@5.16d. per lb.; and heavy goods at 12s. 6d.@20s. per ton, all by sailing vessel.

The New York exports, exclusive of specie, for the week ending Jan. 22, and since the beginning of the year, compare as follows:

	1866.	1867.
For the week.....	$4,860,386	$2,724,291
Prev. reported.....	9,095,150	7,973,282
Since January 1.....	$13,955,536	$10,697,573

The New York imports for the week compare as follows:

	1866.	1867.
Dry goods	$3,902,895	$2,221,008
Gen. merchandise.....	2,547,788	2,008,352
Total for the week.....	$6,450,683	$4,229,355
Previously reported....	6,867,188	7,062,192
Since January 1.....	$13,317,871	$11,291,547

The commerce of New York from July 1st to date compare as follows:

	1865-'66.	1866-'67.
Imports merchandise.	$155,402,060	$142,224,579
Exports produce.....	120,833,672	92,303,958
Exports specie	13,966,348	18,600,312

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Jan. 9.	Jan. 16.	Jan. 23.
Consols .....—91	91⅛	90½
U.S. 5-20's of 1862..—72⅞	72⅞	72⅝
U.S. 5-20's of 1865..—71¾	71⅞	71¾
Erie .....—45	45	43¾
Ill. Central.....—81	81¼	81

The balance in the Sub-Treasury on Wednesday was $105,284,967 69.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Illinois 6s 1879, 99; N. Y. State 6s, 1873, 99; do., 7s, Bounty Loan, 105¼; Minnesota 8s, 100; Ohio 6s, 1881, 100; Brooklyn 6s, Park Loan, 90; do., Water Loan, 91; Great Western 2d mort., 69⅝; Morris and Essex 2d mort., 90; New York and New Haven, 114; Sixth Avenue R. R., 120; Maryland Anthracite Coal, 8¼; American Coal, 60; Wilkesbarre Coal, 50; Spring Mt. Coal, 70; South Am. Nav. and Marine R. R. European and North American Railway.

A letter to the Boston *Journal*, dated Bangor, Me., January 17, 1867, says: "At last they have gone to work upon the European and North American Railroad, much to the joy of our people. The workmen broke ground in this city the first day of the year, and have been pushing the work vigorously since, under the superintendence of the contractors, Messrs. Peirce & Blaisdell. They are grading the road along Front street below the stream, and expect to commence the piers in the Kenduskeag in a few days. Workmen have also been placed upon the line at various points above. As they take the road bed of the old company partially built many years ago, the work will be comparatively light from here to Lincoln, most of the heavy labor of blasting and removing embankments and filling in having been done, and mostly remaining in good condition to this day. Even the piers for the bridge over the river at Oldtown, with one exception, need but little labor to perfect them. The contractors have advertised for supplies of sleepers, and will probably lay rails for work in grading very early in the spring, and be ready for laying them permanently early in the summer over a good portion of the route from here to Winn."

Railroad from Hawley to Wilkesbarre.

We learn from the Pittston *Gazette* that engineers are engaged in surveying a route for a railroad from the present terminus of the Hawley Branch of the Erie Railway at Hawley, Penn., to the coal basin at Wilkesbarre. The probable route is the Valley of Middle Creek to near the line of Wayne and Luzerne Counties, where a summit will be reached, thence down the Vallies of Oak Run and Roaring Brook to Dunmore, from where, instead of descending into the deep Valley of the Lackawanna, the line will diverge to the eastward by the Valley of Stafford Meadow and Dry Valley, crossing Spring Brook at a considerable elevation, thence by an almost level line to the summit at Yatesville, from where, by an easy grade of 20 to 30 feet per mile will reach any part of the almost inexhaustible coal field which surrounds Wilkesbarre. The route proposed is pronounced by competent engineers who know the country, as one every way feasible, admitting of easy grades and comparatively inexpensive constructions. We learn that the road is to be constructed by the Wilkesbarre Coal and Iron Co., and that arrangements have already been made with contractors.

Railroad Earnings.—Weekly.

The earnings of the Grand Trunk Railway of Canada for the week ending Jan. 12th, 1867, were $115,481 00
Corresponding week of previous year.. 113,332 00

Increase..... $2,149 00

The earnings of the Chicago and Rock Island Railroad for the 2d week in Jan., 1867, were..... $66,760 00
Corresponding week of previous year.. 56,024 00

Increase..... $10,736 00

The earnings of the Marietta and Cincinnati Railroad the 2d week in Jan., 1867.... $23,596 00
Corresponding week previous year..... 18,872 00

Increase..... $4,724 00

The earnings of the Michigan Southern and Northern Indiana Road for the 2d week in Jan., 1867, were..... $ 70,136 00
Corresponding week of 1866 ..... 76,116 0

Decrease $5,980 00

The earnings of the Chicago and Northwestern Railway for the second week in Jan., 1867, were..... $173,444 66
Corresponding week of previous year.. 122,102 90

Increase..... $51,341 76

The earnings of the Western Union Railroad for the week ending Jan. 14, 1867 . .. $9,903 69
Corresponding week previous year..... 9,584 10

Increase..... $319 59

The earnings of the Michigan Central Railroad for the 2d week in Jan., 1867, were.... $71,133 76
Corresponding week of previous year.. 61,463 96

Increase..... $9,669 80

The earnings of the Chicago and Great Eastern Railway for two weeks in Jan. were... $48,440 40
Same period last year..... 43,558 11

Increase in 1867..... $4,882 29

The earnings of the Detroit and Milwaukee Railroad for the week ending Jan. 17th, 1867, were $22,168 00
Corresponding week of 1865..... 21,448 00

Increase $720 00

Immigration in 1866.

The following statement, taken from the Report of the Commissioners of Emigration, just presented to Congress, shows the number of immigrants that arrived in the United States during the past year, and the countries from whence they came, viz: Great Britain and Ireland, 107,308; Germany, 86,675; British North American Provinces, 29,189; Norway, 8,075; France, 4,950; Switzerland, 2,704; Sweden, 4,523; Denmark, 1,769; West Indies, 704; Italy, 1,028; Holland, 1,314; Belgium, 1,185; Spain, 518; Poland, 391; Azores, 348; Portugal, 238; Mexico, 118; Russia, 152; South America, 233; Africa, 27; Australia, 19; Turkey, 17; China, 2,278; Greece, 3; Sicily, 95; St. Helena, 2; East Indies, 30; Japan, 2; Egypt, 4; Brazil, 1; Peru, 4; Unknown, 32,539—total, 286,496.

These people are estimated as having brought with them at least $20,000,000 in money and effects, and if the labor they will perform here averages $500 worth annually, they add nearly $130,000,000 to the annual resources of the country. Immigrants are still coming, and it is reported by those having charge of the matter and conversant with the prospective business of the various lines across the ocean, that 1867 promises even a larger immigration than 1866.

Finances of New Jersey.

The following statement of the receipts and expenditures of the State during the fiscal year ending November 30, 1866, is from the Message of the Governor:

RECEIPTS.

Transit duties from railroads & canals.	$253,621 33
State tax	70,000 00
Dividends on stock and interest	52,658 89
Assessment on private acts, licenses, fees.....	17,661 16
Tax on capital stock railroad	4,260 71
	$398,202 09
American Dock and Improvement Co.	114,725 00
Transferred from war fund, balance due State.....	94,084 61
Transferred from other sources	6,144 84
Received from other accounts.....	429 20
Balance in bank, December 1, 1865..	55,876 54
Amount received from all sources....	$670,462 28

DISBURSEMENTS.

State militia	$72,131 03
Appropriation to Lunatic Asylum.....	57,000 00
Appropriation to N. J. Reform school.	49,429 20
Public schools.....	40,000 00
Printing.....	54,620 83
Legislature	85,205 30
Appropriation to State prison.....	82,500 00
Salaries of State prison.....	31,181 18
Salaries of judiciary.....	33,163 52
Transportation of prisoners and costs.	35,108 42
Commissioners of State library for new wing.....	18,852 74
Salaries	16,508 79
Disbursements to sundry accounts....	143,966 43
Balance in bank, December 1, 1866...	51,125 76
	$670,462 82

It appears from the above statement that the receipts of the State from all sources during the year have been $398,202 09, although other payments into the Treasury have been made to the amount of $215,383 65, which, with the balance in bank December 1, 1865, make a total of $670,462 28. The amount received from all sources of actual revenue for the fiscal year should really be stated at $449,421 73, the discrepancy being caused by the payment of the tax on the capital stock of certain railroads of $51,219 64 in November, 1865, in advance of the time when payable, which was January, 1866. It properly belonged to the receipts of the last fiscal year, but went into the account of the year before. The actual disbursements of the year have been $619,336 52, showing a deficiency between the receipts and expenditures on the State account proper of $169,914 79. This has been met by the payment of certain sums to the State, but it is no less a deficiency. Should appropriations of a similar character be made to those of last year, there must and should be some plan devised, either by taxation or otherwise, to meet the liabilities thus created.

The transit duties paid in during the year by the Delaware and Raritan Canal and Camden and Amboy Railroad Companies, and the New Jersey Railroad and Transportation Company, in comparison with the fiscal year of 1865, have decreased, to wit: the Delaware and Raritan Canal and Camden and Amboy Railroad Company, $66,752 11, and the New Jersey Railroad and Transportation Company, $20,906 67, which is owing undoubtedly to the cessation of the war and the great diminution of the military and other travel and transportation on their lines. The aggregate of this decrease is $87,658 78, whilst the duties paid in by the Delaware and Raritan Canal Company are in excess of the last year $33,893 05, which reduces the aggregate decrease to $53,765 73. From the other sources of ordinary State revenue there has been a small increased receipt.

The total amount of receipts on account of the War Fund, including taxes and special loans, was $1,132,969 51; and the disbursements, $1,075,352 15. The amount claimed to be due the State by the U. S. Government for arming, equipping and transporting the soldiers of the State, is $777,516 76. The aggregate of bounties paid and indebtedness incurred on account of the rebellion, by the several counties, cities and towns of the State, as far as reported, is $23,417,988 77. The following statement will show the condition of the War Debt at the close of the fiscal year:

Total amount bonds issued Dec. 1, 1865	$2,771,800 00
Special loans.....	247,000 00
Amount due sundry creditors.....	123,319 33
Indebtedness of war fund, Dec. 1, '65.	$3,142,119 33
Total amount of bonds issued Dec. 1, 1866	3,395,200 00
Increase of war debt	$253,080 67
Less balances in bank to credit of same	57,617 36
	$195,463 31

The amount of the sinking fund for the extinguishment of the war debt of the State on the 30th November, 1866, was $373,146 16.

The bonds payable on the 1st January, 1868, amount to $99,500.

Provision will have to be made by the Legislature for the payment of this sum and the interest for January and July of that year.

Summit Branch Railroad.

The title of this company would indicate that the transportation of freight and passengers was the ostensible object of the corporation, but it is, in fact, a well known coal company, the stock of which is almost entirely held in Boston. It was put on the market three years ago from December last, as the "Bear Valley Coal Company," the Summit Branch Railroad being invested with the title of the land. Subsequently, it was proposed to open another colliery, which was to be known as the "North Mountain," and a certain amount of money was paid in to develop it. It was finally concluded to consolidate these branches, and having leased the Lykens Valley Railroad which extends from the colliery of the company to Millersburg, and also transports the coal of the Short Mountain and Franklin Coal Company, and the corporation is now known as the Summit Branch Railroad Company. The company differs from many other coal companies as it owns in fee simple a large tract of coal lands sufficient for the location of a dozen collieries. The annual reports of the Directors, Treasurer, Railroad and Mining Superintendents have just been issued, and the exhibit is certainly a very favorable one. The profit derived from the railroad from July 1, to December 1, 1866, is $26,681 58, and the profit from the Williamstown colliery is $66,399 52.

The actual product of the colliery from April 28, to December 1, 1866, was 67,643 tons, all of

which, with the exception of a few tons, was promptly sold, as the coal from its free burning qualities, is in demand. Many delays took place, which prevented the yield from being much larger, and it is expected that next season the company will turn out nearly a thousand tons per day, while the cost of production will be much less.

The profits of the company have been used in placing $25,000 to the sinking fund, to meet the payment of the bonds, in purchasing a new locomotive of 32 tons, in repairing the rolling stock, furnishing new cars, and the erection of 40 new houses for the use of miners—the company now owning 72 houses, in addition to the necessary workshops, &c. The directors are sanguine of the ultimate success of this enterprise. Messrs. Geo. B. Upton, Samuel H. Gookin, David D. Stackpole, Henry A. Peirce and S. D. Crane are Directors, and George P. Sanger is President.

Atlantic and Great Western Railway.

In publishing the list of Directors of this road in our last issue, several errors occurred; we therefore re-publish it with the corrections. The election took place at Meadville, Pa., on the 8th inst., the following gentlemen were chosen: S. S. L'Hommedieu, Cincinnati, O.; J. J. Shyrock, Hon. G. Church, Hon. J. Dick, William Thorp, Meadville, Pa.; Samuel L'Hommedieu, Robert H. Burdell, B. Vanderpool, John Gardner, C. E. E. Blakeslee, T. W. Kennard, New York city; Marvin Kent, Kent, O.; J. W. Tyler, Warren, O.; J. Riblet, Galion, O; E. P. Brainerd, Ravenna, O.; John Howard, Dayton, O.; Hon. John Sherman, Mansfield, O.; Chas. Day, Henry Martin, Geo. R. Babcock, Buffalo, N. Y.; A. J. Allen, Jamestown, N. Y.

Afterwards the Board organized by the election of the following officers:

President, S. S. L'Hommedieu; Vice-President, J. J. Shyrock; Secretary and Auditor, J. C. Calhoun; Treasurer, J. M. Dick; General Superintendent, D. McLaren; General Freight Agent, J. M. Osborn; General Ticket Agent, E. F. Fuller.

Pictou vs. Albert Coal.

One of the Boston gas companies recently entered on an elaborate series of experiments in order to test the relative merits of the coal generally used for gas making purposes. The result is thus given in a correspondent's letter. He says that it imparted facts never yet known, viz:

"That a mixture of Pictou and Albert coal produces the best gas made; that the ordinary yield from Pictou coal is 3¼ feet of gas to the pound; from a pound of Albert about 6½ feet. A mixture of Pictou with about 7½ per cent. of Albert produces 4 feet to the pound. From a ton of Pictou coal, in addition to the gas made, coke to the amount of 65 per cent., of 2,240 pounds, is produced, and from about 8 to 10 gallons of coal tar. This tar sells at $2 50 per barrel. Albert coal makes but little or no coke; but from a mixture of Pictou with 10 per cent. of Albert about 60 per cent. of coke is secured."

☞ During the past year there were transported over the Cumberland and Pennsylvania Railroad, from the mines to Cumberland, 883,922 tons of coal, 291,027 tons of which were delivered to the Chesapeake and Ohio Canal, and 592,894 tons to the Baltimore and Ohio Railroad. The increase over the year 1865 was 6,157 tons to the canal, and 208,168 to the railroad. Total increase, 214,326 tons.

The Wool Trade.

It is estimated that there are in the United States about 1,600 woolen mills, containing about 6,000 sets of carding machines, capable of consuming annually 170,000,000 pounds of clean material. The amount of foreign wool imported into the United States is reported as follows:

	1866.	1865.	1864.
New York	36,066,176	30,266,540	51,798,943
Boston	20,027,958	14,292,412	20,780,124
Philadelphia	171,000	450,000	1,513,000
Baltimore	597,150	595,800	870,980
Total	56,862,284	45,604,752	74,963,047

The estimate of total wool clip of the United States in 1866, is as follows:

Washed	120,000,000 lbs.
Unwashed—California and Oregon	9,000,000 lbs.
Texas	6,000,000 lbs.
Sundry Southern	2,000,000 lbs.
Total	137,000.000 lbs.
Yielding about one-half pure wool, say	68,500,000 lbs.
The product of 56,862,284 lbs. foreign may be set down at 40 per cent. clean	22,744,913 lbs.
Leaving of pure wool grown and imported in 1866	91,244,913 lbs.

Education in Indiana.

There are in Indiana, between the ages of 6 and 21, 559,778 children and youth. Of the former, 390,714 attended the primary schools during the last year, and 12,098 of the latter attended the high schools. The number of teachers employed is 9,498, and the amount paid them is $1,020,440. There are 8,379 school districts, and in 8,166 of them schools have been taught during the whole or part of the year. New schoolhouses built during the year, 316. Total number of schoolhouses in the State, 8,231. The entire value of school property is estimated at $4,515,833. There are 2,026 private schools. The total school fund of the State is $7,611,337 44. The amount of revenue to be expended the next school year, for tuition exclusively, is $1,330,086 79.

Canadian Railways.

The total receipts of the Grand Trunk Railway in 1866 were $6,639,260—an increase of $53,067 over 1865. Those of the Great Western were $3,264,402—an increase of $3,648. Those of the Northern, $512,872—an increase of $19,095. The receipts of all the Canadian railways from which there are returns, including the above, were $10,968,963—an increase of $175,585. Number of miles in operation, 2,104. From two railways, which have together a length of about 120 miles, there are no returns.

American Railroad Cars.

Among the consignments of goods for the Paris Exposition, we notice a richly finished street railroad car, got up in the latest style of the art. This car is intended for a Bombay (India) street railroad, and stops at the Paris Exposition on its way thither. It is a curious fact that American builders have of late furnished cars for street railways in cities of England, South America and Canada, and in this branch of architecture leads the world.

☞ We are informed that the surveyors of the new route from Hoboken to Albany along the west bank of the Hudson have already run their lines through Nyack and Haverstraw. Contracts are also said to be let on the upper end of the line from Albany to Newburgh.

Interest and Dividends.

The Directors of the Delaware and Raritan Canal and the Camden and Amboy Railroad Company have declared a semi-annual dividend of five per cent. on the capital stock, and three and one-third per cent. on the receipts of the first installments paid on new stock Sept. 1, 1866, free of government tax, payable January 31.

The Philadelphia and Trenton Railroad Company have declared a dividend of five cent., payable on and after the 31st inst.

The New Jersey Railroad and Transportation Company have declared a semi-annual dividend of five per cent. out of the profits of the company, payable on and after the 1st February next, free from government tax.

The Milwaukee and Prairie du Chien Railway Company will pay, in addition to the dividends heretofore announced on their preferred stock, one of three dollars per share on their common stock.

The Granite Railway Company have declared a dividend of $4 per share payable Jan. 25.

The Morris Canal and Banking Company announces a semi-annual dividend of five per cent. on the preferred stock of the company, and three per cent. on the consolidated stock of the company, payable on and after the 5th of February next.

Supply of Gold and Silver.

The *Bankers' Magazine* for January contains a recent and elaborate article, translated from the French of M. Chevalier, on "the annual production of Gold and Silver throughout the World." His conclusions are as follows:

	Gold. Francs.	Silver. Francs.	Totals. Francs.
America	264,332,000	283,338,000	547,660,000
Europe	42,228,000	13,089,000	55,317,000
Russia	4,445,000	85,367,000	88.812,000
Australia	1,111,000	320,000,000	321,111,000
Francs	312,116,000	701,784,000	1,013,910,000
All other countries	111,111,000	275,555,000	386,666,000
Tot. francs.	423,227,000	977,349,000	1,400,576,000

From 1848 to 1865, he estimates the gross production as 20,609,000,000 francs, equal to $4,121,800,000, viz:

	Francs.
Silver	5,591,000,000
Gold	15,018,000,000
Total	20,609,000,000

Omaha, Nebraska.

Omaha, the eastern terminus of the Union Pacific Railway, has now a population of 10,000. It is situated about midway between New York and San Francisco, two thousand miles from each. Since October, 1865, the company have constructed and are running 305 miles of road, westerly, and have aided the Chicago and Northwestern Company in building, since April last, 130 miles, a feat of railroading altogether unparalleled. They have also a contract for a bridge over the Missouri river to connect Omaha with Council Bluffs, and expect by July next to have their road in complete running order to the foot of the Rocky Mountains, more than half the distance to San Francisco.

The Intercolonial Railway.

It is stated that the Canadian delegates have settled all the points at issue with the New Brunswick and Nova Scotia delegates, on the one hand, and with the Imperial Government on the other, regarding the Confederation of British North America. A bill on the accepted basis will be introduced at the opening of next session to confirm this arrangement. The system of confederation, accompanied by an Imperial guarantee of the Intercolonial Railway, having been sanctioned by British Ministries of all parties, no doubt seems to be entertained of the measure being well received by the House of Commons. It is arranged that this Imperial guarantee, originally fixed at £3,000,000, shall be extended to £4,000,000—if that amount shall be found requisite. The delegates further compute that the Intercolonial line can be completed within two years, so as to connect the Grand Trunk Railway with Halifax. Indeed, three sections of this line between Quebec and Halifax are already constructed. At the same time a direct line from Chicago to the western terminus of the Grand Trunk at Port Sarnia is in progress. This opening with Europe and with the Far West can hardly fail to be of advantage tothe Grand Trunk Line,the mileage receipts of which, through its comparative isolation, are as yet but one-fourth of those of the great American through lines.—*London Railway News.*

Tyonesta Valley Railroad.

This company has been organized by the election of a Board of Directors with Henry Cullum, Esq., of Meadville, Penn., as President. The road will connect Tyonesta with Sheffield, a point on the Philadelphia and Erie Railroad. The Allegheny Valley Railroad will connect with it at Tyonesta, and with the completion of the Buffalo and Warren Railroad an almost direct route will be formed from Pittsburg by way of Franklin to Buffalo. Mr. L. H. Metcalf is Secretary, and Col. G. H. Bemus Treasurer of the company.

Dorchester and Delaware Railroad.

The prospects for success in this enterprise have never been so bright and encouraging as at present. The capital stock already subscribed amounts to about $70,000. Many, probably a large majority of the people of the county, are favorable to the issue of county bonds to the amount of $50,000. This done, the directors are confident of an immediate realization of $30,000 by private subscription, as numbers of those who have already subscribed are willing to double their pledges.—*Cambridge (Md.) Herald.*

☞ The Woodstock Railroad Company was organized at Woodstock, Vt., on the 9th inst., by the choice of the following Board of Directors: Peter T. Washburn, Thomas E. Powers, Albert G. Dewey, Charles Dana, Francis W. Clarke, Lewis Pratt, Frank N. Billings, Charles S. Raymond and Otis Chamberlin. Subscriptions to the amount of $136,000 have already been received. The proposed road will run from Woodstock to White River Junction, 13 miles, and will probably be extended to Rutland, about 45 miles.

☞ The following gentlemen have been elected directors of the Charleston and Savannah railroad under its new organization: James H. Taylor and J. Reid, of Boyleston; William S. Hastie, John Shyan and Alexander Isaacs, of Charleston, and F. F. Willis, of Savannah.

☞ The shipments of Petroleum by Wyoming, on the Great Western Railway of Canada, during the past year amounted to 49,880 bbls. These figures are the largest recorded since 1863, when 90,000 barrels were shipped from the flowing wells of Oil Springs.

Railroad over the Hoosac Mountains.

A resolution has been adopted by the Boston Board of Trade requesting the Legislature to consider the expediency of ordering a survey to ascertain the practicability of a railroad over or around the Hoosac Mountains. It will be twelve and possibly fifteen years before the tunnel will be completed, provided no unlooked for drawbacks present themselves. We believe that partial surveys have been made of a route over the Hoosac mountains, but we are not familiar with the decision. If the Alleghanies can be surmounted by the iron horse and prove a remunerative undertaking, we cannot believe there are any obstacles which are insurmountable in this new proposition.—*Boston Journal.*

Kansas.

The annual message of the Governor of Kansas announces an increase of 50,000 in the population of the State. The State debt is $6,680,000, and the resources $556,000. The Governor recommends the payment of $193,000 for claims arising from the Price raid. There are 60,000 children in the public schools; value of schools $320,000.

Nevada.

The Annual Message of the Governor of Nevada shows the state debt to be $278,000. Balance in the Treasury, January 1st, $51,000. Receipts for last fiscal year, $425,000. Disbursements, $320,000. Balance on hand, about $156,000.

☞ The Pittsburg and Steubenville Railroad Company have elected their Board of Directors for the ensuing year, with Wm. Phillips, Esq., as President. This company have leased their line to the Western Transportation Company, from whom they receive forty per cent. of the net earnings. The road is now doing a good business.

☞ By direction of the Pennsylvania Railroad Company, a corps of engineers are now engaged in making a survey of the route for a railroad from Westchester to some point on the former road, at or near the steamboat station.

☞ During the past year there was exported from Richmond, Va., $1,530,000 worth of domestic produce, principally of flour and tobacco. The imports amounted to $87,309, including $20,977 worth of salt.

☞ The Iowa division of the Chicago and Northwestern Railroad was finished to Council Bluffs on the 22d inst., which completes the link between the seaboard and the North Platte—three hundred miles west of the Missouri river.

☞ The Detroit and Milwaukee Railroad Co., have recently surveyed a branch railroad from Ferrysburg to Muskegon.

BURNSIDE & POTTER,

RAILROAD & COMMISSION OFFICE,

No. 26 Exchange Place,

NEW YORK.

AMBROSE E. BURNESIDE. ROBERT B. POTTER.

OFFICE ILLINOIS CENTRAL RAILROAD COMPANY, January 15, 1867.

AT a MEETING of the Board of Directors of this Company, held this day, it was Resolved, That a DIVIDEND of FIVE PER CENT. in cash, free of Government Tax, be paid on the first day of February next to the holders of the full-paid shares registered on the nineteenth day of January instant, and that the Transfer Books be closed on the said nineteenth day of January, and opened on the sixth day of February.

THOMAS E. WALKER, Treasurer.

THE ATLANTIC BRIDGE WORKS,

Office, No. 157 Broadway,

NEW YORK.

POST, McCALLUM & CO.,

Bridge and Roof Builders,

Are prepared with all the necessary machinery and an experienced corps of assistants, to sink **Hollow Piles** and **Coffer Dams by the pneumatic process** for the foundations of Bridges, Docks, Sea Walls, Light Houses, or other marine constructions.

By the use of new patented machinery they are able to perform work of this character with much greater rapidity than has been possible heretofore, and at reduced cost.

Parties in the Western States may apply to Gen. Wm. S. Smith, care of Boomer, Boyington & Co., No. 14 Dearborn St., Chicago, Illinois.

BORDEN & LOVELL,

70 and 71 West Street, New York.

GENERAL AGENTS

Borden Mining Company's

CUMBERLAND COAL.

Orders from Railroad Companies, Manufacturers and others are respectfully solicited.

Kuebler & Seelhorst,

BARSTOW, EDEY & CO.,

BANKERS and BROKERS

HAVE REMOVED FROM

No. 30 to No. 36 Broad Street.

OFFICE NO. 16.

TO RAILROAD CONTRACTORS.

LOUISVILLE, CINCINNATI AND LEXINGTON RAILROAD OFFICE,
LOUISVILLE, KY., December 24, 1866.

SEALED PROPOSALS will be received at this office, on the 31st January, 1867, for the Graduation and Masonry of over seventy (70) miles, (in mile sections), of the Cincinnati Branch of this railroad.

The work is of an unusually desirable character for good contractors, the line accessible by steamboat and turnpike, and the country full of supplies.

Profiles will be ready for examination on and after 15th January.

Payments for work done will be made monthly in cash and with the usual reserva ion.

References will be required from contractors not personally known and the company reserve the right to reject any bids not deemed to their interest.

L. M. ST. JOHN,
4t1 Chief Engineer.

Sole Agents.

ENGINEERS AND CONDUCTORS' WATCHES.

THE AMERICAN WATCH COMPANY, of Waltham, Massachusetts, request us to publish the following letters, recently received, recommendatory of Waltham Watches for railway use. The Pennsylvania Railroad Company have for several years furnished to their employees watches specially made for them by the Waltham Company, and it is this class of watches the Superintendent, Mr. Williams, refers to. Similar watches (in strong silver or gold cases, with plate-glass crystals) we are prepared to supply, named and engraved to order; and of them, as being most suitable for the use of Engineers, Conductors, Station-Masters, of Expressmen and Messengers, the Company give the most ample guarantee. It is a remarkable fact that Railroad Companies using our watches suffer much less from collisions and similar accidents than any others.

Any of the grades of Waltham watches may be purchased of Watch Dealers generally throughout the country.

ROBBINS & APPLETON,
182 Broadway, New York.
ROBBINS, APPLETON & CO.,
158 Washington Street, Boston.

PENNSYLVANIA RAILROAD CO.

OFFICE OF THE GENERAL SUPERINTENDENT,
ALTOONA, Pa., 15th Dec., 1866.

GENTLEMEN,—The Watches manufactured by you have been in use on this Railroad for several years by our Enginemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable timekeepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs, than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation, but as a class they never kept time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years. Respectfully,

EDWARD H. WILLIAMS,
General Superintendent.

AMERICAN WATCH COMPANY, Waltham.

NEW YORK CENTRAL RAILROAD.

LOCOMOTIVE DEPARTMENT, WEST. DIVISION,
ROCHESTER, Dec. 24, 1866.

GENTLEMEN,—I have no hesitation in saying that I believe the great majority of Locomotive Engineers have found by experience that Waltham Watches are the most satisfactory of any for their uses. They run with the greatest accuracy and steadiness, notwithstanding the rough riding of an engine, and as I have never known one to wear out, they must be durable. I hope to see the time when Railway Companies will generally adopt your watches, and furnish them to all Engineers and Conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours respectfully,

CHARLES WILSON, G. Chief Engineer,
Brotherhood of Locomotive Engineers.

AMERICAN WATCH Co, Waltham, Mass.

THE ATLANTIC BRIDGE WORKS,

Office, No. 157 Broadway, New York.

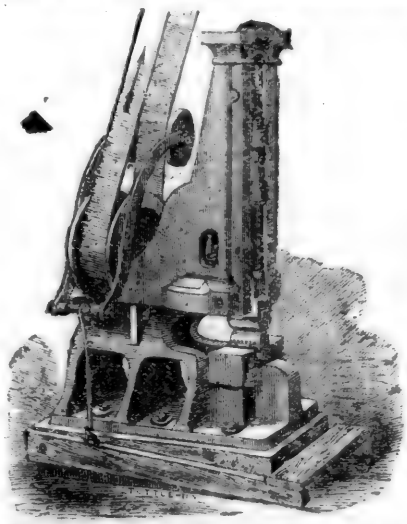
POST, McCALLUM & CO.,

BRIDGE AND ROOF BUILDERS,

Are prepared to build in any part of America, their superior plan of **Railroad** and **Highway Bridges,** either wholly of **iron,** or of **iron** and **wood** combined, and of any desired span.

These Bridges possess **greater strength** and **stiffness** in proportion to the quantity of material, than can be obtained by any other plan in use, and therefore are the most economical.

Roofs of any length and width erected on this plan, combining great strength with lightness and economy of construction.



S. S. POST. D. C. McCALLUM. A. J. POST. A. ANDERSON.

Debt of Virginia.

The Second Auditor reports the public debt of Virginia, as of the 1st of January, 1867, at $43,166,286 52; but this includes $1,997,315 46 standing on the books in the name of the Commissioners of the Sinking fund, leaving the absolute debt at $41,168,971 06, viz:

Certificates and Bonds issued prior to Jan. 1, 1852			$10,200,252 03
Debt created since Jan. 1, 1852:			
From Jan. 1, 1852	to Jan. 1, 1853		2,979,087 00
" 1853	" 1854		4,605,916 87
" 1854	" 1855		4,112,184 37
" 1855	" 1856		1,504,403 09
" 1856	" 1857		2,653,570 00
" 1857	" 1858		630,260 00
" 1858	" 1859		1,866,800 00
" 1859	" 1860		1,454,600 00
" 1860	" 1861		3,621,825 00
" 1861	" 1862		1,146,870 00
" 1862	" 1863		131,380 02
" 1863	" 1864		41,350 00
" 1864	" 1865		18,100 00
" 1865	" 1866		5,800 00
" 1866	to Sept. 30, 1867		4,900 00
Debt created under Act, March 2 (funded interest)			1,951,596 21
Aggregate Public Debt, Oct. 1, 1866			$36,928,894 59
Brought forward			$36,928,894 59
To this must be added the interest accrued and not funded Jan. 1, 1867, amounting to			$6,237,391 93
Total Debt			$43,166,286 52
Deduct Sinking Fund			1,997,315 46
Debt less Sinking Fund			$41,168,971 06

The following, which is a recapitulation of the funded debt shows also the character of the securities of which it is composed and the rate of interest:

Under acts prior to April 17, 1861, viz.:		
6 per cent. certificates, reg. debt		$21,896,298 38
5 " " "		108,000 00
6 " coupon bonds		11,118,000 00
5 " " "		1,865,000 00
Total		$34,977,298 38
Under act of March 2, 1866, (funding) viz:		
6 per cent. certificates, reg. debt		$1,379,500 00
5 " " "		6,300 00
6 " fractional certificates		71,448 71
5 " " "		347 50
6 " coupon b'ds ($500 each)		494,000 00
Total		$1,951,596 21
Total public debt Oct. 1, 1866		$36,928,894 59

There is also an issue of $200,000 of State stock to the James River and Kanawha Canal Company, issued under an act passed March 18, 1862, the validity of which is questioned.

Of the coupon debt, embraced in the above schedule, viz.: $12,937,000, there is payable—in Richmond, 6 per cents, $63,000; in New York, 6 per cents, $10,900,000; and in London 5 per cents, (£378,000) $1,865,000. The remainder, $145,000, is accounted for as "lost at sea."

The registered debt is held almost wholly by parties resident within the State.

The issues under the act of March 2, 1866, are payable—in 1868, $71,038 91; in 1869, $757 50; in 1876, $1,350,900 00; in 1886, $489,300 00; and in 1900, $39,600.

The old funded debt runs 34 years from date, and is re-imbursable from the sinking fund, which calls for one per cent. of the principal yearly.

The greater portion, in fact nearly all these securities, were issued for subscriptions or loans to internal improvement companies within the State, and have a good basis on which to fall back for future profits. At present, however, very few, if any, of the public works are paying their expenses; and for some time to come will require all excess of earnings, when any accrues, for restoration and the replacement of equipment taken from them or destroyed by one or other of the forces lately contending along their routes. Not only this, but the whole property of the State is damaged and depreciated, and labor so disorganized as to prevent an early return to the prosperity which prevailed when the rebellion first broke out. This property, then, cannot be calculated upon towards either liquidating the debt (except by sale) or paying the interest thereon; nor is property generally in such a condition as to bear any extraordinary taxation. The debt has therefore no present prospect of satisfaction, and we have to deal with a dead weight. The following statement, compiled from the details exhibited in the report alluded to shows what the State's interest in the public works is made up of. Under the head "authorized," it shows the amount of subscriptions by the state to joint Stock Companies and the amounts appropriated for state improvements, and the next column shows how much has been "paid" and the third how much is yet "to be paid" if the laws appropriating the amounts set-down are carried out, but which is not probable. The statement is as follows:

Companies.	Authorized.	Paid.	To be Paid.
16 Railroad	$22,704,523	$18,584,928	$4,189,595
18 Navigation	12,277,290	12,234,116	43,174
10 Plank road	465,800	399,755	66,045
161 Turnpike	2,674,540	2,371,009	303,531
12 Bridge	106,100	104,462	1,628
30 State roads	1,868,099	1,825,829	42,270
Total	$40,096,352	$35,520,109	$4,576,243

From this showing it is obvious that the State is not entirely divested of the means necessary to sustain the credit which a long course of honorable dealing had earned for it. These works, on which a renewed credit may yet be founded, are spread over the whole state, opening its fertile lands to the markets of the world and connecting the vast west and southwest with its seaboard. By a wise and faithful administration of this property the burden which now presses so heavily on the resources of the state may be materially lightened, and hence it is a question of vast importance that

some early disposal of these should be concluded, and the public debt be reduced to an amount equivalent to the sums realized.

With regard to the debt, the First Auditor, (not the Second Auditor from whose report alone we have as yet quoted) does not think that its magnitude need excite apprehension as to the ability of the State to pay it. But he adds that "it is due to the creditors to state that the losses of the Commonwealth, growing out of the war, have been of such magnitude as to render it impossible to pay full interest on the debt for several years to come."

The Auditor then proceeds to unfold his plans for relief. In the first place, he proposes the consolidation of the debt, and in the second the scaling of the debt down to 66⅔ per cent., the 33⅓ per cent, excised to be taken up or not, as the result may be, by West Virginia. It will be seen that the first project is not very unlike the plan adopted by Missouri. He says:

"Supposing the debt consolidated, I propose to pay the interest upon it according to a graduated scale rising from three to nine per cent. per annum, and running through a term of thirty years, thus: for the first four years, 3 per cent.; for the next four years, 4 per cent.; for the next four years, 5 per cent.; for the next six years, 6 per ct.; for the next four years, 7 per ct.; for the next four years, 8 per cent. and for the last four years, 9 per cent. The scale averages, it will be observed, six per cent. per annum; and I may state here that the basis upon which it rests is the prospective appreciation of the taxable property of the State, and is so arranged that only a moderate tax will be required while the State is recovering from its prostrate position."

The theory and nature of the scaling system proposed may be best understood from the Auditor's own words:

"I beg leave to call the attention of the General Assembly to a plan which has been suggested for *reducing the public debt*, which claims attention from the number and respectability of its advocates. I will state it briefly. From figures (given in another part of this report) it will be seen that one-third of the whole population of the State in 1860, nearly one-half of its territory, and about twenty-five per centum of the value of its real estate, are now included within the territory of West Virginia. Assuming one-third as a proper proportion of the debt to be paid by that State, it is proposed to scale the whole debt by paying two-thirds ourselves and leave the remaining third to be adjusted between the creditors of this State and West Virginia. This would, I think, be an equitable ratio of settlement. But I should be unwilling arbitrarily to assign any portion of the debt to West Virginia, or to assume for ourselves any specific part of it, until the Legislature of that State can have an opportunity of appointing commissioners to confer with ourselves upon all unadjusted matters of account between the two States. Should West Virginia fail to appoint commissioners, or should those commissioners, when appointed, decline to assume any equitable portion of the public debt, then, I think, we would be fully justified in resorting to the expedient of scaling the debt according to the proposition indicated above."

That either or both of these plans of relief could be acceptable to the State's creditors is simply impossible. They would fail to fulfil the terms of the contract made between the State and those from whom the State received the means to construct those great public works which have been of so vast a benefit in developing the resources and wealth of the sections they traverse. The first portion of the project as before intimated is a reflex of that adopted by Missouri, but which has signally failed in accomplishing what it attempted, the creditors of that State having withheld their sanction thereto, and preferred to await events rather than make the sacrifices it calls for. The second proposition is perhaps more oppressive and objectionable than the first. It proposes to rid the State of one-third of its debt by force of a new law, thus imparing, against the express provisions of the constitution, the validity of one of the most sacred contracts that could be made. It, indeed, proposes to throw this one-third upon West Virginia, but without a shadow of justice; inasmuch as the country, now called West Virginia, never benefitted by the debt created, except in perhaps so far as the cost of a few turn pikes and bridges are involved; and hence we cannot comprehend why this State should assume so unprofitable a burden as such an apportionment of the debt would saddle it with nor will she assume it. It is evident, therefore, that in case the State of Virginia were to enforce this proposition, the creditors alone would be the losers, and such enforcement would be nothing more or less than determined repudiation.

But Gov. Pierpont, in his Message to the Legislature, makes other proposals, which contrasted with those of the Auditor, or taken by themselves, are alike upright and honorable. The Governor's proposition is to sell to the holders of the State's securities the State's interest in the railroads, for the construction of which the debt was created, the payment therefor to be made in Virginia bonds at par. The Governor, to this end, would divide the said roads by the James River, giving to the buyers all the roads south of that stream in one transfer and all the roads north of it in another. Three-fifths of the stock of most of these works is owned by the State. The total amount of stocks and bonds of railroad companies so owned is $18,584,000, and the total amount in all the public works is $35,520,000. Now, if all the stocks, &c., as above, were surrendered in exchange for the State's interest in these works, both the State and the creditors would undoubtedly be satisfied—the former would get quit of a burden that circumstances have made intolerable, and the latter receive all that their money has purchased, and which in the no distant future will pay handsomely.

That some definite action will have to be taken in relation to the debt of this State is obvious. The inability of the State to pay interest in full is confessed; and this disability will probably continue for many years. It will be wise therefore, on the part of the State to disburden itself; and it will be equally wise on the part of the creditors to accept the best compromise that may be offered. The propositions of the Auditor and the Governor are made for this purpose—the one would razee the debt, and at the same time hold fast to the property on which it is based; while the other, as in honorable bankruptcy offers the whole estate to the acceptance of those holding obligations against it. The legislation that will follow the consideration of these propositions will decide the States of Virginia among the States of the Union.

Previous to the late war the bonds of Virginia sold readily at 96@98. They are now scarcely saleable at 40@42. Such is the fallen estimate of the credit of a State, which up to 1861 held a high place in the monetary world. By exact justice to her unfortunate creditors she may regain her former elevated position. By a contrary course, she will allot to herself a future of financial and industrial troubles.

Western (Mass.) Railroad.

The receipts and expenditures of this road for the years ending November 30, 1865 and 1866, have been as follows:

Receipts:	1865.	1866.
From passengers	$1,366,565 25	$1,379,684 03
" freight	1,926,220 48	2,394,313 85
" mails, etc.	138,798 37	158,019 41
	$3,431,584 10	$3,932,017 29
Expenses, viz:		
Repairs of roadway	$427,804 17	$314,833 17
" engines	179,079 21	245,435 08
" cars	274,148 10	428,277 94
" buildings, ferry, etc.	85,331 80	65,432,64
Transportation exp.	1,209,572 46	1,447,019 55
General expenses	28,989 84	24,228 20
	$2,204,925 58	$2,525,226 58
Net income	$1,226,658 52	$1,406,790 71
From this deduct—		
Interest on State loans and exchanges	$415,601 93	
One per cent. to sinking funds	50,000 00	
Ten per cent. dividends.	616,925 00	
Excise tax on dividend.	32,469 73	
Balance of past taxes P. & N. A. R. R.	8,183 89	
		1,123,180 55
Surplus earnings		$282,610 16
Less government tax on same		14,180 51
		$269,429 65
Surplus last year.	$1,005,783 13	
Less government tax.	7,354 35	
		998,428 78
Total contingent fund Nov. 30, 1866.		$1,267,858 43

Compared with the previous year, the gross receipts show an increase of $500,433 19; with an increase in expenses of $320,301—making the increase in net earnings $180,132 19.

The receipts of the Pittsfield and North Adams railroad were $114,106 80; and the expenses $82,942 94—leaving net earnings $31,163 84. Two dividends of 3 per cent. each, amounting to $27,000, were paid, and the balance, $4,163 86, was appropriated towards the payment of State taxes.

The value of the Massachusetts Sinking Fund November 30, 1866, was $2,719,862; and of the Albany Sinking Fund $697,341 85—making the total value of both funds $3,417,203 85; against $3,452,340 in 1865—a decrease in funds of $35,137. The report says:

The securities in the Massachusetts and Albany sinking funds, with the accrued interest to Nov. 30, amount to $3,417,203 85, the Albany fund during the year having been reduced by the payment of $311,000 of the bonds which it was provided to secure. The cancellation of the bonds loaned for the purpose of building the road has thus commenced. The sinking fund, so wisely provided for the security of the State and the City of Albany, would in the ordinary conditions of a sound currency give ample promise of their sufficiency to meet these outstanding bonds. It is hoped that this promise will not be defeated by the future condition of the currency, and the high rate of exchange. If, however, gold should maintain its present value, it will be seen that the large increase of the business of the road, com-

mencing with the second year of the war, and largely augmented since the return of peace, has enabled us so to add to the contingent fund that we shall be able to make good from it any deficiency likely to exist.

During the present year, there have been used in the repairs of the track 5,783 tons of new rails, and the road and rolling stock were never in better condition than now.

The bridge at Albany was opened for business on the first of March last, and has since afforded free and uninterrupted passage to all trains. The advantages realized from this improvement have far exceeded the most sanguine expectations, and there can be little doubt that its benefits will be still further increased by the reduction of tolls which must follow the increasing traffic. The superstructure of the bridge, which is now of wood, with a single track, will at no distant day, it is hoped, be displaced by iron, with double track accommodations, the substructure having been built with a view thereto.

On the 30th of May last an act was passed authorizing this Corporation to increase its capital stock by the issue of 38,500 new shares. This increase was asked for by the corporation in order to provide funds for the completion of the second track, to make such other additions to the facilities of the road as the increasing business should render necessary, and to purchase, as opportunity may offer, any of the outstanding obligations of the corporation. This act was formally accepted by the corporation, and an increase of capital to the amount of $1,083,100 has been made and paid in under it. In anticipation of this action of the Legislature, work was commenced early in the year on the second track, and eighteen miles are already laid. Much heavy work has also been done on the rock cuttings of the twenty-two miles which remain to be completed, so that early in the Fall of 1867 the entire double track will be finished. We have added to the side tracks about three and a half miles at points where additional track room was needed. Large additions of real estate on the west side of the river at Springfield have been made, and new engine houses, both at Springfield and Hudson, with new turn-tables at Washington and Hindsdale, have been built. The repair shops at Springfield have been enlarged and increased, and at two points where public travel has been exposed, the road has been carried over the highway by bridges of substantial construction. Negotiations are now pending for the erection, at East Albany, of a first-class, fire-proof elevator, for the storage of grain. Preliminary steps have been taken to unite the passenger stations of the Western, the Pittsfield and North Adams, and the Housatonic Roads at Pittsfield, and the work will be completed before the expiration of the time fixed therefor in the act of the Legislature authorizing the change.

There have been added to the rolling stock of the road 10 first-class engines and 269 cars, including 6 passenger cars.

The tonnage transportation of the year, as compared with the previous year, shows an unexampled and unlooked for increase of about 40 per cent. It has demonstrated the necessity of the double track, and of a large increase of rolling stock. The rates for freight transportation for the last year have been a little more than 12 per cent. lower than those of 1865, and, with the increasing business, we are encouraged to believe that these rates may be still further reduced. The public have a right to demand that no delay in the transmission of freight shall occur from a want of cars or motive power; and it is our purpose to continue to increase all the facilities of the road to the extent demanded by the exigencies of the traffic, up to the full capacity of a double track road, amply equipped and stocked in all respects. Continuous freight lines, running cars without change to and from the most distant points in the West, are already in successful operation.

With these increased facilities for the transportation of freight from the West, it is easy to see that the amount of western produce that may find its way to tide water at Boston will only be limited by a failure there to provide the necessary storage and means of shipment to foreign parts. We are now able, in addition to our present business, to transport to tide water sufficient freight to load weekly a steamship of 3,000 tons burden. An effort, which it is hoped may be successful, is now making to establish a first class line of steamers to run between Boston and one or more foreign ports. Such an enterprise, while, we doubt not, it will prove remunerative to the owners, will also be of great benefit to all railroad lines terminating in Boston, and without making any recommendation, we suggest that it is worthy the consideration of the stockholders, whether a liberal subscription to the stock of the steamship line may not be profitably made by this corporation, under legislative authority obtained for that purpose.

The corporation is now in a condition financially to meet all the requirements of the business, and to put the road in a condition second to no other in the country.

Much has been done, as will be seen by the brief summary above given, during the past year. Another year will see the second track completed, and with the various measures already instituted for the increase of its facilities, the road will be prepared to meet any exigency of the future.

Another important work should be soon commenced, in substituting, as far as practicable, for the numerous wooden bridges, which in their aggregate length exceed one and a half miles, structures of iron and stone, permanent and indestructible. Neither the corporation or the public can afford to have the present heavy traffic delayed for the reconstruction of bridges. The damages which follow the delay would in many instances pay the cost of fire proof structures, and it is recommended that at an early day the work of substitution be commenced, and carried forward as rapidly as the officers then in charge may think best, using stone where it is possible, but putting either stone or iron in the place of wood. The expense will indeed be large, but this is a consideration which should not delay a corporation able to make the change.

The equipment of the road consists of 88 locomotives, 43 first-class and 8 second class passenger cars, 15 baggage, 1,073 box, 365 platform, 112 gravel and 46 hand cars; also 54-234ths of 25 passenger and 11 baggage cars of the New York and Boston Express Line, and 3 Post-office cars, built for the government, which have not been used.

The number of miles run by locomotives with passenger trains was 486,872; with freight trains 1,083,845; with gravel, etc., trains, 89,345—total, 1,660,062, an increase over the previous year of 301,548.

The number of passengers carried was 1,046,836, of which 71,529 were through and 975,307 way. Of the through passengers, 70,959 were 1st class, and 570 2d class; of the way passengers, all were 1st class. The whole number of 1st class passengers was 1,046,266; 2d class, 570. The passenger traffic shows an increase of 36,463.

The number of tons of merchandise moved was 884,564; of which 621,030 were carried east, and 263,534, west. The through tonnage eastward amounted to 140,191; do., westward, 43,991. All other tonnage eastward, 480,839; do., westward, 219,543. Equivalent number of tons carried one mile, 75,650,824. Equivalent number of tons carried over the whole road, 484,941. This shows an increase over the previous year in the number of tons moved, of 190,810; in the number of tons carried one mile, 21,460,755; and in the equivalent number of tons carried over the whole road, 137,569.

An aggregate of 120,604,667 passengers or tons of freight carried one mile in 1866, against 98,116,557 passengers or tons of freight carried one mile in 1865.

The cost of transportation for each passenger and each ton of freight one mile this year has been 2.094 cents, against 2.247 cents in 1865; or assuming the cost of transporting each ton of freight to equal the cost of two passengers the same distance, we find the cost this year to be 1.287 cents per passenger, and 2.574 cents per ton for freight, against 1,447 cents per passenger, and 2.894 cents per ton for freight per mile in 1865.

The cost of the Western, Albany and West Stockbridge, and Hudson and Boston Railroads to November 30, 1866, has been as follows:

Western railroad	$8,060,120 84
Equipment	1,280,114 77
Albany and West Stockbridge	2,411,055 75
Hudson and Boston	203,036 01
West Stockbridge Railroad stock	13,000 00
Total	$11,967,327 87

BALANCE SHEET, FOR 1866.

Cost of road and equipment		$11,967,327 37
Hudson River Bridge		263,800 00
Notes receivable		1,176,783 01
United States debt, certificates		192,923 18
Materials		382,428 15
Cash		367,434 05
Commissioners of Massachusetts sinking fund	$2,719,862 00

Superintendent.—HENRY GRAY.

☞ The citizens of Frederick Co., Md., met recently, and adopted a memorial to be presented to the ure asking for authority to construct a railroad "from the Federal Metropolis to the Pennsylvania line, *via* Frederick." A committee was appointed to visit Annapolis and urge upon the Legislature the great importance of granting the charter asked for by the memorial.

Commerce of New York.

We give below, from the *New York Journal of Commerce*, a statement of the Commerce of New York monthly for a series of years. It will be seen that the total imports have reached the enormous sum of $306,613,184, in foreign gold value. If the freight and duty is added to this, and the whole is then reckoned in its relative value in our paper currency, the total will fall ttle below $600,000,000. This amount f

imports is without precedent in the history of this port, and is likely to be without a parallel in the succeeding returns for many years. To show what relation this result bears to the returns of former years, the following statement is given for each year since 1850. All the figures referring to the imports show only the foreign cost in gold, freight and duty not added.

FOREIGN IMPORTS AT NEW YORK.

Year.	Dutiable.	Free Goods.	Specie.	Total.
1851	$119,592,264	$9,719,771	$2,049,543	$131,361,578
1852.	115,336,052	12,105,342	2,408,225	129,849,619
1853.	179,512,412	12,156,387	2,429,083	194,097,652
1854.	163,494,984	15,768,916	2,107,572	181,371,472
1855.	142,900,661	14,103,946	855,631	157,860,238
1856.	193,839,646	17,902,578	1,814,425	213,556,649
1857.	196,279,362	21,440,734	12,898,033	230,618,129
1858.	128,578,256	22,924,961	2,264,120	152,867,067
1859.	213,640,363	28,708,732	2,816,421	245,165,516
1860.	201,401,683	28,006,447	8,852,330	238,260,460
1861.	95,326,459	30,353,918	37,088,413	162,768,790
1862.	149,970,415	23,291,625	1,390,277	174,652,317
1863.	174,521,766	11,567,000	1,525,811	187,614,577
1864.	204,128,236	11,731,902	2,265,622	218,125,760
1865.	212,208,301	10,410,837	2,123,281	224,742,419
1866.	284,033,567	13,001,588	9,578,029	306,613,184,

Under the head of dutiable, in the above tables is given both the amount entered directly for consumption and that entered for warehousing, to show the total of duty-paying goods landed at the port. The relative receipts of free goods are each year decreasing—nearly all of the imports now being chargeable with duty.

We have already published the usual comparative statement showing the imports of Dry Goods at this port for a series of years, and have also given from week to week the value of the imports of General Merchandise, all of which are included in the returns given in the following tables; but it may be convenient for reference to divide the entire amounts, giving the imports of dry goods, general merchandise and specie separately, which will interest those engaged in different branches of trade. The following is a

CLASSIFICATION OF IMPORTS AT NEW YORK.

	1864.	1865.	1866.
Dry goods..	$71,589,752	$91,965,138	$126,222,855
Gen'l mdse.	144,270,386	130,654,000	170,812,300
Specie.	2,265,622	2,123,281	9,578,029
Tot. imp'ts	$218,125,760	224,742,419	306,613,184

The exports of merchandise are reckoned at their market price in currency, while the exports of specie are mostly given at their coined or tale value. Before giving the monthly details we present a quarterly statement, giving the total shipments of the year, exclusive of specie:

EXPORTS FROM NEW YORK TO FOREIGN PORTS EXCLUSIVE OF SPECIE.

Quarter.	1864.	1865.	1866.
1st.....	$41,429,756	$46,710,118	$60,972,531
2d	48,446,686	24,216,567	46,766,886
3d	79,519,134	40,521,493	38,381,202
4th	52,426,966	67,178,421	46,209,435
Total....	$221,822,542	$178,626,599	$192,329,554

It will be seen that the increase during the first two quarters of 1866 was a large part of it lost during the last two, and the entire gain on the year was less than fifteen millions in currency, against an increase in imports of over eighty millions in gold value.

The receipts for customs have not increased in the same proportion as the total imports, for the reason that the duties are collected only on the goods thrown upon the market, and not on those which continue in Government warehouse, or are transferred to the interior in bond.

Foreign imports entered at New York during the years 1861, 1862, 1863, 1864, 1865, and 1866:

ENTERED FOR CONSUMPTION.

Newark and Paterson Railroad.

Since the stoppage of work on the above named railroad, a new Board of Directors has been elected, and it is confidently anticipated that the work will soon be re-commenced and prosecuted to completion. The new board consists of Mayor Peddie of Newark, President; Thos. W. Satterthwaitt of Franklin, Treasurer; Gasherie De Witt of Belleville, Col. Derrom of Paterson, and J. B. Thompson of Jersey City, directors. The suspension left the work in the following condition: Length of railway completed, 2 31-100 miles; length of road to be built, 10 43-100 miles; right of way arranged for, 3 94-100th miles; right of way to be purchased, 8 80-100 miles. The new Board state that a bona fide subscription of $200,000 is necessary to secure the continued progress of the work. The entire cost is estimated at $712,145.

New Castle and Beaver Valley Railroad.

On Monday, 14th ult., the stockholders of this company elected the following directors to serve for the ensuing year: President, A. L. Crawford, of New Castle. Directors, G. W. Cass, of Pittsburg; R. W. Cunningham, Wm. Patterson, of New Castle; John M. Crawford, of Philadelphia; Wm. M. Scott, of Erie; Wm. Harbaugh, of Pittsburg. Treasurer, James A. Crawford, of New Castle. Secretary, J. W. Blanchard, of New Castle. It was resolved to increase the capital stock of the company $100,000, as authorized by an act of Assembly.

☞ A movement is in progress at Portland to secure a charter for a railroad from that city west to Dalton, N. H., which will open a new route by way of Montpelier and Ogdensburgh, for the Western flour and grain trade. The building of eighty miles of railroad will effect the connection and bring to Portland and the tide-water much business which now goes to Boston.

☞ The annual meeting of the stockholders of the Reno, Oil Creek, and Pithole Railroads, was held at their office in Reno, on the 14th ult. A new board of directors was chosen, and Mr. Charles F. Hartwell, well known by his connection with the Reno Oil and Land Company, was chosen president of the company.

☞ A bill has passed the Virginia House of Delegates to increase the capital stock of the Fredericksburgh and Gordonsville railroad in the sum of $1,000,000, to borrow the same at a rate of interest not exceeding ten per cent., to construct and extend the road from Orange Court-house to Charlottesville.

☞ The Troy *Whig* states that surveys for the proposed new Hudson River, or West Side Railroad, running from Albany to Hoboken, are nearly completed, and arrangements are being perfected for commencing the work as soon as the frost is out of the ground.

☞ The Worcester and Nashua Railroad Co. are considering the expediency of extending their road to Great Falls, N.H., thus forming a new and shorter route from Portland to New York.

☞ A western paper says that the New Orleans, Mobile and Chicago Railroad is surveyed and under contract to be completed and put in running order within fourteen months.

American Railroad Journal.

Saturday, February 2, 1867.

Stock Exchange and Money Market.

The week has been an excited one in Wall street, but comparatively tame elsewhere. The bank managers, early in the week, were surprised by the sudden explosion of one or two notorious stock speculators, which resulted in the failure of a number of interested and theretofore respectable commission firms. One of the bankrupt concerns overdrew its account quite heavily at the National Bank of North America, the exposure of which fact added largely to the prevailing alarm and distrust. The President of the Bank, thus cheated, partly through his too confiding disposition, died very suddenly, of apoplexy. Most of the local banks, made unusually cautious by these events, resorted to the extreme remedy for their own improvident inflation, of summarily calling in temporary loans on miscellaneous stock collaterals. This action wholly unsettled railway and other share values, bringing all unprovided speculative holders into the market as involuntary sellers, forcing down prices with extraordinary rapidity, and crippling several brokerage houses. The consequence was a decidedly panicky business, on a close, and unusually exacting, money market. Even the best houses in the Stock Exchange line found much difficulty in negotiating for aid, and could get little, if any, assistance at less than seven per cent., with wide margins on miscellaneous collaterals. The panic culminated on Tuesday morning, when the lowest figures of the week, and of the past year, were touched by many of the speculative favorites of the Stock list, under the very rigid discrimination against the Stock brokers, at bank, and in private channels, in the negotiation of loans. Tuesday afternoon and Wednesday witnessed some relaxation in the call loan market. Stock houses, in respectable standing, met with more liberality on the part of lenders, and the price of temporary accommodation tended in favor of responsible borrowers. The ruling figure was 7, with exceptional transactions reported, at 6 per cent. Notwithstanding the monetary troubles of the Stock firms, the supply of money was on the increase. There was an influx of currency from the West, and a falling off in the demand from the South. The dealers in the national securities were freely accommodated, early in the week, at 6 and subsequently at 5, and even 4 per cent. On Wednesday, large balances were placed under their control at the minimum rate of 4 per cent., pending the restoration of confidence at the Stock boards. In the discount market, the reports were of moderate offerings of prime short date commercial paper, and the prevalence of a fair inquiry for such at 7@8 per cent per annum. Though the city banks, during the week, contracted their loans nearly three and a half million dollars ($3,357,420), they gained $648,800 in specie, and $187,173 in legal tender reserve, issuing at the same time an addition of $102,270 to their circulation, chiefly in the form of bills of the smaller denomination. They lost $3,248,039 of their deposits, because of the very urgent needs of their depositors, resulting from the suddenness with which the banks contracted their loans, on the first symptoms of the bursting of the speculative bubbles, which the banks themselves had done so much to foster. The specie reserve of the banks is now $16,014,007, against $13,106,759, same time last year. The city bank deposits are now $197,952,076, against $228,184,370 week ending Oct. 6, 1866, and $195,012,454 week ending Jan. 27, 1866. The legal tender reserve amounts to $63,142,559, against $70,319,146 same time last year. The circulation now stands at $32,957,198, against $20,965,883 same time last year. The loans are now $251,674,803, against $279,155,790 nine weeks ago, and $240,407,836 at this date last year. The Bank Exchanges at the Clearing House, through the past week, averaged $94,803,800 a day, against a daily average of only $86,673,338 the preceding week; and $108,522,010 the week ending with Jan. 12. The current week's exchanges average about $90,815,000 a day.

The main changes in the Philadelphia Bank footings, last week, were as follows: Decrease of loans, $1,289,834; decrease of legal tender reserve, $84,728; decrease of deposits, $1,046,866, decrease of specie, $3,273; and increase of circulation, $3,088.

National Bank notes to the amount of $104,275 were issued last week, making the total issue to 1,663 banks thus far $300,907,896, against $282,555,440 at the close of the last fiscal year, June 30, 1866. From the total issue is to be deducted

the currency returned, including worn out notes, amounting to $2,158,932, leaving, with the existing 1,650 banks, an actual circulation at this date, of $298,748,964. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $340,514,000; and for the public deposits, $38,761,450—making a total of $379,275,450. The Treasury Department, last week, redeemed and destroyed $268,000 of worn and mutilated fractional currency, and issued $435,000 worth of new.

The U. S. Sub-Treasury receipts, week ending with Jan. 26, were $12,364,322, including $2,399,315 from customs duties; payments, $8,601,270; balance at the close of the week, $108,586,411, against $104,823,360 at the close of the preceding week. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $3,143,663, and payments, $4,852,268; on Tuesday, receipts, $2,723,826; payments, $1,411,990. The balance at the close of business on Tuesday stood at $108,159,242, against $104,319,204 a week previous. The balance to the credit of the Government at the United States Sub-Treasury, Boston, on the 26th inst., was $11,136,717, including $8,956,313 in coin.

Government revenues are again on the increase, though the mails are still delayed by difficulties in the way of transportation, in consequence of the recent adverse weather, thus retarding the delivery of reports of receipts from all sources, at the Treasury Department. The excises, last week, yielded about $3,400,766, against $2,260,790 the preceding week; customs at the port of New York, $2,399,315, and at the outports, about $800,000 (in coin) more, making the grand total income for the week equal about $7,720,000 in currency, against disbursements of $4,970,386 on account of the three leading executive departments. The total receipts of the National Treasury, from excises, since July 1, 1866, have been about $184,000,000. The officially reported customs revenue of the Government through all the ports of the Country, week ending Jan. 19, was $3,061,313, or only about $51,000 more than the estimate published by us a week in advance of the official report.

The gold speculation was remarkably uniform, during the better part of the week. The fluctuations were less than one per cent., and within the extremes of 134 and 135. The market was not disturbed by the troubles in the Stock line, or by any sensational reports. The speculative demand was very moderate, and the legitimate inquiry mainly for coin for custom house purposes. The export call was limited. On Tuesday evening, it was reported that the Senate Finance Committee had decided to report in favor of rejecting the Gold (Sale) Bill, and of leaving Secretary McCulloch free to act, under existing laws, in his efforts to advance the public credit, by the reduction of the floating obligations of the Government, and the funding of the maturing claims against the Treasury. The *short* interest in the Gold Room were frightened by this intelligence into the covering of the extensive contracts which they had put out against the market, in the anticipation that the Secretary would be compelled to make early public sales of coin, and thus forced to side with the *bear* operators, in their legitimate efforts to depress the price. Hence, on Wednesday, there was a sudden rise of nearly two per cent. from the opening rate, followed by almost as sudden a decline to 134¾. Part of the advance was ascribed to the influence of a vague report of an over-issue of National bonds, and of the advices of a warlike nature from Europe. The latest dealings on Wednesday were at 134⅞. The total imports of specie from Europe, and other foreign ports since Jan. 1, 1867, have been $123,388. The customs demand for Gold last week, averaged $399,934 a day; thus far, this week, it has been equal to $402,939 a day, or equal to a weekly aggregate of $2,417,634. The arrivals of specie from Europe, Havana and other foreign ports, during the past week reached $31,615, and from California, none. The total customs revenue of the Government, in coin, at this port since July 1, 1866, has been $70,421,505, against $76,141,630 same time in the preceding fiscal year. The total receipts of California gold at this port since July 1, 1866, have been $26,559,258, against $13,591,146 same time last year, showing an increase this year, of $12,968,112. The exports of specie from this port, last week, were $676,169. The total outflow of specie from the port, thus far in the current fiscal year has been $19,313,481, against $14,593,047 same time in the preceding year. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $418,000, making the total coin interest disbursements through the Government office, since July 1, 1866, $32,854,463, against $28,781,667 for the same time in the preceding fiscal year. The specie exports from San Francisco from Jan. 1, to Dec. 19, reached $43,669,752, against $44,293,327 same time in 1865.

Foreign exchange has been further depressed by the increased offerings of bills, and the absence of a demand sufficient to absorb them. Some bills have been made against the shipments of U. S. 5-20 bonds to Europe, whence orders are again being received in considerable numbers, partly by telegraph. Bankers' 60 day bills on London closed on Wednesday at 108⅝@108⅛, and on Paris to 5.20@5.16¼; sight bills on London to 109⅜@109⅞; and on Paris to 5.13¾@5.12½. The offerings of produce bills have been moderate since our last. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $3,210,976, making the total value of exports since July 1, 1866, $95,514,944, against $124,283,142 same time in the preceding fiscal year.

Government securities have been in high favor all through the week, with investment buyers, and prices have been well supported, on a more than usually active counter trade, both in the gold bearing bonds and in the Seven-thirty-notes. The chief demand was for the Five-twenty bonds and the Seven-thirties. Some considerable foreign purchase of the Five-twenties of 1862 were made on Tuesday and Wednesday. The later telegraphic advices from Europe indicate a much more satisfactory market for American securities with a better inquiry at buoyant prices. The Five-twenties of 1862, like those of 1864 and the earlier issue of 1865, have now a quarter of a year's coin interest accrued on them, worth, with gold at 134½, nearly 2⅛ per cent., which would make the net cost to the purchaser of the bonds of 1862 about 105¼, and of the bonds of the 1865 first issue about 103½, prices which capitalists consider more than usually tempting, particularly in view of the prevailing distrust of other stock values. On Wednesday, a report of an over-issue of two three million of bonds was circulated, but it was not credited, and was not deemed of any importance. Hence it failed of the effect, which which it was doubtless wantonly intended to produce, the depression of the market for the public funds, which left off buoyantly. U. S. sixes of 1867 closed here on Wednesday at 128½; U. S. sixes of 1868, at 128; U. S. sixes of 1881, 107⅝@107⅞; U. S. Five-twenties of 1862 at 107¾@108; U. S. Five-twenties of 1865 at 105⅞@106⅛; U. S. Five-twenties of 1865, consolidated, 104⅛@104¼; U. S. Ten-forties at 99⅝@99⅞, and U. S. Seven-thirties at 104⅜@104⅝. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ¼@½ of 1 per cent. on these figures:

June, 1864	116⅞	May, 1865	111¾
July, 1864	116⅜	August, 1865	110¾
August, 1864	115⅞	September, 1865	110½
October, 1864	114⅞	October, 1865	110¼
December, 1864	113⅞		

The contest between the *bull* and *bear* interests at the Stock Boards, referred to in our last, terminated in a wholly unexpected, and unexpectedly decisive, victory for the operators against the market. The sudden contraction of bank loans on stock collaterals, the exaction of extreme margins on even substantial property, and the exclusion of the more purely speculative shares from favor at bank counters, led to some sweeping realizations on a rapidly declining market, the failure of several commission houses, and the awakening of a feeling of unaccountable anxiety and distrust in stock circles. The market rallied fitfully toward the close, on increased purchases for investment, largely by or for account of cash buyers, and symptoms of a revival of confidence began to manifest themselves.

Very little improvement can be noticed in general business. There has been rather more animation in the leading kinds of domestic produce, but in most instances, at a lower range of prices, the main exception having been cotton, which closed buoyantly on the basis of 34@35½ for middling grades, under rather more favorable foreign advices. The stock of cotton now here is estimated at about 175,000 bales. The receipts at the port this week, have averaged 4,150 bales a day. The receipts since the commencement of the current cotton year, Sept. 1, have been 220,500 bales, against exports of 154,232 bales. The receipts at all the shipping ports from September 1, to latest mail dates have been 968,000 bales against 1,097,000 bales same time last year; exports, 437,000 bales, against 559,000 bales same time last year, estimated stock at latest dates, 550,000 bales, against 497,000 bales same time last year. In foreign merchandise, the business of the week has been extremely light, especially in the dry goods line, in which an increase of supplies, and much irregularity in values are reported. The total imports of foreign dry goods, last week, were $2,520,061, and the total amount marketed $2,432,252. The value of foreign merchandise imported last week, was $1,143,909—making the grand total specie value of last week's imports of dry goods and merchandise, $3,663,970,

and since July 1, 1866, $145,888,549, against $160,031,697 same time in the preceding fiscal year. The ocean freight market has been more active and very firm, with 510 vessels of all classes in port. For Liverpool we quote flour at 1s. 9d. @2s. per bbl.; grain at 6½@7½d. per bushel; cotton at ¼@5.16d. per lb.; and heavy goods at 15s.@25s. per ton, all by sailing vessel.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Jan. 16.	Jan. 23.	Jan. 30.
Consols	—91⅛	90½	90¾
U. S. 5-20's of 1862	—72⅞	72⅝	73½
U.S. 5-20's of 1865	—71⅞	71¾	72⅞
Erie	—45	43¾	44⅞
Ill. Central	—81¼	81	82½

The New York exports, exclusive of specie, for the week ending Jan. 29, and since the beginning of the year, compare as follows:

	1866.	1867.
For the week	$3,449,470	$3,210,976
Prev. reported	13,955,536	10,697,573
Since January 1	$17,405,006	$13,908,549

The New York imports for the week compare as follows:

	1866.	1867.
Dry goods	$2,588,313	$2,520,061
Gen. merchandise	2,041,310	1,143,909
Total for the week	$4,629,628	$3,663,970
Previously reported	13,317,871	$11,291,547
Since January 1	$17,947,499	$14,955,517

The commerce of New York from July 1st to date compare as follows:

	1865–'66.	1866–'67.
Imports merchandise	$160,031,697	$145,888,549
Exports produce	124,283,142	95,514,944
Exports specie	14,623,160	19,276,481

The balance in the Sub-Treasury on Wednesday was $103,342,122 90.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Warren and Franklin Railroad.

This road is 52 miles in length, commencing at Irvineton, a point on the Philadelphia and Erie Railroad, 6 miles west of Warren, and running thence *via* Tidioute, Tionesta and Oleopolis, to Oil City; here a connection is made with the Atlantic and Great Western Branch to Meadville, and a road extending up Oil Creek and Cherry Run. The road was opened on the 4th of August, 1866, and up to the 31st of December, a little less than five months, 65,000 passengers passed over it. The time occupied from the commencement of the survey to the completion and opening of the road for business, was nine months. The road is controlled by a few parties connected with the railroad enterprises of the State. The Managers are: Edward F. Gay, President; Wm. G. Moorhead, C. B. Wright, Milton Courtright, Edw. Miller, C. P. B. Jeffries and R. D. Barclay. Superintendent, Isaac Blakslee.

Railroad Earnings.--Weekly.

The earnings of the Grand Trunk Railway of Canada for the week ending Jan. 19th, 1867, were $108,918 00
Corresponding week of previous year.. 102,242 00

Increase..... $6,676 00

The earnings of the Chicago and Rock Island Railroad for the 3d week in Jan., 1867, were..... $67,211 00
Corresponding week of previous year.. 66,052 00

Increase..... $1,159 00

The earnings of the Marietta and Cincinnati Railroad the 3d week in Jan., 1867,... $17,418 00
Corresponding week previous year.... 20,386 00

Decrease..... $2,968 00

The earnings of the Michigan Southern and Northern Indiana Road for the 3d week in Jan., 1867, were..... $66,831 00
Corresponding week of 1866 ..... 54,289 00

Increase..... $12,542 00

The earnings of the Chicago and Northwestern Railway for the third week in Jan., 1867, were..... $149,212 83
Corresponding week of previous year,. 128,048 77

Increase..... $21,164 06

The earnings of the Western Union Railroad for the week ending Jan. 21, 1867 . .. $8,819 12
Corresponding week previous year.... 9,511 71

Increase..... $692 59

The earnings of the Michigan Central Railroad for the 3d week in Jan., 1867, were.... $64,586 32
Corresponding week of previous year.. 56,509 18

Increase..... $8,077 14

The earnings of the Detroit and Milwaukee Railroad for the week ending Jan. 24th, 1867, were..... $19,264 00
Corresponding week of 1866..... 20,845 00

Decrease..... $1,584 00

Liability of Ferry Companies for Injuries to Passengers.

The case of Short *vs.* Knap, just decided by the Court of Common Pleas of this City, involves an important question as to the liability of ferry companies for negligence, and will be found of equal interest to the public and common carriers generally. The opinion (in which Judges Daly and Cardozo concurred) was delivered by

Brady, J.--The plaintiffs' horses with carriage attached were led by one of the plaintiffs, who was acting as driver of the team, on board of the defendant's ferry boat, at the foot of Twenty-third street and the East River. There was no light at the ferry gate or upon the boat. It was about 5.30 in the morning and very dark. The deck of the boat was slippery although the driver who led the horses as stated did not notice that fact when he so led them on board. There were some persons in the coach, one of whom called to the driver, who went to the door of the coach to see what he wanted. While talking to him the whistle of the boat blew and the horses started. The driver told them to stop, and they did so. They were not frightened. The whistle blew again, and the boat moving caused the horses to start again. The driver hurried to them, to stop them, and did all that he could do, but could not stop them because the deck was slippery. When they started they turned round and went overboard, and one of them was drowned. There was a chain at the end of the boat which sagged at the centre, and was not more than twelve inches high at that point, which was not sufficiently elevated to stop the horses, but did stop the carriage. The driver, at the time the horses started, was talking to his passengers, having one foot on the step of the carriage and one foot inside, and was apparently guilty of negligence in thus leaving his horses; but he testified that in consequence of the movement made by the horses and the slippery condition of the deck of the ferry boat it would have been impossible for him to have stopped the horses whether he had been at their head or on his box; a fact which others, accustomed to manage horses also testified to, and corroborated his evidence on that subject. Several witnesses also testified in reference to the chain, its arrangement, its sagging in the centre, and its insufficiency for the purpose for which it was intended. The evidence given in behalf of the defendant made a conflict upon the various elements of the plaintiffs' case, as to the elevation of the chain, the ability of a person to stop the horses if standing at their heads, the position of the driver when the horses started, and the condition of the deck. Under the circumstances disclosed the plaintiffs' right to recover depended upon the absence of any negligence on their part which contributed to the injury sustained. The jury were so instructed. If the driver had been upon his box or standing at the heads of his horses, there could be no doubt about the right of the plaintiffs to recover, inasmuch as the horses were shown to be gentle and reliable—obedient to command and not inclined to run away; and there was proof establishing the fact that the guards used by the defendant in his boat were not sufficient for the purpose intended—that there was no place to tie the horses, and no proof that any person was employed on board of the boat who was charged with the care or custody of these or any other horses. Assuming this conclusion to be correct in principle, it follows that if the driver, being on his box or at the heads of his horses, could not have arrested them, his absence from both the places designated was not, *per se*, evidence of negligence contributing to the injury suffered.

The facts and circumstances were considered and passed upon, and if the jury thought the plaintiffs guilty of negligence, they could not recover. For these reasons the justice did not err in refusing to dismiss the complaint. It does not follow because the plaintiffs may have been guilty of negligence that they cannot recover. The negligence must in some degree contribute to the injury, and unless it does it cannot effect the right to indemnity. Haley *vs.* Earles, 30 New York, Rep., 208. Although the liability of a common carrier of animals is not in all respects the same as that of a carrier of inanimate property, and although he is not an insurer against injuries arising from the nature and propensities of animals, yet if diligence and care can prevent them he is bound to the exercise of such diligence and care. Clarke *vs.* The Rochester and Syracuse Railroad Company, 14 N. Y., Rep., (4 Ker.) 570.

It is the duty of a ferry company "to have all suitable and requisite accommodations for the entering upon, the safe transportation while on board, and the departure from the boat of all horses and vehicles passing over such ferry." They are also required "to be provided with all proper and suitable guards and barriers in the boat for the security of the property thus carried, and to prevent damage from such casualties as it would naturally be exposed to though there was ordinary care on the part of the traveler." Per Dewey J., in White *vs.* The Winnisummet Co. 7, Cushing 157. Accepting this statement of the duties devolving upon ferry companies as a concise and ample exposition of them in reference to the subject under consideration, and more particularly since the case from which it is extracted was cited by the defendants' counsel, it is established by the verdict of the jury that the defendants' boat had not suitable guards and barriers to prevent damages from such casualties as the plaintiffs' property would naturally be exposed to. It is true that the plaintiff did not recover in the case just referred to, but it was for the reason that he had contributed to his injuries by his own negligence. The opposite finding on conflicting evidence sustains the judgment in this case, the jury having been instructed by the justice, not only in relation to the plaintiffs' negligence, but also that the defendants were not liable unless the damages sustained by the plaintiffs were occasioned by the defendants' negligence. Upon an examination of the case, in reference to the propriety of the verdict, we cannot say that it was not just. It appears clearly that the plaintiffs horses were frightened by the act of the defendant's servant who blew the whistle, and that defendant was therefore the original impelling cause of the accident. Whether the use of the whistle did not impose additional caution on behalf of the defendant is a question upon which we are not called upon to express an opinion, but if such use of it is necessary in conducting the business of the ferry or the navigation of its boats, it would seem from the events which this case has proven, to call upon the defendant to employ ampler means for the security of passengers and animals than those adopted. We cannot interfere with this judgment. The evidence admitted under the defendant's objection bore directly upon the question of negligence, and was pertinent and proper, and the jury were properly instructed upon the legal rules by which their deliberations were to be governed.

The judgment should be affirmed.

Nebraska Territory.

From the report of the Acting Governor of Nebraska to the Territorial Legislature, which convened on the 10th ult, we learn that the finances of the Territory are in excellent condition. From cash in treasury, taxes due and collectable, &c., the Territory has of undoubted assets, $147,281 66. Its indebtedness is $85,471 44, leaving an available surplus of $61,810 22. The taxable wealth of the property is valued at near eighteen millions of dollars, which, at a levy of four mills on the dollar, would produce enough to carry on the Government. The Governor complains of the issues of land scrip and certain reservations of lands for railroads. He thinks that laws should be passed, first, prohibiting any further issuing of warrants or land scrip, for any purpose whatever except for the usual endowments to new States or for internal improvements in the States and Territories where the lands are located. Second, forbidding the location of land warrants or agricultural college scrip on a greater amount than two sections in each township. And, third, withdrawing the Government lands from public sale, and reserving all, except those donated, exclusively for location under the Homestead and Preemption Laws. He says that Railroad reservations keep out of market for too great a length of time and detrimentally to the interests of actual settlers, large bodies of valuable land, thereby retarding the progress of the country. He believes that if the Union Pacific Railroad, the rapid construction of which has excited the wonder and admiration of the world, could now be induced to exchange the lands obtained under its grants for the bonds of the Government, at a fair price, the whole country would be benefited by the transaction; provided that every acre thus regained by the Government should be held exclusively for location under a homstead law, which should require every settler to cultivate at least twenty acres of timber on his homestead, the preservation of which for five years should be one of the essential conditions of obtaining the fee-simple of his land. During the past year the construction of the Union Pacific Railroad has progressed with unparalleled rapidity. A year ago the utmost limit it was supposed the track would reach on the 1st of January 1867, was Fort Kearny, 190 miles west of Omaha. That point was reached on the 1st of September, and now four regular trains run daily between Omaha and North Platte Station—a distance of 303¼ miles from the initial point; and the track is complete to the 305th mile-post. The

total number of miles of main track laid during the past year is 262 miles. A distance of about 240 miles of roadway was constructed the past season, including a Howe Truss bridge, 1,505 feet in length, across the Loupe Fork, and a pile bridge of 2,640 feet across the North Fork of the Platte. Three hundred and five miles of the main line have been accepted by the Government Commissioners, who have reported it as thoroughly constructed and equipped, with all necessary turnouts, buildings rolling stock, &c., of a first class road. Beyond the end of the track the railway is graded twenty-five miles, under contract for grading to Julesburg, and definitely located to the foot of the mountains.

Land Sales of Minnesota.

The St. Paul *Press* gives the following statement of land sales in Minnesota during the past year: For cash, 54,188 acres; military bounty land warrants, 68,998 acres; Agricultural College scrip, 226,304 acres; under Homestead law, 384,339 acres; total number of acres sold, 731,634. The returns under the homestead law indicate an accession to the population of the state of some 3,000 families. Since 1847, 10,216,713 acres have been sold in Minnesota by the government to private parties. This is about one fifth of the entire area of the state, about one-third of the area already surveyed. The railroad grants amount to 7,000,000 acres; the school lands to 3,000,000; 1,500,000 acres are absorbed in Indian reservations; military reservations cover about 138,020 acres; 500,000 acres have been granted for internal improvements; some 680,000 acres are yet to be entered with college scrip; there is a swamp land grant of "unknown dimensions." In all, more than 23,000,000 acres have passed out of the hands of the government, and the public domain in Minnesota, comprises, at the present time, 30,550,000 acres. The large entries with Agricultural College Scrip is regarded as an alarming feature of the exhibit. The land is bought by non-resident speculators. The *Press* says:

"The people of our Minnesota frontier, especially in the northern part of the state, where the evil is most severely felt, are unanimous in the demand that the Agricultural College law, which virtually consigns a million acres of our soil to solitude and desolation, shall be modified so as to prevent this diversion of the public domain from settlement. The northern portion of this state, especially east of the Mississippi, where the range of land speculation had full course from the enactment of the Homestead law, is now blasted, in all its length and breadth, with the curse of non-resident ownership, and cultivation and settlement are practically excluded from the larger part of the country east of the Mississippi, by the vicious system which threw vast tracts into the hands of speculators. Our people have learned, therefore, by sad experience, to look upon this college scrip as an unmixed local calamity."

Shamokin Coal Trade.

The Shamokin *Herald*, after noticing the continued dullness of the coal trade in the entire coal regions, and especially in the Shamokin Basin, says:

The Enterprise Railroad is being pushed rapidly, and is now completed within a mile and a half of Big Mountain. This will greatly increase and develope the business of our operations. Besides, it is confidently anticipated that the Northern Central Railway Company will, dusing the year form a junction with the Quakake Road at Mt. Carmel. This will not only send freight and passengers from New York to Lake Erie through Shamokin, but will give us a direct outlet to the New York markets for our coal. The competition thus raised between those roads and the Reading must certainly result to our advantage.

The statistics for the year 1866 show an increase of almost 100,000 tons over that of 1865. This has been accomplished in face of the great depression that has directly affected business for more than three months of the year. Had prices and demand remained as good as they were in the beginning of the year, our increase would have reached 150,000 tons. As it is the improvement is such as to prove the steady growth in the business, wealth, and resources of the place, and give us new hopes for the future.

Interest and Dividends.

The New York Central Railroad Company has declared a dividend of three per cent., free of government tax, payable February 20.

The Ogdensburg and Lake Champlain Railroad Company has declared a dividend of three per cent., payable February 1.

The Northern Central Railroad Company has declared a quarterly dividend of 2 per cent., clear of National and State taxes, payable 26th February.

The Dubuque and Sioux City Railroad Company have declared a scrip dividend of seven per cent (less goevrnment tax) on the preferred stock, out of the earnings of the road for 1866, payable at the office of Messrs. M. K. Jesup & Co., No. 84 Broadway, on the 1st of March next.

St. Croix and Lake Superior R. R.

This company has issued a circular in London inviting subscriptions for £1,300,000 First Mortgage Sinking Fund Land Grant Bonds, bearing 7 per cent interest, for the completion of the road from Hudson on the border of Minnesota, through Wisconsin to Bayfield, on Lake Superior. It has a grant of 1,504,000 acres of land and is described as constituting the shortest land carriage between the navigable waters of the upper Mississippi and the Lakes. The London *Railway News*, from which the above is obtained says:

Any person who examines the map of the Northwestern States of America will perceive at once how valuable and important such a line is likely to become in connection with the rapidly-extending trade of the country through which the line runs. The enormous mineral deposits on the Canadian and American shores of Lake Superior were fully described in one of the letters of our Special Correspondent last autumn; and in the developement of this and other branches of industry the proposed railway will certainly find ample and remunerative employment. The Congress of the United States has acted with respect to this line in a manner similar to that which was adopted in the case of the Illinois Central, and has given a grant of land for every mile of road; only in the case of the St. Croix and Lake Superior line, the land grant equals ten square miles, while in the case of the Illinois line it was six square miles for every mile of road built. Our readers are fully aware of the result of the working of the system in the case of the Illinois line, and there is no reason to suppose that the well-timbered and excellent farming land in this case will be less valuable than the open prairie lands of Illinois. The Legislature of Wisconsin, desirous of still further aiding in the completion of the work, has released the lands now granted them from all State taxation for a period of ten years. The lands are covered to a great extent with the valuable white pine timber, and the portions cleared and cultivated already yield twenty bushels of wheat per acre. The bonds of the present issue will be received at par in payment for the land at the scale of prices fixed by the company. With the view of securing efficient control over the expenditure of the money to be raised by these bonds, three gentlemen, well known in commercial circles at New York, viz., Messrs. Swift, Tilden, and Green, have been appointed trustees for the bondholders, and all moneys received for these bonds will be paid to and expended by them, upon satisfactory vouchers for work done or materials furnished in the construction and equipment of the road. The bonds are of £200 sterling, and the price of issue is fixed at £125, principal and interest being payable at the City Bank in London. All the cash receipts from the sale of land are to be applied to form a sinking fund in liquidation of the principal and interest of the debt until a sufficient amount is absolutely in the hands of the trustees to provide for the entire mortgage debt. The board of trustees is in every respect entitled to confidence, and as an investment, yielding 11 per cent, the project deserves support in this country.

Tuscarawas Branch Railroad.

This road is 32 miles in length, commencing at Byard, a point on the Cleveland and Pittsburg Railroad, 69 miles from Cleveland, and running thence to New Philadelphia, in Tuscarawas Co. The question of the extension of this road is now being agitated, not only by "outsiders," but also by the stockholders. The Tuscarawas *Advocate* says: "The day is not distant when the company will find its interests materially advanced by the extension. The question to be considered is, after leaving New Philadelphia, the present terminus, where should the road connect with the Pittsburg, Columbus and Cincinnati road? Manifestly the interests of the Cleveland and Pittsburg Company demand that the connection should be made as far south as practicable. A very good route would be, to cross the Tuscarawas River at New Philadelphia, thence up the valley of Oldtown, and down Buckhorn Creek to New Comerstown. This route would open up the richest coal fields of Tuscarawas County. The cost of construction would be comparatively light, as there would be but one heavy grade on the route. It would make a line of road nearly sixty miles in length, and open up a business that would richly pay the company for the cost of construction."

Lawrence Railroad.

An election for directors of this company was held in Newcastle, Penna., on the 14th ult., and resulted in the choice of the following gentlemen: Wm. McCreery, Wm. Harbaugh, and Gen. G. W. Cass, of Pittsburg; Wm. Larvill and Kent Jarvis, of Wooster, O.; J. N. McCulloch, of Wellsville; C. B. Wick, Jr., of Youngstown. The work on this road, notwithstanding the extreme cold weather, has been pushed forward with energy, and it was expected that the last rail would be laid, the connection formed, and trains passing over the road by the 1st inst. It is stated that arrangements have been made to run two through express trains daily, each way, between Cleveland and Pittsburg. An excursion train from Pittsburg passed over the road from Newcastle to Youngstown on the 22d ult.

New Castle and Franklin Railroad.

The following gentlemen were elected officers and directors of the above road, on the 14th ult.: President, Robert W. Cunningham, of New Castle; Vice President, G. W. Clingan; Directors, James C. Shaw, of Neshannock Falls; Hon. William Stewart; A. G. Egbert, of Mercer County; General G. W. Cass, Samuel M. Kier, of Pittsburg; A. L. Crawford, David M. Courtney, of Lawrence County. The New Castle *Journal* says: The entire board consists of men who have sufficient capital to push the work through to completion; how-

ever, we are informed that one hundred thousand dollars of stock has been subscribed.

Finances of the State of New York.

The following abstract of the Report of the Comptroller, presented to the Legislature in January, exhibits the financial operations of the State for the past fiscal year, embracing its debt, revenues, receipts and expenditures, and the condition of the Trust Funds under its care and management. From this we learn that the aggregate debt of the State on the 30th of September, 1865 and 1866, was as follows:

	1865.	1866.
General Fund debt	$6,050,954 37	$5,642,622 22
Contingent	224,000 00	218,000 00
Canal	19,597,395 49	18,248,460 00
Bounty	23,989,000 00	27,644,000 00
Total	$49,861,349 86	$51,753,082 22

GENERAL FUND DEBT.

That portion of the State indebtedness known as the General Fund Debt, included the following items:

Astor stock, chap. 302, Laws of 1827, and 86 of Laws of 1832	$561,500 00
Deficiency loans, under chap. 216, Laws of 1848	4,880,848 82
Comptroller's bonds	71,578 55
Indian annuities	122,694 87
Not paying interest	6,000 09
	$5,642,622 22
On the 30th Sept., 1865, the debt was	6,050,954 37
Reduction during the year	$408,332 15

The reduction is made up of the Comptroller's bonds, issued for the purpose stated below:

5 per cent., issued for loans from the railroad sinking funds in 1844	$3,367 00
5½ per cent., issued in 1842, for a loan to the Treasury	11,000 00
Six per cent., issued in 1846, for loans from the railroad sinking funds	3,965 15
Six per cent., issued under chapter 225, Laws of 1849, to pay the claims of the canal fund upon the general fund, redeemable July 1, 1866	385,000 00
New York and Erie Railroad Co. State stock, redeemable in 1861 and 1862, 6 per cent.	5,000 00
	$408,332 15

The principal of the debt is payable as follows:

On demand	$35,578 53	1875	900,000 00
1868	942,961 05	1878	800,000 00
1870	700,000 00	At pleasure	2,258,082 64

Paying interest	$5,636,622 22
Not paying interest	6,000 00
Total debt	$5,642,622 22

GENERAL FUND DEBT SINKING FUND.

The receipts and disbursements on account of this fund for the year ending September 30, 1866, were as follows:

Balance in the Treasury September 30, 1865		$159,120 12
Received from the canal revenues		782,961 04
Transferred from general fund for interest		27,883 23
		$969,964 39
Redemption of State stock and Comptroller's bonds	$408,332 15	
Interest on general fund debt	337,145 05	
Indian annuities	7,360 14	
		752,837 34
Balance in the Treasury Sept, 30, '66		$217,127 05

BOUNTY DEBT.

The following statement gives a classification of the debt, according to the several forms of indebtedness by which it was represented at the close of the fiscal year:

Comptroller's revenue bonds not converted, issued under chapter 56, Laws of 1865	$3,358,500 00
Coupon bonds issued under chapter 325, Laws of 1865	2,559,000 00
Registered stock issued under chap. 209, Laws of 1866	21,726,500 00
Total	$27,644,000 00

The receipts and disbursements in money on account of the debt up to that date were as follows:

Paid—	
Advances to Paymaster-General	$4,484,000 00
Interest on bonds	2,029,018 52
Expenses	7,858 44
Total	$6,520,876 96
Received—	
Subscriptions to loan	$5,509,000 00
Advanced from general fund	1,011,876 96
Total	$6,520,876 96

BOUNTY DEBT SINKING FUND.

By the act, chapter 325, Laws of 1865, it was provided that the debt thereby authorized should not exceed the sum of $30,000,000, and that there should be imposed an annual tax sufficient to pay the interest and create a sinking fund adequate to pay the principal in 12 years from the date of the act. At that time the amount of the debt could not be anticipated with sufficient accuracy to allow of a correct estimate of the annual amount required; but at the last session of the Legislature, assuming that the debt would reach $28,000,000, a tax of 2⅛ mills was imposed and appropriated to that object, for the fiscal year commencing Oct. 1, 1866. On the valuations of 1865, this should produce $3,295,619 33. This sum was erroneously taken as the correct amount, on the supposition that the indebtedness was to be paid in 12 years from its issue, instead of 12 years from the passage of the act, which period will expire on the 17th of April, 1877. To pay the interest and provide for the principal of the debt at that time will require an annual contribution for the 10 years the debt has to run, counting from April, 1867, of $3,953,911 66, or over 2½ mills on the valuations of 1866. There will also be required the additional sum of $658,292 33, to make up for the deficiency of the appropriation of 1866, applicable to the payments to be made during the fiscal year ending Oct. 1, 1867. To realize these amounts it will therefore be necessary to impose a tax of 3 mills for the next fiscal year, for the objects here specified. It is proper to add in this connection that the calculation has been made on the assumption that the sinking fund moneys can be invested so as to yield 6 per cent. semi annually.

CONTINGENT FUND.

The contingent liabilities of the State, which on the 1st of February, 1842, amounted to $5,235,700, had been reduced on the 30th of Sept., 1866, to $218,000—showing a decrease of $5,017,700; of this amount, $3,665,700 had been assumed by the State as a portion of the General Fund Debt, in cases of insolvency, and the remainder, $1,352,000 had been paid by corporations.

CANAL DEBT.

The receipts on account of the canals during the year ending September 30, 1866, were:

From tolls		$1,248,931 17
" rent of surplus water		4,293 75
" interest on current revenues		38,249 73
" miscellaneous sources		18,271 47
Total		$1,309,746 12
Payments:		
To Commissioners for repairs	$255,265 20	
Contractors for do	685,446 80	
Superintendents for do	292,811 89	
Collectors for salaries, office expenses, etc	74,584 30	
Weighmasters	11,306 35	
Salaries chargeable to annual revenue, refunding tolls, printing, etc	53,121 98	
Overdraft on account of Champlain Canal locks, per act chap. 543, Laws of 1866	62,453 21	
		1,434,989 73
"Surplus revenues"		$2,874,756 39

—which have been transferred to the sinking fund under article 7, sections 1, 2 and 3 of the constitution.

By comparing the receipts with those of the preceding year, which were $3,577,465 45, it will be seen that there is a gain to the extent of $732,280 67.

The following is a statement of the Canal Debt, 30th Sept., 1866, showing each description of stock, the amount redeemable in each year, and the annual interest on the same:

When due.	7 per cent.	6 per cent.	5 per cent.	Total.
1837		$160		$160
1860			$10,000	10,000
1864	$2,000			2,000
1865		8,300		8,300
1866		43,300	18,400	61,400
Pays no interest	$2,000	$51,460	$28,400	$81,860
1868			$89,600	$89,600
1871			67,000	67,000
1872		$3,050,000		$3,050,000
1873		6,000,000		6,000,000
1874		2,250,000	4,500,000	6,750,000
1875		500,000		500,000
1877		900,000		900,000
Debt paying interest		$12,700,000	$5,466,600	$18,166,600
Debt not paying int'st	$2,000	51,460	28,400	81,860
Total debt	$2,000	$12,751,460	$5,495,000	$18,248,460
Annual interest	$140	$762,000	$273,330	$1,035,330

The following is a recapitulation of the foregoing statement of the Canal Debt paying interest on the 30th September, 1866:

Under article 7, section 1, of the Constitution	$4,899,600 00
Under article 7, section 3	11,567,000 00
Under article 7, section 12	1,700,000 00
	$18,166,600 00

The interest on the debt is about 5.7 per cent.

REVENUES.

Deficiency of the general fund revenue on the 30th September, 1865		$1,179,394 06
Amount of warrants drawn on the Treasury during the year ending September 30, 1866		8,854,290 59
Amount transferred to the following funds for interest on money in the Treasury, during the year, belonging to said funds, viz:		
School fund	$42,751 57	
Literature fund	5,128 02	
U. S. Deposit fund	3,804 62	
Long Island R. R. Co. sinking fund	241 48	
General fund debt sinking fund	27,888 23	
		79,808 92
Amount of warrants remaining unpaid on the 30th September, 1865		559 87
		$10,114,053 44
Amount of receipts into the Treasury during the year ending 30th September, 1866		$7,489,042 09
Transferred from the school fund for bonds for lands		597 52
Amount of warrants remaining unpaid on the 30th September, 1866		776 14
		$7,490,415 76
Deficiency of the revenue on the 30th September, 1866		$2,623,637 68

The revenues of the general fund are derived mainly from direct taxes, from duties on salt and auction, and from the sums set apart by the Constitution to be paid from the income of the canals. The total amount received from these sources for the fiscal year ending September 30, 1866, was $6,015,007 14, divided as follows:

Salt duties	$70,411 66
Auction duties	269,720 23
Taxes	5,674,875 25
	$6,015,007 14

The revenues of the canals being appropriated to certain specified objects which are entitled to priority of payment, the general fund can receive nothing from this source, until these prior claims are satisfied. For this reason the annual contribution of $200,000, under article seven, section three of the Constitution, was not paid for the last fiscal year, but the sum of $782,964 04 was paid into the General Fund Debt Sinking Fund, being deferred payments to the 30th of September, 1864, with interest to the 30th of September 1865, under article seven, section two.

The Superintendent of the Onondaga Salt Springs reports that the quantity of salt manufactured during the past fiscal year was 7,092,230 bushels. The revenue accruing therefrom was $71,003 30, and the expenditures $45,657 16, leaving the surplus revenues $25,346 14. The estimates for the next year amount to $50,000.

TAXATION.

The following estimate of the taxes required for the fiscal year, commencing October 1, 1867, is submitted with the remark that it includes only the rates necessary for objects recognized by existing laws. Should extraordinary appropriations be made, the tax for the General Fund will have to be proportionally increased:

For General Fund	1¾ mills.
For schools	¾ "
For canals	¼ "
Bounty loan	⅛ "
	3 "

RECEIPTS AND EXPENDITURES.

The receipts into the Treasury during the fiscal year ending on the 30th September, 1866, on account of all the funds except the Canal Fund, were $12,576,144 60. The payments on account of these various funds, during the fiscal year, were $13,651,102 36. Treasury overdrawn Sept. 30, 1866, $1,074,957 76. In the report from this office, submitted to the Legislature in January, 1866, the receipts on account of the General Fund Revenue, for the then current fiscal year, were estimated at $10,130,064 85. The expenses for the same year, including deficiency, $9,690,078 64. Estimated surplus Sept. 30, 1866, $439,986 21. The actual receipts, from all sources, were $7,490,415 76. The actual payments, including deficiency from the previous year, were $10,114,053 44. Actual deficiency Sept. 30, 1866, $2,623,637 68. The receipts on account of the General Fund revenue for the present fiscal year, ending Sept. 30, 1867, are estimated at the sum of $10,821,552 75. Estimated payments for the same year, including deficiency, $10,877,646 55. Estimated deficiency Sept. 30, 1867, $56,093 80.

STATE OF THE TREASURY.

Amount of warrants drawn on the Treasury on account of the several funds, during the year ending 30th September, 1866		$13,650,542 49
Amount of warrants remaining unpaid on the 30th Sept., 1865		559 87
		$13,651,102 36
Balance in the Treasury on the 30th September, 1865	$90,569 78	
Amount received into the Treasury on account of the several funds, during the year ending 30th September, 1866	12,484,798 68	
Amount of warrants remaining unpaid on the 30th Sept., 1866	776 14	
		12,576,144 60
Amount overdrawn on the 30th September, 1866		$1,074,957 76

STATEMENT OF BALANCES DUE FROM AND TO THE TREASURY ON THE 30TH SEPT., 1866, viz:

From the General Fund revenue		$2,623,637 68
From the U. S. deposit fund revenue		25,438 56
		$2,649,076 24
To the school fund, viz:		
Capital	$1,011,555 09	
Revenue	89,144 98	
		$1,100,700 07
To the literature fund, viz:		
Capital	$211,774 18	
Revenue	13,919 55	
		225,693 73
To the U. S. Deposit fund, viz:		
Capital		7,392 48
To the Mariner's fund, viz:		
Capital	$164 81	
Under protest	1,169 76	
		1,334 57
To the college land scrip fund, viz:		
Capital	$440 00	
Revenue	11,857 55	
		11,797 55
To the Long Island R. R. Co. sinking fund		8,304 32
To the soldiers' allotment fund		54 96
To the General Fund debt sinking fund		217,127 05
To the military record fund		1,713 75
		$1,574,118 48
To the Treasurer for amount overdrawn		1,074,957 76
		$2,649,076 24

It will be noticed from the foregoing statements, that the payments from the Treasury for all purposes, for the fiscal year ending Sept. 30, 1866 exceeded the receipts $1,074,957 76, and that there was a deficiency on that date in the revenues of the general fund of $2,623,637 68. This was caused by the delay in the payment of the taxes due from the City of New York, amounting to $2,435,903 09, or more than a third of the whole State taxes. Had they been paid before the close of the fiscal year, the Treasury, instead of being overdrawn, would have had a balance in its favor of $1,360,945 33, and the deficiency in the general fund revenues would have been reduced to $187,734 59. The deficiency just stated of $2,623,637 68, was made up of the sum for which the treasury was overdrawn, $1,074,957 76, and the item given in the statement of balances, due from the Treasury to the several funds mentioned, being $1,574,118 48, less $25,438 56, the deficiency in the United States Deposit Fund revenue. In another form of statement, the general fund was indebted to the depositing banks $1,074,957 76, and to the school, literature and other funds, $1,548,679 92, which sums make up the amount of the deficiency $2,623,637 68 as previously stated.

The subjoined statement gives the capitals of the several trust funds, together with the receipts and payments for the past fiscal year:

	Capital 30th Sept., 1865.	Receipts during the year including balances Oct. 1, 1865	Payments during the year.	Balances 30th Sept. 1866.
School fund	$2,799,630 04	$117,287 56	$223,142 58	$93144 98
Literature fund	270,452 12	57,152 73	43,233 18	13,919 55

	.....	7,361 07	7,360 14	1 53

* Deficiency. † Transferred to the capital.

The receipts from the State Prisons were $304,156 96, and the payments $692,294 96, being an excess of expenditures over receipts of $388,138. From this sum should be deducted the value of stock on hand at the close of the fiscal year, which is not included in the receipts.

TO CIVIL ENGINEERS.

AN ENGINEER of practical experience, from England, would be happy to treat with any gentleman requiring his services, for the execution of all kinds of work appertaining to the above profession. Address A. Z., care of Messrs. BROWN, COOMBS & CO., 189 Broadway.

NEW YORK CENTRAL RAILROAD CO., TREASURER'S OFFICE, ALBANY, Jan. 28, 1867.

TWENTY-SEVENTH SEMI-ANNUAL DIVIDEND.—The Directors of this Company have declared a Semi-Annual Dividend of Three per cent. on the Capital Stock thereof, free of the United States income tax, payable on the twenfieth day of February next.

Dividends in New York will be paid at the office of DUNCAN, SHERMAN & CO.; in Albany, at the ALBANY NATIONAL CITY BANK.

The Transfer Books will be closed at the close of business on Thursday the thirty-first day of January instant, and be re-opened on the morning of Saturday, the twenty-third day of February next.

4t5 E. D. WORCESTER, Treasurer.

NOTICE.—Contractors with capital can hear something to their advantage, by addressing the undersigned. *None* but those *with capital* and good references need apply.

TENCH F. TILGHMAN,
Eng. & Sup't Md. & Del. R. R.,
2t5 Greensborough, Maryland.

OFFICE ILLINOIS CENTRAL RAILROAD COMPANY, January 16, 1867.

AT a MEETING of the Board of Directors of this Company, held this day, it was Resolved, That a DIVIDEND of FIVE PER CENT. in cash, free of Government Tax, be paid on the first day of February next to the holders of the full-paid shares registered on the nineteenth day of January instant, and that the Transfer Books be closed on the said nineteenth day of January, and opened on the sixth day of February.

THOMAS E. WALKER, Treasurer.

To Engineers and Boiler Owners.

THE ANTI-INCRUSTATOR,

A certain means of removing scale from steam boilers and keeping them clean. The Anti-Incrustator effects a very decided saving in fuel and greatly lessens the danger of boiler explosions.

This instrument works

IN THE STEAM-CHAMBER OF THE BOILER,

silently and without shock, and without the use of acids, powders or compounds, and the first expense is the only one attending its use.

The New York Anti-Incrustation Company are now prepared to equip steam boilers with their Anti-Incrustator and

GUARANTEE

it will remove scale or incrustation from boilers and keep them free from it.

Every information given at the office, No. 73 William Street, first floor, back room.

President.—BARRET H. VAN AUKEN.
Treasurer.—WILLIAM R. GARRISON.
Secretary.—J. R. ESTELL.
Directors.—B. H. Van Auken, C. K. Garrison, Charles Roome, Homer Ramsdell, Joseph E. Coffee, Enoch Ketcham, H. G. Leisenring. 3m47

THE ATLANTIC BRIDGE WORKS,

Office, No. 157 Broadway,
NEW YORK.

POST, McCALLUM & CO.,

Bridge and Roof Builders,

Are prepared with all the necessary machinery and an experienced corps of assistants, to sink **Hollow Piles** and **Coffer Dams** by the **pneumatic process** for the foundations of Bridges, Docks, Sea Walls, Light Houses, or other marine constructions.

By the use of new patented machinery they are able to perform work of this character with much greater rapidity than has been possible heretofore, and at reduced cost.

Parties in the Western States may apply to Gen. Wm. S. Smith, care of Boomer, Boyington & Co., No. 14 Dearborn St., Chicago, Illinois.

SHIP FELT, CARPET FELT, BOILER FELT.

THE very superior Felt, manufactured by the Lowell Felting Mills, can now be furnished in quantities to suit purchasers, from the new and extensive mills now completed. Also, pipe, truss, upholstery and all other Felts. Apply to the branch office of the Company.

EDW. F. DAVISON, 148 Pearl St.

RAILROAD TIES.

The undersigned are prepared to furnish Railroad Ties of **Hackmatack, Cedar, Pine, Hemlock** and **Spruce** in any quantity. Also every description of **Northern** and **Southern Pine, Oak** and **Spruce** for **Railroad Cars, Bridges, &c., &c.**

BRADFORD & RENICK,

ENGINEERS AND CONDUCTORS'

WATCHES.

THE AMERICAN WATCH COMPANY, of Waltham, Massachusetts, request us to publish the following letters, recently received, recommendatory of Waltham Watches for railway use. The Pennsylvania Railroad Company have for several years furnished to their employees watches specially made for them by the Waltham Company, and it is this class of watches the Superintendent, Mr. Williams, refers to. Similar watches (in strong silver or gold cases, with plate-glass crystals) we are prepared to supply, named and engraved to order; and of them, as being most suitable for the use of Engineers, Conductors, Station-Masters, of Expressmen and Messengers, the Company give the most ample guarantee. It is a remarkable fact that Railroad Companies using our watches suffer much less from collisions and similar accidents than any others.

Any of the grades of Waltham watches may be purchased of Watch Dealers generally throughout the country.

ROBBINS & APPLETON,
182 Broadway, New York.
ROBBINS, APPLETON & CO.,
158 Washington Street, Boston.

PENNSYLVANIA RAILROAD CO.

OFFICE OF THE GENERAL SUPERINTENDENT,
ALTOONA, Pa., 15th Dec., 1866.

GENTLEMEN,—The Watches manufactured by you have been in use on this Railroad for several years by our Enginemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable timekeepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs, than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation, but as a class they never kept time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years. Respectfully,

EDWARD H. WILLIAMS,
General Superintendent.
AMERICAN WATCH COMPANY, Waltham.

NEW YORK CENTRAL RAILROAD.

LOCOMOTIVE DEPARTMENT, WEST. DIVISION,
ROCHESTER, Dec. 24, 1866.

GENTLEMEN,—I have no hesitation in saying that I believe the great majority of Locomotive Engineers have found by experience that Waltham Watches are the most satisfactory of any for their uses. They run with the greatest accuracy and steadiness, notwithstanding the rough riding of an engine, and as I have never known one to wear out, they must be durable. I hope to see the time when Railway Companies will generally adopt your watches, and furnish them to all Engineers and Conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours respectfully,

CHARLES WILSON, G. Chief Engineer,
Brotherhood of Locomotive Engineers.

Debt of Virginia.

We have received the following communication in reply to an article under the above heading published in our last issue:

BANKING HOUSE OF JOHNSTON BROTHERS & Co.
Baltimore, Md., Feb. 2, 1867.

Editors American Railroad Journal.

Gentlemen:—In your article recently published on the debt of Virginia, you make an arbitrary statement that "the State of West Virginia never benefitted by the debt created, except so far as the cost of a few bridges and turnpikes."

This statement is *not true;* the Legislature of West Virginia has declined to appoint Commissioners, or has, to be more exact, *failed* to appoint Commissioners to meet *those appointed* by Eastern Virginia, for the purpose of inquiring into what portion, if any, of the debt, should be justly assumed by West Virginia.

Eastern Virginia is willing to abide by the decision of the Commissioners, and in the event of their disagreement, to *submit the question to arbitration.*

There is now no impediment to the payment of the full interest on the Virginia debt, *if* West Virginia will be honest enough to meet the responsibility belonging to her under whatever decision the Commissioners or arbiters may make.

West Virginia was a partner of an insolvent house, and is bound by the debts of that house, most of which were incurred by the *express votes* of her own representatives in the Legislature—she cannot *shirk* this responsibility, and your efforts should tend rather to awaken her to a sense of honesty, than to censure the poor but honest people of East Virginia who are ready to pay *their own debts*, but *not* the share of West Virginia.

There is held in this city probably five millions of Virginia sixes, and we do not hesitate to say that nine-tenths of these stockholders are willing *cheerfully* to accept the proposition made by the second auditor.

Commending the enclose pamphlet to your attention we are respectfully your obedient servants,

JOHNSTON BROTHERS & Co.

We publish in this connection the pamphlet alluded to in the above communication. It is entitled "The State Debt, and how to Pay it," and is addressed—

To the General Assembly of the State of Virginia:

What scheme can be adopted to meet the just obligations of the State without impairing her good faith to her creditors, which at every cost should be preserved?

If the State pay all that she *justly owes*, it is all that can be asked by her creditors; and in view of her present poverty, if she decline to pay more, no complaint can be made against her; and in assuming such a position she neither proposes to *scale* or *repudiate* any portion of her honest debts.

The debt of the State as reported by the auditor of public accounts, exclusive of unpaid interest, in round numbers is *thirty-five millions* of dollars. Does the present State of Virginia owe this entire debt? It was created mainly for Internal Improvements, when the State embraced not only its present territory but also that of West Virginia. In the language of your able auditor "the debt of the State was contracted while West Virginia formed an integral part of it; and by the votes of her delegates in the General Assembly, West Virginia contributed not a little to its creation; and hence she stands this day as sacredly bound for its payment as if she had never dissolved her connection with this State. She can claim no juster exemption from its obligations than could an individual by retiring from an embarrassed copartnership claim thereby to be exempted from the payment of his portion of its liabilities."

Besides, West Virginia after having voted for the appropriations creating this debt, can with no propriety, say that as these improvements are not within her territory, therefore she should not pay her equitable proportion of the debt. With much more reason can the counties along our seaboard and rivers, and within whose limits there is not a foot of turnpike, plank road, railway or canal, and whose delegates opposed these appropriations, say that they should not be taxed to pay the State's debt.

By reference to the map of the State you will find, even omitting the appropriations for turnpikes and canals within the limits of West Virginia, that of the entire debt of the State $35,000,000, an aggregate of $25,000,000 has been expended in subscriptions and loans to railways and canals running westward, and whose termini were to be, either contiguous to or within the territory of present West Virginia, thereby in the future enuring as much to her benefit as to that of Virginia. Again, of the entire liability of the State of say $2,000,000, as the guarantor of internal improvements bonds, $1,500,000 of these bonds were for the railroads and canals above referred to. Therefore West Virginia cannot claim that she should not pay her proportion of the State's debt. For her to do so, would be as reasonable as if, in the case of two farmers living on adjoining plantations and needing a common road to mill, the one living more remote from the mill should demand of his neighbor next to the mill that he should build the road from the mill across his plantation at his exclusive expense, although designed to be used in common by the two. It therefore appears plain that West Virginia honestly owes a certain portion of the State debt, and the most equitable basis of settlement would seem to be the relative *area, population* and *property* of the two States, by the census of 1860.

Your auditor reports that "*one-third* of the whole population of the State in 1860, nearly *one-half* of its territory, and about 22 *per cent.* of the value of its real estate are now included in West Virginia." Assuming therefore that *one-third* of the debt is a proper proportion for that State to pay, and *two-thirds* for this State, this scheme appears feasible: Let this State issue a circular to its creditors, reciting the facts of her loss of territory during the war; of the obligation of West Virginia to assume her proportion of the debt; of her losses incident to the war—the one item of loss of her slave property amounting to $236,323,500, besides the losses in personal property, bank and other stocks, involving many millions; and her loss in productive white labor resulting from the death, disease and maiming of the flower of the State, during the war. And then, on the basis of these facts propose to them, that if they will surrender their bonds, she will issue new bonds

for *seventy per cent.* of the old, and commence in July next the payment of 6 per cent. interest, on same, giving to the creditor a certificate that he has thereby relinquished *thirty per cent.* of his debt, which he may hold as an evidence of claim against West Virginia, to be prosecuted by him or not as he may elect—but relinquishing all further claim against this State. We think that, in this proposition the State would assume the full measure of her separate obligation for the debt, and that therefore no stigma could be cast upon her plighted faith.

The next question is, would the creditor accept the proposition, on due consideration of his interests? We think he would—bearing in mind that the proposition is coupled with the promise of the State to pay 6 per cent. interest on these new bonds commencing July next.

Registered bonds of the State are now selling at 31 cents; that is to say a $100 bond will bring in the market $31. These bonds have steadily declined in value and probably will not improve until the payment of interest is resumed. By this scheme, the creditor would receive for his $100 bond, a new bond for $70. It is safe to say that under the resumption of interest, this new bond would, in the financial centres of this country and Europe, sell as high as Tennessee bonds. The debt of that State is now $30,000,000, and her bonds before the war sold below those of Virginia, and at its close were for months at about the same price as the Virginia bonds; but Tennessee having paid her interest in July, last, and again the 1st of Jan., her bonds have averaged 70 per cent. for the past six months; therefore concluding that these new Virginia bonds will command 70 per cent., the $70 bond would bring $49 instead of $31 the present market value of a $100 bond; and the difference of $18 or nearly 60 per cent. would be actual profit realized by the bond holder by the exchange. Would he therefore hesitate to accept the proposition, even if he should receive nothing from West Virginia? This however we assume would not be the result.

The thirty per cent. upon the whole debt, say:

Bonded debt	$35,000,000
Unpaid back interest	9,000,000
Total	$44,000,000

would involve a claim of $13,000,000 against West Virginia. The large bond holders would hold their claims, the smaller ones would sell out to them, and in a short time, the entire claim would be concentrated in the hands of a few, who with the aid of local and political influence and the ablest counsel before the Legislature of West Virginia, would probably secure the speediest and surest recognition of their claim founded both in law and equity; and through this direct, personal interest, much more would probably be accomplished than through the intervention of joint commissioners appointed by each State, to meet and confer at their leisure upon the questions at issue.

In case any bondholders should decline to accept this proposition, thereby insisting that this State shall settle the question with West Virginia, the State in good faith recognizing her obligations might appoint commissioners for this purpose, saying to these bondholders that as soon as these commissioners can agree upon this question, she will settle with them in full, but of course until that time *paying no interest* upon these unsettled claims. We anticipate however that the proposition of the State would be generally accepted both for its justice and manifest advantage to the bondholders; and this opinion is forfeited by the expressed views of bondholders within and without the State who are now largely interested in the debt of the State. We think there need be no apprehensions about the ability of the State to pay this year 6 per cent. interest upon this reduced debt. Those most conversant with the resources of the State affirm that a tax of 30 cents on the $100 will, with the present special taxes return to the treasury of the State more than sufficient to do this.

The Federal taxes for the past year averaged $16.04 per capitum, and $3.92 per $100 of the aggregate wealth, real and personal of the United States. Besides these apparently heavy taxes, the following cities paid the spcified *municipal* taxes:

Philadelphia	4.00 per $100	on real estate.
New York city	3.99 per "	real and personal.
Brooklyn	3.41 "	"
Rochester	5.62 "	"
Utica	5.61 "	"
Albany	3.76 "	"
Syracuse	3.72 "	"

In view of these figures, cannot this State while no private debts are being paid, pay 30 cents, or if necessary 60 cents on $100 of her property to meet her civil expenses and interest on her debt? The plan has been favorably entertained to pay three per cent interest upon the entire debt, increasing the rate regularly through a series of years until 6 per cent. interest shall have been paid upon the debt; whereas, the reduction of *thirty per cent.* leaves only 70 per cent. to be paid, which at 6 per cent. interest would be only 4 1-5 per cent. on the present debt, or an increase of only 1 1-5 per cent. on 3 per cent. interest on the present debt. This small difference of 1 1-5 per cent. can be easily paid by economy and retrenchment beside inspiring the tax payer with new energy and hope by the reduction of $13,000,000 of debt.

Another proposition has been suggested: It is, that as the registered bonds of the State embrace, say *two-thirds* of the entire debt, and the coupon bonds the remainder, say *one-third*, that this State should assume as her portion, to pay the *registered bonds*, and shall provide for their interest, making no provision for the *coupon bonds*, expecting that West Virginia shall assume them as her just proportion.

While we are satisfied that it is not so designed, we think that the success of this scheme would inevitably involve the honor and credit of the State, and result in but little practical benefit to the registered bonds. Disguise it as we may, the proposition is based upon the supposed fact that the registered debt is mainly *domestic*—held within the limits of the State; while the coupon bonds are mainly *foreign*—held beyond the limits of the State. As a principle both of morals and policy we should be as much bound by our obligations to the creditor abroad as to the creditor at home. Beside it would thereby be preferring *one form* of debt, to that of another, where all were of the same dignity, contracted at the same time, and for the same object; for when the State offered her bonds for sale, she gave the election to the purchaser to take either a coupon or registered bond, and each took that form of security which best suited his convenience or purpose. Therefore, to make such a distinction, the holder of the coupon bond would justly complain that his debt had been *practically repudiated*, while that of his more fortunate neighbor had been recognized. Again this discrimination would result in but little practical good to the registered bonds. The main proposed advantages to result from the payment of interest would be the advance in the market value of these bonds and the ability of the holders to hypothecate them as collaterals for the loan of monies; and the embarrassment of the great majority of these bondholders in this State is such, as to require them to sell either a portion of their bonds or to borrow money on them.

It is very evident that there is no capital within the State for either of the above purposes, and hence foreign markets must be mainly depended upon. Now suppose the holder of a registered bond should offer it for sale in Baltimore or New York upon the ground that it had just been recognized without qualification by the State, and that interest would be promptly and regularly paid on the same; the capitalist might reply that he then held an identical obligation of the State, only that it was in the form of a coupon instead of registered bond, which the State had refused to recognize, or pay interest upon, that he had been informed his only resource was upon West Virginia and that the cause of this distinction by the State in her just debts was, that the one was *domestic* and the other *foreign;* that the proposition was now to sell also the registered bond to him, and thereby make it also *foreign;* and he had no guarantee that as soon as any material proportion of the registered debt should become foreign, the State would not also repudiate that, as it had done already his coupon bond. It is therefore hardly probable there would be any appreciation in the value of these bonds, or any foreign demand for them. Hence the proposition, if carried, would not only tarnish the faith of the State, but defeat the purposes which it was designed to accomplish. The first proposition makes no distinction among the State's creditors, preserves her good name, and will practically secure what the other ineffectually aims at.

B.

Pacific Railroad Surveys.

There is a revival of active operations on the California connections with the Pacific Railroad. Fair progress is making with the grade of the direct road from Vallejo to Sacramento and Marysville, which is to connect San Francisco by the most direct route with the Central Pacific. The engineers of the Western Pacific which is to make the same connection with the Bay by way of San Jose and Stockton, have recently established a survey from Sacramento to the Mokelumne river. The line strikes the northern borders of San Joaquin county, on Dry Creek, nearly one mile below Liberty, and crossing that stream, it runs in a nearly direct line for the Mokelumne, crossing at the town of Woodbridge. The initial survey of the first thirty miles of the Southern Pacific Railroad from San Jose to Gilroy, has been completed.

Connecticut River Railroad.

The earnings and expenses of this road for the years ending November 30, 1865 and 1866, have been as follows:

	1865.	1866.
Earnings:		
From passengers	$264,805 54	$277,890 40
" freight	254,266 93	311,202 16
" mails	6,094 99	6,093 49
" express	5,550 00	10,650 00
" rents	2,391 50	3,428 00
" interest, etc.	.....	7,878 83
	$533,108 96	$617,142 88
Expenses, viz:		
Repairs of road	$105,892 63	$104,696 56
" bridges	3,945 34	1,778 51

Balance surplus	171,980 13	181,581 53
	$365,232 59	$397,846 78

Compared with 1865, the gross earnings of 1866 show an increase of $84,033 92; with an increase in expenses of $74,518 34—making the increase in net earnings $9,515 58. The increase in gross earnings has been about 15 per cent., while the expenses have advanced 23 per cent. The present ratio of expenses to earnings is about 64 per cent. In 1865 it was 59.4 per cent.; in 1864, 56 per cent., and in 1863, 50 per cent. The report says:

The increase in expenses is perhaps more apparent than real, as large sums have been expended and charged to this account, for new buildings and additional equipments made necessary by the increase of our business.

The long talked of new passenger depot at Northampton was commenced in July, and the walls and roof are nearly completed. The estimated cost of this building is $15,000, of which about $4,000 has been paid and charged in the current expense account. After the completion of the new house the old one may be taken down, or removed and fitted up as an addition to the freight house. The purchase of land and the construction of an aqueduct to supply this station with water, has cost about $5,000, one-half of which has been charged to expense account.

One hundred feet has been added to the length of the freight house at Holyoke, at a cost of $4,725, thereby more than doubling its capacity.

At Willimansett Station it became necessary to erect a dwelling house costing $1,433, for the use of the agent.

The sum of $6,500 has also been charged to current expense account for additional buildings to accommodate our mechanical works at Springfield. Further expenditures for the same purpose will be required during the present year to meet the increasing demands of our rapidly growing business. Fortunately the company owns the necessary lands on which to enlarge the present or erect additional structures.

In addition to keeping up the locomotives and cars, already in use, by repairs and rebuilding, there has been turned out at the machine shops a fine large passenger engine, a first class "Ladies' Car," (costing $5,700,) ten house freight cars, ten platform cars, six gravel cars, and six hand cars; and the timber is provided for a further addition to our equipment of fifteen house cars and twenty-five platform cars.

The repairs of track and the necessary extension of side tracks at the stations have absorbed 22,947 cross ties and 479 tons of new iron, besides requiring the mending of 2,077 bars at the rail-welding shop.

The completion of the second track between Springfield and Chicopee, three and one-half miles, is a gratifying fact. Two miles of the superstructure is laid with steel rails, and another half mile with steel-topped rails, involving together an extra expense of $15,071 55. There is every indication that this expenditure will prove to have been judicious. The total cost of the second track is about $100,000.

The increase of business having rendered imperative the enlargement of the freight accommodations at Holyoke, application was made to the Legislature and permission obtained to construct and operate branch tracks extending to points not more than one mile from the main line. Under this charter one mile of track has been built from the station to the south end of Race street and other branches of less extent are projected.

Looking to the future growth of business, it was deemed advisable to purchase additional lands at some of the stations, and accordingly there has been expended for this purpose, $23,610 28, and the amount carried to construction account. The total additions to this account for the second track to Chicopee, Branch at Holyoke, and for additional land is $135,027 07, making the cost of the road to the present time, $1,936,970 87.

The outstanding capital stock is $1,650,000: the bonded debt, $250,000, payable March 1st, 1878. The present value of the sinking fund for the redemption of the bonds is reported by the Commissioners at $54,770 77.

The company have 13 locomotives. Miles run with passenger trains, 118,036; with freight and other trains, 137,817—total miles run, 255,853. Number of passengers carried, 655,849; do., carried one mile, 8,301,152. Tons of freight carried, 203,743; do., carried one mile, 5,082,525. Earnings per mile of road, $11,605 03. Gross earnings per mile run, $2 38. Net earnings per mile run, 85.2 cents. Receipts per passenger per mile, 3.3 cents; do., per ton of freight do., 6.1 cents. Cost of fuel consumed do., 18.3 cents. Maintenance of way cost 40.9 cents; repairs of engines, 12.2 cents; do., cars, 22.2 cents.

BALANCE SHEET, NOV. 30, 1866.

Cost of road and equipment	$1,825,294	08
Construction of second track	100,294	57
" Holyoke Branch	11,382	22

The office of the company is at Springfield, Mass. The officers are:

President.—DANIEL L. HARRIS.

Directors.—Ignatius Sargent, I. M. Spelman, Edward A. Dana, Chester W. Chapin, Sylvanus Adams, J. H. Butler, H. W. Clapp, R. Mather.

Treasurer.—SETH HUNT.

Superintendent.—W. B. BRINSMADE.

Southern Pacific Railroad.

The initial survey of thirty miles of this great work, from San Jose to Gilroy, has just been completed by Col. W. J. Lewis. A choice of routes to the Colorado from that point lies open to the managers of the work. They can run up the San Juan River, via Taylor's Pass, to the Tulare Valley; thence round the Tulare Lake on the eastern shore, touching a point eight or nine miles from Visalia; thence skirting the foothills on the eastern side of the lake to Tahatchepe Pass; and thence direct to Fort Mohave on the Colorado River. The more probable route of the road, however, will be to pass through the coast range of mountains at the south end of Tulare Valley, in what is called "Painted Rock Valley;" thence through a recently discovered and entirely practicable pass, in Santa Barbara County, to the Santa Clara River; thence via the Mission of San Fernando to Los Angeles; thence east to Fort Mohave or La Paz in Arizona. The latter route is greatly to be preferred, on account of the land passed over being fertile as far as the central portion of San Bernardino County. This survey, we are assured, has been commenced under the most flattering auspices.

Ground will be broken for the construction of the California end of the road early in the spring. The grade, we are informed, will in no place between San Jose and the Colorado exceed seventy feet to the mile; while the amount of land expected to be reclaimed for agricultural purposes, and the number of immigrants who will populate the fertile valleys, through which the road is intended to pass must be immense.—*San Francisco Times.*

Interest and Dividends.

The Naugatuck Railroad Company have declared a semi-annual dividend of five per cent., payable February 15, at Bridgeport, Conn., free of U. S. Tax.

Anthracite Coal Trade of the United States.

The following statement, taken from the Pottsville *Miners' Journal*, will show the number of tons of coal sent to market from the different coal regions in 1865 and 1866:

	1865. Tons.	1866. Tons.
Schuylkill Region:		
By Reading Railroad	2,813,176	*3,425,413
By Schuylkill Canal	1,022,740	1,297,047
From Pinegrove	18,485	†21,100
By Mahanoy and Lehigh	218,378	323,693
	4,072,779	5,067,253
Less Lehigh, Shamokin and Lackawanna	336,977	433,766
Total	3,735,802	4,633,487
Lehigh Region:		
By Lehigh Valley Railroad	1,402,277	1,730,475
By Lehigh Canal	888,784	1,066,303
McCaulley's Mt	546	.....
Hoxie and Longstreet	.....	19,923
	2,291,607	2,816,701
Less Wyoming Coal	250,694	344,218
Total	2,040,913	2,472,483
Wyoming Region:		
Wyoming Canal, S	329,506	463,458
North Branch Canal, N	31,107	105,943
Pennsylvania Coal Co.	577,471	‡535,385
Scranton, North	264,293	434,088
" South	742,781	1,085,450
Delaware and Hudson Co.	759,570	1,302,894
Lackawanna and Bloomsburg, S	301,236	465,180
By Lehigh	250,694	344,218
Total	3,256,658	4,736,616
Shamokin Region	457,162	557,161
Total anthracite	9,490,535	12,399,747
Semi-Anthracite:		
Short Mountain Coal Co.	75,495	112,851
Franklin Coal Co.	61,405	35,565
Lykens Valley Coal Co.	.....	1,385
Summit Branch Coal Co.	.....	70,112
Treverton	27,095	53,648
Broad Top	315,996	265,720
Total	479,991	539,281
Bituminous:		
Cumberland Coal	903,495	1,187,563
Imported—foreign	685,052	643,294
Total	2,068,538	3,270,138
Add Anthracite	9,490,535	12,399,747
Total tons	11,559,073	14,769,885

* The whole quantity of coal transported over the Philadelphia and Reading Railroad in 1866 was 3,714,684 tons. Of this quantity 289,271 was principally Bituminous Coal received at Harrisburg, including a small quantity of Anthracite.

† The whole coal trade from Pinegrove in 1866 was 167,833 tons. The balance is reported in the Reading Railroad tonnage.

‡ The Pennsylvania Company's coal trade was suspended for several months in 1866.

The following is a recapitulation of the quantity of Anthracite coal furnished by the different regions in 1865 and 1866:

	1865.	1866.
Schuylkill Region	3,735,802	4,633,487
Lehigh Region	2,040,913	2,472,483
Wyoming Region	3,256,658	4,736,616
Shamokin Region	457,162	557,161
Total, as above	9,490,535	12,399,747
Add estimated consumption in regions	1,000,000	1,000,000
Total quantity mined	10,490,535	13,399,747

The gain from the different regions on the supply of 1865 was as follows:

	Tons.
Wyoming Region	1,479,958
Schuylkill Region	897,685
Lehigh Region	431,570
Shamokin Region	99,999
Gain of Anthracite in 1866	2,909,212

In 1865 the loss on the supply of 1864 was 509,488 tons. By deducting this quantity from the gain in 1866 it still leaves the gain 2,401,724 tons over the heaviest shipment made of Anthracite in a single year.

This coal produced to the operators, including Chestnut and Pea, say on the average $2 75 a ton, put in the cars of the transporting companies of the different regions, which would give a return to the different Anthracite Regions a little upward of $34,000,000.

The average prices at which this coal was sold on the lines, in Philadelphia, New York and Baltimore, and on board vessels at these points, would give about $6 a ton, making the product of the Anthracite coal trade to the miners, wholesale dealers, land owners and carrying companies, about $74,000,000.

The domestic Semi-Anthracite and Bituminous coal trade shows an increase this year of 273,298 tons, while the importation of foreign coal shows a considerable falling off since 1865.

The total gain in Anthracite, Semi-Anthracite and Bituminous, including foreign, over 1865, was 3,210,812 tons.

The heaviest increase previous to 1866 was in 1864, when the increase over 1863 was:

Anthracite	1,937,064
Semi-Anthracite and Bituminous	475,589
Increase in 1864 over 1863	2,412,653

The supply of coal from the commencement of the trade, was derived as follows:

	Tons.
From the Schuylkill Regions	65,055,544
Wyoming and Lackawanna	46,788,786
Lehigh	31,129,081
Shamokin	3,651,046
Total	146,624,457
Domestic Semi-Anthracite & bitumin's	16,287,533
Foreign—imported	8,711,421
Total	171,623,411

The coal mined in Great Britain in 1866 is estimated at 100,000,000 tons. The whole quantity mined in the United States in 1866 is estimated at 26,000,000, a little over one-fourth their annual quantity.

CENTRAL NEW JERSEY RAILROAD COAL TONNAGE.

The quantity of coal transported over the Central Railroad of New Jersey from 1860 to 1866, was as follows:

	Lehigh. Tons.	Lackawanna. Tons.	Total. Tons.
1860	263,885	590,862	854,647
1861	254,367	568,869	823,235
1862	311,296	502,375	816,571
1863	435,729	613,954	1,049,683
1864	474,221	675,743	1,149,964
1865	509,619	494,687	1,004,306
1866	511,076	779,173	1,290,249
	3,181,359	5,413,426	8,594,785

Of the above quantity 107,180 tons Lehigh, and 12,325 tons Lackawanna—in all 119,505 tons—were used on the line; the balance reached Elizabethport.

SCHUYLKILL REGION.

The quantity of coal mined and transported on the lateral roads in the Schuylkill Region in 1866, was 4,476,607 tons. The number of operators engaged in the business was 118, and the number of collieries, 152. The average production from each colliery was 29,451 tons. Last year there were 109 operators, and 148 collieries worked. The quantity of coal sent to market in that year was 3,735,802 tons.

Of the above amounts, there were sent from the Mahanoy and Locust Mountain Regions in 1866, 2,508,621 tons; and in 1865, 1,823,655 tons, leaving the supply south of Broad Mountain in 1866, only 1,967,986 tons, and in 1865, 1,912,147.

LATERAL RAILROADS.

The following is the tonnage of the different lateral railroads in Schuylkill County, in the years 1865 and 1866:

	1865.	1866.
Mine Hill and S. Haven	1,579,494	1,821,498
Mill Creek	326,367	404,782
Mahanoy and Broad Mt.	802,885	1,278,432
Schuylkill Valley	222,629	285,047
Mount Carbon	101,826	86,939
Little Schuylkill	585,534	617,278
Lorberry Creek	111,773	120,153
Swatara	46,067	45,281
	3,716,575	4,659,411
Union Canal	157,840	165,434

The coal that passed over the Union Canal Railroad is received from the Lorberry Creek and Swatara roads. The Mahanoy Coal also passed over the Mill Creek Railroad, making the tonnage of that road in 1865, 1,129,252 tons, and in 1866, 1,683,215 tons.

MORRIS CANAL.

The following is a statement of the amount of coal which entered the Morris Canal since 1860:

	Lehigh coal from— Canal tons.	Railroad tons.	Total. tons.	Scranton Coal. tons.	Total. tons.
1860	276,947	.....	276,947	117,517	404,464
1861	272,616	1,401	274,017	140,922	414,939
1862	106,431	45,738	152,169	172,128	324,297
1863	208,397	48,234	256,631	145,815	402,446
1864	194,097	37,644	231,741	151,122	382,866
1865	217,814	74,171	291,985	124,204	416,189
1866	205,351	112,790	313,141	141,034	459,175

EAST PENNSYLVANIA RAILROAD.

The quantity transported over this road since 1860, has been as follows:

	Tons.		Tons.
1860	11,030	1864	9,341
1861	10,622	1865	8,845
1862	6,667	1866	10,050
1863	9,526		

NORTH PENNSYLVANIA RAILROAD.

The quantity transported over this road in the years named, has been:

	Tons.		Tons.
1860	91,327	1864	123,475
1861	98,389	1865	129,695
1862	103,947	1866	141,841
1863	113,680		

PHILADELPHIA AND READING RAILROAD.

Amount of coal received from various lateral railroads in Schuylkill coal region:

Schuylkill Valley Railroad	129,679
Mill Creek	292,736
Mahanoy and Broad Top Mountain R.R.	1,110,080
Total at Port Carbon	1,532,495
Mt. Carbon Railroad at Mount Carbon	42,513
Mine Hill and Schuylkill Haven Railroad at Schuylkill Haven	1,168,786
Schuyl. & Susquehanna R.R. at Auburn	146,667
Little Schuylkill Railroad at Pt. Clinton	534,952
	3,425,413
Bituminous and anthracite from Harrisburg	289,271
Total of all	3,714,684

SCHUYLKILL NAVIGATION COMPANY.

The number of tons of coal transported by this company in 1866, was 1,297,047; in 1865, 1,022,740. Of these amounts, there were sent to Philadelphia, and south of, in 1866, 421,521 tons; in 1865, 296,925; to New York and vicinity in 1866, 701,120 tons; in 1865, 591,672 tons.

COAL TRADE OF THE LINE.

The trade of the line between Pottsville and Philadelphia and on the Lebanon Valley Railroad, was as follows in the last seven years:

Years.	Railroad.	Canal.	Total.
1860	385,860	223,017	608,807
1861	278,647	156,673	435,320
1862	416,856	129,060	545,916
1863	548,755	122,834	671,589
1864	634,074	114,364	748,448
1865	659,379	87,250	746,629
1866	836,598	174,407	1,010,905

Of the above tonnage 897,939 tons were delivered at the following points on the line where there are iron works:

	Railroad.	Canal.	Total.
Leesport	3,454	15,513	18,967
Reading	189,031	43,395	232,426
Birdsboro'	12,729	12,847	25,576
Pottstown	21,478	1,361	22,839
Phœnixville	75,195	1,160	76,355
Norristown	138,418	4,471	142,889
Conshohocken	13,283	14,703	27,986
Spring Mills	.....	19,359	19,359
Swede's Furnace	11,856	.....	11,856
Manayunk Falls, Nicetown, Germantown & Belmont	161,346	23,842	185,188
Robesonia	20,550	.....	20,550
Sinking Springs	45,673	.....	45,673
Lebanon	67,275	.....	67,275
			897,939
Supply to these points in 1865			659,805
Increase in 1866			238,134

In 1865 there was a falling off at these points of 35,523 tons.

QUANTITY SENT TO PHILADELPHIA.

The following is the quantity of coal sent to Philadelphia in the following years, by railroad and canal:

Years.	Railroad.	Canal.	Total.
1860	305,819	495,084	800,903
1861	273,473	473,965	747,438
1862	316,631	290,583	607,214
1863	388,352	237,563	625,915
1864	373,070	307,430	680,500
1865	380,233	296,925	677,158
1866	475,189	421,525	896,714

The receipts of coal at Port Richmond were as follows, since 1860:

	Tons.		Tons.
1860	1,186,477	1864	2,058,423
1861	909,112	1865	2,051,202
1862	1,325,400	1866	2,402,897
1863	2,128,154		

The loss and gain for 1865 and 1866, at the following points we sum up as follows:

	1865.		1866.	
	Loss.	Gain.	Loss.	Gain.
On the line	1,819	.....	.....	238,134
At Philadelphia	3,342	.....	.....	219,556
At Port Richmond	4,221	.....	.....	351,695
Eastern trade by canal	....	12,966	.....	109,448
	9,382	12,966	.....	918,833

Gain at these points in 1865, 3,584 tons. In 1866, 918,833 tons.

LEHIGH COAL TRADE.

The quantity of coal sent to market from the Lehigh Region by the different operators in 1866, was: by railroad, 1,293,927; by canal, 863,514—total, 2,159,441.

LEHIGH VALLEY RAILROAD.

The number of tons of coal distributed on the line of the Lehigh Valley Railroad in 1866, was 1,730,475; in 1865, 1,402,277—increase, 328,198 tons.

LEHIGH NAVIGATION COMPANY.

The following is the distribution of coal carried by this company in 1866:

	Tons.
Passed into the Del. Division Canal	792,397
" " Morris Canal	205,351
Consumed on line of Lehigh Canal	68,555
	1,066,303

Of the coal passed into the Delaware Division Canal, there went through the outlet at Wells Falls 526,245
Came through at Bristol 221,824
Consumed on the Del. Division Canal 44,329
792,397

BELVIDERE DELAWARE RAILROAD.

The quantity of coal transported over this road in 1860 was 146,308 tons; in 1861, 145,907; in 1862, 129,452; in 1863, 130,494; in

	Through.	Way.	Total.
1864	161,278	13,095	174,323
1865	202,781	11,585	214,345
1866	174,508	13,554	188,062

SHAMOKIN COAL TRADE.

The number of tons of coal sent from the Shamokin Region by the different operators in 1866, was 557,161; in 1865, 457,162—increase in 1866, 99,999.

Of the above amounts, 420,834 tons passed over the Mine Hill and Schuylkill Haven Railroad in 1866, against 283,875 in 1865—making an increase in 1866 of 136,959.

LOCUST MT. COAL AND IRON COMPANY.

The quantity of coal mined and sent to market from the lands of this company in 1866, was 494,340 tons; in 1865, 366,997—increase, 127,343 tons.

DELAWARE AND HUDSON CANAL COMPANY.

The amount of coal mined and forwarded upon the railroad of this company in 1866, was 1,891,674; in 1865, 812,094—increase, 579,580. In 1864, the amount carried was 886,841 tons.

LITTLE SCHUYLKILL RAILROAD.

The quantity of coal transported over this road for the different operators during the year 1866, was:

	Tons.
Tamaqua Region	221,335
East Mahanoy Region	363,088
From Catasaqua Railroad	32,855
Total	617,278
In 1865	585,534
Increase	31,744

DELAWARE, LACKAWANNA AND WESTERN R. R.

The shipments of coal by this road in 1866, were 1,519,538 tons; in 1865, 1,006,887—increase, 512,651. Of the above amount, there were mined and delivered in 1866, for account of D., L. & W. R. R. Co., 1,349,456 tons; for account of other companies 170,282 tons—total, 1,519,538 tons.

	1865.	1866.
Amount sold at mines	923	518
" shipped North	271,519	433,570
" " South	734,445	1,085,450
	1,006,887	1,519,538

Of amount sent away in 1866, there were mined by D., L. and W. R. R. Co., 921,442; by other parties, 598,096—total, 1,519,538. Total shipments since the opening of the road, 11,140,338 tons.

There was also mined and used by the Lackawanna Iron and Coal Co., not included in the above, 104,006 tons.

BLOSSBURG AND BARCLAY COAL TRADE.

The number of tons of coal sent to market annually since 1861, has been as follows:

	Blossburg.	Barclay.
1861	112,713	40,835
1862	179,334	52,779
1863	226,183	54,116
1864	353,124	62,000
1865	394,631	68,463
1866	411,759	99,453

The total shipments to close of 1866 have been: Blossburg, 2,101,457 tons; Barclay, 395,458.

SCHUYLKILL AND SUSQUEHANNA RAILROAD.

The quantity of coal transported over the Schuylkill and Susquehanna Railroad in 1866, was as follows:

	East.	West.	Total.
From Pinegrove	146,733	21,100	167,832
" Dauphin, West	.....	.....	25,205
" Auburn, West	.....	.....	7,399
Total, 1866			200,437
" 1865	168,296	18,458	186,754
" 1864	191,391	24,534	240,057
" 1863	189,254	48,449	237,703
" 1862	146,095	53,842	199,937
" 1861	101,523	91,820	193,343

This road is now owned and worked by the Reading Railroad Company.

LEHIGH AND MAHANOY RAILROAD.

The quantity of coal sent over this road in 1866, was 323,693 tons.

LYKENS VALLEY COAL TRADE.

The shipments in 1866, were as follows:

	Tons.
Franklin Coal Co	35,564
Short Mountain Coal Co	112,851
Summit Branch Coal Co	70,112
Lykens Valley Coal Co	1,385
Total	219,913
In 1865	136,900
Increase in 1866	83,013

EXPORT OF COAL FROM PHILADELPHIA.

The exports of coal from Philadelphia in the following years, show a remarkable increase in 1866, which of course was stimulated by the lower prices:

Years.	Tons.
1864	8,991
1865	17,436
1866	41,871

CUMBERLAND COAL TRADE.

The quantity of coal sent to market from the Cumberland Region in 1866, was as follows:

By Baltimore and Ohio Railroad	812,563
By canal, (not official)	375,000
Total	1,187,568
In 1865	903,945
Increase in 1866	284,068

The increase by railroad is 252,270 tons, and by canal, about 31,000 tons,

BROAD TOP SEMI BITUMINOUS COAL TRADE.

The amount of coal mined and sent to market in 1866, from the collieries of this region, was 265,720 tons; in 1865, 315,996—decrease, 50,276 tons.

IMPORTATION OF COAL.

The number of tons of coal paying duty imported into this county during the year ending June 30, 1866, was 216,025, valued at $619,711. During the existence of the Reciprocity Treaty, within the year, the value of coal admitted free was $877,518. The number of tons is not given, but estimating the value of coal at $2 50 per ton, (the same as that of coal paying duty,) the number of tons imported into the United States to March 17, 1866, when the Reciprocity Treaty, expired, would be 351,000 tons. Add to this 76,269 tons imported since the 17th of March, on which duty is paid, and we have an import of coal from the British Provinces, of 427,269 tons; and from all other sources, 216,025 tons—making a total of 643,294 tons, valued at $1,740,229, against 685,052 tons in 1865, valued at $1,778,110. The duty paid on coal from the British Provinces since the termination of the Reciprocity Treaty has been $1 25 per ton. The statement is as follows:

	1865.		1866.	
	Tons.	Value.	Tons.	Value.
Paying duty	219,016	$568,106	216,025	$619,711
Free under Recipr'city Treaty	466,036	1,210,004	351,000	877,518
From March 17,'66, paying duty	.....	.....	76,269	243,000
Totals	685,052	1,778,110	643,294	1,740,229

EXPORTATION OF COAL.

	Tons.	Value.
1866	149,273	$1,120,424
1865	132,438	1,348,371
Increase	16,835	.....
Decrease	.....	$227,947

Little Miami Railroad.

W. E. Woodward, Esq., (late Superintendent,) has been elected President of the Little Miami Railroad Co., vice W. H. Clement, Esq., resigned. C. H. Kilgour, Esq., is Vice President; J. W. Guppy, Superintendent; S. E. Wright, Treasurer; J. D. Davenport, Auditor General; and Col. O'Brien, General Ticket Agent.

☞ The Camden and Amboy and New Jersey Railroad and Transportation Companies have taken preliminary measures to consolidate their interests. The necessary papers have been signed by the leading directors, subject to the consent of two-thirds of the stockholders, and the ratification of the New Jersey Legislature.

American Railroad Journal.

Saturday, February 9, 1867.

Stock Exchange and Money Market.

There has been a much more even and regular movement in money, since our last. The banks having increased their resources and reduced their liabilities, have been more liberal of accommodation to temporary borrowers in good standing at 6@7 per cent. on miscellaneous collaterals, and 5@6 per cent. on Government securities. The demand for aid has been active but not urgent. The revival of business at the Stock Boards and the Gold Room has led to the employment of larger sums, and thus afforded considerable relief to lenders, whose accumulating balances have been very troublesome to manage, in the absence of adequate and reliable channels of investment. The offerings of prime short date commercial paper have been very moderate for the season, and have been promptly discounted on the basis of 7@7½ per cent. per annum. The influx of currency from the West continues, adding materially to the available supply of idle capital at this centre. The outflow to the South is moderating in volume, and does not seriously affect the stock here. An easy market is confidently looked for, during the Spring months. This anticipation is based to a great extent on what is known, or suggested, as to the plans and policy of the Treasury Department officials. Secretary McCulloch sent on Saturday last to Senator Fessenden, Chairman of the Senate Finance Committee, a scheme prepared by him in conjunction with the National Banks, providing for the issue of $100,000,000 four per cent. loan certificates in redemption of the outstanding compound interest notes. The Secretary accompanied it with a letter, in which he recommended it to the favorable consideration of the Committee. On Tuesday of the current week, the Committee was said to have reported the bill, without any essential change in its provisions. It is believed that the bill will be favorably acted on by Congress, and presently become a law. This bill is designed to guard against any grave disturbance of the Money Market, by the withdrawal of the maturing compound interest notes. The bill allows the contemplated loan certificates to be held by any National Bank, holding or owning the same, as a part of and not exceeding the legal tender reserve, provided for in sections 31 and 32 of the National Currency Act of June 30, 1864. The measure is commended in business circles, as likely to restore confidence in ruling values sufficiently to cause a renewal of activity in the markets of the country, thus stimulating industrial and commercial enterprise, and securing a full average revenue for the Government. On Monday, the House of Representatives passed an anti-contraction resolution, by a vote of 82 to 70, asserting that the public interest forbids any further reduction of the outstanding volume of the plain, non-interest bearing U. S. legal tender notes, commonly known as greenbacks, and instructing the Committee of Ways and Means to report a bill to give effect to this purpose of the House. The resolution is not likely to become the basis of any legal restriction, but it is significant of the temper of the House, on the currency question. It is not thought that the work of contraction can be speedily resumed with vigor; and the business public accordingly begin to make their arrangements for the Spring trade, with more confidence in the immediate future of commercial values. The last City Bank statement is the strongest one given to the public for some time past. It indicated an increase of $2,559,520 in the deposits, $2,501,982 in the legal tender reserve, $218,977 in the specie hoard, $38,149 in the circulation, with a decrease of $410,448 in the loan item. The specie reserve of the banks is now $16,332,984, against $10,937,474, same time last year. The city bank deposits are now $200,511,596, against $228,484,370 week ending Oct. 6, 1866, and $191,011,605 week ending Feb. 3, 1866. The legal tender reserve amounts to $65,944,541, against $68,796,250 same time last year. The circulation now stands at $32,995,347, against $21,494,284 same time last year. The loans are now $251,264,355, against $279,135,790 ten weeks ago, and $242,510,382 at this date last year. The Bank Exchanges at the Clearing House, through the past week, averaged $85,401 209 a day, against a daily average of only $94,803,800 the preceding week; and $86,673,338 the week ending with Jan. 19. The current week's exchanges average about $89,680,787 a day.

The main changes in the Philadelphia Bank footings, last week, were as follows: Increase of loans, $74,990; decrease of legal tender re-

serve, $94,248; increase of deposits, $590,933; decrease of specie, $9,257; and increase of circulation, $46,210.

National Bank notes to the amount of $119,240 were issued last week, making the total issue to 1,663 banks thus far $301,027,136, against $282,555,440 at the close of the last fiscal year, June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $2,287,632, leaving, with the existing 1,650 banks, an actual circulation at this date, of $298,749,504. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $340,510,100; and for the public deposits, $38,761,450—making a total of $379,271,550. The Treasury Department, last week, redeemed and destroyed $320,100 of worn and mutilated fractional currency, and issued $473,193 worth of new.

The U. S. Sub-Treasury receipts, week ending with Feb. 2, were $13,897,446, including $2,094,760 from customs duties; payments, $19,158,398; balance at the close of the week, $103,325,459, against $108,586,411 at the close of the preceding week. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $2,553,137, and payments, $3,676,158; on Tuesday, receipts, $1,576,471; payments, $890,094. The balance at the close of business on Tuesday stood at $102,888,815, against $108,159,242 a week previous.

Government revenues are again up to a respectable average. The excises, last week, yielded $5,828,598, against $3,400,766 the preceding week; customs at the port of New York, $2,094,760, and at the outports, about $750,000 (in coin) more, making the grand total income for the week equal about $9,740,000 in currency, against disbursements of $2,642,543 on account of the three leading executive departments, and in all January, of $13,611,738. The total receipts of the National Treasury, from excises, since July 1, 1866, have been about $190,000,000.

Gold has been in more active speculative demand since our last. The customs inquiry has increased, aiding the *bull* operations, in their efforts to inflate the market. Various political rumors, emanating chiefly from the National Capital, have been used to promote the speculation. Most of these have been utterly unfounded in fact. This has not seriously lessened their value to the operators for a rise. The range of the price, during the week has been from 134¾ to 138⅜. The highest rate was made on Tuesday. The closing figures on Wednesday were 137⅜, on an active market. The export demand is very limited, and is likely to continue so, as long as foreign exchange is as abundant and low in price as at present. The exports on Wednesday did not exceed $10,000. The total imports of specie from Europe, and other foreign ports since Jan. 1, 1867, have been $142,339. The customs demand for Gold last week, averaged $349,127 a day; thus far, this week, it has been equal to $584,151 a day, or equal to a weekly aggregate of $3,504,906. The arrivals of specie from Europe, Havana and other foreign ports, during the past week reached $18,951, and from California, $1,075,595. The total customs revenue of the Government, in coin, at this port since July 1, 1866, has been $72,496,989, against $79,514,661 same time in the preceding fiscal year. The total receipts of California gold at this port since July 1, 1866, have been $27,634,913, against $15,079,648 same time last year, showing an increase this year, of $12,564,265. The exports of specie from this port, last week, were $685,098. The total outflow of specie from the port, thus far in the current fiscal year has been $19,998,580, against $14,814,630 same time in the preceding year. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $62,000, making the total coin interest disbursements through the Government office, since July 1, 1866, $33,135,408, against $29,053,427 for the same time in the preceding fiscal year. The specie exports from San Francisco from Jan. 1, to Dec. 31, 1866 reached $44,364,393, against $45,308,227 in 1865.

Foreign Exchange has been in very liberal supply. Southern cotton bills have been quite plenty. Considerable additions have been made to the floating stock, by drafts made against further export purchases of U. S. Five-Twenty bonds. The demand for exchange has been very moderate, and though some business was transacted in sterling on Monday afternoon and early on Tuesday at ⅛@¼ per cent. above our quotations, the market closed quite heavily, with a tendency in favor of buyers. Bankers' 60 day bills on London closed on Wednesday at 108¼@108½, and on Paris to 5.22½@5.17½; sight bills on London to 109@109¼; and on Paris to 5.17½@5.15. The offerings of produce bills have been less extensive since our last. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $2,881,102, making the total value of exports since July 1, 1866, $98,396,046, against $130,200,749 same time in the preceding fiscal year.

An active business has been transacted in the public funds, since our last. The demand has been more than usually comprehensive, extending to every national interest bearing obligation. It has been chiefly from home investment buyers. The main favorites have been the Five-Twenties of the later issues, the Seven-Thirties and the Compound Interest Notes. Prices have advanced decidedly, closing buoyantly, the current offerings of the bonds and notes being quite moderate. U. S. sixes of 1867 closed here on Wednesday at 136; U. S. sixes of 1868, at 133; U. S. sixes of 1881, 108¼@108½; U. S. Five-twenties of 1862 at 108¼@108½; U. S. Five-twenties of 1865 at 106⅞@107⅛; U. S. Five-twenties of 1865, consolidated, 104⅞@105⅛; U. S. Ten-forties at 100⅛@100⅜, and U. S. Seven-thirties at 105⅛@105⅜. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ¼@½ of 1 per cent. on these figures:

June, 1864	117½	May, 1865	112½
July, 1864	117	August, 1865	111⅜
August, 1864	116½	September, 1865	111
October, 1864	114½	October, 1865	110½
December, 1864	113½		

The public debt statement for February 1, as telegraphed to the daily papers, makes the net amount of the debt $2,543,349,749, against $2,543,325,174, showing only a very slight increase, though an augmentation of four or five millions was generally looked for, because of the reduced revenues and largely increased disbursements of the National Treasury. The customs revenue in Gold and the Currency revenues from Internal taxes, and miscellaneous sources, fell below the disbursements of the month, which latter, without extraordinary items, are known to have been about as follows:

For interest in gold	$11,500,000
For 7-30 interest currency	7,300,000
War and Navy	12,250,000
Interior Department	1,250,000
Bonds of Pacific Roads, say	1,600,000
Total expenditures in January	$34,000,000

The small increase in the Public Debt Statement of Feb. 1, is the first instance of a change in the wrong direction, for nearly eighteen months, and it is much to be desired that it should prove to be the last. The Bounties under the Act of July 28, 1866, begin to tell unfavorably in the line of War Expenditures. Of the debt on Feb. 1, the coin-interest bearing portion amounted to $1,420,145,542, and the currency-interest bearing part to $819,672,740.

There has been a decided recovery of strength and buoyancy in the railway and miscellaneous share market, since our last. The speculative demand has been quite brisk. The growing ease in money has contributed to its development. Heavy dealings have been reported from day to day, on a generally rising, though somewhat variable, market. The latest transactions on Wednesday indicated a brisk business, and an upward tendency in prices.

General business has exhibited more signs of life, especially in the domestic produce line. The demand for breadstuffs and provisions has been more animated, partly on speculation and partly for export, prices closing in favor of sellers. The cotton market opened briskly and firmly, but closed heavily, influenced by the variable foreign advices. Middling grades left off at 32½@34½ cents per lb. as extremes. The stock of cotton now here is estimated at about 190,000 bales. The receipts at the port this week, have averaged 3,500 bales a day. The receipts since the commencement of the current cotton year, Sept. 1, have been 243,000 bales, against exports of 167,000 bales. The receipts at all the shipping ports from September 1, to latest mail dates have been 1,056,000 bales against 1,174,241 bales same time last year; exports, 495,000 bales, against 636,000 bales same time last year, estimated stock at latest dates, 605,000 bales, against 505,000 bales same time last year. There has been rather more inquiry for foreign merchandise, particularly dry goods and groceries, and holders have shown more confidence in the future of values. The total imports of foreign dry goods, last week, were $3,152,844, and the total amount marketed $2,423,446. The value of foreign merchandise imported last week, was $1,055,116—making the grand total specie value of last week's imports of dry goods and merchandise, $4,207,960, and since July 1, 1866, $150,096,509, against $167,254,270 same time in the preceding fiscal year. The ocean freight market has been moderately active, with 578 vessels of all classes in port. For Liverpool we quote flour at 2s.@2s. 3d. per bbl.; grain at 6@6½d. per bushel; cotton at ⅛@3.16d. per lb.; and heavy goods at 17s. 6d @25s. per ton, all by sailing vessel.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Jan. 23.	Jan. 30.	Feb. 5.
Consols	90⅛	90¾	90⅞
U.S. 5-20's of 1862	72⅝	73½	72⅝
U.S. 5-20's of 1865	71¾	72⅛	71⅞
Erie	43¾	44⅞	40
Ill. Central	81	82½	81

The New York exports, exclusive of specie, for the week ending Feb. 5, and since the beginning of the year, compare as follows:

	1866.	1867.
For the week	$5,917,607	$2,881,102
Prev. reported	17,405,006	13,908,549
Since January 1.	$23,322,613	$16,789,651

The commerce of New York from July 1st to date compare as follows:

	1865–'66.	1866–'67.
Imports merchandise	$167,254,270	$150,096,509
Exports produce	130,200,749	98,396,046
Exports specie	14,615,728	19,961,579

The balance in the Sub-Treasury on Wednesday was $105,496,930 97.

Eastern Railroad.

At the Annual Meeting of this Company, held in Boston on the 4th inst, the directors were authorized to assent to such arrangement on the part of the Eastern R. R. in New Hampshire, for the lease or purchase of the Portsmouth, Great Falls and Conway Railroad, and for its extension, as may be deemed best for the interest of the corporation. They were also authorized, in providing means as well for the completion of the Newburyport Bridge as for the double track to Beverly, and other new works and equipments, to issue stock, within the limits authorized by law, as they may deem expedient. The annual report was presented and accepted. The following gentlemen were chosen directors for the ensuing year: George M. Browne Samuel Hooper, Franklin Haven, and Benjamin F. Bates of Boston; William L. Dwight of Portsmouth; and Henry L. Williams of Salem.

☞ At a meeting of the directors and officers of the Detroit and Howell Railroad Company, held at South Lyon on the 24th ult, the contract was let for grading and tieing the entire road, from Plymouth to Howell, at a cost of less than $700 per mile.

Railroad Earnings.—Weekly.

The earnings of the Grand Trunk Railway of Canada for the week ending Jan. 26th, 1867, were $99,628 00
Corresponding week of previous year.. 115,415 00

Decrease..... $15,787 00

The earnings of the Chicago and Rock Island Railroad for the 4th week in Jan., 1867, were $52,519 00
Corresponding week of previous year.. 83,551 00

Decrease $31,032 00

The earnings of the Chicago and Northwestern Railway for the fourth week in Jan., 1867, were $199,489 72
Corresponding week of previous year.. 182,229 77

Increase..... $17,259 95

The earnings of the Detroit and Milwaukee Railroad for the week ending Jan. 31st, 1867, were $18,329 00
Corresponding week of 1866..... 23,814 00

Decrease..... $5,485 00

The earnings of the Western Union Railroad for the week ending Jan. 31, 1867 . .. $10,564 06
Corresponding week previous year.... 15,989 53

Decrease..... $5,425 47

Journal of Railroad Law.

FREIGHT CHARGES FIXED BY CONTRACT—DELAY IN DELIVERY.

The case of Peet against The Chicago and Northwestern Railroad Company, lately decided in the Supreme Court of Wisconsin, will be found to contain an interesting question involving the rights of consignors and consignees of freight.

The complaint in the action contained seven counts, the first five being for damages (amounting in the aggregate to $256,) for the defendant's neglect as a common carrier, in failing to deliver at New York City, within a reasonable time, five several consignments of flour. The form of the contracts between the parties is given in the opinion of the Court. The sixth and seventh counts were for over charges on freight, alleging damages amounting in the aggregate to $15 99, and interest thereon.

It appeared from the evidence that the consignees of the flour in New York were obliged to pay the Hudson River Railroad Company, as freight on the same, an aggregate of $1,140 99, (being $15 99 more than the price fixed in the contract with defendant,) before said company would deliver the flour. There was evidence tending to show delay in transporting the flour from Chicago to New York, and damages resulting therefrom as alleged in the complaint.

The following opinion was delivered by COLE, J.—The main object of this action is, to recover damages against the railroad company for delay in carrying a certain quantity of flour to New York City. The appellant is a manufacturer of flour at Neenah, Wisconsin, and delivered to the company at that place the flour, taking therefor a receipt or contract which reads as follows:

"Chicago and Northwestern Railway, Charles S. Tappan, General Freight Agent, Chicago, January 16th, 1862. Received (as agents and forwarders,) from E. W. Peet, the following packages (contents unknown,) in apparent good order, viz: Marked Acct. of Bank of Neenah, care of Jesse Hoyt & Co., New York. Care of Chas. S. Tappan, Gen. Agent, Chicago. Articles—one hundred barrels flour, round hoop, Harmony Mills. Contract from Neenah to New York at $2 25 per bbl. J. A. Smith, Agent."

It appears from the evidence and stipulations filed in the case, that the flour was transported by the company over its line from Neenah to its terminus at Chicago, and was forwarded from there by the company within a reasonable time by one of the usual routes, but failed to reach its destination in time in consequence of the accumulation of freight at a point east of Chicago. And the only question which we shall consider is, whether the company discharged its liability when it transported the flour over its road to Chicago and forwarded it from that place within a reasonable time by one of the usual routes, or whether the above receipt shows an express contract on the part of the company to carry the flour to New York. The Court below held that the obligation imposed by the contract was merely to transport the flour safely and seasonably to the city of Chicago, the end of defendant's road, and there deliver it to a proper carrier to be forwarded to its destination; and that when the company had done this it had discharged its full duty in the premises.

There is considerable conflict of authority upon the point as to what measure of responsibility a railroad company assumes which receives goods marked to some place beyond its route. The English Courts have decided that when a railway company take into their care a parcel directed to a particular place, and do not by positive agreement limit their responsibility to a part only of the distance, that is *prima facie* evidence of an undertaking to carry the parcel to the place to which it is directed, although that place be beyond the route of the company. The weight of American authority is certainly opposed to this doctrine, holding that the company which receives the goods assumes no responsibility as carrier beyond the terminus of its road unless there is a special contract, or some usage of business which shows that such company takes the goods for the whole route. Most of the cases upon the branch of law will be found in Note (K,) 1 Parsons on Con., p. 687, (4th ed.) See likewise Rome Railroad Company *vs.* Sullivan, *et al.*, 25 Geo., 228. It is believed, however, that a discussion of the question as to which is the most salutary and reasonable rule upon this subject is not necessary for the purposes of this case, since the authorities are quite uniform, that if the company receiving the goods contract as carrier for the whole line, then it is liable for any injury or loss that may happen to them beyond the limits of its road, and while under the control of other carriers. And a majority of the Court think that the receipt in this case contains an express undertaking on the part of the defendant to carry the flour beyond the terminus of its road to its destination, New York City. It will be seen that the receipt contains these words: "Contract from Neenah to New York, at $2 25 per bbl." We fully adopt the interpretation placed upon these words by the counsel for the appellant, and think of the contract were written out in full it would read: "The railway company contracts to carry this 100 bbls. of flour from Neenah to New York, and there deliver them to the consignees, for $2 25 per barrel." It seems to a majority of the Court that this is the natural and reasonable construction to be placed upon these words, and that they show an express undertaking on the part of the defendant to carry the flour to New York. If so, there can be no doubt that the company is liable for any loss occasioned by negligence and inexcusable delay in transporting the flour to its destination, in whatever part of the line it may have occurred. Noyes *vs.* R. and B. R. R. Co., 27, Vermont, 110; Wilcox *vs.* Parmalee, 3 Sandf., (S. C.,) 610; Perkins *vs.* P. S. and Portsmouth R. R. Co., 47 Maine, 573; Penn. Cent. R. R. Co. *vs.* Schwarzenberger, 45 Pa. st., 208.

It is claimed, however, that this construction of this language is inadmissible, and that it was used merely for the purpose of fixing the freight charges of all the companies between Neenah and New York, so that in no event should they exceed $2 25 per barrel, and that this intention is the more evident from the words "received (as agents and forwarders,") which are used in the first part of the receipt. The counsel for the appellant forcibly presented the obvious difficulties in the way of adopting this construction of the receipt. He suggests that if the intention was to fix the price of transportation to New York, the natural and proper words would have been: "freight from Neenah to New York not to exceed $2 25 per barrel." But instead of this the freight is fixed at a given amount, and then a meaning has to be given the language different from what it imports simply on its face. Furthermore if this theory is correct and such controling effect is given to the first clause of the receipt, "received (as agents and forwarders,") then it would relieve the company from all liability as carriers, and impose upon it merely the duty of forwarder from Neenah. And finally, the first part of the receipt is printed, while the words "contract from Neenah to New York, at $2 25 per bbl.," are written, and therefore the written portion must prevail over the printed part, if there is any conflict in the language. No satisfactory answer was given to these objections, and they show that the exposition of the receipt contended for by the counsel for the company is not a fair and legitimate one. We think the more natural and rational construction is, that the receipt contains an express undertaking on the part of the company to transport the flour to New York, and imposes upon it the responsibility of a carrier for the whole route.

We think, therefore, there must be a new trial. Of course we shall not be understood as expressing any opinion upon the other points made upon the brief of counsel.

Judgment of the Circuit Court reversed, and a new trial ordered.

DOWNER, J.—I dissent from the opinion of the majority of the Court in this case, and hold:

1st. That the receipt or contract in evidence, taken in connection with the evidence at the trial, is not a contract on the part of the defendant as common carrier to carry the flour from Neenah to New York.

2d. That the defendant undertook only to transport the flour to Chicago, the terminus of its own road, and there to forward it, and to fix the freight which should be charged by all the roads from Neenah to New York.

3d. That unless the defendant has greater powers than are ordinarily conferred on railroad corporations, it had not the power to make a valid contract, binding it as a common carrier to transport goods from Neenah to the City of New York. And on this point, I refer to the dissenting opinion of Sutherland, J., in the case of Burtis *vs.* The Buffalo and S. Line R. R. Co., 24 N. Y., (W. Smith,) 274, and authorities there cited.

Cincinnati and Dayton (Short Line) R. R.

The Sandusky (Ohio) *Register* says that the Cincinnati, Dayton and Eastern Railroad Company have closed the contract for the grading and mason work of their short line road between Dayton and Cincinnati, thus completing the line from Sandusky to Cincinnati. The contract provides that the grading and masonry shall be completed before the 1st of December of this year, and the work is to be commenced as soon as the frost leaves the ground. The Dayton (Ohio) *Journal*, however, of a later date contains the following respecting the same work:

It was rumored in the streets yesterday evening, that the long mooted project of the Short Line Railroad from Dayton to Cincinnati has received the finishing stroke from the Cincinnati, Hamilton and Dayton Railroad Company, and parties in that interest. The rumor comes to us in a creditable shape. We did not ascertain the particulars, but we understand that the Cincinnati, Hamilton and Dayton Railroad Company have obtained a lease of the Cincinnati, Dayton and Eastern Railroad (formerly the Sandusky, Dayton and Cincinnati) for twenty years. This is equivalent to the absorption of the latter road by the former, and the swallowing up of the Short Line enterprise, unless the Cincinnati, Hamilton and Dayton Railroad Company shall find it to their interest to build the line for their own use. If the rumor we publish is true, it exhibits the enormous capacity of the Cincinnati, Hamilton and Dayton Railroad for swallowing larger corporations than itself. It now controls its own line from Cincinnati to Dayton, the Dayton and Michigan Railroad, the Cincinnati, Chicago and Great Eastern Railroad, the Hamilton and Connersville line, and the Cincinnati Dayton and Eastern line.

The Ericsson Caloric Pump.

We gave in our issue of 12th ult., several testimonials from leading railroad companies as to the efficiency and adaptability of the Caloric Engine for pumping water at railroad stations. T. W. Kennard, Esq., Constructing Engineer of the Atlantic and Great Western Railway, stated that there were twenty on that road, which, without exception, had done their work faithfully and well. They were admirably adapted to railroad pumping, and, in fact, superior to any other engine known. They required no water, were economical of fuel, and any employee of the road could take charge of them. The cost for repairs had hardly averaged for twenty four months, $2 per engine. C. L. Haywood, Esq., Superintendent of the Fitchburg Railroad says they have been in use on that road for the past eight years, and do not require much more time and attention than an ordinary coal stove. At one station on the road, the water is drawn from the river through a three-inch pipe 500 feet in length, to a height of about 21 feet, and is then forced up about 20 feet over the top of the tank. In pumping 30,000 gallons of water, less than 100 pounds of coal is used. There are five in use on the Erie Railway, and the Superintendent of Motive Power and Machinery, says they are exceedingly economical, and are subject to but a slight depreciation under long service. J. Van Rensselaer, Superintendent of the West Jersey, Cape May and Millville, and Salem Railroads, has had eight Caloric Engines in use on his roads from three to five years. He prefers those on a solid cast iron bed plate, as now made by Mr. Robinson. The consumption of fuel is very little, the cost of repairs small, and their performance perfectly satisfactory. They are attended by switchmen. One of these engines has been in use on the N. Y. & Harlem Railroad for seven years, Mr. Buckhart, Engineer and General Superintendent, says it has done, and is still doing well. As a power machine it has no equal except water itself.

Since the publication of the certificates, of which the above is a synopsis, we have been favored with another from the pen of A. F. Smith, Esq., Sup't of the Hudson River Railroad, which we take pleasure in laying before our readers.

HUDSON RIVER RAILROAD,
SUPERINTENDENT'S OFFICE,
New York, January 30, 1867.

JAMES A. ROBINSON, Esq.,

DEAR SIR:—In reply to your request of the 28th inst., I am pleased to state the result of our experience in the employment of the Ericsson Caloric Engines for "pumping." We have five of them in use of 18 and 24 inch sizes, raising water different heights from 22 to 80 feet, and in one case drawing and forcing it more than 1,500 feet horizontally in addition to the elevation. Our first engines have been in service about seven years. All have performed their work satisfactorily, more particularly those built at your Works, being more thoroughly constructed than our earlier ones, (built by other parties), their cost of repairs is reduced to a trifling amount. We now use Caloric Engines exclusively at all stations where an independent power is required for supplying water. At different points we have substituted them for Steam Engines, with decided advantage in all respects.

My own judgment is that the "Hot Air Engine," as now constructed, (its capacity being properly suited to its work) affords the *most* economical and in every respect the *best power obtainable*. It consumes much less fuel than the best Steam Engine. It is absolutely safe against explosion and self injury from "low water." Is much safer on account of fire. Has no feed pump nor pipes to freeze up, and become useless when not running. It requires no *mechanical* skill and very little labor or attention to keep it regularly at work, and consumes far less time than steam to get in operation after starting fires. Another important advantage is that all the escape heat is easily utilized for warming Tank Houses and Water without danger from fire. In short, I may say, I consider the Caloric Engines better adapted for universal use, than any prime mover known for work within their limit.

Respectfully Yours,
A. F. SMITH,
General Superintendent.

Failures in Canada in 1866.

The following table, from the Annual Circular of Messrs. Dun, Wiman & Co., exhibits the number of failures in Canada during the past year, with the amount of liabilities and assets, as near as can be ascertained:

	No.	Liabilities.	Assets.
Toronto	12	$186,500	$89,600
Hamilton	7	73,000	39,500
London	5	45,000	23,000
Kingston	5	535,000	179,000
Ottawa	7	52,954	15,764
Balance of Canada West	173	1,111,700	590,200
Total for Canada West	209	$2,004,154	$937,564
Montreal	31	440,788	313,917
Quebec	43	471,435	274,418
Balance of Canada East	30	194,700	105,000
Total for Canada East	104	$1,106,923	$693,335
Gr'd total for all Canada	313	$3,111,077	$1,630,899

The total amount of capital employed in Canada West is $63,061,500; in Canada East, $63,741,000—total, $126,802,500.

The National Debt.

The following is a comparative statement of the Public Debt of the United States:

	Jan. 1, 1867.	Feb. 1, 1867.
Debt bearing int. in coin.	$1,400,490,741 80	$1,420,145,541 80
Debt bearing interest in currency	832,379,440 00	819,672,740 00
Matured debt not presented	16,518,589 31	15,791,454 31
Debt bearing no interest,	425,673,334 32	430,163,803 72
Total	$2,675,062,505 43	$2,685,773,539 83
Coin in Treasury	$97,841,567 75	$97,354,603 69
Currency	33,895,765 04	45,069,187 58
	$131,737,332 79	$142,423,791 27
Debt less cash in the Treasury	$2,543,325,172 64	$2,543,349,748 56

The total debt shows an increase since the 1st of January of $10,711,034 40. The balance in the Treasury shows an increase, as compared with January 1st, of $10,686,458 48. Deducting the amount on hand from the aggregate debt, both on the 1st of January and the 1st of February, the increase of debt would be $24,575 92. The total debt on the 31st of August, 1865, stood at $2,845,907,626 56. The balance in the Treasury at that date amounted to $88,218,055 13. Deducting the cash in the Treasury from the aggregate debt both on the 31st of August, 1865, and 1st of February, 1867, and the actual decrease in the Public Debt since that period has been $214,339,822 87.

Hartford Accident Insurance Company.

This company, under the management of Mr. W. E. Shader, is already doing a prosperous business and is rapidly winning a leading position in the Accident branch of insurance. Competent parties, especially fire and life insurance agents, desirous of representing a first class company of this description, should not fail to call, at their earliest convenience, on Mr. Shader, No. 155 Broadway, a genial and obliging gentlemen, willing to deal with them on the most liberal terms.

☞ Virginia papers are again agitating the construction of a railroad line from Alexandria—branch to Washington, with Alexandria, Loudoun and Hampshire Railroad, to South Branch of Potomac, with it and North Fork to the crossing of the Alleghanies, by Upshur Court House, Weston &c.—to Lotart's Falls in the Ohio River. They claim that it is the shortest and best line from the city of Washington to the Ohio. It puts Washington in connection with the Ohio nearly one hundred miles below Parkersburg, and shortens the distance some sixty miles.

☞ The Dunkirk *Journal* says that the estimated cost of construction of the Dunkirk, Warren and Pittsburg Railroad from Dunkirk to the State line, a distance of 38 miles, is about $1,900,000, or about $50,000 per mile. Among the conditions precedent to a complete organization of a company and the securing of a charter, are the subscription for stock to the amount of $38,000 ($1,000 per mile) and the actual payment of 10 per cent thereof. The amount of stock to be taken by the citizens of Dunkirk is $10,000.

Imports of Dry Goods.

The imports of foreign dry goods at New York for the month of January, were:

ENTERED FOR CONSUMPTION.

	1866.	1867.
Manufactures of wool	$3,740,464	$1,680,183

☞ A bill has been introduced in the New Jersey Legislature to incorporate the Water Gap and State Line Railroad. The capital stock is fixed at $1,200,000, with authority to increase to $2,000,000. The route is from some point on the line of the Warren Railroad, at or between the Delaware river and the point where the Belvidere Delaware Railroad intersects the Warren Railroad, intersecting with both railroads, and thence along the Delaware to the New York line.

Trade and Commerce of San Francisco.

The receipts of specie at San Francisco from the California and Nevada mines during the past five years have been as follows:

	Uncoined.	Coined.	Total.
1862	$37,549,878	$4,989,921	$42,539,799
1863	39,546,865	5,730,461	45,327,326
1864	40,130,090	5,330,325	45,460,415
1865	41,903,649	4,361,951	46,265,600
1866	39,299,850	4,565,359	43,865,209

The receipts from Washoe, Esmeralda and Reese River Mines of Nevada, (included in the above) during the same period, were as follows:

1862	$6,247,074
1863	12,486,238
1864	15,797,585
1865	15,184,877
1866	15,215,218

The imports of treasure (exclusive of those from Victoria, V. I., which are included in the coastwise receipts,) for the past five years, have been as follows:

1862	$1,087,879
1863	2,156,677
1864	1,845,909
1865	1,872,697
1866	1,298,311

The imports coastwise (including Victoria, V. I.,) and receipts from Northern and Southern mines (including Nevada State,) during the year 1866, were as follows:

Imports	$1,298,311
Receipts coastwise, including Victoria	6,673,629
Receipts from Northern and Southern Mines	43,865,209
Total for 1866	$52,837,149
Total for 1865	55,445,042
Decrease in 1866	$2,607,893

The export and destination of treasure during the years 1865 and 1866, respectively, were as follows:

To	1865.	1866.
New York	$20,995,328 68	$41,270,634 56
England	16,252,786 18	6,565,510 01
France	131,392 20	792,548 25
China	6,943,692 74	6,533,084 12
Panama and Central America	526,949 66	694,560 96
East Indies	156,504 87	.....
Japan	224,019 35	105,890 16
Sandwich Islands	44,920 00	172,345 03
Society Islands	15,500 00	.....
Mexico	152,457 00	12,004 00
Chili	51,000 00	.....
Total	$45,484,545 68	$56,146,577 09

The exports of merchandize for the past five years have been as follows:

	Domestic.	Foreign and Eastern.	Total.
1862	$6,578,780	$3,860,208	$10,438,988
1863	7,599,755	5,204,531	12,804,286
1864	7,753,933	5,587,227	13,341,160
1865	8,705,228	5,511,146	14,216,374
1866	11,934,062	5,232,834	17,166,896

The increase in the value of domestic exports of $3,229,834 over those of the previous year is mainly due to the increase in breadstuffs and grains, which have been comparatively as follows:

	1865.	1866.
Flour, bbls.	$701,556 00	$1,855,108 19
Wheat, sks.	847,534 37	4,185,597 50
Barley, sks.	183,230 77	381,426 70
Oats, bush	18,288 27	345,693 33
Total	$1,750,604 41	$6,717,825 72

The aggregate exports of merchandize and treasure for the years 1865 and 1866, have been as follows:

	1865.	1865.
Domestic produce	$8,705,228	$11,934,062
Foreign and Eastern	5,511,146	5,232,834
Treasure	45,484,546	56,146,577
	$59,700,920	$73,713,473

The amount of goods imported, and the payments made therefor, in 1865 and 1866, are approximately stated as follows:

	1865.	1866.
Foreign, at Custom House.	$10,338,898	$12,857,000
Eastern, per sail	22,862,640	17,198,204
Eastern, per steam	9,253,315	11,289,044
Freight, foreign goods	1,615,247	1,942,058
Freight, Eastern goods	3,324,381	2,555,978
Freight, Eastern steam	1,850,663	2,888,476
Duties, gold	6,708,753	7,189,763
Total	$56,003,897	$55,920,518

The actual exports in payment have been:

	1865.	1866.
Merchandise	$14,216,874	$17,166,896
Treasure	50,693,299	44,146,577
Total	$64,909,673	$61,313,473

The treasure shipments are on mercantile account. In addition to which there has been shipped $12,000,000 by the U. S. Treasury, making the aggregate shipments, as stated above, $56,146,577. Of this, about $35,000,000, is the product of California.

The arrivals of passengers at San Francisco in 1866 were 25,618; and the departures, 21,935—showing an increase of 3,683. The following statement will show the passenger movement since 1863:

	—Isthmus.—		—Elsewhere.—		—Total.—	
	Arrivals.	Depar.	Arr.	Depar.	Arr.	Depar.
1863	24,337	9,505	7,568	4,225	31,905	13,730
1864	24,622	14,529	4,963	5,643	29,585	20,172
1865	18,510	21,597	5,589	3,746	24,099	25,343
1866	20,962	17,895	4,656	4,040	25,618	21,935

The movements of Chinese population shows an excess of departures. In three years the arrivals have been 6,335; and the departures, 7,642—difference, 1,307.

☞ The Cedar Falls and Minnesota Railroad, from Waterloo to Waverly, has been leased for a term of forty years to the Dubuque and Sioux City Railroad Company. One of the conditions is that the latter Company "shall use all proper diligence in extending the road up the valley with the view of connecting with the St Paul road now being constructed south with the Cedar Valley."

☞ A dispatch dated Junction City, Kansas, January 31st, says: "This place will be the terminus of the Union Pacific Railroad during the coming summer, and great preparations are being made for a heavy business with New Mexico. Twelve large trains are already on the way from that territory to receive stocks which have been shipped to this point."

☞ The earnings of the Wrightsville, York and Gettysburgh (Pa.) Railroad for the past year were $33,241 57; expenses $23,669 92—leaving $9,571 65.

☞ The Alexandria *Gazette* says that the Alexandria and Fredericksburg Railroad Company has stopped the work of construction on its sections lately put under contract.

Arrivals of Vessels at New York in 1866.

The arrivals of vessels at this port from foreign countries during the year 1866, the class of the vessels, and the nationality of their owners, were as follows:

	Steam's	Ships.	Barks.	Brigs.	Schrs.	Total.
American	185	301	351	351	470	1,658

☞ The great Union Depot of the Michigan Southern and Northern Indiana and Chicago and Rock Island Railroad Companies, at Chicago has just been completed, at a cost of about $250,000. It is 610 feet long by 160 feet wide, and is, in its general architectural appearance and interior arrangement, said to be the model depot of the country.

☞ The citizens of Carroll, Jo Davis and Stevenson counties, Illinois, and Green county, Wisconsin, are advocating the construction of a railroad from Monroe, Wis., to Savannah, on the Mississippi river.

☞ The Amboy, Lansing and Traverse Bay Railroad of Michigan has been sold to the Jackson, Lansing and Saginaw Railroad Company. The two roads are to be consolidated.

Cumberland (Md.) Coal Trade.

We are indebted to C. Slack, Esq., of Mount Savage, Md., for the following statistics of the Cumberland coal trade for 1866, compiled by him from official sources:

Name of Company	To B. & O. R. R. Tons.	To C. & O Can. Tons.	Local. Tons.	Total. Tons.
Central C. M. & M Co	62,294	92,014	18	154,326

By Cumberland and Pennsylvania Railroad to Baltimore and Ohio Railroad	579,658
By Cumberland and Pennsylvania Railroad to Chesapeake and Ohio Canal	291,019
By Cumberland and Pennsylvania Railroad to local	13,280
By Cumberland Coal and Iron Company's Railroad to Baltimore and Chi Railroad	46,662
By Cumberland Coal and Iron Company's Railroad to Chesapeake and Ohio Canal	52,159
By Cumberland Coal and Iron Company's Railroad to local	5,580
By Hampshire and Baltimore Co. (Va. Mines) to Baltimore and Ohio Railroad	80,709
By Hampshire and Baltimore Co. (Va. Mines) to local	1,255
Total in 1866	1,079,331

Increase over 1865, 175,836 tons.

It appears by another tabular statement that from the commencement of the Cumberland coal trade in 1842 to 1866, inclusive, (twenty-five years) 7,252,163 tons have been transported over the Baltimore and Ohio Railroad, and 3,176,892 tons over the Chesapeake and Ohio Canal—total 10,429,055 tons.

☞ It is announced that the government of Honduras, through their representative in Paris, has entered into a contract with the French Government for the construction of an inter-oceanic railroad across that republic.

MERCANTILE
MUTUAL INSURANCE COMPANY,
NO. 35 WALL ST., NEW YORK.
ASSETS, Jan. 1, 1867 ..... $1,261,849.
ORGANIZED APRIL, 1844.
During the past year this company has paid to its Policy-holders,
IN CASH,
a rebatement on premiums in lieu of scrip, equivalent in value to an average scrip dividend of
TWENTY PER CENT.
Instead of issuing a scrip dividend to dealers, based on the principle that all classes of risks are equally profitable, this Company makes such cash abatement or discount from the current rates, when premiums are paid, as the general experience of underwriters will warrant, and the net profits remaining at the close of the year will be divided to the Stockholders.
This Company continues to make Insurance on Marine and Inland Navigation and Transportation Risks, on the most favorable terms, including Risks on Merchandise of all kinds, Hulls, and Freight.
Policies issued, making loss payable in Gold or Currency, at the OFFICE in NEW YORK, or in Sterling, at the OFFICE of RATHBONE BROS. & Co., in Liverpool.
ELLWOOD WALTER, Pres't.
CHAS. NEWCOMB, Vice-Pres't.
C. J. DESPARD, Secretary.

PUMPING ENGINES,
Ericsson's Caloric Pumps,
FOR economy, durability, and efficiency unequalled. Have been in use on the Erie, Central, Hudson River, Harlem and other roads for eight years. Recommended by all Superintendants in the highest terms.
JAMES A. ROBINSON,
164 Duane St., cor. Hudson, New York.

THE STEAM SIPHON PUMP
IS THE MOST SIMPLE, EFFECTIVE, AND DURable device for raising water by steam yet discovered. It is an independent lift and force pump without piston, plunger, valves, or movable parts of any kind. With the STEAM SIPHON WATER STATION a Locomotive can raise water with its own steam, and fill its tender in the same time as from an ordinary tank, thus dispensing with tanks, pumping machinery, and men to attend them. It cannot get out of order, or freeze up, and is an efficient fire engine where steam power is employed, as at Machine Shops, Car Shops, Elevators, &c. For Circulars and other information address
STEAM SIPHON COMPANY,
48 Dey St., New York.

TO CIVIL ENGINEERS.

AN ENGINEER of practical experience, from England, would be happy to treat with any gentleman requiring his services, for the execution of all kinds of work appertaining to the above profession. Address A. Z., care of Messrs. BROWN, COOMBS & CO., 189 Broadway.

NEW YORK CENTRAL RAILROAD CO., TREASURER'S OFFICE, ALBANY, Jan. 28, 1867.

TWENTY-SEVENTH SEMI-ANNUAL DIVIDEND.—The Directors of this Company have declared a Semi-Annual Dividend of Three per cent. on the Capital Stock thereof, free of the United States income tax, payable on the twentieth day of February next.

Dividends in New York will be paid at the office of DUNCAN, SHERMAN & CO; in Albany, at the ALBANY NATIONAL CITY BANK.

The Transfer Books will be closed at the close of business on Thursday the thirty-first day of January instant, and be re-opened on the morning of Saturday, the twenty-third day of February next.

4t5 E. D. WORCESTER, Treasurer.

NOTICE.—Contractors with capital can hear something to their advantage, by addressing the undersigned. *None* but those *with capital* and good references need apply.

TENCH F. TILGHMAN,
Eng. & Sup't Md. & Del. R. R.,
2t5 Greensborough, Maryland.

OFFICE ILLINOIS CENTRAL RAILROAD COMPANY, January 15, 1867.

AT a MEETING of the Board of Directors of this Company, held this day, it was Resolved, That a DIVIDEND of FIVE PER CENT. in cash, free of Government Tax, be paid on the first day of February next to the holders of the full-paid shares registered on the nineteenth day of January instant, and that the Transfer Books be closed on the said nineteenth day of January, and opened on the sixth day of February.

THOMAS E. WALKER, Treasurer.

To Engineers and Boiler Owners.

THE ANTI-INCRUSTATOR,

A certain means of removing scale from steam boilers and keeping them clean. The Anti-Incrustator effects a very decided saving in fuel and greatly lessens the danger of boiler explosions.

This instrument works

IN THE STEAM-CHAMBER OF THE BOILER,

silently and without shock, and without the use of acids, powders or compounds, and the first expense is the only one attending its use.

The New York Anti-Incrustation Company are now prepared to equip steam boilers with their Anti-Incrustator and

GUARANTEE

it will remove scale or incrustation from boilers and keep them free from it.

Every information given at the office, No. 78 William Street, first floor, back room.

President.—BARRET H. VAN AUKEN.
Treasurer.—WILLIAM R. GARRISON.
Secretary.—J. R. ESTILL.
Directors.—B. H. Van Auken, C. K. Garrison, Charles Roome, Homer Ramsdell, Joseph E. Coffee, Enoch Ketcham, H. G Leisenring. 3m47

THE ATLANTIC BRIDGE WORKS,

Office, No. 157 Broadway,
NEW YORK.

POST, McCALLUM & CO.,

Bridge and Roof Builders,

Are prepared with all the necessary machinery and an experienced corps of assistants, to sink **Hollow Piles** and **Coffer Dams** by the **pneumatic process** for the foundations of Bridges, Docks, Sea Walls, Light Houses, or other marine constructions.

By the use of new patented machinery they are able to perform work of this character with much greater rapidity than has been possible heretofore, and at reduced cost.

Parties in the Western States may apply to Gen. Wm. S. Smith, care of Roomer, Boyington & Co., No. 14 Dearborn St., Chicago, Illinois.

SHIP FELT, CARPET FELT, BOILER FELT.

THE very superior Felt, manufactured by the Lowell Felting Mills, can now be furnished in quantities to suit purchasers, from the new and extensive mills now completed. Also, pipe, truss, upholstery and all other Felts. Apply to the branch office of the Company.

EDW. F. DAVISON, 138 Pearl St.

RAILROAD TIES.

The undersigned are prepared to furnish Railroad Ties of **Hackmatack, Cedar, Pine, Hemlock** and **Spruce** in any quantity. Also every description of **Northern** and **Southern Pine, Oak** and **Spruce** for **Railroad Cars, Bridges, &c., &c.**

BRADFORD & RENICK,
8m50 **71 Broadway, New York.**

BORDEN & LOVELL,

STEEL PEN WORKS,

CAMDEN, N. J.

THE ESTERBROOK

Steel Pen Manufacturing

COMPANY,

WAREHOUSES, { 51 JOHN STREET, N. Y. / CAMDEN, NEW JERSEY.

Samples and prices on application. Lots made to order of any pattern or stamp required.

CAUTION.

These Pens are of genuine American manufacture, and equal in finish, elasticity, and fineness of point to the best imported. They are, therefore, sure to gain the confidence of the American public. The fac-simile of our signature is sufficient security against foreign imitation.

Pacific Mail Steamship Company's

THROUGH LINE TO

CALIFORNIA,

And Carrying the U. S. Mail,

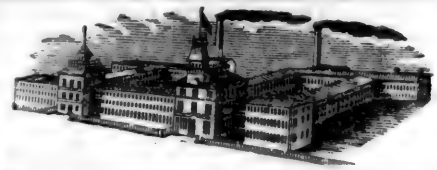
VIA PANAMA RAILROAD.

LEAVE PIER NO. 42 NORTH RIVER FOOT OF Canal Street, at 12 o'clock noon, as follows:

Feb 1.—RISING STAR, Capt G W. Furber, connecting with MONTANA, Capt. Sutton.

Feb. 11.—HENRY CHAUNCEY, Capt. A. G. Gray connecting with CONSTITUTION, Capt. Caverly.

Feb 21.—OCEAN QUEEN, Capt. T. A. Harris, connecting with GOLDEN AGE, Capt. Lapidge.



All Departures touch at ACAPULCO; those of 1st and 21st connect at Panama with steamers for SOUTH PACIFIC PORTS, 1st and 11th for CENTRAL AMERICAN PORTS. Those of 1st touch at MANZANILLO.

Departure of 11th each month connects with the new steam line from Panama to Australia and New Zealand.

Steamer of March 1:, 1867, will connect with the Company's steamer COLORADO, to leave San Francisco for Yokohama and Hong Kong on April 3, 1867.

100 Pounds Baggage allowed each adult. Medicine and attendance free. For Passage Tickets and all further information apply at the office, on the wharf foot of Canal Street, North River, New York.

7m35 F. R. BABY, Agent.

ENGINEERS AND CONDUCTORS' WATCHES.

THE AMERICAN WATCH COMPANY, of Waltham, Massachusetts, request us to publish the following letters, recently received, recommendatory of Waltham Watches for railway use. The Pennsylvania Railroad Company have for several years furnished to their employees watches specially made for them by the Waltham Company, and it is this class of watches the Superintendent, Mr. Williams, refers to. Similar watches (in strong silver or gold cases, with plate-glass crystals) we are prepared to supply, named and engraved to order; and of them, as being most suitable for the use of Engineers, Conductors, Station-Masters, of Expressmen and Messengers, the Company give the most ample guarantee. It is a remarkable fact that Railroad Companies using our watches suffer much less from collisions and similar accidents than any others.

Any of the grades of Waltham watches may be purchased of Watch Dealers generally throughout the country.

ROBBINS & APPLETON,
182 Broadway, New York.
ROBBINS, APPLETON & CO.,
158 Washington Street, Boston.

PENNSYLVANIA RAILROAD CO.

OFFICE OF THE GENERAL SUPERINTENDENT, ALTOONA, PA., 15th Dec., 1866.

GENTLEMEN,—The Watches manufactured by you have been in use on this Railroad for several years by our Enginemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable timekeepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs, than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation, but as a class they never kept time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years. Respectfully,

EDWARD H. WILLIAMS,
General Superintendent.
AMERICAN WATCH COMPANY, Waltham.

NEW YORK CENTRAL RAILROAD.

LOCOMOTIVE DEPARTMENT, WEST. DIVISION, ROCHESTER, Dec. 24, 1866.

GENTLEMEN,—I have no hesitation in saying that I believe the great majority of Locomotive Engineers have found by experience that Waltham Watches are the most satisfactory of any for their uses. They run with the greatest accuracy and steadiness, notwithstanding the rough riding of an engine, and as I have never known one to wear out, they must be durable. I hope to see the time when Railway Companies will generally adopt your watches, and furnish them to all Engineers and Conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours respectfully,

CHARLES WILSON, G. Chief Engineer,
Brotherhood of Locomotive Engineers.
AMERICAN WATCH CO, Waltham, Mass.

American Street Cars.

Street Railroads and Horse Cars, so common in all our chief cities, though tabooed in London, are used quite extensively in Paris, as also to some extent in the suburbs of Liverpool, and many other cities abroad. American Manufacturers in this line are to be represented at the Paris Exposition by a superbly constructed and richly finished City Railroad Car, from the long-established and well and favorably known manufactory of Messrs. JOHN STEPHENSON & Co., of this city. It is far superior to any like vehicle yet produced. New York was the birth-place of these Street Railroads, and the Messrs. Stephenson excel in the production of this specialty. The car sent to Paris, in size and shape, is about the same as those in common use, (of which Messrs. Stephenson made and delivered *three hundred and sixty-eight* during the year 1866,) excepting it is designed to accommodate passengers on the roof, much like those used for a time on the Third Avenue Railroad a few years since. The upholstering, however, as well as the general finish, outside and in, are wrought up to the highest perfection. The body of the car rivals plate glass in smoothness and clearness. On the panels are landscapes and other views done in a highly creditable manner. This car is one of a number built for the India Street Railway Co., of Bombay, and stops at Paris on its way to India. The builders have lately furnished cars for roads in Pernambuco, Rio Janeiro, Buenos Ayres, Valpariso, Carizal, Quebec, Montreal, Halifax, Galveston, New Orleans, Charleston, St Louis, Cincinnati, Louisville, Memphis, Nashville, and numerous other cities, South and West. Mr John A. Tackberry, of the firm, will visit Paris to prepare this car for the exhibition.

The Locomotive "America" for the Paris Exhibition.

Paterson, N. J., the great centre of locomotive building in this country, has furnished to represent this branch of American manufacture at the French Fair, an express locomotive of the ordinary general design, which is the most expensively finished of any ever produced.

It is a coal burner, cylinder 16 by 22, two pairs of drivers 5 feet 6 inches in diameter, and is a good specimen of our generally approved style of fast engines.

It is American in the fact, that wherever long practice with any single detail of handwork is required for excellence, the machine though in every point creditable, does not particularly excel; while wherever tools, design, planning, and intelligent invention is concerned, its superiority is very marked.

It is strong, convenient, and intensely effective, fast and dashy. Its boiler is of Sligo iron, one of the best brands of Pennsylvania charcoal plate, double rivetted longitudinally, and the whole is covered with burnished German silver. Thus the entire body of the locomotive, as also the smoke pipe, shines like a new razor.

The chimney is filled in between the main shell and the polished covering with a thickness of about an inch of plaster of Paris, the material used in the famous Salamander safes, to prevent the heat from affecting the surface. The cylinders and steam chests are also silvered. The frame of the locomotive, the rods, levers, etc., as also even the springs, are draw-filed throughout. Much of the work after being thus exquisitely finished, is painted to avoid the necessity of keeping it rubbed bright.

What will be remarkable in the eyes of mechanics everywhere, is that the truck frames of the tender are forged each in a single piece, and finished all over. The leaf steel springs are bedded on rubber to kill the tremulous vibration, according to our most approved modern practice. The cab, for the engineer and fireman, (European engineers stand exposed,) is of course, wood, in the qualities, selection and working of which America is always pre-eminent. It is richly variegated with black walnut, ash, and curled maple.

One of the marked features in this magnificent machine, is the presence of the best inventions of our American mechanics which have been thoroughly tested, and the absence of untried schemes, or those of doubtful merit.

This locomotive will carry to Europe, in each steam chest, under each of the slide valves, two sets of hardened and polished steel rollers, running on similarly prepared tracks. This is an invention for saving friction which has lately become highly popular in this country, both in marine and locomotive engineering. The inventor, Capt. Bristol, of Chicago, has died, but this manufactory, the Grant Locomotive Works, better known as the New Jersey Locomotive and Machine Company, was one of the foremost in adopting the improvement. It is intended also, to send separate sets, showing this mode of mounting valves detached from the engine, so that the rollers and steel bars can be readily inspected by the Europeans. The truck supports the front end of the locomotive on swinging links, what is sometimes called the Half-Bissell, the invention of Levi Bissell and Alba F. Smith of this city. The furnace is very large, and the grate is of water tubes arranged zig-zag, with two spaces at the lowest points stopped by movable grate bars, to be dropped when it is desired to suddenly discharge the coal and extinguish the fire in any emergency. This is the invention of Mr. Milholland, of Reading.

We believe in giving credit to the intellects which conceive, as well as to the enterprise and skill which carries forward improvements. In this case both deserve and will receive much praise. Under the system by which this specimen,

like all of the other work from this establishment for the last three years, has been produced, every piece is executed by gages like the parts of our Government muskets, or Waltham watches, so that they are exactly fitted. This machine may be sold for a railroad in Egypt or Northern Russia, and a duplicate of any part if broken, can be supplied from the shop, ready to match exactly. The frames to apply on each side, for example, are clamped together and cut exactly alike. The holes in each piece are bored through a templet of cast iron, clamped firmly upon the work, the drill being inserted through a bushing of hardened steel in the templet applied successively in the several holes.

Altogether this proof of the advanced condition of mechanical science in this country appears likely to form the most brilliant and attractive, as well as one of the largest and most carefully constructed machines in the entire exhibition.

New Jersey Railroad and Transp. Co.

The following is an abstract of the report of this company for the year ending December 31, 1866:

RECEIPTS.

From passengers		$1,275,588 06
From freight		269,768 74
From U. S. mail, rents, express, freight and other sources		225,505 60
		$1,770,862 40

EXPENSES.

Maintaining railroad, bridges and buildings	$237,207 02	
Repairs of locomotives, cars and machinery	153,897 10	
Fuel—cost and labor in preparing	165,517 78	
Operating the road and transporting passengers and freight	408,602 95	
Office expenses, salaries and contingencies	16,622 61	
		981,847 46
		$789,014 94
Interest on bonds		$55,629 27
Transit duty on passengers & freight		43,610 53
State tax on capital stock		25,000 00
Government tax		68,716 87
Sinking fund		20,000 00
Dividends in cash, Aug. and Feb.		499,995 00
Profit and loss, to surplus earnings		76,063 27
		$789,014 94

The number of passengers transported over the road during the year was as follows:

Over the whole line of the road	664,510½
Between Jersey City and Newark	1,685,402
" " Elizabeth	170,909½
" " Rahway	156,100½
" " Uniontown	16,788½
" " N. Brunswick	136,077½
" all intermediate places	738,402½
Total, not including commuters and free passengers	3,568,191

The number of tons of goods, wares and merchandise transported over the road during the year was as follows:

Over the whole line of the road	20,099
Between Jersey City and Newark	41,812½
" " Elizabeth	12,974
" " Rahway	11,796
" " N. Brunswick	28,517
" all intermediate places	141,335½
Total	256,534

Number of miles run by passenger, freight and other trains, 638,632.

GENERAL STATEMENT.

Capital stock		$5,000,000 00
Funded debt		855,000 00
Profit and loss, being surplus earnings represented by permanent improvements, and the property and cash stated below	$407,451 30	
Dividend, 1st January, payable 1st February, 1867	249,997 50	
		657,448 80
		$6,512,448 80
Cost of road and equipments:		
For graduation and masonry, bridges, superstructure, iron, passenger and freight stations, buildings and fixtures, engine and car houses, workshops, machinery and fixtures, engineering, land and land damages		$3,890,328 60
Locomotives, tenders & snow plows		452,250 00
Cars—passenger, freight & baggage		365,314 00
Property, viz:		
Bridge, ferry, turnpike and other stocks, real estate, ferry boats, privileges and fixtures, (including the property and privileges purchased of the Jersey Associates for $485,000)	$1,580,141 10	
Cash in bank, cash items, and balances due	224,415 10	
		1,804,556 20
		$6,512,448 80

President.—ALFRED L. DENNIS.
Secretary.—F. W. RANKIN.
Treasurer.—H. J. SOUTHMAYD.
Gen'l Superintendent.—F. WOLCOTT JACKSON.

Norwich and Worcester Railroad.

The receipts of this company for the years ending November 30, 1865 and 1866, have been as follows:

	1865.	1866.
From passengers	$265,506 87	$255,491 05
" freight	427,923 96	473,252 18
" mails, express etc.	20,627 00	21,934 94
	$714,057 83	$750,678 17
Expenses, viz:		
Repairs of road	$61,285 20	$81,587 87
" bridges	4,912 14	440 11
" locomotives	24,956 67	67,106 62
" cars	56,004 96	58,378 80
" tools	6,168 99	8,451 48
" stations	7,928 71	17,948 33
Fuel	59,000 74	60,364 18
Oil and waste	7,568 67	10,476 28
Passenger expenses	29,688 14	31,216 65
Freight expenses	67,935 00	75,955 95
Taxes and insurance	35,805 18	48,698 44
Gratuities and damages	57,498 49	15,308 01
Salaries	9,833 34	10,849 86
Removing snow and ice	178 86	57 62
Printing & advertising	2,938 39	2,922 99
All other expenses	13,958 30	10,387 55
	$445,661 78	$500,149 74
Net earnings	$268,396 05	$250,528 43
Interest paid	26,481 59	26,591 71
Balance	$241,914 46	$223,936 72

A dividend of five per cent. was paid on the 13th of July, 1866; and one of four per cent. on the 10th of January, 1867—both free of U. S. Government tax.

The capital stock of the company consists of 28,250 shares of $100 each ($2,825,000); of which 23,540 shares are in the hands of Stockholders upon which dividends are paid; 590 shares are in the hands of the Company's Treasurer; 4,000 shares are held by the State of Massachusetts as collateral to debt; and 96 shares of common stock never surrendered, and made preferred, to which add one-fourth, or 24 shares, to be paid in on the surrender of the 96—making the total as above, 28,250 shares.

The road is 59.4 miles in length extending from Norwich to Worcester. At Norwich a connection is made with the New London Northern Railroad; at Plainfield Junction, with the Hartford, Providence and Fishkill Railroad; and at Worcester, with the Worcester and Nashua, Boston and Worcester, Fitchburg and Worcester, Providence and Worcester and Western Railroads. It has 1⅛ mile of double track. The aggregate length of sidings, and other tracks, excepting main track and branch, is 7.2 miles. Branch line to Allyn's Point, 7 miles.

The equipment consists of 19 locomotives, 26 passenger and baggage cars, and 346 eight-wheel and 110 four-wheel freight cars.

Cost of road from Norwich to Worcester	$2,083,861 86
Allyn's Point Extension	177,544 29
Junction at Norwich	21,274 88
Equipment	498,596 80
Tools and machinery	31,735 55
Total cost of road, equipment, etc.	$2,812,513 38

The assets and liabilities of the company November 30, 1865 and 1866 were as follows:

Assets:	1865.	1866.
Cash, notes and balances due the company	$126,798 10	$80,956 44

Cash on hand	153,057 73	234,518 35
	$622,811 57	$726,022 98

The project of constructing the Cumberland Valley Railroad was commenced by the employment of W. Milnor Roberts, as the Chief Engineer of the company in the beginning of the year 1835. In October of that year he made the first report of his preliminary surveys to the Board of Directors, in which he estimates the cost of the road "composed of strong white oak rails and sills and flat iron bars 2¼ by ⅝ inches completed in the most substantial manner, including the cost of bridge across the Susquehanna River at $564,-064." Mr. Roberts then proceeded to say "I have endeavored to ascertain, as near as practicable, the amount and kind of trade that may be anticipated upon the completion of the railroad," and after a careful examination of the capabilities and enterprise of Cumberland and Franklin Counties, confidently predicts, that the local trade of the valley will, in a few years, be equal to 51,-950 tons. In the following two years the road was built at an expense within a few hundred dollars of the estimate. In 1849-'50 the road was rebuilt with a heavy T rail at a cost of $268,696 17. The anticipations of the amount of tonnage were not quite realized upon the old road, but since its reconstruction in 1866 the freight amounted to 188,215 tons. And whilst that report anticipated that the aggregate annual receipts would reach $254,617 50, during the last year, they have amounted to $564,497 90.

Heretofore the transaction of our business has been upon the mixed system of private carriers and company cars, a system, which experience has taught us the necessity of changing; and we have only been prevented by the rebellion of the last five years from carrying the change into effect. This has involved a large outlay for depots, houses, and rolling stock sufficient to carry the entire tonnage of the road. But it has been accomplished. And now it may be said for the first time that we have entire possession of the business of our own road. A freight house has been purchased at Hagerstown and an addition built to it, equal to the business at that point; a freight house has been purchased at Greencastle; a new freight house and passenger depot have been built at Shippensburg; a new freight house has been built at Newville; that at Carlisle is ample for our business; a temporary arrangement has been made at Mechanicsburg, where a new passenger depot is in course of erection. The depot building at Chambersburg has been completed; there have been purchased twenty-five acres of land, at the point of junction of the old Franklin road, at a cost of $5,250—which will greatly facilitate the transaction of our business.

For the attainment of the same object during the past year, there have been 30 new eight wheel cars put upon the road, and 25 more will be ready by the middle of December; in addition to which, we have purchased from individual freighters 24 long and 10 short cars, so that our own cars will very soon be equal to the whole business of the road.

There have been put into the road during the past year 357 tons of new iron, 2,708 new chairs and 21,000 new oak cross ties—and ten miles of the road have been perfectly ballasted with broken limestone.

A comparison of the aggregate receipts for freight of the past and present year show a continued increase of the amount of business to be done; the total amount of receipts for freight exclusive of military transportation of the year preceding the 1st Oct., 1865, was $194,580 32, whilst that to 1st Oct., 1866, was $270,874, showing an increase of $76,293 68. This can be attributed to no other cause than the substantial increase of the products of the valley; for there have been no adventitious circumstances to augment the business of the road, and its position makes it almost a perfect measure of the valley's products.

But the tonnage of the road has not yet reached its greatest amount. The quantity of coal consumed in the valley has been gradually increased from year to year and yet there is not more than one-half as much as there will be in a few years. It is to the use of lime that the wonderful increase in the products of the land is to be attributed, and yet its use is but still forcing its way against the prejudices which exist in favor of the old system of agriculture. It is the removal of this prejudice which will demand a great increase of coal, for a great increase in the production of lime; and a consequent increase of agricultural products. There is no item of trade upon our road, which more requires our fostering care and attention, than that of the transportation of coal:—that it should be furnished to consumers at the cheapest cost of production and lowest rates of transportation. The amount carried during this year has been 38,135 tons, whilst the amount for the preceding year was 26,402 tons, showing an increase in the last year of 11,733 tons.

There is perhaps no section of this country, where iron ore so abounds as in the Counties of Cumberland and Franklin, through which our road runs, and lately there has been opened a mine within four miles of Shippensburg which promises an abundance equal to almost any demand; and its proprietors are now surveying the route of a railroad to connect with the Cumberland Valley Railroad at that point. The completion of this will add greatly to the tonnage of our road.

The large amount of expenditure necessarily attendant upon the change of our mode of transacting business—in the purchase and erection of warehouses, cars and engines and in the necessity which exists of putting our road into perfect condition by ballasting it thoroughly and extending its sidings, will not so affect the finances of the company as to interfere with its usual dividends to stockholders; for whilst the late rebellion prevented the improvements which are now being made we did not lose sight of the necessity for preparing to meet the expenses of them, when the time should arrive for their completion; hence the cost has been met out of the contingent funds of the company.

The natural growth of the business of the company enabled it to add to its extent, by the purchase of the line of the Franklin Railroad; this necessarily added to its capital, and inasmuch as this was affected by the accumulated surplus of the company, it suggested the propriety of dividing this surplus amongst its stockholders in the shape of stock at its actual cost. The board therefore in addition to the usual dividend of four per cent. declared an extra dividend of twenty-five per cent. payable in stock.

This will increase the number of shares, about 4,450 and consequently the capital stock about $222,500. For fractions of shares, it was left to the option of holders to receive the fraction in cash, or pay to make the full amount of the share—and the 1st of November, 1866, was fixed as the period when the option should cease. We do not therefore speak exactly of the number of shares or the amount of capital added because at the end of the fiscal year these amounts were not actually settled by the expressed option of the stockholders.

The old rails on hand will afford a sufficient supply, when re-rolled for the ensuing year, with one hundred tons of steel rails which it is our purpose to commence the use of. Experience seems to prove that steel rails at double the cost of iron are cheaper than those which we have been accustomed to use. We will require one new passenger engine; that, together with the enlargement of our carpenter shop at Chambersburg, the building of a freight house at Mechanicsburg and the ballasting of our road, will make up the extraordinary expenses of the next year.

The equipment of the road consists of 14 locomotives, 12 passenger, 5 mail and express, and 190 freight cars. The number of miles run by locomotives with passenger trains, was 122,836; with freight trains, 84,188; with construction trains, 10,276—total miles run, 217,300. Passengers carried east, 142,844; do., west, 150,210—total, 293,054.

General Statement.

Cost of road and equipment	$1,691,037 05
Materials on hand	68,891 65
Trustees of sinking fund	115,316 01
Balances of accounts	16,673 43
Cash, 1st October, 1866	234,518 35
	$2,126,436 49
First preferred stock	$241,900 00
Second " "	243,000 00

President.—Frederick Watts.

Directors.—Frederick Watts, Thomas A. Biddle, Thomas A. Scott, John Hulme, Wistar Morris, Josiah Bacon, H. J. Lombaert, Daniel O. Gehr, Thomas B. Kennedy, Edmund Smith, J. Edgar Thomson.

Secretary and Treasurer.—Edward M. Biddle.

Superintendent.—O. N. Lull.

☞ Both branches of the Alabama Legislature have passed a bill granting State aid in extending the Decatur road through to Nashville. The act allows $10,000 a mile.

☞ The valuation of taxable property in Nebraska last year was $17,835,881, an increase of more than $4,000,000 on the valuation of 1865.

Improvement of Champlain Canal.

At a meeting of the friends of the Hudson River and Champlain Canal Improvement at Albany, on the 6th inst., the following resolutions were unanimously adopted:

Resolved, That the interests not only of the northern part of the State, but the interests of the entire State, of the States of the great West, and of the entire Nation, demand the completion of ship navigation between the Hudson River, Lake Champlain and the St. Lawrence, and that we hereby pledge our individual exertions for the adoption of some practical plan for the speedy completion of such a work.

Resolved, That as a means of carrying out the foregoing resolutions and as the sense of this meeting, we appoint a Committee to ask the Legislature to pass a law for the improvement of the Hudson River and Champlain Canal, in pursuance of the Report of the State Engineer just made, and that we hereby pledge ourselves to further that proposition by all lawful means in our power.

Resolved, That we appoint a Committee to confer with the members of the Legislature and ask them to unite with us in making increased facilities for securing to this State the carrying trade of the West and North.

In accordance with the above resolution, a Committee was appointed, with Hon. Alex. Barclay as chairman. Also a Finance Committee, with instructions to report to the Treasurer of the Company. A committee was also appointed to procure and publish statistics showing the feasibility and propriety of the contemplated improvement of the river and canal.

The Engineer's report was read, estimating the enlargement of the Champlain canal at $5,000,000 and the improvement of the river at $4,000,000.

Mineral Resources of the Pacific Slope.

Mr. J. Ross Browne, who was appointed Special Commissioner under a provision of the appropriation act of July 28, 1866, authorizing the collection by the Secretary of the Treasury of "trustworthy statistical information concerning the gold and silver mines of the Western States and Territories," has submitted a valuable and interesting report, from which we condense some of the most important passages. The report embraces only the country west of the Rocky Mountains.

The product of gold and silver for Oregon, California, Nevada and Washington Territory, is estimated as follows:

In 1861	$43,391,000	In 1864	$63,450,000
In 1862	49,370,000	In 1865	50,000,000
In 1863	52,500,000		

Well-informed persons estimate the products for 1866 as follows:

California	$25,000,000	Oregon	$8,000,000
Montana	18,000,000	Other sources	70,000,000
Idaho	17,000,000		
Colorado	17,000,000	Total	$106,000,000
Nevada	17,000,000		

This is four times as great as the total product of the world less than 30 years ago. For the last 13 years the yield of gold in California has been decreasing, but the yield of the quartz mines on the Pacific Coast is increasing slowly. The following table shows the exportation of treasure from California manifested at San Francisco.

1849	$4,921,250	1858	$47,548,025
1850	27,676,346	1859	47,649,062
1851	42,582,695	1860	42,203,345
1852	46,588,434	1861	40,639,080
1853	57,330,034	1862	42,561,761
1854	51,328,653	1863	46,071,920
1855	45,182,631	1864	55,707,201
1856	48,880,543	1865	44,984,546
1857	48,976,697		

In 1861, according to Prof. Ashburner's statistics, there were 38 quartz mills in California. The cost of extracting the quartz in 28 of these is reported at $2, and less than $3, as the minimum, and $26 as the maximum expense. In seven mills the cost of stamping ranged from 50 cents and less than $1 to $3, and less than $4 per ton. In 13 mills the cost of treatment ranged from $1 and less than $1 50 per ton to $8 31. The lowest loss of mercury in working 1,000 pounds of quartz is seven pounds of mercury, and the highest 198 pounds, the yield in the former being reported at $25 per ton, and the latter $17 14 per ton.

In 1865 Mr. A. Remond, in the service of the State Geological Society of California, visited the districts lying between the Merced and Stanislaus rivers, from whose report it appears that the average width of lodes ranged from 1 foot to 25 feet; the average gold per ton, from $4 to $180; the average cost of extraction per ton, from $1 to $60; the average cost of transportation to mill, from 25 cents to $11, and the average cost of treatment, from 75 cents to $7. In mine No. 48 (Watt's), the vein is only two inches thick, and it costs $60 to get out a ton of ore, produing a yield of $180 per ton, while in No. 62 (Old Whisky Hill), it costs only 50 cents to take out a ton of rock from a vein 15 feet wide, yielding an average of $15 per ton. Out of 67 mills 38 were not running, 2 were ruined, and 2 unfinished. The cost of 11 mills was under $2,900 each; of 20 mills, it was between $3,000 and $3,900, inclusive; of 14, it was between $5,000 and $9,000, and of 14, it was $10,000 or more, in one case being $42,000. The lowest number of stamps in a mill was 3, and the highest 35. The power used in 52 mills was water; in 11 mills, steam; 3, water and steam.

Grass Valley in Nevada County, Cal., is the most productive gold quartz mining district in the world, the annual yield of an area within a radius of four miles being $3,500,000, an average of $1,700 to each laborer employed in the mines.

The total product of the Hayward claim, one of the most notable mines in California first opened in 1851, is said to be $6 000,000. For the year ending September 30, 1866, the receipts of bullion from the Allison mine at Grass Valley was $531,431 41, and the net profits $368,042 18. The richest placer mine in the State is that of the Blue Gravel Mining Company at Smartsville, in Yuba County. The yield from March, 1864, to September, 1866, was $599,948. The Comstock lode in Nevada is the most productive in the world, a strip of land 600 yards wide and 3 miles long, yielding $12,000,000 annually. For 1866 the yield was $16,500,000, and the total yield since 1859 has been $70,725,000, being only $50,000 the first year and $100,000 the second.

The fluctuations in Mining shares in the earlier periods of mining speculations is curious. In the early part of the Summer of 1859, the Ophir ground in Nevada could be bought for $100, and the Gould & Curry for $3 per foot. In less than eight months the former had risen to $1,000 per foot, and the latter to $600 per foot. In less than two years from that time the Gould & Curry was selling at the rate of $5,000 per foot, but one year thereafter at less than $1,000; in April, 1865, it sold for a little over $3,000, and now can be bought for about $500 per foot. While some at Gold Hill have fluctuated still more widely, this is not considered an extreme case.

Of the 179 mills in Nevada, 89, carrying 1,440 of the 2,564 stamps, are in Washoe district. These mills have a capacity equal to 3,841 horse-power, and cost, in the aggregate, over $5,500,000, all the other mills in the State having but 2,481 horse-power and costing $5,500,000. The Reese River region contains 32 mills, carrying 310 stamps, with a capacity of 410 horse-power, and costing $1,500,000. The product of the State is readily calculated when it is remembered that from the Comstock lode is extracted more than 90 per cent. of all the bullion produced in Nevada.

The yield of the mines in Oregon for the present year do not exceed $2,000,000, nearly the whole being the products of placer diggings. The yield of Washington Territory is put down at $1,000,000, though three-quarters of this amount is the product of British Columbia. The public press of Montana claim that the product of the Territory for the year will reach $15,000,000; but this is thought too high an estimate. The product of Idaho will not fall short of $10,000,000, some estimating it much higher.

The copper resources of the Pacific Coast are becoming important. The following table shows the exportation of ores from San Francisco since 1862:

Year.	To New York. Tons.	To Boston. Tons.	To Swansee. Tons.	T'l Tons.
1862	86	3,575	....	3,660½
1863	1,337	4,209	8	5,553½
1864	4,906	5,064	264⅓	10,234
1865	4,146½	9,050	2,592	17,788
1866	7,676½	3,415¼	10,385	21,467½

The quicksilver mines of California are known as the New Almaden mines, and have been open since 1850. In August, 1863, a period of 10 years and 11 months, the total amount of ore consumed was 102,313,442 pounds, and the produce of quicksilver 308,756 flasks, or 23,519,834 pounds. From November, 1863, to December, 1864, the total product was 46,216 flasks, or 3,566,200 pounds, to which is to be added 720 flasks from washings. In 1865 the gross product was 47,078 flasks, or 3,604,465½ pounds, to which is to be added 116 flasks from washings. The gross product for 1866 was 30,029 flasks. The following is a comparative statement of all the quicksilver exported from California to various countries since 1859:

	1859. Flasks.	1860. Flasks.	1861. Flasks.	1862. Flasks.	1863. Flasks.	1864. Flasks.	1865. Flasks.	1866. Flasks.
New York	250	400	600	2,265	95	1,695	6,800	8,500
Great Britain	....	....	2,500	1,500	1,062	1,609	10,400	10,500
Mexico	103	3,886	12,061	14,778	11,590	7,483	2,650	6,450
China	1,068	2,775	13,788	8,725	8,889	18,908	14,250	17,250
Peru	571	750	2,804	8,439	8,376	4,300	5,500	5,500

Victoria, V. I.	19	827	116	5	42	21	....	....
Total	3,399	9,448	35,995	33,747	26,014	36,918	41,800	45,900

The other quicksilver mines in California did not average 1,000 flasks per month in 1866:

Borax was discovered in California in 1856, and since that time but one company has been formed for its production. About two tons of crude crystal are produced daily.

☞ The Montreal *Herald* says that the people of Dundee, county of Huntingdon, are in want of a railroad between Victoria Bridge and Potsdam Junction, and are willing to take stock to the amount of $50,000. This road, if constructed, will be a virtual extension of the Rome, Watertown and Ogdensburg Railroad to Montreal.

The Future Prospect of the Coal Trade.

The low prices of coal, the extension of its consumption caused by these low prices—the immense increase in the consumption last year, under adverse circumstances; the few new collieries prepared last year—together with the small amount of dead work done this winter to prepare the collieries for an increased business, with the prospects of a clear market to open with in the Spring, greatly improves the prospect for the trade of 1867; and we hope the operators will reap a better harvest in this region at least than they did last year.

The Philadelphia and Reading Railroad, the controlling transporting company for this region, earned over 12 per cent., and the coal operators sunk at least a million dollars in producing the tonnage which filled their coffers.

This region never can, or will, flourish like the other regions unless we have increased outlets to market. All the other regions have competition in transporting as well as mining; but here one corporation controls all the outlets and all the lateral roads, except at a point where the Lehigh and Mahanoy Railroad penetrates, which is only accessible to a few collieries. The distance from Pottsville to New York direct is only 145 miles, yet all the coal from this region destined for New York must take a circuit of over 200 miles to reach that market, and there compete with the coal from the other regions, carried at a less expense. Last year the trade opened with 40 cents in transportation against Schuylkill County compared with transportation from the other ports of shipment to the New York market, and this difference continued throughout the whole year. So long as there was a demand for all the coal produced, the enterprise of our operators, even under such disadvantageous circumstances, increased our trade over a million of tons—but as soon as the demand slacked off little we were placed in a condition of only furnishing such quantities as the other regions could not; the whole trade was prostrated, and our operators lost largely, while the other regions diminished their supplies but little, and consequently closed with a profit on their business.

The Legislature of this State passed a law providing for the emancipation of the people of this region by granting a very liberal charter for two roads, one running to New York and the other to Philadelphia. It only requires a subscription of $30,000 to the stock of these roads by the whole coal interests of Schuylkill County to secure these outlets, but the tyranny exercised towards the coal operators by refusing facilities to those who dare to refuse to comply with the exactions of the controling carrying company seems to have drawn all the life and spirit out of the operators, both here and in Philadelphia.

With our industry protected, the demand for fuel will increase so rapidly that before these roads could be built, the present avenues to market from this region will be completely blocked up, and our trade will be checked. The Delaware and Raritan Canal is already full of trade, which limits the supply *via* the Schuylkill Navigation to New York. The Philadelphia and Reading Railroad will soon be up to its limit, in addition to its other trade, to carry coal economically; and is Schuylkill County, which contains more anthracite coal in its boundaries than can be found in any of the other regions, to be forever placed under the control of this corporation which is managed in England, and over which we can exercise no control, while the operators and land owners in the coal regions are interested in and control nearly all the avenues leading to market from those regions?

If these two roads were built for through traffic only, with lessened speed of transportation, we could carry coal to Philadelphia at $1 25 a ton, and $2 00 to New York from Schuylkill County, and at these rates it would pay not less than ten per cent. dividend to the stockholders. The trade already exists, and is not to be created after the roads are built. Such roads could have no competition in fixing the rates of transportation, they could fix the rates so low, and still pay the stockholders liberally, that others would be compelled to come down, they could not go below. There never was such an opening for the investment of capital in this country, and it would save millions of dollars to the manufacturers in the price of fuel.—*Pottsville Miner's Journal.*

Commerce of New York.

The foreign imports at New York for the month of January are officially stated as follows:

	1866.	1867.
Entered for consumpt'n.	$18,556,726	$11,046,856
Entered for warehous'ng	10,241,576	9,087,702
Free goods	1,238.757	717,810
Specie and bullion	72,771	126,719
Total entered at port	$30,109,830	$20,979,087
Withdrawn fr. warehouse	7,424,385	9,380,484

The foreign imports at New York for the seven months ending January 31st, have been:

	1866.	1867.
Entered for consumpt'n.	$108,898,483	$86,087,723
Do. for warehousing	56,171,603	62,894,173
Free goods	6,625,882	6,682,782
Specie and bullion	1,144,299	8,524,562
Total entered at port	$172,840,197	$164,189,240
Withdrawn fr. wareh'se	46,321,906	59,627,912

The duties received at New York for seven months ending January 31st, were:

	1866.	1867.
Six months	$65,077,328 87	$60,531,571 82
In January	12,437,474 16	9,472,248 48
Total 7 months	$77,514,803 03	$70,003,820 30

The exports from New York to foreign ports in the month of January, were:

	1866.	1867.
Domestic produce	$19,784,997	$12,911,689
Foreign mdse., free	88,301	114,207
Do. dutiable	284,909	422,751
Specie and bullion	2,706,336	2,551,351
Total exports	$22,814,543	$15,999,998
Do. exclusive of specie	20,108,207	13,448,647

The exports from New York to foreign ports for seven months ending January 31st, have been:

	1866.	1867.
Domestic produce	$125,883,684	$95,313,522
Foreign mdse., free	342,140	361,896
Do. dutiable	1,582,297	2,363,866
Specie and bullion	14,794,260	19,322,621
Total exports	$142,602,381	$117,361,905
Do. exclusive of specie	127,808,121	98,039,284

Babbitt's Soap and Saleratus Factory.

This establishment, situated at Nos. 64, 65, 66, 67, 68, 72 and 74 Washington street, this city, occupies nine buildings of four or five stories, with a depth of from 60 to 100 feet each, embracing most extensive steam power. The manufacture of soap—an article so necessary—is always profitable. Soaps of all kinds find a ready market every where, and though millions of pounds are poured out of the immense boilers daily, it is soon consumed. This mammoth house gives constant employment to over two hundred persons, and huge engines with thousands of pounds of steam keep its machinery in motion. Steam is conducted through the entire block by pipes, some of which cross the street and supply power to two buildings on the opposite side. A boiler which is said to be the largest in the world, and which rises from the ground floor to the fifth story of one of the buildings, it is said will make at one time, 200 tons of the best soap, which at the present prices would bring $52,000. Here is soap for the million in one turn of this monster pot. The grease, etc., is melted by the agency of pipes filled with steam, which run throughout the base and sides of the boiler. Mr. Babbitt is an extensive manufacturer of saleratus, of which from fifteen to eighteen tons are turned out daily. In addition to this, another article universally used—the Star Yeast Power—is said to possess superior qualities, adding twenty pounds and more to a barrel of flour when made into bread. It is compounded of flour, water, and common salt, does not terment, and is very easy of digestion. Sal Soda, Cream Tartar, Soda Ash, Starch, Arrow Root, Soap Powder, Super-Carbonate of Soda, and Concentrated Potash are also manufactured at this establishment.

Tripartite Tunnel in View.

Science has demonstrated the practicability of building underground avenues of communication. A number of our capitalists have a project under consideration, looking to the construction of a tripartite tunnel from Saw Mill Run to Pittsburgh, Allegheny and Manchester, under the Ohio and Monongahela rivers. Our readers will recollect that a bridge of a tripartite character was contemplated some years ago. The impression now is that a tunnel will not cost more than the bridge while the advantages are with the former. It will not interfere with navigation, as the contemplated bridge would have done, while it will afford the public a convenient means of communication at all times. The practicability of the matter has been determined by scientific men, and from what we can learn, if the parties who have the matter in charge find that the enterprise will pay, an application for a charter will be made to the present Legislature. Our opinion is that it will pay more ways than one. It will pay the enterprising stockholders, and it will pay property holders on each side of both rivers, and will the first step towards consummating that grand step in the march of progress—consolidating the contiguous cities and boroughs, into one grand corporation. We are heartily in favor of the enterprise.—*Pittsburg Chronicle.*

New York Canals.

J. P. Goodsell, Esq., State Engineer and Surveyor, has sent his annual report to our legislature, advocating the enlargement of one tier of locks and the use of steam on the canals when this needed improvement has been accomplished. He estimates the cost as follows:

For enlargement of locks on Erie and Oswego canals	$6,888,950 75
For enlargement of aqueducts and culverts	268,343 00
For enlargement of bridges	121,211 00
For removing wall benches	1,794,110 00
For additional feeders	393,134 00
For deepening canal one foot	1,939,970 00
For land damages and removals of buildings	409,800 00
For engineering and contigencies	1,067,651 00
Total	$12,883,169 75

Knoxville and Kentucky Railroad.

The Knoxville and Kentucky Railroad has let eight miles of heavy work from Coal Creek to Powell's Valley, crossing Waldron's Ridge, and including the approaches to a tunnel of twelve hundred feet, to Robert Bibb and Thomas Steers, experienced contractors, who engage to complete the work by the first of March, 1868. The next section of ten miles will be let in March, and the tunnel contract as soon as the approaches can be opened. Daily trains now run to Clinton, and will reach the Coal Banks, thirty miles from Knoxville, in July next.

American Railroad Journal.

Saturday, February 16, 1867.

Stock Exchange and Money Market.

Money has been accumulating in all the business centres, and lenders have been more eager to place their increasing balances in a controllable and lucrative form, since our last. The demand for accommodation has not kept pace with the growing supplies, and the tendency has been toward cheaper rates for all borrowers in good standing. Reports from the interior speak of a gradual revival of confidence, and consequent improvement in the workings of the western money markets. The banks of the seaboard cities have been augmenting their legal tender reserve. The cash balances in the United States Treasury, and its subordinate offices, have increased quite rapidly, within the week. In the U. S. Sub Treasury here, the cash balance shows an increase of about ten million dollars. The anticipation is quite generally entertained, of an abundance of money through the Spring months, with a steady, if not a reduced, range of prices. Call loans are now quoted here at 4@5 per cent. on Government securities, and 6@7, generally at 6, per cent. on railway and other stock collaterals. The tardy revival of the Spring trade in produce and merchandise prevents any extensive drain, through the discount houses. Prime short-date business paper passes as freely as offered at 6½@7½ per cent. per annum. The city banks, last week, gained $1,684,451 in the form of legal tenders. They reduced their loans, $995,530, and their circulation, $218,347. They lost $175,727 of their specie reserve, and $2,269,761 of their deposits, the latter, chiefly, by the transfer of country bank deposits to the U. S. Sub Treasury, the creditor of such country banks. The specie reserve of the banks is now $16,157,257, against $10,129,806, same time last year. The city bank deposits are now $198,241,836, against $228,484,370 week ending Feb. 10, 1866. The legal tender reserve amounts to $67,628,992, against $68,436,013 same time last year. The circulation now stands at $32,777,000 against $22,240,469 same time last year. The loans are now $250,268,825, against $279,135,790 eleven weeks ago, and $242,608,872 at this date last year. The Bank Exchanges at the Clearing House, through the past week, averaged $84,804,255 a day, against a daily average of $85,401,200 the preceding week; and $94,803,800 the week ending with Jan. 26. The current week's exchanges average $84,866,919 a day.

The main changes in the Philadelphia Bank footings, last week, were as follows: Decrease of loans, $166,801; decrease of legal tender reserve, $390,127; increase of deposits, $218,883; ncrease of specie, $2,050; and increase of circulation, $68,989.

National Bank notes to the amount of $267,750 were issued last week, making the total issue to 1,663 banks thus far $301,294,886, against $282,555,440 at the close of the last fiscal year, June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $2,548,632, leaving, with the existing 1,650 banks, an actual circulation at this date, of $298,776,254. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $340,547,450; and for the public deposits, $38,761,450—making a total of $379,308,900. The Treasury Department, last week, redeemed and destroyed $293,000 of worn and mutilated fractional currency, and issued $578,100 worth of new.

The last quarterly statement of the National Banks, made up to the first Monday in January 1867, shows that their aggregate capital is $419,779,739. Their aggregate loans are $608,411,901, beside which they hold $428,120,700 of Government securities. In October, 1865, their capital was $415,278,969 their income being derived from $426,657,350 of Government bonds, and $601,238,808 of other loans; in January, 1866, the capital was $403,357,346 and their aggregate loans $956,707,646, $440,380,350 to the Government and $516,327,296 to other borrowers.

The U. S. Sub-Treasury receipts, week ending with Feb. 9, were $13,265,949, including $2,585,048 from customs duties; payments, $7,633,155; balance at the close of the week, $108,958,253, against $103,325,459 at the close of the preceding week. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $4,687,169, and payments, $2,252,095; on Tuesday, receipts, $2,632,588; payments, $1,378,016. The balance at the close of business on Tuesday stood at $112,647,900, against $102,888,815 a week previous. The bal-

ance to the credit of the Government, in the U. S. Sub-Treasury, Boston, at the close of last week, was $11,239,389, showing an increase for the week, of $325,903. Of the cash reserve, $9,065,909 were in coin.

Government revenues have been nearly up to the best average of last year, since our last. The excises, last week, yielded $6,100,000, against $5,828,598 the preceding week; customs at the port of New York, $2,585,048, and at the outports, about $825,000 (in coin) more, making the grand total income for the week equal about $10,788,750 in currency, against disbursements of $4,331,378 on account of the three leading executive departments. The total receipts of the National Treasury, from excises, since July 1, 1866, have been about $195,000,000.

Gold has been in more active speculative demand, since our last, and prices have consequently been more variable. The highest rate was 139 on Thursday, the 7th inst., and the lowest figure, 136 on Monday the 11th. On Wednesday, the 13th, the extremes were 136¾@137½, and the closing price 136¾. Toward the close there was less buoy4ncy in the market, in view of the more favorable foreign advices relative to American securities. The customs demand has been on the increase. The export inquiry has been very moderate. There were no considerable shipments reported on Wednesday. The total imports of specie from Europe, and other foreign ports since Jan. 1, 1867, have been $155,514. The customs demand for Gold last week, averaged $430,841 a day; thus far, this week, it has been equal to $463,082 a day, or equal to a weekly aggregate of $2,778,492. The arrivals of specie from Europe, Havana and other foreign ports, during the past week reached $13,175, and from California, $788,027. The total customs revenue of the Government, in coin, at this port since July 1, 1866, has been $75,076,889, against $82,777,597 same time in the preceding fiscal year. The total receipts of California gold at this port since July 1, 1866, have been $28,422,940, against $16,523,782 same time last year, showing an increase this year, of $11,899,158. The exports of specie from this port, last week, were $276,507. The total outflow of specie from the port, thus far in the current fiscal year has been $20,458,637, against $15,308,039 same time in the preceding year. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $206,000, making the total coin interest disbursements through the Government office, since July 1, 1866, $33,341,408, against $29,053,427 for the same time in the preceding fiscal year. The specie exports from San Francisco from Jan. 1, to Jan. 10, 1867, reached $2,122,361, against $1,010,801 same time in 1866.

Foreign exchange has been in more request, since our last, and the leading drawers have been asking a shade higher rates for London and Paris bills, though the supply has been quite liberal. Bankers' 60 day bills on London closed on Wednesday at 108⅜@108⅝, and on Paris to 5.20@5.16¼; sight bills on London to 109⅛@109⅜; and on Paris to 5.16¼@5.14⅜. The offerings of produce bills have been fair since our last. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $3,640,850 making the total value of exports since July 1, 1866, $102,036,896, against $133,978,016 same time in the preceding fiscal year.

Government securities have been in more animated demand, since our last, and have improved decidedly in price. The home investment inquiry has been quite active, and unusually comprehensive, extending to the whole list of interest bearing obligations of the Treasury. There has been a revival of the foreign demand for the favorite Five-twenties of 1862. Supplies of both bonds and notes have been very moderate indeed. The six per cents of 1881, and the original Five-twenties have been really scarce in the open market. U. S. sixes of 1867 closed here on Wednesday at 133@135; U. S. sixes of 1868, at 132@133; U. S. sixes of 1881, 109@109¼; U. S. Five-twenties of 1862 at 109¼@109½; U. S. Five-twenties of 1865 at 107½@107¾; U. S. Five-twenties of 1865, consolidated, 105⅞¼105⅜; U. S. Ten-forties at 101@101¼, and U. S. Seven-thirties at 105⅜@105⅞. The brokers are buying the compound interest notes at the following rates, and selling at an advance of ¼@½ of 1 per cent. on these figures:

June, 1864	117½	May, 1865	112¼
July, 1864	117	August, 1865	111¼
August, 1864	116½	September, 1865	110¾
October, 1864	114½	October, 1865	110½
December, 1864	113½		

Railway and miscellaneous stock dealings have been on an unusually moderate scale, since our last. Operators have been reluctant to move freely, pending the final action of Congress on the various and important political, financial and commercial projects, now up for consideration in the National Legislature. Outsiders have shown a marked partiality for investments in the public funds, as the most reliable and profitable property available; and have consequently been more than usually chary of Stock Board ventures. Yet, prices of all substantial share property have been very well maintained, and have shown some buoyancy toward the close. The growing ease in money favors stability in the market, and gives promise of an early revival of speculation.

General business has been only moderately active, since our last. Domestic produce has been pretty freely offered, and has been depressed in price, in the absence of an adequate inquiry. Breadstuffs and provisions closed heavily. Cotton left off pretty firmly, on a rather livelier export business. Middling grades left off at 33@34½ cents per lb. as extremes. The stock of cotton now here is estimated at about 210,000 bales. The receipts at the port this week, have averaged 4,200 bales a day. The receipts since the commencement of the current cotton year, Sept. 1, have been 269,500 bales, against exports of 177,995 bales. The receipts at all the shipping ports from September 1, to latest mail dates have been 1,129,000 bales against 1,246,123 bales same time last year; exports, 545,000 bales, against 681,083 bales same time last year; estimated stock at latest dates, 612,000 bales, against 510,000 bales same time last year. At the coal sale on Wednesday—the largest ever held in the United States—207,800 tons of Pittston coal were disposed of in twenty-five minutes, at from $5 for lump to $5 40 for stove, per ton of 2,240 pounds, delivered at Newburg. The sale netted over a million dollars. Prices were as full as at the last Scranton sale. Foreign merchandise has been moderately inquired for, since our last, and the leading articles have been quoted firm. The dry goods trade has shown rather more animation, in special lines of fabrics adapted to the season. One of the most extensive dry goods establishments on Broadway, that of S. B. Chittenden & Co., was totally destroyed by fire on Tuesday morning. The total imports of foreign dry goods last week, were $2,414,439, and the total amount marketed $2,755,728. The value of foreign merchandise imported last week, was $3,314,829—making the grand total specie value of last week's imports of dry goods and merchandise, $5,729,368, and since July 1, 1866, $155,825,817, against $173,829,206 same time in the preceding fiscal year. The ocean freight market has been more active, with 562 vessels of all classes in port. For Liverpool we quote flour at 2s. 3d.@2s. 6d. per bbl.; grain at 6@6½d. per bushel; cotton at ⅜@½d. per lb.; and heavy goods at 15s.@@30s. per ton, all by sailing vessel.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Jan. 30.	Feb. 5.	Feb. 13.
Consols	90¾	90 11/16	91
U. S. 5-20's of 1862	73½	72⅜	73¼
U. S. 5-20's of 1865	72⅛	71⅞	72
Erie	44⅞	40	39½
Ill. Central	82½	81	81½

The New York exports, exclusive of specie, for the week ending Feb. 12, and since the beginning of the year, compare as follows:

	1866.	1867.
For the week	$3,777,267	$3,640,850
Prev. reported	23,322,613	16,789,651
Since January 1	$27,099,880	$20,430,501

The New York imports for the week compare as follows:

	1866.	1867.
Dry goods	$4,741,870	$2,414,479
Gen. merchandise	1,833,066	3,314,829
Total for the week	$6,574,936	$5,729,308
Previously reported	25,170,072	$19,163,477
Since January 1	$31,745,008	$24,892,785

The commerce of New York from July 1st to date compare as follows:

	1865–'66.	1866–'67.
Imports merchandise	$173,829,206	$155,825,817
Exports produce	133,978,016	102,036,896
Exports specie	15,656,090	20,238,036

The balance in the Sub-Treasury on Wednesday was $113,046,728 69.

Virginia Railroad Legislation.

The Legislature of Virginia at its present session has granted two railroad charters designed to develop the rich mineral region known as the Kanawha Valley, long noted for its supplies of coal and salt, and which may in future have an important bearing on the welfare of the State. The first authorizes an extension of the Fredericksburg and Gordonsville Railroad to Charlottesville, and an increase of its capital stock by a million of dollars. The second incorporates the Atlantic and Great Western Company for the construction of a railroad from Norfolk, *via* Clarksville and Danville, to a connection with the Virginia and Tennessee road at or near Bristol. The first mentioned line looks to a connection with the Baltimore and Potomac road, opposite Aquia Creek. The second proposes to unite with the Virginia and Kentucky road from Bristol to Cumberland Gap. Both will depend for their construction mainly upon capital from without the State. Remarking on this effort, the Richmond *Enquirer* says:

The mountains and hills of Southwest Virginia are unsurpassed for the excellence, the abundance and the variety of their mineral stores. Its salt wells, imperfectly developed as they are, supplied a large part of the Confederacy during the late military blockade. Its plaster beds are the wonder of the world, and are enough to make the hearts of our farmers dance with joy. Its iron is unsurpassed, its lead rivals the deposits of Missouri and the galena of Illinois. Its copper, its silver, its zinc, its manganese are abundant and excellent, and its coal is unsurpassed anywhere.

The U. S. 5-20s on the Paris Bourse.

We have already informed our readers that the U. S. 5-20s have been admitted to the official list of quotations at the Paris Bourse. This important event is due to the efforts of Messrs. Van den Broek Brothers & Co., No. 60 Rue de la Chaussee d'Antin, the oldest American banking house in Paris, which was founded just after the war of 1812 by Samuel Welles, of Boston, and was carried on by him with great success until his death, in 1841, when John B. Greene, of Boston, who had long been the "company" of the firm,) became the head of the house. Mrs. Welles, marrying the Marquis de la Vallette, (the present Minister of the Interior of France,) withdrew her capital from the firm, and the style became Greene & Co. The company was Mr. Frederick Van den Broek, a young Hollander, who had long been employed in the office, and who married John B. Greene's daughter, and afterwards, in his turn, became the head of the house.

Union Pacific Railroad—Eastern Division.

The dispatch from Junction City, Kansas, which we published in our last issue, saying that that place would be the terminus of the Union Pacific Railroad, during the coming summer, seems to have conveyed a wrong impression in regard to the actual condition of that road. The despatch simply meant that Junction City would be the outer point on the road from which freighting to Colorado and New Mexico could be done this season. The road is already completed twenty miles beyond Junction City, and the trains are running to that point. The road will be finished to Fort Ellsworth, sixty miles further west, by the first of April.

Railroad Earnings.--Weekly.

The earnings of the Chicago and Rock Island Railroad for the 1st week in Feb., 1867, were $53,200 00
Corresponding week of previous year.. 73,131 00

Decrease $19,931 00

The earnings of the Chicago and Northwestern Railway for the first week in Feb., 1867, were $138,473 00
Corresponding week of previous year.. 125,545 00

Increase $12,928 00

The earnings of the Detroit and Milwaukee Railroad for the week ending Feb. 7th, 1867, were $22,488 00
Corresponding week of 1866..... 21,761 00

Increase $727 00

The earnings of the Marietta and Cincinnati Railroad the 4th week in Jan., 1867... $28,266 00
Corresponding week previous year.... 28,683 00

Decrease $417 00

The earnings of the Michigan Central Railroad for the 1st week in Feb., 1867, were... $60,478 50
Corresponding week of previous year.. 66,397 51

Decrease. $5,919 01

The earnings of the Michigan Southern and Northern Indiana Road for the 1st week in Feb., 1867, were $67,304 00
Corresponding week of 1866 ..... 74,555 00

Decrease..... $7,251 00

The earnings of the Western Union Railroad for the week ending Feb. 7, 1867 . .... $7,854 67
Corresponding week previous year.... 9,380 46

Decrease..... $1,525 79

Journal of Railroad Law.

NEGLIGENCE IN RUNNING OVER CATTLE—BURDEN OF PROOF.

In the case of Galpin *vs.* The Chicago and North Western Railway Company in the Supreme Court of Wisconsin it was decided that in actions for injuries committed by immediate force, proof of the forcible act and the resulting injury is *prima facie* evidence that the act was wilful or negligent.

But in an action for the killing of cattle by a train of cars at the crossing of a public road, in the absence of any evidence that the cattle were lawfully upon the road, the burden is upon the plaintiff of further proving negligence on the part of the defendant.

In such a case the plaintiff, being himself under a presumption of negligence, cannot recover by merely showing slight negligence on the part of the defendant.

But if the plaintiff's negligence was slight and remote, and that of the defendant gross and immediate cause of the injury, Dixon, C. J., is of the opinion that there may be a recovery.

The action was for damages for the negligent killing of plaintiff's cow by a construction train on defendant's road. The cow was on a public highway, at the railroad crossing, when struck, and the complaint alleges that she was lawfully there. The defendant denied generally. The plaintiff's evidence did not show clearly how the cow came to be in the highway, but tended to show that she was running at large. The opinion of the court was delivered by

Dixon, C. J.—It is not denied that the cow was injured by one of the trains of the company, but there is no evidence of the circumstances or manner in which she was injured, except that she was in the public highway at the place where it is crossed by the railroad, and that the collision occurred there. She may have been on the track, so that the engineer, by the exercise of ordinary care and watchfulness, might have seen her and avoided the collision, or she may have been off, and out of sight, and, as the train approached, in her fright and insensibility to danger, have gone suddenly before the train, under circumstances which no care or vigilance could have prevented proving fatal. The action is for negligently running upon and injuring her, and it is contended that negligence cannot be inferred from the mere fact of the injury, but that the plaintiff, to entitle himself to recover, must give some special proof of negligence, or lay before the jury other facts tending to establish it. As a general proposition applicable to actions for injuries committed by immediate force, I think this is untrue. In such cases it is enough in general, to prove the act of the defendant and the resulting injury, and if he has any excuse or justification he must show it. If in an action for driving against and killing his horse, the plaintiff prove the killing by the defendant as alleged, without any further evidence of the circumstances or manner of the killing, that would be sufficient for the recovery of damages; and if the defendant claims that the killing was wholly accidental or unavoidable, or that it was the fault of the plaintiff, the burden is upon him to discharge himself of liability. Proof of the act, and of the injury resulting from it, is *prima facie* evidence that the act was done wilfully or negligently. Danver *vs.* S. C. Railroad Co., 4 Rich., 334 and cases cited.

But here the cow was in the highway, and must be taken to have been unlawfully there, for the cattle are not free commoners by the common law nor by the law of this State; and the question is, how far this circumstance rebuts or modifies the inference of negligence arising from the fact of injury. How the cow happened to be in the highway does not appear. If the plaintiff permitted her to go at large at or near the crossing, it was an act of gross negligence, which would preclude a recovery for anything but wilful injury. Railway Co. *vs.* Goss 17 Wis., 428. If she escaped from his enclosure, or got into the highway without any fault or want of proper care on his part, a different rule might prevail.

If she was being driven along the highway, which, in strictness is the only condition in which she could have been rightfully there, without an order or by-law of the town permitting her to go at large, then still greater care might be required of the railroad company and its agents. As it is without any proof of the circumstances under which the cow came in the highway, or of an order or by-law permitting cattle to go at large, it must be assumed, I think, that the plaintiff unlawfully allowed her to go there, and if he did, it is such evidence of negligence on his part as, in my judgment, counterbalances the presumption of negligence arising from the fact of the injury, and throws upon him the burden of giving some further proof of negligence on the part of the defendant. It appears then from the plaintiff's own evidence, that he was guilty of negligence which contributed to the injury; and if he relies upon the negligence of the defendant as being either greater in degree, or the proximate cause of the injury, he must give direct proof of the facts.

It follows from these views that the first instruction asked by the defendant was improperly refused. The second and fifth instructions which were also refused, I am not prepared to say were quite correct. The different degrees of negligence, and whether proximate or remote, are ignored. I am not prepared to say, in every case of cattle unlawfully upon the highway, that the company shall not be held responsible for any degree of negligence. If the negligence of the owner be slight and remote, and that of the company gross and the immediate cause of the injury. I think that the owner may recover.

It follows also, that the court erred in its general charge. The jury were instructed that if they found that the cow was killed at the crossing, the action would be for the injury, if at the time it was committed it might have been avoided by the exercise of reasonable care and prudence. This was holding the company responsible for ordinary negligence. If, as I have assumed, the plaintiff permitted the cow to go at large without authority of law, the company would at most only be answerablo for gross negligence or want of slight care and prudence, or for wilful injury. The jury should have been so instructed.

Judgment reversed and a new trial awarded.

Debt of California.

The total funded debt of the State of California on the 1st of January, 1866, was as follows:

7 per cent. coupon bonds of 1857, due July 1, 1877	$3,586,500
7 per cent. coupon bonds of 1860, due July 1, 1880	187,500
7 per cent. coupon bonds, Relief, due July 1, 1883	520,000
7 per cent. coupon bonds, Bounty, due July 1, 1884	1,028,000
Total funded debt	$5,322,000

In addition to which the State pays 7 per cent. interest on $1,500,000 Central Pacific Railroad bonds to January 1, 1885—making the total annual interest $477,540.

Of the above indebtedness, the State Treasurer holds in trust for the State School Fund—

Bonds of 1857	$556,000
" 1860	36,000
" Relief	87,500
" Bounty	46,000
	$725,500
Seminary Fund, Bonds Relief	15,000
Total	$740,500

Total Issue and Redemption of Bonds.

Class of Bonds.	Issued.	Redeemed.	Outst'ding.
Bonds of 1857..	$3,900,000	$313,500	$3,586,500
Bonds of 1860..	200,000	12,500	187,500
Bonds, Relief ..	600,000	80,000	520,000
Bonds, Bounty.	1,244,000	216,000	1,028,000
	$5,944,000	$622,000	$5,322,000

☞ The Tyrone and Clearfield Railroad, which is now in operation from Tyrone to Phillipsburg, 23½ miles, is to be built to Clearfield, a further distance of 17 miles, with means to be advanced by its lessee, the Pennsylvania R. R. Co.

☞ A new Suspension Bridge over the Ohio River at Wheeling, (W. V.) is talked of, to take the place of the present structure, which is deemed neither commodious or safe.

Funded Debt of Philadelphia.

A meeting of the Commissioners of the Sinking Fund was held in Philadelphia on the 4th inst. From the report of the City Comptroller, which was presented, we learn that the total amount of funded debt at the date of consolidation, July 1, 1854, was $16,573,614 77

Reported issue to Dec. 31, 1858 ...	4,383,278 09
Issued during the year 1859	699,400 00
" " " 1860	1,022,079 81
" " " 1861	1,027,971 06

		5,356,071 40
Balance funded debt Jan. 1, 1867.		$35,165,621 35

The loan account shows that of this last sum, ($1,208,558 42,) $199,394 72 were paid of loans due and overdue, and $1,009,163 70 were anticipated and canceled by the Commissioners from proceeds of sales of Pennsylvania Railroad stock, leaving on hand $96,900 of uncanceled loans, which belong to loans issued since consolidation, and cannot be canceled, a sinking fund being provided for their ultimate redemption.

In order to show the purpose for which the debt was contracted, it should be divided as follows:

Balance due at consolidation..		$11,258,321 35
Loans since consolidation—		
For Railroad Stock subscribed previous to consolidation.	$1,725,000	
For extension of Gas Works	1,981,300	
For Fire Alarm Teleg'ph	100,000	
For Culverts	290,000	
For Water Works.....	962,000	
For School purposes ...	259.400	
For Bridges, etc.....	592,000	
For Vine street wharf ..	4,300	
		5,734,100 00
For Municipal purposes		6,523,200 00
For War purposes.....		11,650,000 00
Total, as above.....		$35,165,621 35

The value of the real estate and securities belonging to the city is as follows:

Securities held by sinking fund...	$9,851,677 60
Wharves, landings and markets...	1,646,500 00
Real estate under department of City property	1,341 00
Public schools.....	1,795,427 00
Real estate of Police Department.	128,960 67
Gas works, almshouse, water works, &c.....	11,957,500 00
	$26,721,065 27

☞ A St. Louis paper says that an arrangement has been made between the Western Mining and Manufacturing Company and the Missouri Consolidated Mining Company for building a railroad from Chester, Illinois, twelve miles in length, to the well-known coal region of that district, so as to get a supply of the best iron coal for making iron, and reducing the Pilot Knob and Iron Mountain ore to merchantable iron. A tract of twenty-three thousand acres of these Chester coal lands has been purchased.

The National Banks.

Northern Pacific Railroad.

In the New York Assembly the Hon. D. C. Littlejohn of Oswego obtained unanimous leave a few days since to introduce some resolutions cordially favoring the construction of the Northern Pacific Railroad, which were promptly adopted. They have since passed the Senate, and have also received the sanction of Governor Fenton. The preamble describes the route to be adopted for the construction of this road, refers to the agricultural and mineral resources of the country on the fourth-sixth parallel, and to the temperate nature of the climate; and declares that the speedy development of the vast resources of our great country is demanded by every consideration of sound financial policy, with a view to the easy and early liquidation of the national debt. The resolutions are as follows:

That our Senators and Members in Congress be requested to advocate the passage of an act granting such government aid to the Northern Pacific Railroad as will ensure its early construction and completion.

That the Governor of the State be requested to transmit a copy of the foregoing preamble and resolution to each of our Senators and Representatives in Congress at as early a day as practicable.

☞ The General Assembly of Virginia, on the 24th of January, 1836, chartered the Richmond, Fredericksburg and Potomac railroad, and gave it for thirty years the exclusive right of selling through tickets from Richmond to all points north and south. This thirty years monopoly expired on the 24th ult., and passengers can now journey direct to Richmond over the connecting lines of railroad without stopping at the Gordonsville Junction to purchase tickets.

Philadelphia and Erie Railroad.

The receipts from operations of this road for the years ending December 31, 1866, were:

From freight.....	$1,744,299 13
" passengers	734,724 91
" mails and miscellaneous.....	62,027 25
Total 1866.....	$2,541,051 29
Total 1865.....	2,074,140 79
Increase.....	$466,910 50

The increase in the business of 1866 over that of 1865 did not realize expectation. The main increase in the transportation, amounting to 240,875 tons, was of coal, oil, and lumber. The following is a comparative statement of the tonnage and number of passengers carried in 1865 and 1866:

	Tons.	Passengers.
1865	534,975	770,659
1866	815,096	695,415
Increase	280,121	.....
Decrease.....	.....	75,244

The road is leased and operated by the Pennsylvania Railroad Company. Thirty per cent. of the gross earnings, after all drawbacks, is set apart under the lease to pay interest on the bonds of the Philadelphia and Erie Railroad Company. This amounted, in 1866, to $732,739, out of which $588,000 were paid as interest on the funded debt, and for contingent expenses, leaving as the profits of the Philadelphia and Erie Railroad Company for the year $144,739. The managers are Edward F. Gay, William G. Moorhead, Charles B. Wright, Henry Duhring, James D. Wetham, William A. Galbraith, C. F. Bayard, William S. Lane, Hugh W. Catherwood, James B. Montgomery.

Railroad from the Calumet Mine to Torch Lake.

George D. Emerson, Esq., Civil and Mining Engineer, is engaged in the location, with a view to the immediate construction, of a railroad from the Calumet mine to Torch Lake, a distance of about seven miles. The product of the Calumet mine is now wagoned to Hancock, on Portage Lake, where it is, we believe, smelted into ingot copper. The new railroad to Torch Lake will be much shorter than the wagon road to Hancock; besides, the construction of a railroad to Torch Lake will lead to the improvement of its navigation, the building of a town upon its margin, open another port to the commerce of Lake Superior, and give all the modern facilities for outlet and communication to the last-developed but most richly endowed portion of Keweenaw point.—*U. S. R. R. & Mining Register.*

Bethlehem Branch Railroad.

We learn that the Bethlehem Railroad, extending from Bethlehem to Bath, in Northampton Co., Penna., which was located several years ago, and on which the work of graduation was commenced and prosecuted for a short time, is to be built and operated, under contract, by the Lehigh Coal and Navigation Company, as a branch of their road to the celebrated State quarries near Bath. It will connect with their own line near where the latter connects, by a river bridge, with the North Pennsylvania Railroad.

What a Cord of Wood will Produce.

There is an organization in existance, which has produced some marvellous results. Discoveries recently made in the distillation of resinous woods and severely tested by experience, promise more favorable pecuniary results than perhaps any other branch of manufacture now before the public. From a single cord of pitch-pine distilled by chemical apparatus, and by the processes employed, the following substances in the quantities stated are obtained:

Spirits of Turpentine	20	gallons.
Illuminating Oil and Tar	50	"
Pyroligneous Acid	100	"
Wood Spirit	5	"
Pitch or Rosin	1½	barrels
Tar	1	"
Illuminating Gas	about 6,000	cubic feet.
Charcoal	50	bushels.

These results are derived from eight separate charges, and are selected from many others, not as presenting the most favorable exhibits as regards quantities, (which they do not,) but as showing the value of the several kinds of wood and the best manner of working.

There are works now in use in New Jersey capable of distilling five cords of wood per day, and the products at the present prices, will yield the following daily income:

100 gallons Spirits Turpentine at 85 cts per gallon	$85 00
250 gallons Illuminating Oil and Tar at 50 cts per gallon	125 00
500 gallons Pyroligneous Acid at 12 cts per gallon	60 00
25 gallons Wood Spirit at $2 00 per gallon	50 00
30,000 feet Illuminating Gas at $1 60 per m	45 00
7½ barrels Pitch or Rosin at $5 per barrel	37 50
5 barrels Tar at $4 per barrel	20 00
250 bushels Charcoal at 25 cts per bushel	62 50
	$485 00
Cost of production and losses	159 00
Leaving a balance of net profits per day	$326 00

The census of 1860 shows that the proportion of spirits of turpentine in the United States by ordinary process, for the year 1859, was equal to the production from 1,600 cords of wood distilled daily by this process.

The gas produced by this process, it is said, has great superiority over the ordinary coal gas. It has no offensive odor, and is free from the sulpur present in coal gas.

The charcoal, also has great superiority, and though made from resinous wood, has as great specific gravity as that made from the harder woods.

Middletown, Unionville & Water Gap R.R.

This road is 13 miles in length, commencing at Middletown, Orange Co., N, Y., and running thence to Unionville, on the New Jersey State Line, at which point it will connect with a proposed road running *via* Deckertown to the Delaware Water Gap. The road is now under contract to be completed in July next. About one-fourth of the grading will be completed within the present month. The iron and ties have been purchased. The contractors are Roberts, Burt & Co., who furnish all materials, and do all the work. The equipment is to be supplied by the company. E. P. Wheeler, Esq., of Middletown, is President; J. N. Pronk, Secretary; Mr. Evans, Treasurer; and Mr. Bruen, Engineer. The survey and location of the road was made by A. P. Robinson, Esq., in the latter part of 1866.

Bridge over the Mississippi.

We learn from the Davenport (Iowa) *Gazette* that the surveys for the proposed new bridge over the Mississippi at that place have been completed, and that E. H. Johnson, Esq., Chief Engineer of the Chicago, Rock Island and Pacific Railroad, accompanied by Hon. E. Cook, Secretary of the company, had gone to Washington to submit the plans and estimates to the Board of Bridge Commissioners now (or recently) in session in that city. The plans and estimates were prepared under the direction of Mr. Johnson by Edward Powers, Esq. The *Gazette* says:

The plans embrace a variety of styles of bridge—both high and low and with and without carriage way—and elaborate estimates were made corresponding to each. The plan which will probably be most favored by the Commissioners, is one for a high bridge, the channel span of which shall be fifty feet above high water, thus obviating the necessity for a draw. Two different lines have been surveyed and estimated on, for a bridge of this character. By one it is contemplated to extend the bridge over the lower part of the city, and pass out by the ravine that comes down on Harrison street; by the other a connection would be made with the present track on Fifth street. The former of these routes would do away with the present heavy grade of the bluffs—the latter would be the least expensive. What conclusion will be finally arrived at is as yet of course uncertain; but we will endeavor to give our readers due notice of the same as soon as anything definite shall be settled. In the meantime some of the preliminary operations required in advance of the actual commencement of this great work are being attended to—Mr. Powers, the Engineer, who has been engaged for the last two or three months in making the surveys and preparing the estimates referred to above, being engaged at present in testing through the ice the soundings on the line of the proposed bridge.

Union Canal.

The receipts of this company during the year ending December 31, 1866, were	$269,669 61
And the expenditures	442,277 84
Balance Jan. 1, 1867	$27,391 77

The amount of personal property on hand is valued at $21,948 66. During the year a new feeder has been constructed, and all the locks raised on the western division; also, a feeder on the summit level, which is 14,200 feet in length, and 30 inches diameter, of brick, and hydraulic cement, laid below frost. Three storage reservoirs, covering 104 acres, and with capacity for forty-four millions of cubic feet, have been constructed, and are already filled in readiness for use. These reservoirs are for the supply of the summit level, and are expected to maintain a continuous depth of 4½ feet throughout the season, allowing for double the tonnage ever previously moved on the canal.

Union Pacific Railroad.

A surveying party, under the direction of Capt. T. H. Bates, Division Engineer, started from Salt Lake City on the 13th ult., for Weber River Kanyon, from whence a branch survey of the Union Pacific Railroad is to be made to the valley of Snake River, (below Fort Hall) Idaho Territory. The line will run through Ogden, Brigham City and Malad, up the Malad or Rosseaux River, on the east side, crossing the old California road at the head of the Malad, thence due north to the Snake River Valley, making a distance of one hundred and fifty-three miles from the mouth of Weber River Kanyon to the terminus in the Valley of the Snake. The survey, it is believed, will be continued the coming summer due west up the Snake River to Portland, Oregon.

Illinois Central Railroad.

The statement of this Company for the month ending January 31, 1867, is as follows:

LAND DEPARTMENT.

Acres Construction Lands sold	8,215.84 for	$88,186 32
Acres Int. Fund Lands sold	278.01 for	3,609 16
Acres Free Lands sold	3,101.76 for	31,179 62
Total sales during month of Jan., 1867	11,595.61 for	$122,975 10
To which add Town Lot Sales		235 00
Total of all		$123,210 10
Cash collected in January		$169,141 48

TRAFFIC DEPARTMENT.

Receipts from Freight		$479,201 60
do.	Passengers	120,878 96
do.	Mails	6,358 33
do.	Rent of Road	4,000 00
do.	Other Sources	50,000 00
Total Receipts in Jan., 1867		$660,438 29
Total Receipts in Jan., 1866		$582,470 10

Finances of Louisiana.

The receipts into the State Treasury during the year 1866, were $4,290,460 43; and the expenditures, $2,615,705 12—leaving a balance of $1,674,755 31, represented by the following funds and securities:

In Confederate notes	$471,211 97
In State levee bonds, bearing 8 per cent. interest, exchanged for State notes	700,000 00
In State notes, redeemed for cancelation	425,000 00
In State notes, issued but not paid out	63,235 00
In United States Treasury and city notes	15,308 34
Total	$1,674,755 31

Deducting the balance brought forward from previous year, amounting to $597,728 69, and the further sum of $1,896,000 of State Treasury notes issued, the receipts proper of the general fund would be $1,796,731 74; the expenditures proper, for the same period, excluding appropriations for Levee Board of $1,000,000, would be $1,615,705 12—leaving a surplus of $181,026 62.

Halifax, Nova Scotia.

The following is a comparative statement of the revenue in the Port of Halifax for the years 1865 and 1866:

March quarter,		1866	$233,082 25
June	"	"	278,478 35
Sept.	"	"	224,118 29
Dec.	"	"	253,759 01
			$989,437 90
March	"	1865	$112,252 33
June	"	"	268,822 89
Sept.	"	"	240,166 51
Dec.	"	"	259,231 28
			880,473 01
Increase in 1866			$108,964 89

☞ The Board of Commissioners of the Columbus, San Antonio and Rio Grande Railroad, under the charter granted it at the recent session of the Legislature, met at Gonzales, Texas, on the 17th ult., and organized. The charter requires the subscription of $300,000 before the company can organize.

Portage Lake Copper Mines.

The following is a comparative statement of the products of the Portage Lake Copper Mines for 1865 and 1866:

	1866.		1865.	
	Tons.	Lbs.	Tons.	Lbs.
Quincy	1,380	34	1,360	1,900
Franklin	1,071	1,558	1,062	1,319
Pewabic	875	1,201	1,193	1,932
Huron	665	818	604	736
Hancock	386	012	109	1,436
Isle Royale	346	051	460	393
Grand Portage	337	930	366	1,489
Albany and Boston	201	051	162	1,745
Calumet, ingot	151	056	.....	.....

Douglass	13	1,217	4	.....
Arcadian	4	300	3	500
South Pewabic, ingot	2	1,000	.....	.....
Total	5.627	1,747	5,375	638
Increase in 1866			252	1,109

Improvement of the Hudson River and Champlain Canal.

A bill introduced by Mr. Reynolds for this object provides that the Canal Board shall improve the Hudson River so as to make slack water navigation available from Troy to Fort Edward, with locks 225 feet long and 30½ feet wide, with walls of cut stone, the channel of the river to be not less than two hundred feet wide.

The same bill provides that the Champlain canal shall be enlarged, from Fort Edward to Whitehall, to a width of seventy feet channel and seven feet depth of water, with locks of the same size as those in the river, thus making, in short, uninterrupted navigation for ships or gunboats from Troy to Whitehall.

The work is to be done according to plans and estimates on file in the State Engineer's Department, made pursuant to an act of the Legislature last year. The work will cost $1,365,988 less than the enlargement of the Champlain canal throughout its entire length, and will be a more permanent work when completed.—*Albany Journal.*

☞ The Russian and Prussian Governments have agreed to construct a railway between Czenstochow, on the Warsaw-Cracow line, and Kandrzin, near Kozel, a station on the South Silesian line. A direct communication will be thus created between Poland and Silesia, the present one running through a few miles of Austro-Galician territory. So important is the branch projected to the Russians that the snows of a Polish winter have not prevented their setting to work at once.

☞ The City Council of Burlington, Vermont, have adopted the Mayor's suggestions concerning the city water works, and to construct pumping apparatus and lay pipes through the city which will distribute not less than 100,000 gallons of Lake Champlain water per day, the whole expense not to exceed $50,000.

☞ The inhabitants of Douglass Co., Kansas, have voted in favor of subscribing $300,000 in county bonds to the capital stock of the Leavenworth, Lawrence and Galveston Railroad. This insures the immediate commencement of work at this point.

☞ The City of Chicago consumed in the year 1866, 254,933,734 feet of Gas, furnished by two companies—the Chicago Co. furnishing 202,000, and the People's 52,000. The average price was $3 per 1,000 feet—making the total expenditure for gas $764,801 40.

Portage Lake Canal.

Work on the Portage Lake Canal will be commenced in the Spring. Its construction will complete the water connection between the East and West shores of Keweenaw Point, making with Portage Entry and Portage Lake a ship canal through the centre of the Peninsula. The canal will save one hundred and forty miles of perilous navigation. Liberal grants of land have been obtained from Congress, and the success of the project is assured.

Interest and Dividends.

The Oswego and Syracuse Railroad Company have declared a dividend of four per cent., payable, free of Government tax, on the 20th inst.

RAILWAY ROLLING STOCK.

United States Patent, Dated 1866.

A new mode of retaining and sustaining the tires of railway wheels. The property in this invention, which is largely adopted by Railway Companies in England, is for sale as regards the United States. Apply to JOHN GEDGE & SON, Patent Agents, 11 Wellington Street, Strand, London. 1m7

MUTUAL INSURANCE COMPANY,

NO. 35 WALL ST., NEW YORK.

ASSETS, Jan. 1, 1867.....$1,261,849.

ORGANIZED APRIL, 1844.

During the past year this company has paid to its Policy-holders,

IN CASH,

a rebatement on premiums in lieu of scrip, equivalent in value to an average scrip dividend of

TWENTY PER CENT.

Instead of issuing a scrip dividend to dealers, based on the principle that all classes of risks are equally profitable, this Company makes such cash abatement or discount from the current rates, when premiums are paid, as the general experience of underwriters will warrant, and the net profits remaining at the close of the year will be divided to the Stockholders

This Company continues to make Insurance on Marine and Inland Navigation and Transportation Risks, on the most favorable terms, including Risks on Merchandise of all kinds, Hulls, and Freight.

Policies issued, making loss payable in Gold or Currency, at the OFFICE in NEW YORK, or in Sterling, at the OFFICE of RATHBONE BROS. & Co., in Liverpool.

PUMPING ENGINES,

Ericsson's Caloric Pumps,

FOR economy, durability, and efficiency unequalled. Have been in use on the Erie, Central, Hudson River, Harlem and other roads for eight years. Recommended by all Superintendants in the highest terms.

JAMES A. ROBINSON,

164 Duane St., cor. Hudson, New York.

THE STEAM SIPHON PUMP

IS THE MOST SIMPLE, EFFECTIVE, AND DURable device for raising water by steam yet discovered. It is an independent lift and force pump without piston, plunger, valves, or movable parts of any kind. With the STEAM SIPHON WATER STATION a Locomotive can raise water with its own steam, and fill its tender in the same time as from an ordinary tank, thus dispensing with tanks, pumping machinery, and men to attend them. It cannot get out of order, or freeze up, and is an efficient fire engine where steam power is employed, as at Machine Shops, Car Shops, Elevators, &c. For Circulars and other information address

STEAM SIPHON COMPANY,

48 Dey St., New York.

TO CIVIL ENGINEERS.

AN ENGINEER of practical experience, from England, would be happy to treat with any gentleman requiring his services, for the execution of all kinds of work appertaining to the above profession. Address A. Z., care of Messrs. BROWN, COOMBS & CO., 189 Broadway.

ENGINEERS AND CONDUCTORS' WATCHES.

THE AMERICAN WATCH COMPANY, of Waltham, Massachusetts, request us to publish the following letters, recently received, recommendatory of Waltham Watches for railway use. The Pennsylvania Railroad Company have for several years furnished to their employees watches specially made for them by the Waltham Company, and it is this class of watches the Superintendent, Mr. Williams, refers to. Similar watches (in strong silver or gold cases, with plate-glass crystals) we are prepared to supply, named and engraved to order; and of them, as being most suitable for the use of Engineers, Conductors, Station-Masters, of Expressmen and Messengers, the Company give the most ample guarantee. It is a remarkable fact that Railroad Companies using our watches suffer much less from collisions and similar accidents than any others.

Any of the grades of Waltham watches may be purchased of Watch Dealers generally throughout the country.

ROBBINS & APPLETON,
182 Broadway, New York.
ROBBINS, APPLETON & CO.,
153 Washington Street, Boston.

PENNSYLVANIA RAILROAD CO.

OFFICE OF THE GENERAL SUPERINTENDENT,
ALTOONA, Pa., 15th Dec., 1866.

GENTLEMEN,—The Watches manufactured by you have been in use on this Railroad for several years by our Enginemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable timekeepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs, than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation, but as a class they never kept time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years. Respectfully,

EDWARD H. WILLIAMS,
General Superintendent.
AMERICAN WATCH COMPANY, Waltham.

NEW YORK CENTRAL RAILROAD.

LOCOMOTIVE DEPARTMENT, WEST. DIVISION,
ROCHESTER, Dec. 24, 1866.

GENTLEMEN,—I have no hesitation in saying that I believe the great majority of Locomotive Engineers have found by experience that Waltham Watches are the most satisfactory of any for their uses. They run with the greatest accuracy and steadiness, notwithstanding the rough riding of an engine, and as I have never known one to wear out, they must be durable. I hope to see the time when Railway Companies will generally adopt your watches, and furnish them to all Engineers and Conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours respectfully,

CHARLES WILSON, G. Chief Engineer,
Brotherhood of Locomotive Engineers.

Finances of Kentucky.

The Senate Committee of the Kentucky Legislature on the Sinking Fund of that State, having examined into the amount of the indebtedness of the State, created for internal improvement purposes, and the ability of the sinking fund to liquidate the debt, submitted to the Senate a report of which the following is an abstract:

The bonds of the State now due amount to the sum of	$20,402
Bonds due in the present year, 1867	77,000
Bonds due in the year 1868	884,000
Bonds due in the year 1870	339,000
Bonds due from April, 1870, to Feb., 1871	27,000
Bonds due between April, 1871, and 1872	1,421,000
Bonds due in April, 1871	95,000
Bonds due in September, 1873	79,000
Total debt, exclusive of the school fund.	$2,892,402

The above debt was created for purposes of improvement, for the payment of which certain sources of revenue were set apart, constituting a fund to pay the interest and sink the principal of the debt. The Constitution forbids the repeal of the laws which constitute the resources of that fund, and provides that they may be increased, but shall not be diminished until the debt is paid.

The resources of the sinking fund applicable to the payment of the above debt is as follows:

Amount in the Treasury on the 10th day of October, 1866	$1,050,230 76
Amount in the Treasury on the 10th day of October, 1866, to be transferred to this fund	240,147 56
Amount borrowed from the sinking fund by the Treasury Department, with interest up to October, 1867.	121,000 00
Amount borrowed by Military Board of sinking fund	200,000 00
Estimated amount to be received from 15 cents tax on $100 worth of property for the year 1867	485,086 00
Estimated receipts from other sources than 15 cents tax	495,970 39
Total amount of available resources to 1868	$2,592,434 71
From that should be deducted interest for 1867	170,780 00
Total sum which may be paid on debt in the year 1867	$2,421,654 71

The present annual reliable sources of receipts, exclusive of interest on deposits and receipts from forfeited lands, is $777,351. A tax of ten cents remains of the increased resources of the sinking fund for war purposes. Five cents were levied before the adoption of the constitution, and cannot be repealed until the debt is paid; but if the Legislature think proper to repeal the ten cents tax, the annual resources of the fund would be $478,866.

The sum reported to be due from the General Government of the United States to the State of Kentucky is $2,238,347 91; that fund owes to the sinking fund, as stated above, $200,000—leaving $2,038,347 91. The bonds of the State were issued due in 15 and 20 years, chargeable to that fund for $685,000. If it shall be the policy of the State to defer the payment of these bonds to maturity, there would be of the war fund, if received, placed at the disposal of the Legislature $2,238,347 91; if thought best to pay them, that sum deducted would leave $1,553,347 91.

The State agent at Washington to attend to the liquidation of the claim of the State against the U. S. Government, says that accounts amounting in the aggregate to between seven and eight hundred thousand dollars have been so far approved by the accounting officers as to give assurances that the sum will soon be placed to the credit of the State. The report says:

It will be seen that the sum on hand, at the close of the year, lacks only $470,748 of paying our actual indebtedness. The resources, exclusive of the ten cents tax, amounts annually to $317,086 more than the annual interest, and will increase by the amount of interest on each debt when paid. The above surplus would be applicable next year to the payment of principal.

The Revenue Department owes to the sinking fund $121,000. That sum, it might be assumed, was part of the increased resources produced by the ten cents tax, and could, without detriment to the operations of the sinking fund, be remitted or released.

The Constitution provides that the resources may be increased, but not diminished, until the debt is paid. If the means on hand are equal to payment, it may be assumed that the debt is paid, and the tax no longer necessary to accomplish its purpose. If it be thought advisable to defer the payment of the war bonds, one cent taxation would pay the interest. The Treasury Department will be deficit, 10th day of next October, $290,549. A tax of five cents on the $100 worth of property for the next year would most likely square that balance and pay the interest on the war debt. Five cents of the ten might be repealed, and five cents transferred to the Treasury Department will balance any deficit in the Treasury if continued two years.

Sound policy requires the payment of our debt at the earliest possible day it can be done.

The present depreciation of our currency may prevent a presentation of our bonds for payment before maturity.

It is most likely a large amount of our bonds are held by Eastern and Northern and European capitalists. In that view, it may result in the mutual advantage of the General Government and this State, and facilitate a settlement, to transfer to and increase the resources of the sinking fund, by adding the sum to be received from the General Government, and authorize the Commissioners to accept from the General Government its bonds, and use them for the payment of the bonds of the State. The War Department holds $77,000 of the bonds of the State due in this year. That sum could be paid by a surrender of the bonds of the State. Eastern and European capitalists will most likely, in view of the early maturity of our bonds, gladly make this exchange. It is with a view to that exchange that your committeee advise a postponement of the payment of the war bonds.

It is suggested for the consideration of the Legislature the passage of a law directing that proclamation be made by the President of the

Board of Commissioners of the sinking fund that the State of Kentucky is ready to redeem all her bonds, irrespective of their maturity; that after maturity no interest will be paid; and if not presented for payment within one year after maturity, the State will regard them as lost and canceled; and if presented after that time, will only be paid at the pleasure of the State. If it can be ascertained that an exchange can be effected, the fact should be made known in the proclamation and published in papers in the localities where the bonds are held.

The sinking fund was created for the purpose of paying the interest and principal of moneys borrowed for internal improvement. If it shall be deemed to the interest of the State to enter on a general system of improvement, or aid in the construction of leading lines of railroads connecting those now constructed in the State with those in other States, or by diverging from them and striking in the direction of the Ohio, it will be found that the present sinking fund, without additional taxation, is sufficient to pay the interest on near or quite eight millions of dollars.

Brockville and Ottawa Railway.

The annual meeting of this company was held in Brockville, Ca., on the 6th inst. The reports from the Managing Director of the company, as well as from the Manager under the Trustee of the Preferential Bondholders, embracing the past year's business, were laid before the meeting. The total receipts for the year 1866, were $113,208 88; and the operating expenses, $62,079 89, or 54.83 per cent. Renewals and other expenses, including stores and wood on hand, cost $40,709 68. Balance of cash on hand, $10,419 07, of which a large portion has been paid over in satisfaction of the claims of the municipalities, and the balance is only awaiting adjustment to be also paid them.

The late President having by request explained to the meeting the circumstances connected with the default in the payment of interest on the Preference Bonds and the taking possession of the railway by the Trustee, the following resolutions were passed:

Resolved, That in view of the explanations given by the late President, Mr. Richardson, of the obligations of the company towards the preferential bondholders, and of their rights as expressed in the mortgage held by them, this meeting is of opinion that the late President and Board of Directors, acted in conformity with the conditions of the said mortgage, and with the dictates of honesty and good faith towards the preferential bondholders in abstaining from resistance to the Trustee in taking possession of the railway; and that this meeting approves of their course in that behalf, and that upon payment of the arrears of interest due upon the preferential bonds, this company will expect at the hands of the Trustee similar frank and straightforward action in the restoration of the railway to the control of the Directors.

Resolved, That the extension of this railway to Sand Point, together with the construction of extensive repairing and machine shops with their machinery, and large additions to wharfage accommodation having been completed and placed in regular and successful operation; also large and valuable additions to the rolling stock of the company having been made, this meeting appreciates the success of the late President in negotiating at par (less only the banker's exchange and the stamps) the £60,000 preferential extension bonds, and thanks him and his assistants for the judicious and economical expenditure of the proceeds as above, which expenditure is hereby fully confirmed. Carried unanimously.

After the passing of the latter resolution the result of the election for Directors was announced, and the following gentlemen were declared duly elected, viz:—R. P. Cooke, A. B. Dana, J. W. B. Rivers, B. Rosamond, A. McArthur, Louis M. Benjamin and C. Fletcher, Esquires. R. P. Cooke, Esq., was afterwards elected President.

North Pennsylvania Railroad.

The earnings of this road for the years ending October 31, 1865 and 1866, were as follows:

	1865.	1866.
From passengers	$337,137 78	$330,059 46
" coal	229,901 72	217,608 49
" pig iron	27,940 10	32,019 73
" through lumber	24,657 45	21,770 96
" local freight	179,291 85	190,503 84
" through freight	65,415 88	90,466 96
" mails	3,215 00	3,215 00
" rents, etc	7,504 72	12,683 98
	$875,064 54	$898,328 42
Expenses, viz:		
Maintenance of way	$115,871 67	$145,202 95
Motive power	150,497 40	146,555 36
Maintenance of cars	42,826 35	50,765 29
Conducting transp	129,460 79	144,357 90
General expenses	24,054 83	32,831 92
	$462,711 04	$519,713 42
Net earnings	$412,353 46	$378,615 00
Interest and taxes:		
Six per cent. coupons	$150,000 00	$150,000 00
Ten " "	36,000 00	36,000 00
Interest on scrip	14,747 10	14,747 10
Interest on mortgages and ground rents	9,171 72	9,087 73
National and State taxes.	18,967 51	23,881 38
	$228,886 88	$223,716 21
Less interest earned	886 65	3,884 75
	$227,999 78	$229,831 46
Balance to profit and loss	$184,353 68	$148,783 54

The net profits of the company, for the last four years, were as follows:

In 1863	$66,574 12
" 1864	140,657 64
" 1865	184,353 68
" 1866	148,783 54
Total net profits carried to Profit and Loss	$540,368 98

There has been expended, for construction and equipment, in the last five years, $480,481 66, all of which has been paid out of the net earnings of the company. The real estate account has been increased, in the same period, $86,115 20. Making a total increase, in five years, in two accounts, of $566,596 86.

Under authority granted by the Legislature, a mortgage for one million five hundred thousand dollars has been executed to Edward C. Knight and William C. Kent, Trustees (and duly recorded,) for the security of a loan for that amount, bearing seven per cent. interest, with which the Board contemplate making double track as it may be required, procuring additional equipment, providing for the payment of the Scrip issued for back interest, and for such other purposes as may be deemed expedient.

During the last fiscal year, and up to December 31st, 1866, there has been paid off and cancelled $33,940 of the Scrip issued for the six per cent. Coupons, and $14,055 of that issued for the ten per cent., making a total reduction of the Scrip, issued for back interest, of $47,995; and, up to the same date, the Bonded Debt of the company had been increased $82,500 by the issue of that amount of seven per cent. Mortgage Bonds at par. $33,000 of the amount was issued for equipment and railroad iron.

The Connecting Railway Company have completed one track of their road from its intersection with the Philadelphia and Trenton Railroad to a point west of where it crosses the road of this company at grade; and a good connection has been made with the track of this company, the Connecting Railway Company having purchased the necessary ground for the purpose, and laid the track on the curve to where it joins the side track of this company, at their own expense.

The Lehigh Coal and Navigation Company are pushing their railroad towards completion, with great energy; when completed, this company will have another connction with the Lehigh and Susquehanna regions. The Lehigh Valley Railroad Company are also progressing rapidly with the extension of their road from Whitehaven to Wilkesbarre, as well as with the Susquehanna extension to the New York State line. The completion of the several railroads and extensions now in progress, with which this company will have direct connections, will afford additional facilities for trade and travel between Philadelphia and the great Iron and Coal regions of the Lehigh and Susquehanna, that must result in adding largely to the receipts of this company.

The subject of declaring a dividend out of the net profits of the Company for the last four years, was duly considered by the Board, and while they were unanimous in thinking that the financial condition of the company warranted them in declaring a dividend, they were also unanimous in opinion that it would be unwise to declare a dividend payable in cash. The subject was referred to the Committee on Finance, who submitted the following resolution, and recommended its adoption, to wit:

"That a dividend of five per cent. out of the net earnings, clear of taxes, be and is hereby declared in Scrip bearing no interest, and convertible into the seven per cent. Mortgage Bonds of the company, in sums of five hundred dollars, on and after May 1st, 1867, on presentation at the office of the company. The Scrip so issued shall be delivered on and after the 1st February."

At a full meeting of the Board, the resolution was unanimously adopted.

A comparison of the business of the past year, with that of the year preceding shows an increase in earnings of $23,263 92, with an increase in operating expenses of $57,002 38. The proportion of expenses to earnings has been 57.85 per cent. This is an increase of a little less than five per cent. over the proportion of the preceding year. More than half the increase in expenses during the year has been in maintaining and improving the track, which has been well kept up. The increase in the item of rails has been $14,854 81, and of ballasting and adjusting the track, $10,911 21. A beginning has been made in the use of steel rails and of improvement chairs. Nearly $12,000 have been expended in widening and arching at the Sellersville tunnel. The principal span of the bridge over the Perkiomin has been substantially rebuilt. An additional story has been added to the office portion of the Willow street depot, at a cost of $3,005 73. An additional shed for through freight has also been built at that depot, and some improvements, of moderate cost, have been made at way stations.

On the 1st of January, 1867, the passenger business and principal ticket office of the company were transferred from the Third street depot to the new depot built for that purpose at Berks and American streets. The latter is now the terminus of the road for passenger trains. The former is still used for the marketing and milk business. The milk carried in the year amounted to 1,781,078 gallons, being an increase in one year of nearly half a million of gallons. The car house portion of the new passenger depot is 290 feet long and 113 feet wide.

No new equipment was placed upon the road during the year; but, since its close one new first-class ten wheel freight engine has been delivered; also, two new first-class passenger cars and a mail and smoking car. Two more passenger cars have been ordered.

New sidings have been constructed at various points, to the extent in the aggregate of 4,836 feet.

The amount expended on construction in the fiscal year has been $78,855 52. The work done and materials furnished for private sidings during the same time amounted to $4,943 65, in addition to the above, to be repaid to the company by the parties for whose use they were constructed.

The company have 22 locomotives. The number of miles run has been: with passenger trains, 213,288; with freight trains, 132,300—total, 345,588. Cost of repairs, $30,903 85. Cost of fuel, $57,138 62. Cost of stores, $3,981 55. Average cost per mile: for passengers, 21.1 cents; for freight 33.3 cents. Number of passengers carried, 653,508; do., carried one mile, 11,518,899—equal to 313,311 through passengers. Tons of freight carried one mile, 13,526,020—an increase of 1,199,564 tons.

CONDENSED BALANCE SHEET, OCT. 31, 1866.

Capital stock	$3,150,150 00

President.—FRANKLIN A. COMLY.

Directors.—John Jordan, Jr., J. Gillingham Fell, S. Morris Waln, William C. Ludwig, Ellwood Shannon, Edward C. Knight, Alfred Hunt, William C. Kent, Charles W. Wharton, Edward Roberts.

Treasurer.—WILLIAM WISTER.

Secretary—EDWARD ARMSTRONG.

Engineer & Supt.—SOLOMON W. ROBERTS.

☞ The Costa Rica Government has concluded a contract with John C. Fremont, James W. Nye, and others, for the construction of a railroad from Simon Bay on the Atlantic to Caldera on the Pacific.

☞ A. J. Kauffman has been elected Treasurer, and Geo. S. Breneman Secretary of the Columbia and Port Deposit Railroad Company.

Consolidation of New Jersey Railroads.

The following is a copy of the Contract of Consolidation and Merger between the Delaware and Raritan Canal Company and the Camden and Amboy Railroad Co. of one part, and the New Jersey Railroad and Transportation Company of the other part:

This article of agreement made by and between the Delaware and Raritan Canal Co., and Camden and Amboy Railroad and Transportation Company, parties of the first part, and the New Jersey Railroad and Transportation Company, party of the second part,

Witnesseth, That the said parties have mutually agreed upon a consolidation and unity of interests in manner following, that is to say:

That the amount of stock of the parties hereto of the first part shall be ten millions of dollars, subject, however, to the installments yet to be paid in on two millions of dollars, or thereabouts, issued to the stockholders during the past year; and the stock of the parties hereto of the second part shall be six millions two hundred and fifty thousand dollars, subject to a call or assessment of sixty per cent on one million two hundred and fifty thousand dollars thereof, yet to be issued to the stockholders of the parties hereto of the second part.

That upon the stock, as thus far arranged, dollar for dollar, equal dividends shall forever hereafter be paid; the joint receipts, after the payment of the joint expenses and interest, being applicable to the payment of dividends on the joint stock, and the entire receipts of every kind and description of each of said parties to be deemed joint receipts, and the entire expenses of each of said parties to be deemed joint expenses; the said joint receipts are to include the said installments yet to be paid in on the stock of the parties of the first part, which are to be expended on the road and property of the parties of the first part; and, also, the said call or assessment, to be paid in on the stock of the parties of the second part yet to be issued, as aforesaid, which is to be expended on the road and property of the parties of the second part; and the entire property and assets of each of said parties, of every kind and description, whether standing in the corporate name, or names, or in the name, or names, of other persons, for their use, or the use of either of them, are to be held subject to the debts and liabilities, and possessed, used and employed for the joint use and benefit of the said consolidated interest.

That the agreement of the said parties hereto of the first part, and the Philadelphia and Trenton Railroad Company, and all other agreements and obligations now in force by or against either of the parties hereto, shall be binding on the consolidated companies composed of the parties hereto.

That the Directors of the said companies, parties hereto of the first and second parts, shall meet in joint Board, in the same manner as the Directors of the companies composing the parties hereto of the first part have heretofore done, and jointly transact, manage and conduct the business of the parties hereto, both of the first and second parts, at such time and in such manner as may be determined by the said joint Board.

That this agreement shall take effect as of the first day of January, in the year eighteen hundred and sixty-seven, and shall be subject to approval of the Board of Directors of each of the parties thereto, and of two-thirds in interest of the stockholders of each of said parties, and also subject to be ratified and made effective by the Legislature of New Jersey.

In witness whereof, the said parties have hereto caused their respective, corporative seals to be affixed, this first day of February, in the year of our Lord one thousand eight hundred and sixty-seven.

This is to Certify, That the foregoing agreement has been and is hereby adopted and agreed to by the undersigned Committees, respectively, of the parties thereto of the first and second parts, in said agreement named, duly authorized and appointed by the Directors of the said parties respectively to negotiate the same.

Ashbel Welch, Joseph P. Bradley, J. G. Stevens C. Macalester, John Hulme, E. S. Sanford, Committee of the Delaware and Raritan Canal and Camden and Amboy Railroad and Transportation Company.

Hamilton Fish, Martin A. Howell, I. W. Scudder, A. L. Dennis, Committee of the New Jersey Railroad and Transportation Company.

Dated New York, January 28, 1867.

Western (Mass.) Railroad.

The annual meeting of this corporation was held in Boston on the 15th inst. The Annual Report of the Directors, which had previously been distributed in print, was accepted. The following gentlemen were then unanimously elected directors for the ensuing year: Messrs. Chester W. Chapin, William H. Swift, Josiah Stickney, Ignatius Sargent and James D. Colt.

In reply to an inquiry respecting the prospect of the State taking the property of the stockholders of the Western Railroad, Mr. Chapin said he felt very strongly encouraged to believe that the State has no more legal right over the Western road than it has over any other road in the Commonwealth, and the stockholders in the Western road stand in the same relation to the State as the holders of stock in any other road do. His opinion, he said, is based upon the legal opinion of gentlemen of the highest legal attainments, and if the Legislature should pass a resolve to purchase the Western road without the consent of the present owners, the matter would have to go to the highest tribunal before the owners would part with their property, which is every year becoming more valuable to them.

Two or three other gentlemen expressed their concurrence in the statements made by Mr. Chapin, and the meeting dissolved.

A meeting of the stockholders of the Pittsfield and North Adams Railroad Corporation immediately followed that of the Western road, and Messrs. Chester W. Chapin, Ignatius Sargent, Josiah Stickney, James D. Colt and James A. Rumrill, were unanimously chosen Directors.

The First Trip to China and Japan.

A cable telegram received by the Pacific Mail Steamship Company, from Hong Kong via Galle Suez and London, reports the arrival of the Pacific Company's steamship Colorado at Yokohama, Japan, on the 23d, and Hong Kong on the 30th January, thus delivering the through mails from New York within fifty days, including detentions at San Francisco and Yokohama, and in spite of unusually heavy weather encountered between San Francisco and Japan. The usual time between this port and Hong Kong by the British overland mail via London and Suez is from fifty-six to sixty days, according to the season, (the shortest time ever made by that route under the best circumstances, with close connections and favorable weather), the entire distance being fifty-three days. Thus even by a comparison the least favorable to the new American route via San Francisco, the problem of the shortest time between New York and China is conclusively in its favor, and it is demonstrated that on the completion of the Pacific Railroad the best time between England and Eastern Asia will be across this continent.

The Management of Ohio Railroads.

Senators Bateman, Williamson and Hall were appointed at the last session of the State Legislature a Committee to investigate the management of Ohio Railroads in their relations with the public, for the purpose of ascertaining if any additional legislation was needed. During the summer they have been busy taking testimony, and have now reported at great length. The voluminousness of the report, prevents our making more than a few extracts. In opening, the Committee state that the work was so extensive and the time and means so limited that they could only obtain meagre information on the subject, "and yet it is quite ample enough, in their opinion, to show the urgent need of legislation to reform abuses, protect railroad property, and to preserve and maintain the rights of the public in its use." The first point discussed is that of local and through freight rates. Printed tariffs are used in both cases.

Yet until about six months ago, the tariffs of through rates especially, was, at best, a mere guide, habitually disregarded wherever the obtaining of business required it, and often a mere cheat as against competing lines of transportation, and observed only with the small, the liberal and the uninitiated shipper. The through rates, in fact, to a great extent varied with each shipment, their amount being determined by "dicker and bargain" between the road agent and the shipper, and depending upon the vigor of competition and shrewedness and persistency of the merchant. The departure from the established tariff is known among carriers as "cutting of rates," and has been carried to such an extent, that in through business, that upon which the charge is pro-rated among the connecting lines, the amount actually received for carriage for each road, as stated by some of the witnesses, scarcely paid in some cases, the cost of unloading the freight. The difference in charge upon local and upon through business for the same distance, is often startling and wholly without any just reason. Goods have been brought from New York to Cincinnati, a distance of nearly 900 miles by the more direct routes, for 25 cents per 100 pounds, less than the established local rate from Cincinnati to Columbus, about one-seventh of the distance. The *extent* of discrimination is not, perhaps, of very frequent occurrence, but it indicates a limit within which the difference between local and through rates has, with every degree of variation, been maintained.

The difference between the through and local tariffs, as printed, was not oppressive on the local shipper, but the injustice consisted in the fact that the printed tariff for through freight did not represent in any respect the actual rate charged. The causes of the unhealthy craving for through traffic is thus accounted for.

The local business of the different roads of the State is in a great measure under their exclusive control, but is in a majority of cases, at reasonable rates insufficient in amount to maintain them. With these roads a determined competition for through business becomes a necessity. With other roads having a large and perhaps sufficient local trade, a through trade at reasonable rates becomes a desirable accession to their business.

To these motives of interest in obtaining through business by the several roads, is to be added the convenience and ambition of railroad officers. The through trade, with its greater distance of carriage and larger bills, imposes less labor, and its wider movement and heavier capital confers greater distinction than the local trade. Out of these circumstances has sprung a competition that, regulated by no law, and restrained by no direct private interest, or personal obligations, in spite of freight conventions, and agreed tariffs among the several roads, have carried rates down at times, to a point that would make the through trade productive of continual loss.

But whilst the shipper of through freight reaps advantages from this rivalry, the local shipper suffers:

A railroad manager desiring to secure dividend to the stockholders, will be inclined to make up his losses on through business, that he cannot control, by additions to the local business that he can control. Though specific losses upon one class may not be made up by specific additions to the charges upon the other yet a general failure to make profits and divide dividends, must be followed by a general advance in rates, which in turn have heretofore been maintained as to local trade, and habitually disregarded in the through trade.

Security in the possession of local trade leads to indifference to its claims and interest, and on the other hand a precarious hold on the through trade produces, as to it, sensitiveness and constant concessions. In behalf of the one is enlisted the influence of heavy transactions, and the concentrated wealth of the large cities. The interests of the latter are feebly maintained by the farmer and the tradesman of small means, and the local public with its scattered capital, its business without organization and its transactions detailed and insignificant.

The danger, therefore, is that the local trade, dependent and unprotected, will be charged with burdens beyond what it ought to bear, and the through trade will secure concessions to which it is not entitled.

The Committee deprecate hasty or severe legislation against railroad investments, whatever may be done with regard to railroad management. The railroads have been of great benefit to the State in developing its resources, and the expectation of profit has been generally disappointed. The stock in most of the roads has either depreciated in value or wholly disappeared, and not one-fourth of the railroad investments in the State pay a dividend this year. It would therefore be unwise, in the present ignorance of railroad affairs, to legislate on rates of freight. The Committee, however, recommend the adoption and strict enforcement of the following general principles:

1. No railroad company should be permitted to charge more for a shorter distance than for a longer one.

2. Every company should be required to publish a tariff of rates, and strictly prohibited, under penalties, from allowing reductions from it to individual shippers, or classes of shippers.

3. Preferences in transportation, except such as are allowed to live stock, perishable freight and the like, and undue advantages of all kinds, whether to classes of freight or shippers, should be prohibited.

These principles are enforced by argument and by instances of abuse from the want of such regulations.

The vexed question of Express, Freight and Despatch lines is discussed at considerable length, and the history of some of the lines given, showing their great profitableness, and their injustice, both to the railroad stockholder and to the general public. The Committee says:

There are two classes of these outside organizations or freight lines in operation upon the roads in Ohio. One class issues their own bills of lading, and receives a per centage of the freight from the road that carriers it. Of this class is the Central Express Company, operating between New York and Chicago, over the Cleveland and Toledo road. That road allows them their lowest rate per hundred pounds, and agrees to forward their freight trains, promptly investigate and allow just claims, and allow to the company four per cent. of gross earnings on eastward bound, and six per cent. of westward bound freight.

This leaves the Express Company to make any advanced rate it may with the shipper, and the railroad has all the labor of transportation, paying a per centage for obtaining the business.

Of the same class is the Erie Transportation Company, operating over the Lake Shore, Cleveland, Columbus and Cincinnati, and Little Miami, and organized in connection with the New York and Erie Railroad. We have had but little opportunity to investigate into the operation and effect of these companies upon the interest and income of the road.

The second are far more numerous. They issue their own bills of lading, and in some cases receive and load, and unload and deliver their own freight, and in all cases adjust their losses. They generally pay to the roads so much per car at an estimated tonnage. This rate varies with the shippers. Of this class is the Merchants Despatch, owned by the American Express Company, and operating from the New York Central over the Lake Shore, Cleveland and Columbus, Columbus and Xenia, Little Miami, Cleveland and Toledo Railroads, &c., the Great Western Despatch, owned by the United States Express Company, and operating from the New York and Erie road over the Atlantic and Great Western, Cincinnati, Hamilton and Dayton, Cleveland and Toledo, &c., the Empire Transportation Company, operating from the Philadelphia and Erie road over the Lake Shore, Cleveland and Columbus roads, &c., the Star Union Line, operating from the Pennsylvania Railroad over the Pittsburgh and Fort Wayne Pittsburgh, Columbus and Cincinnati, Columbus and Indianapolis, Little Miami, &c., and the Great Eastern Despatch, organized upon and operating chiefly over the Cincinnati, Hamilton and Dayton, and Dayton and Michigan Railroads. The Great Eastern Despatch was the only one of these lines organized in this State, and having its principal office here, and therefore the only one whose organization, operation and profits we could fully examine. The Empire Line, so far as we have learned, and the Star Line, in its contract with the Pittsburgh, Fort Wayne and Chicago road, pay a rate per hundred pounds, formed by an estimated average of rates received from like freight in the general traffic of the roads.

The profitableness of some of these lines is shown by the statement that one company has made a steady dividend of one per cent. a month since it went into operation, with a surplus that has increased its assets to an amount probably exceeding the par value of its capital stock issued. One lot of stock, costing the owner but $7,100, has recently been assessed for taxation at $36,480. Another company, with an actual investment of but about $6,000, made in the first eighteen months of its operations, $130,000 profit.

One of the worst features of these Companies is that their stock has been to a greater or less extent owned by officers of the railroads over which they operate, and whilst the railroads frequently, are unproductive, the Freight Despatch Companies pay heavy dividends.

As an offset to this gloomy picture, the report says:

A long step, in the right direction, towards the relief of the railroads, has been made in the voluntary co-operative movement of roads forming lines of transportation, to organize their through freight business under one management for their sole benefit. Of this character is what are known as the White and Red Lines. The Red Line was established by the New York Central, the Lake Shore roads and Michigan Southern and Northern Indiana, to include also the Central Massachusetts roads, forming lines from Boston, New York and Albany to Chicago. The White Line was established by the same roads east of Cleveland, the Cleveland, Columbus and Cincinnati, Columbus and Xenia and Little Miami, and Bellefontaine Railway Companies, intending to embrace all connecting roads, east and west, that

desire to become a part of the organization forming through lines "between Boston and New York in the East, and Cincinnati, Louisville, Evansville and St. Louis, and such other cities in the east and west as deemed advisable, and all intermediate points." Each road furnishes its quota of compromise cars to the line, which has its superintendent and agents. It has to the public the unity of ordinary Freight Lines. It traces and locates losses and settles them at the point of delivery. After paying expenses, the balance of the common earnings is distributed among the roads according to the service each rendered in the common business, the through rates of the several roads being charged. This plan secures the advantage of a common agency in all the markets, under the immediate supervision of the roads, dispenses with irresponsible and expensive commission agencies, and relieves the roads from the burden of outside freight organizations. It substitutes co-operation among the roads for mutual opposition and injury, places rates upon a steadier footing, and above all, it places the whole trade of each road under a management in the same interest, and thereby secures the equality of the public in transportation. It accomplishes another most desirable result. It provides a distinct organization and management of the through business of each road, without depriving it of its profits. The through business, provided with its separate facilities, no longer conflicts with the conveniences of the local trade, and the officers and agents of the road, relieved in a great measure from care of the one, can devote so much the more attention to the accommodation of the other.

This plan may have abuses, and doubtless will have, in its details. These must be guarded against, in part no doubt, by legislation. They must be provided against as they appear. Nor do we intend to approve of any precise plan, but only the general principle of co-operation among the roads of the country, indicated in the Red and White line organizations.

The result, therefore, of our examinations has been, that outside freight organizations ought to be discouraged or prohibited by legislation.

That ample authority should be given to our own roads, to make all necessary co-operative contracts with each other, and with the roads and transportation lines of other States for the transaction of their common business.

With regard to safety of travel the Committee can submit nothing not already known to the public, but recommend some legislation on matters of detail.

The concluding portion of the Report we give as follows:

We have had occasion to observe, during the progress of our investigation, the difficulties a stockholder must meet in any attempt at examination into the affairs of his company. In the multitude of stockholders, scattered and strangers to to each other, co-operation is out of the question. There are but few men, alone, who have sufficient determination and courage to encounter the odds against them in such an inquiry, the influence of the officers, and the labyrinth of railroad transactions and accounts. He is accused of malice and meddling; generally without aid, any clerk or foreman may mislead him, and in the end he has to meet the exigencies of a future, though it may not show that he ought not to have succeeded. The majority of the roads in Ohio have been, financially failures, and yet how little is known beyond the abstract of the accounts in official reports. A portion of these roads have been for years in the hands of Receivers, some of whom, it is said, have delayed filing accounts for over a year, and in one or more cases for as long as three years. These Receivers are also in many cases, Presidents of the companies whose roads they have charge of. It is obvious that with the control of the corporation to which he must in fact account, and which is the representative of the stockholders in the suit in which he is acting as Receiver, the difficulties of examination to the stockholders is greatly augmented. Other roads have gone on to the stock boards in New York, their stock has become simply cards for its brokers to gamble with, leaving the roads without private interests represented in a form to protect the road from speculation of officers if the means even were afforded.

Owing, therefore, to the circumstances and condition of private interests in railroads, and the public use they support, it is not merely the right but the imperative duty of the State to intervene in their behalf, and afford to them full and adequate protection.

Your Committee, after a very careful consideration of the subject, have become convinced that the initial in, and the necessary foundation to a wise and efficient system of railroad legislation, is a State officer, charged with the duty of collecting the statistics and the experience of railroad management in the State; of observing its immediate wants and defects; of attending to the enforcement of the laws against them, and of examining into the abuses in railroad affairs with the view to protect the rights of the stockholders, and the rights and safety of the public. With limited powers at first, that they may be enlarged as experience may show to be safe, no embarrassment to the railroads, from improper interference with the management of their affairs, can exist, nor any supervision of them to which an honest railroad officer can object.

On the other hand, it will afford present relief to many abuses that ought to be abated at once; remove many complaints, upon full information that showed them unfounded; relieve officers from suspicion arising from circumstances not understood; and provide for an enforcement of the laws as to railroads, scarcely any of which are now fully observed, and many of them utter dead letters upon our statute books.

The business of managing railroads requires the same business judgment, and is governed by the same general business rules, that apply to other branches of business. There is, nevertheless, by reason of the circumstances heretofore mentioned, great ignorance as to railroad management, which becomes the occasion of every description of suspicions affecting its integrity and fairness, unjustly injuring the reputation of many honest officers, and destroying public favor and confidence in railroads. The appointment of the officer and the exercise of the powers above described, will greatly diminish or entirely remove this serious evil.

In pursuance of the principles explained in this report we have prepared two bills, one creating the office of Commissioners of Railways and Telegraphs, and one containing such general provisions of law in reference to the matters submitted to us, as they have deemed proper to recommend. We greatly regret that the result of our labors are necessarily so incomplete, as they must be, from the amount of time we were permitted to devote to its consideration. We have endeavored equally to avoid rash legislation, that the railroads might not be injured or embarrassed; and on the other hand, to fully protect stockholders and the public by such legislation as would be safe and effective.

Wilmington and Reading Railroad.

The stock of this proposed road has all been taken except $20,000. It was expected that Schuylkill County would take some stock in it, but our operators during the past season worked alone for the benefit of the transportation companies, and made nothing for themselves. Consequently, while their disposition is friendly they have nothing to give towards a road which will certainly be important to their Region, connecting us as it will, with all the Southern parts of Berks County, Conestoga Valley, the Eastern part of Lancaster county, all of the counties of Chester and Delaware, and with the whole of the State of Delaware, and those portions of the States of Maryland and Virginia, lying East of the Chesapeake Bay, comprising territory of 250 miles in length, and from 20 to 50 in width.—*Miner's Journal.*

Canada Iron Mining and Manufacturing Company.

The first annual meeting of this company was held in Montreal on the 5th inst., at which the report of the directors was presented and accepted. From this we learn that the company was organized on the 29th of May last, by the election of a board of directors. Operations were immediately commenced thereafter. Contracts were made for a steam engine and other machinery, and the building of the furnace and kilns was at once proceeded with. A road from the mines to the furnace, about two miles and a half, was laid out and commenced; the right of way having been obtained on almost nominal terms. This road is now graded and ditched, and ready for the metal in Spring.

The first smelting took place on the 15th of January, and the metal has continued to run satisfactorily, yielding about six tons *per diem* of pig iron, which has been pronounced first quality; and there is no reason to doubt that, after the seasoning of the furnace, and when full charges can be put in, the daily products will be increased to about ten tons. The quantity now ready for market is about fifty tons. Samples of the iron have been sent to the Paris Exhibition.

The number of shares issued has been 12,000, upon which $6 per share has been paid, amounting to $72,000. There is due on real estate, $10,789 10, and on bills payable and open accounts, $19,442 18. A call of $2 per share, amounting to $24,000 has been made, payable in this and the coming month, which, with the proceeds of the sales of iron which will soon be realized, will be sufficient to meet the expenditure for wages, fuel, etc., till May next, as well as provide for the bills payable, etc. The directors are as follows: John Redpath, Esq., President; David Brown, Esq., Vice President; Thomas Watson, Esq., Managing Director; R. James Reekie, Esq.; E. M. Hopkins, Esq.; John McLennan, Esq.; R. W. Shepherd, Esq.

☞ The Eastern Railroad Company are at work on their double track between Salem and Beverly, which will be completed by the first of July. The curves just east of Salem tunnel will be avoided by an entire new track running straight from the Court House near the bridge of the Essex road across to the other side of the pond of water, and for this purpose a new road bed is being built. The bridge between Salem and Beverly will be widened. The road bed is being got out of this solid ledge on the west side of the track, and when the rock on that side is sufficiently removed, the track will be prepared and the rails laid, and operations will be begun on the other side.

Interest and Dividends.

The Chicago and Alton Railroad Company has declared a dividend of five per cent. on the preferred and common stock, free of government tax, payable at the office of M. K. Jesup & Co., on the 4th of March.

The New London Northern Railroad Company has declared a semi-annual dividend of 4 per cent.

☞ The cash balance to the credit of the State of Virginia in the Richmond banks on the 7th inst. was $446,895 04.

☞ The Senate of New Jersey has passed the bill consolidating the Camden and Amboy and New Jersey railroads by a unanimous vote.
